#### PAY-AS-YOU-GO: 'The Child Is Born' "The child is born!"

THE HEDLEY INFORMER

With those words Senator Arthur Vandenberg emerged from a con-ference of legislators to announce approval of a pay-as-you-go income tax measure, which would wipe out all taxes of \$50 and under and forgive 75 per cent of the taxes re-maining for one year, and put all taxpayers on a current basis July 1.

Agreement on the measure, which now has to be passed by both houses and signed by the President, came after months of bickering over payas-you-go taxation. According to terms of the new measure, taxpayers would select the highest of their 1942 or 1943 income tax liability for figuring out their tax. Of the re-maining 25 per cent of the tax, they would clear up the arrears in two yearly payments, the first due in March, 1944, and the next in 1945.

To put taxpayers on a current basis, a 20 per cent tax on weekly wages would be applied after ordinary exemptions had been deducted. The 3 per cent victory tax would be included. The 20 per cent would cover the normal and first surtax. Any liability outstanding would then be settled later. Farmers would make quarterly tax payments on current earnings.

# LABOR:

Weary after hours of sandbagging the top of the mile long seawall Study Lewis' Move

Labor circles are still buzzing with excitement over John L. Lewis' application for the United Mine Workers' readmission into the American Federation of Labor, from which they bolted when Big John undertook the formation of the CIO about a decade ago.

Lewis' application has been put under the study of the AFL executive committee, which will report back on the proposal later this summer. Although the application is expected to be received with favor, it was pointed out that Lewis' District 50 of the Mine Workers also takes in a number of other different unions organized in fields where AFL units already exist. Also to be solved is where the AFL's Progressive Mine union will stand if Lewis' United Mine Workers are readmitted.

PEARL HARBOR:

**Final** Accounting

Last February, workmen clambered over the 27-year-old hull of the battleship Oklahoma, turned almost upside down by the Japanese in their attack on Pearl Harbor, in December, 1941.

The workmen tied cables to her framework. The ends were tied to winches set up on shore. Then the signal was given and the winches began pulling on the cables. After 69 hours, the steady tug gradually drew the Oklahoma from the depths, righting her.

Salvaging of the Oklahoma reduced the final loss at Pearl Harbor to three ships-the battleship Arizona and the destroyers Cassin and Downes.

Repair restored the battleships California, Nevada and West Virginia and the destroyer Shaw, which Presidents' Widows

Here is a bit of information which may surprise you. There are six wives of former Presi-dents living today. Moreover, they are doing their bit in the war effort by helping out in the sale of war stamps and bonds.

Oldest of the former Presidents' wives is Mrs. Benjamin Harrison, who is 84. The other five are Mrs. Herbert Hoover, Mrs. Thomas Preston, formerly Mrs. Grover Cleveland, Mrs. Woodrow Wilson, Mrs. Theodore Roosevelt, Mrs. Calvin Coolidge.

Pound Axis Europe Allied bombers struck at both ends of Europe, with Axis industries and defenses standing out as the targets. Hit hardest by the raids was the metal, coal and communication cen-

ter of Dortmund in northwestern Germany. More than 2,000 tons of high explosives fell on the city, with curling palls of smoke rising from raging fires often obscuring visibility

Thirty-eight of the bombers failed to return from the attack, which brought to 100,000 tons the amount of explosives dropped by the RAF over Germany since the start of the war.

While the Allies were busy in the north, their squadrons were equally active in the Mediterranean area, where American and British bombers continued to plaster important enemy outposts of the Italian mainland.

Airdromes, harbors and shipping installations were pounded on the islands of Pantelleria, Sardinia and Sicily. The ferry linking Sicily with Italy was blasted, with the enemy admitting heavy damage.

### COAL TRUCE:

### **Bargain** Collectively

The United Mine Workers and the coal operators resumed collective bargaining even as the War Labor board denied John L. Lewis' demands for a \$2 a day wage increase. However, the WLB, which must approve any agreement, recommended that the disputants come to terms on the question of paying miners for the time spent in traveling to and from the mine faces.

Also, the WLB indicated it favored the six-day week for the miners, with wage concessions for the extra It ordered the vacation payday. ment boosted from \$20 to \$50. All told, these payments would represent an 8 to 15 cents a day wage increase.

tiss Brown.

HIGHLIGHTS . . . in the week's news

FOOD NOW: Russia is in need of greater shipments of food for its aerial forces operating over wide areas, U-boat efficiency has been im-

from the producer to the consumer at fair and stable prices. Law recommended building buffer stocks which would be increased when supply outran demand, and drawn upon when output dropped.

Law hit the system of regulating agricultural trade by allotting importers specific quotas, say on wheat, etc. Instead, he advocated the creation of an authority that would be representative of the consumer as well as the producer.

Law's statement was followed by a suggestion of the American delegation that resettlement of millions of people may be necessary to promote adequate food production. The delegation said that only one-fifth of

the world's population lived in those areas in the temperate zone in which food is produced by highly developed technology.

#### COMINTERN:

Suspend' Revolution

Stating the war had made it impossible to co-ordinate its activity, the Communist party's organization for promoting world revolution known as the Comintern formally dissolved itself.

The action met with mixed emotion in Allied circles. While some interpreted the move as a step toward closer relations between Russia and the United Nations, others pointed out that in the U.S. the Communists had formally detached themselves from the Comintern in 1940, but maintained activity along the party line nonetheless.

Although the Comintern stressed that chief consideration for the dissolution lay in its inability to maintain communication with its various branches, it also declared that it had recognized that national Communist groups were in better position to frame and work out policies on the scene, than in some distant center.

summer than last year.

#### had been struck and heavily dam aged. **RUBBER STRIKE:**

# Higher Pay Demanded

Fifteen thousand employees of the Goodyear Tire and Rubber company oined 30,000 other workers from the Firestone Tire and Rubber company and the B. F. Goodrich company in a strike protesting the War Labor board's refusal to grant a requested eight cent per hour wage increase. It allowed a three cent boost.

The strike paralyzed production in the country's three major rubber plants. Although Sherman H. Dalrymple as international president of the CIO united rubber workers expressed public disapproval of the stoppages, strong detachments of pickets prevented the return of employees to the factories.

Dalrymple hastened to Washing-ton to confer with the WLB, while an official of the war department roundly condemned the stoppage as a violation of the union's no-strike pledge. In declining to grant an eight cent increase, the WLB said such an action would unstabilize pay levels throughout the industry.

POLL TAX:

Good Show

Amid the gymnastics of a gallery spectator, the house passed the anti-poll tax bill, 265 to 110. The bill abolishes the poll tax as a condition of voting in primaries or other elections for national officers.

A 21-year-old sailor from San Francisco provided the acrobatics at the session, standing on the gallery rail and hanging onto a pillar while shouting for passage of the bill.

In opposing the measure, Rep. Hatton Sumners of Texas said: "There is some expense to democracy. The individual who is unwill-ing to pay \$1.50 or \$2 isn't a good citizen of this democracy."

# DRESSES:

### WPB Cuts Frills

As part of the effort to make more garments from limited material, the War Production board imposed new controls on women's garments.

Trimming allowance for dresses is restricted. Hip measurements have been cut to 56 inches and sleeve lengths to 30 inches on the basic untrimmed dress. Skirt sweeps are reduced six inches to 72 inches. The limits are for size with propor-'ionate variation sizes.

nationality ever to be admitted.

repeating after him the oath:

for Serbia, by the help of God."

own. It is given to Serbia."

So it was that I found myself one

Since I was to do intelligence work, my joining was to be kept secret at that time. Many of the leading men of Serbia-politicians, judges, professors - are Chetniks, their membership a dead secret. I was given the customary poison, which I sewed in the collar of my coat, where it could be chewed if my hands were bound.

#### Serbs Were Stunned.

Soon after I became a Chetnik, events in the Balkans moved to a swift climax. Bulgaria joined the Nazis, and on the morning of March 25 the news was flashed: "Jugo-slavia has signed the Axis pact." The Serbs were stunned at the incredible sell-out of their government. In Belgrade there was a death-like calm for two days. No Serb showed his face on the streets, but behind closed doors a momentous determination was gathering.

It broke on March 27. On that fateful day, for the first time a small nation of Europe declared war on Germany before it was itself at-tacked. Little Serbia had decided to battle the monster. And from that day onward, and because of that decision, everything went wrong for Germany.

It was the Serbs, whom Germany expected to brush off like a trouble some mosquito, who spoiled her aim destroyed her timing. I believe their courageous action saved the British empire and - yes - America, from slavery to Europe, as once before, in 1389, the Serbs' heroic stand saved Europe from slavery to Asia.

The Nazis had intended to attack Russia in March-my information told me March 16. Hitler had expected to have Jugoslavia in hand and thoroughly "co-ordinated" by then. Instead, he had to fight.

He had to detach an army intended for Russia and send it down into the Balkans to secure his rear-an army of not less than half a million troops. It took him three months to do what he had expected would be done by routine penetration and terrorization, in no time at all.

There can be no question that if Germany had had those three spring months in which to concentrate her full force on Russia, she would have taken Moscow and that life stream of the Soviet, the Volga, and Russia would have been out of the war---serious situation for the Allies.

SEW UFFED SEAT IN PLACE SLIN OVER COTT CUT I'SHORTER

MANY a bride today is doing 1 her furniture shopping in sec ond hand stores where she finds a choice selection of the over-elaborate discards. These are not antiques and it takes a discerning eye to see any possibilities of beauty in them. The trick is in figuring out good proportions and modern comfort. Chintz covers will hide padding over woodwork and carving. Legs may be cut off to give a low seat and if the back legs are cut a little shorter than the front, the backs of chairs and settees are given a

and insert the caster before it is Use a potato ricer to squeeze out set.

ROUND

Till recently Dick Stark, announcer on "Abie's Irish Rose," would fight anybody who called him "Babyface." Now he's changed his tune-Paramount likes that baby face, and has signed him to replace Alan Ladd in gangster roles lined up for Ladd before he joined the army.

When a quizmaster makes a mistake listeners burn up the wires telling him so. On a recent "Take a Card" program Wally Butterworth said that hot dogs are made of pork; he's been snowed under by wires, letters and phone calls telling him an assortment of meats is used.

Brian Donlevy lost half his mustache during the final day's shooting for "America" at a steel plant; imitated the workers in throwing his arms across his face after flipping a shovelful of ferro-manganese into a furnace, but took his arm down too soon.

Paulette Goddard predicts that Sonny Tufts, who appears opposite her in "So Proudly We Hail," will become a big star. A year ago he was trying to get extra parts on the air, but radio producers wouldn't listen. Recently she told Charles Mar-tin of the CBS Playhouse that she'd bet him a pound of steak he'd be offering Sonny \$1,500 an appearance after the picture's released.

Both radio and movies took a hand in the build-up of Jack Carson. Pro-ducer Vick Knight announced his engagement as star of an air series; then Mark Hellinger said he'd get star billing in "The Widow Wouldn't Weep," first meant for Jack Benny.

ODDS 'AND ENDS - Martha Raye dropped in on the "Let's Face It" set to tell Bob Hope what he'd bater take along on his overseas trip . . . She hopes to go back herself soon . . . Jack Benny's been sigued to star in "The Horn Blows at Midnight," the scenes of which are laid in Heaven and New York ... . They've changed the title of "The Pentaele" to "Conflict," much easier to understand-but "Five Graves to Cairo" is still a puzzler since it Graves to Cairo" is still a puzzler, since it Graves to Cairo 'is still a putter, since it doesn't mean what it seems to . . . Stage 29 on the Metro lot, where Gregory Ratoff is directing "Russia," has been christened "Ratoffgrad".

1844. Three years later the Admiralty decided to cancel the work altogether, but they soon changed their minds, and 1857 saw the ship afloat at last.

The Osage Indian tribe has the last laugh on the white man. During the 19th century, the Osage were forced and "bargained" out of Arkansas, Missouri, and Kansas, retaining only the rocky hills of northern Oklahoma out of their once great domain.

Then came oil, black gold gush ing from the Osage hills. Once worth 70 cents an acre, this land has since produced 273 million dollars in gas and oil-more than \$120,000 in cash revenue for each Osage Indian.

# "By pushing a button, She's good as a MAN!"

INVEST IN AMERICA... Buy War Bonds and Stamps!

1.10 101.

She: And what do you mean, Reddy Kilowatt—"Good as a man"?

Reddy: No offense, lådy! Just this: 5 feet 1 from your 4A slippers to your spun-gold hair. You love fower-hats, veils, smooth orchestras --and, maybe, being kissed by a boy now in North Africa. But, man, ok man, how you can handle that big and heavy press!

She: What's strange about that?

Reddy: How can 110 pounds of beauty boss 147,000 pounds of steel? Is it magic?

She: Oh, no, dummy! It's simple. Electricity does the heavy work. Push a button... or flick a switch ... or pull a lever. I learned to do *that* at home... long before the war. Electricity makes it possible for women to do men's work—

Reddy: Then the secret of our great war production is *electric* power plus *woman*-power---

She: Certainly. Women are able to work beside men, or replace them, on America's roaring produc-

tion lines because they learned to use electric service in the home. Call it *magic* if you like. But to me it's just good old common horse-sense! 000

The West Texas Utilities is helping make America power-fall... helping provide this country with the world's greatest supply of electric power... power that enables women to do a man's work just as it has eliminated household drudgery and hard labor from the average West Texas home.

And more and more women are helping us give you the same good, dependable service you got before the war... and at the same low cost and without rationing.

Sinty-seven per cent more women were on our payrell June 1 than in 1940. The continued efficiency and dependability of Electric Service is in no small measure a tribute to woman-power.
