## W. M. Tipton Killed

Hedley citizens were shocked and grieved Monday to learn of the death of W. M. (Bill) Tipton, who was killed when his tractor overturned and pinned him beneath it.

## News To Publish Informer

Due to the fact that our young son is an asthma sufferer, the Informer family is forced to go to another climate for a time. Beginning next week, the Informer will be issued for the present by the Clarendon News. It will continue to be Hedley's home town paper, and news and advertising will be gathered by some local person, but the News is equipped to issue a much better looking paper than the present one.

Please bring in your news early to this office next week. A notice will appear in next week's issue stating who will collect news and ads in the future.

## Rodeo at Clarendon July 3rd

Clarendon will have its annual 4th of July Donley County's Rancho Rodeo, Saturday, July 3. No other form of celebration for the 4th will be held this year.

The afternoon performance will begin at 2:30 o'clock and the evening show is set for 9 o'clock.

Profits from the rodeo will be divided with the Red Cross, the USO and Navy relief. Bonds will be purchased with surplus money in the treasury.

## Revival

There will be a revival at McKnight from Sunday, Aug. 1, to Aug. 8. Lee Hukel of Stamford will preach and everyone is invited to attend.

Lt. Jerry Hunt, instructor at Lemore Flying School, Lemore, Calif. visited his father Jay Hunt last week end. Also visitors in the Hunt home were Mrs. A. A. Nipper and Mrs. John Aull and children of Lubbock, Mr. and Mrs. Paul Hunt of Ranger and Mrs. Myrtle Huffman of Brokenridge. The party accompanied Jerry to Amarillo Air Base Saturday afternoon where he left by plane for Calif.

Billy Bridges has been stationed at San Diego, Calif., for Navy training.

## American Legion News

The Adams Lane Post of the American Legion now has 40 members, the largest membership in several years. All World War II eligibles in this community are members of the post and all World War I veterans with the exception of four are members of the post. They have a drive on now to get these members in July 4th. The Hedley Post won statewide recognition in 1942 by signing up 100% of the eligibles in this trade territory.

The second records for fighting men drive will begin July 3rd. The local post received a citation from the National Commander in the last drive for exceeding their quota of records, and it is hoped that they will again do so. In fact, the Hedley community has never failed to reach its quota in Bond drive, Red Cross or any other war activity. If you have any old Victrola, Edison or other records leave them with J. S. or Orville Doherty and they will soon be made into new records for our boys in service.

Hail insurance on growing crops is now reduced one third. You can insure cotton against hail now for \$9.10 per \$100 on the note plan.

## Erroneous Ideas About School Taxes and Bonds

It is a common idea that if a district or town or county is much in debt that is in a bad condition. That might be true. It might be as untrue as anything. At one time New York City owed more than the national government. But such men as De Witt Clinton and many of his successors built New York and New York City on indebtedness. And now there isn't a square foot of Manhattan that can be bought for twenty five dollars, the price the Dutch paid for the whole island. It isn't what a district owes it is what property it has to produce taxes that really matters.

People are afraid of Hedley District or of the ups with it because it is in debt. Hedley district could owe 100 thousand dollars and still be in better shape than most districts. If you take away from Hedley the railroads, utilities, warehouses, gas, electric companies, etc., then she would indeed be in poor plight. But Hedley doesn't owe near that amount. When the war is over these districts with good school plants will perhaps get the cream even though in debt. The state may take much debt over.

If you will take the time, not just someone's word, and check up on the relative amounts of taxes different people with similar amounts of property now pay you will find that the taxes in Hedley are but very little higher, if any, than in these districts surrounding her. Why is that?

The answer is that her property valuations enable her to produce, the amount of it, not the high valuations, and make Hedley rank favorably with any district in Donley County. So let these in the Hedley District and near her realize that Hedley District is not bankrupt at all.

Mrs. Ralph Andis, Bill Andis and Beal Smith of Clarendon visited Mrs. Harry Womack Monday.

WEEKLY NEWS ANALYSIS

Allies' Italo-Balkan Moves Factor In Baffling Axis on Invasion Plans; U. S. Moves to Solve Corn Shortage; Russ War Stepped Up on Orel Sector

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

MEDITERRANEAN:

Balkan Powder Keg

The summary closing and opening of the Turko-Syrian frontier within a 48-hour span by the Allied command had presaged new and important military moves, as the Mediterranean area from Italy to the Balkans had tensed for oncoming action.

Increasing evidence that the Axis' much-vaunted Balkan bastion might be a powder keg instead came in the form of reports from Ankara that Rumania had sounded out the Allies on armistice terms. From Ankara, too, came steadily mounting proof of Turkey's closer friendship with the United Nations. The appointment of Brig. Gen. Richard G. Tindell as American military attaché in Ankara and the dispatch of a contingent of Turkish fliers to America for special training were significant steps in this direction.

Reports from Axis sources had reflected increasing official bafflement over the Allies' next moves. After telling its listeners of "many landing craft concentrating from African coasts toward Pantelleria and the massing of a million troops for an Italian invasion," the Rome radio had broadcast a report that "large British forces were concentrating along the southern frontier of Turkey."

Observers for months had known that large numbers of Allied troops had been training in Syria. Lying in the eastern corner of the Mediterranean, Syria offered an effective base for operations against Crete, the Italian-held Dodecanese islands, Greece proper or other Axis points in the Balkans.

BUREAUCRATS:

Congress Compliments

The much-criticized home front government bureaus were given a friendly pat on the back and a virtual clean bill of health when the house appropriations committee approved appropriations of \$2,939,441,504 for 18 civilian war agencies, including the Office of Price Administration and the Office of War Information.

In making public its highly complimentary report on the work of these agencies, the committee admitted that mistakes had been made and will be made, but denounced those who criticize "without knowledge of the tremendous burdens thrown on agency heads and of the great strides made in putting the United States on a war footing."

"The type of criticism that serves only to create public distrust in the agencies is not helpful to the war effort," the committee's report said.

OIL PACT:

Navy Cancels Deal

The tempers over the navy department's contract with the Standard Oil Company of California for operation of the Elk Hills naval oil reserve subsided when Secretary Frank Knox announced cancellation of the agreement.

The decision to cancel followed a legal ruling by the department of justice that the proposed arrangement exceeded the authority granted by law, a navy announcement said. Norman H. Littell, assistant attorney general, testifying before the house public lands committee, said that a department report sent to the White House had concluded that the navy's agreement with the oil company was "illegal and invalid."

Colonel Knox declared that his own investigation of the agreement established that "no improprieties had been employed by either party to the negotiations."

CORN:

'42 Loans Called

First steps in a program to solve the increasingly serious corn supply situation came when the government formally called loans on 47,000,000 bushels of 1942 crop corn effective July 15. The government had previously used deliveries of grain through liquidation of 1938-41 loans to restore the operations of two closed-down processing plants. The corn loan move was described as "only an immediate palliative, not the final answer to the problem," and it was stated that efforts to find a solution would continue.

The government's action came as the War Food administration and Commodity Credit corporation received a request from the Corn Industries Research foundation for either complete lifting of federal price ceilings on grain or the imposition of ceilings on hogs. Meanwhile J. B. Hutson, director of the Commodity Credit corporation, said that 25 million bushels of privately owned corn in grain elevators would be seized for plants manufacturing by-products for war uses, unless "crops can be moved off farms."

RUSSIA:

Orel to Forefront

A stepping-up of land activities was reported on the Russian front, with especially heavy fighting reported in the Orel sector. Here, Russian troops defending a strategic newly won bridgehead were reported to have beaten off eight German counter-attacks.

It was reported that strong formations of Soviet planes had broken up German formations supporting Nazi tank and infantry units. The Germans, however, were reported bringing up reinforcements in an effort to forestall the possibility of Russian flanking movements against Orel, strategic Nazi-held base midway between Moscow and Kharkov. Heaviest fighting was reported in the vicinity of Mtsensk, 30 miles northeast of Orel.

Russian air forces continued their efforts to disrupt Nazi supply concentrations by striking at four railroad junctions over which German supplies and reinforcements must move for the Bryansk-Orel-Smolensk area. The junctions were Roslavl, Unecha, Vladislavka and Novozybkov.

PACIFIC:

13-to-1 Record

With all indications pointing toward major sea and land engagements looming in the Pacific, air activities still held the center of the war stage in this theater.

Most dramatic of all engagements was that fought out over the Solomons when American planes shot down 77 Jap aircraft over Guadalcanal while losing only six of their own. This 13-to-1 score turned in by American combat fliers in the Solomons who have heretofore included army, navy and marine pilots was regarded as the best ever recorded in a single air action anywhere.

But Allied planes were not idle elsewhere. Liberator bombers made their second heaviest raid of the war on Jap-held Kendari, on Celebes island, 850 miles northwest of Darwin, Australia, damaging airbases and destroying planes parked on the ground.

In China, a military spokesman for Generalissimo Chiang Kai-shek charged that the Japanese again were employing poison gas in their operations in Suiyan province. Meanwhile Chiang's forces claimed new successes, including the recapture of strategic towns south of the Yangtze river.

HIGHLIGHTS . . . in the week's news

SHIRTS: New York laundries indicated that the dirty shirt may become fashionable there when they announced they would not accept more than 5 shirts per family a week.

BATTLE COST: The conquest of Pantelleria cost the United Nations only 40 airmen, Maj. Gen. George E. Stratemyer, chief of the U. S. air staff, reported.

TRANS-OCEAN: Munitions Minister C. D. Howe announced that a Canadian transatlantic air service will soon be started, carrying mail and official passengers overseas.

AMITY: Argentina desires to draw close to "the great republic of the United States" in every way possible, Gen. Edelmiro J. Farrell, war minister, declared.

TAXES:

50 Billion Goal

Secretary Henry Morgenthau disclosed that the treasury would trim its request to congress for more new taxes down to \$12,000,000,000 instead of the \$16,000,000,000 originally planned. Nevertheless, this would be enough to raise the public's overall tax bill during the 1944 fiscal year to \$50,000,000,000.

Declaring that the Treasury's goal was to pay half the annual war costs "as we go," Mr. Morgenthau estimated that this goal is \$4,000,000,000 less than President Roosevelt's January budget objective.

Treasury recommendations for raising the additional revenues were slated for submission to congress before its proposed summer recess.

RATIONING:

Eight New Plans

Louis J. Kroeger, OPA rationing official, disclosed that eight new rationing programs are being prepared by the Office of Price Administration and may be instituted within the next year.

Mr. Kroeger told a house appropriations committee that two of the rationing plans will be placed in force immediately, but that six others, including coal rationing, are contingent on directives from other government agencies. The two programs definitely scheduled cover cooking and heating stoves, and a new system of allotting foods to all types of institutional users, including hotels and restaurants, which will not affect consumers directly.

Except for coal, the other prospective rationed items were not listed, but Kroeger said they included goods for which the government officials see a definite possibility of shortages in the next fiscal year. Eggs, milk and other foods have been mentioned recently by government food experts as possible candidates for rationing.

RUSS-POLES:

Postwar Assurances

Assurances of Soviet aid in restoring a strong and independent Poland after the war were given by Premier Josef Stalin of Russia.

Stalin's promise was contained in a message sent to the first Congress of Polish patriots in Russia who told him that "we will not allow persons who strive to drive a wedge between the Polish people and the Soviet union to trouble the water."

Observers noted that the Polish government-in-exile had no part in the exchange of amenities between the two peoples. Russia recently broke off diplomatic relations with General Sikorski's group in London, because of charges by the Poles of Russ executions of Polish army officers and counter-charges by the Soviets of pro-Axis espionage by the Poles.

EUROPE:

Air Blitz Continues

Even as English King George V was inspecting the Allied armed forces in North Africa, air forces of the United Nations were preparing for the war's next decisive move by softening up forays against Axis positions from western Europe to the Eastern Mediterranean.

In a single six-day offensive, British and American bombers hammered destruction on nine different major German cities. These included Cologne, Dusseldorf, Munster, Wilhelmshaven, Cuxhaven, Bremen, Bochum, Kiel and Oberhausen. Heaviest assault was reserved for Cologne, industrial capital of the Rhineland and the third largest city in the Reich.

In the Mediterranean, American and British bomber fleets swarmed over Sicily, attacking five major Italian air bases and maintaining a day-and-night marathon of disaster to the Axis. The Allied fliers attacking Sicily reported tough fighter opposition and strong anti-aircraft fire, contrasting sharply with the lack of Axis opposition over Pantelleria.

PAYROLLERS:

300,000 Cut Urged

Charging that the government payroll has more than tripled since the First World War and that the government could get along with 300,000 fewer employees, a joint congressional committee on reduction of nonessential federal expenditures recommended that the Civil Service commission act to eliminate unnecessary personnel.

"Wasteful personnel practices," a committee report said, should be prevented by a complete reorganization of personnel servicing and management functioning.

The beneficial effects of a merit system during the past two years, the committee charged, "have been impaired and federal funds have been wasted through the negligent attitude of personnel officers and operation officials."

WAR GOODS:

Allies Double Axis

How United Nations' war production is forging fast ahead of the Axis was told by WPB Chairman Donald Nelson.

The United Nations, he informed a house appropriations committee, are now producing \$125,000,000,000 worth of arms and war supplies a year—almost double the Axis rate of \$65,000,000,000. He said that American military production will reach a peak rate of \$90,000,000,000 a year in 1944.

5 Ocean Navy

When Pearl Harbor burst upon us our great expanse of territory was protected by a one ocean navy of about 350 first line ships with an addition of an approximate number building.

Now we are in a five ocean war and we are required not only to pay for the building of enough ships of the line but also for hundreds of Liberty ships and auxiliary craft. The amount of money you invested in War Bonds when we had a one ocean navy was all right then, it isn't enough now. Buy more and more War Bonds.

What Does It Mean to You—

# The Constitution of the United States?

"We, the people of the United States..."

One hundred fifty-six years ago, these simple words began America's warranty of freedom.

Today we are deep in war—so that this warranty may endure. Should we win—and win we must—whom will it profit?

Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.

Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.

Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.

Do you talk with your neighbors on

the street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.

Our Constitution assures us these things. And these we fight for.

In many ways we fight. Some in small, silent ways—when sons have gone. Some in large, heroic ways—in the roaring of wings, the firing of guns, the sailing of ships. Farmers fight in their fields; ministers from the pulpit's height. Others are making the weapons of war... and some are supplying the power with which to run the machines.

We are proud to be among the men and women of industry, fighting, too.

And we join with the freedom-loving people of West Texas in asking that Washington's bureaucrats forego their political activities for the duration and concentrate on the fight... and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.

STAGE SCREEN RADIO  
By VIRGINIA VALE  
Released by Western Newspaper Union.

DEANNA DURBIN has succeeded in convincing Hollywood executives, as well as the public, that she's grown up, thanks to radio. She was chosen to play the unhappy, psycho-pathological role created by Teresa Wright in "Shadow of a Doubt" for the Screen Guild Players' air version over CBS. Not

DEANNA DURBIN

only did Deanna come through with flying colors, but the radio program opened an entirely new vista of film and air endeavor for her, one that is completely removed from her singing.

It's not surprising that William Holden wanted to drop his own name—William Franklin Beedle—and legally switch to Holden. But when his wife, Brenda Marshall, has worked so hard and successfully to introduce that one, it's startling to have her announce that she's never liked it, and from now on will be known by her maiden and married names—Ardis Ankerson Holden.

Casting for "Hi Diddle Diddle" sounds a little goofy. Marek Windheim, former Metropolitan Opera tenor, will play a pianist-accompanist for Pola Negri, who makes her motion picture comeback as an opera singer. Seems he was chosen because he, like Miss Negri, is of Polish descent and artistic temperament. Richard Hageman, Metropolitan Opera conductor, plays a stockbroker.

Shirley Temple talked things over with David O. Selznick, and very wisely signed a long term contract with him. She'll appear in "Since You Went Away," his first production since "Rebecca," with an all-star cast.

Some people say that Hollywood had better lay off war pictures because the public's sick of them. Well, the armed forces aren't, judging by the men who come to New York's Civilian Defense Entertainment committee for free tickets. The other night I handed out passes to "Crash Dive" and "China" by the dozen. Of course, "China" had Harry James and his band to back it up.

Bill Terry, who made his film debut in the short, "Private Smith of the U. S. A.," and will soon be seen in its continuation, "Lieutenant Smith," has been signed up by Sol Lesser for a role in "Stage Door Canteen."

Two men of the merchant marine visited Jimmy Dorsey a while back and gave him the "Gibraltar Medal" one of them was wearing. Afloat 36 days after their freighter was torpedoed, all they had to keep their morale up were his recordings of "Maria Elena" and "The Breeze and I." When they used up their needles they fell back on matches and paper clips.

Newest screen actor to branch out into radio as a regular performer is Jack Carson, last seen in Warner Bros. "The Hard Way." He's winning new fame as a comedian as master of ceremonies of the CBS "Comedy Caravan," heard Friday evenings.

Even Ellery Queen, ace detective, failed to notice a wedding ring on the left hand of Ernest Chappell, his program announcer; it was a week before he learned that Chappell had married Claudia Morgan, daughter of Ralph, niece of Frank, "Nora Charles" of "The Thin Man" on the air and leading actress on "The Right to Happiness" and "We Love and Learn."

ODDS AND ENDS—Kate Smith's gaining a reputation for having launched more fighting and merchant ships than anyone else in the U. S. A.—the recently launched her sixth... Jerry Wayne, singing star of "All Time Hi Parade," acted in minor roles in pictures before turning to radio... Rosalind Russell named the Carl Lance Brisson... **So Feminine.**  
EVERYTHING'S there—a young two-piece with simple moulded lines, feminine frilly trimming and expensive looking details.

Barbara Bell Pattern No. 1782-B, designed for sizes 10, 12, 14, 16, 18 and 20. Corresponding bust measurements 28, 30, 32, 34, 36 and 38. Size 12 (30) requires, with short sleeves, 3 1/4 yards 36-inch material. 3/4 yard contrast for collar. 1 1/4 yards machine made ruffling.

**Gas for Flying Fortress**  
A fully loaded Flying Fortress uses as much gasoline in an hour as Mr. and Mrs. America's auto does in six months.

### SNAPPY FACTS ABOUT RUBBER

Considering cost of oil, gas, tires and spokes, it is estimated that the cost of driving the average car for 1000 miles at 45 miles per hour is \$22.03. At 25 mph the cost is cut to \$14.38 and at 35 mph it is held to \$17.88.

Malaya and the Netherlands Indies were the only sources of natural rubber in the world which had been successfully exploited to an important extent prior to the present war.

Rubber and gas rationing did not drastically cut motor truck operations last year. Official figures show that during 1942 trucks hauled an estimated 46 billion ton miles of freight on main rural highways, compared with 48.7 billion in the more normal 1940.

**Spring Posies.**  
HOW colorful, young and becoming is this princess dress with brilliant, wool-embroidered posies blooming at neck and hem line.

Barbara Bell Pattern No. 1770-B is designed for sizes 10, 12, 14, 16, 18 and 20. Corresponding bust measurements 28, 30, 32, 34, 36 and 38. ### Fish Hooks on Liferats

Fishing kits containing dehydrated pork rinds, a knife that will float, hooks and rigs, a dip net, cotton gloves and instructions printed on waterproof paper, are now part of the equipment of lifeboats and rafts.

## Household Hints

Unightly scratches on dark-colored furniture may be covered by wrapping a swab of cotton on a toothpick and dipping in iodine. Apply to the scratches and when dry rub with furniture polish.

When soil in which house plants are potted becomes more like clay than loam it may be lightened by adding sand to it. Plants grow best in this kind of soil.

After you have removed old wallpaper, wash the walls with warm water to remove the old paste. Rinse slightly and let the walls dry perfectly before putting on the new paper. This extra work pays.

Do not throw away used wax jelly tumbler covers. Wash in cold water and dry them and place in an empty tin can. When the can is filled, they should be melted together to form a cake and covered. Thus, they will be kept fresh and as good as ever for next season's jars.

Ground or chopped meat needs much colder storage and keeps a shorter time than other meat.

Use a toothbrush for polishing silverware. It is especially good for the fork tines and engraved handles.

To tightly fasten corks in bottles, boil the corks for five minutes to soften them and then, while hot press them into the bottles. When cool the seal will be perfect.

A small window may be made to look larger by setting the curtain rods beyond the casing on each side and using draperies of a material heavy enough so that casings will not be seen through material.

Rinse in cold water or wipe off with a damp cloth all your meats, vegetables and fruits, as soon as possible after they are delivered. Canned goods and bottles of milk should be wiped off before they are stored in the refrigerator or cupboard.

What is the most welcome gift you can send to a man in the service? Well, surveys among service men themselves show that one of the favorite packages from home are cigarettes. And first choice among men in all the services is Camel, based on the actual sales records in Post Exchanges and Canteens. Though there are now Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to Sailors, Marines, and Coast Guardsmen wherever they are.—Adv.

In addition to serving Kellogg's Corn Flakes as "breakfast" use them to extend your meat. In meat loaves, sandwiches, patties, casseroles, stuffings, casserole dishes, patties, omelets, etc., use them with meat flavors.

STAGE-SCREEN-RADIO  
By VIRGINIA VALE  
Released by Western Newspaper Union.

A LARGE detail of American soldiers stationed now at Accra, on the Gold Coast of West Africa, sat through a driving rainfall to see one of the "global" premieres of "Stage Door Canteen." Lt. Col. Flynn L. Andrew, who returned recently from an extended tour of the fighting fronts, reported on it. This was one of simultaneous showings of the picture on 38 battle fronts. It took place in an open-air theater, and a sudden rainstorm dampened the audience considerably, but not their enthusiasm.

Frank Sinatra, who's achieved such spectacular success in a year, has signed with RKO Radio; his first picture will be "Higher and Higher," in which he will be co-starred with

FRANK SINATRA

Michele Morgan. Meanwhile, he's doing fine with his new radio program—"The Frank Sinatra Show," 45 minutes a week of joy for fans who've made him "America's favorite male vocalist."

Victor Borge goes into the army in September. Not content with doing his Blue Network show and working in a picture on the MGM lot, he recently opened as a nightclub entertainer at one of Hollywood's favorite spots. He explains his passion for work in this way—"I'd like to do a year's theatrical work in three months." Looks as if he'd manage it.

Jack Whiting subbed for William Gaxton on the CBS Playhouse "The Gay Divorcee" and did a fine job, but his heart wasn't in it. His stepson, Douglas Fairbanks Jr. was in New York on leave, and Whiting was to have been godfather that day at the Fairbanks baby's christening.

For eight years we've been hearing "Time . . . marches on!" but not seeing the speaker. In the March of Time's latest film, "Invasion," he'll appear on the screen in person; he's Westbrook Van Voorhis.

Gingy Simms has stepped into the lead in the Metro musical, "Along Broadway," and Eleanor Powell, who had been mentioned for the role, steps out; she asked for a release from her contract, which had nine months more to run. According to the dancer, she wants to devote more time to army camp entertainment, which is wonderful news for the boys who'll benefit.

After signing Anita Louise to a long term contract, Columbia has given her a leading role in "Restless Lady," which will be a comedy thriller rather like "A Night to Remember." Evelyn Keyes, Edmund Lowe, Allyn Joslyn and John Hubbard head the cast.

Arturo Toscanini's two July United States treasury department concerts—the 18th and the 25th—will be attended by army, navy, marine and coast guard enlisted men and officers. The men of the Maritime service will be guests at the September one.

Robert Sterling, on furlough, visited the "Cry 'Havoc'" set to see his bride, Ann Sothern; the scene was a base hospital on Bataan, with 300 extras in army uniforms, and an assistant director tried to herd Bob in with 'em, not recognizing him.

When Roddy McDowall met Irene Dunne for the first time, on the "White Cliffs of Dover" set, he brought her messages from civic leaders of ten cities; he'd just returned from a bond-selling tour that took him through 17 states, covering some of the territory that she took in on a similar tour last year.

ODDS AND ENDS—Groucho Marx is being egged on by Chico and Harpo to join them in another film comedy; he says if he does it will be his third farewell screen appearance . . . Charles Bickford, who supports Cary Grant in "Mr. Lucky," will be the government all the hogs he can raise on his 120-acre farm in Massachusetts . . . Dick Powell will play opposite Lucille Ball in "Meet the People" . . . Mary Livingston was recently voted "Smoothest part of a Flying Skull Squadron" by American Air Force men in North Africa . . . Opinion in the trade is that Jack Carson's new CBS series breaks all the established rules of comedy shows.

## Household Hints

Cut two large apples and one lemon into slices without removing the peel. Add three ounces of sugar and one or two cloves. Pour over this a quart of boiling water, cover closely, and leave until cold.

The setting of a jelly can be hastened by placing the mold in a pan of cold water.

Frozen meats should not be thawed before cooking. Soaking them to hasten defrosting impairs the flavor.

Mayonnaise used on sandwiches should be thick enough to prevent its running out at the sides.

A piece of wax tied in a rag, and rubbed over the hot iron before ironing, will help it to run along smoothly, and prevent its sticking.

A cloth dipped in linseed oil and wiped over a polished surface will improve the appearance.

Rub bacon fat over the skins of potatoes before they are put into the oven to bake. Then the skins will not crumble or break, and will have a delicious flavor. Eat the skins with the potatoes.

When pickling onions, if you are using white vinegar, a few drops of sweet oil of almonds added to each jar will help to keep them white.

## BEAT THE HEAT

Soothe, relieve heat rash, and help prevent it with Mezzana, formerly Mexican Heat Powder. Sprinkle this cooling, astringent medicated powder well over heat irritated skin. Costs little. Big savings in larger sizes. All the family will like Mezzana.

## SNAPPY FACTS ABOUT RUBBER

A chain of rest stations is rising across northern Brazil along the route of workers trekking into the Amazon Basin gateway of Belem to increase collection of wild rubber. They provide medical aid and other human comforts to the 50,000 additional workers being recruited for the Amazon rubber forces.

The rubber normally used in one month's manufacture of baby pants can make 2800 rubber lifeboats for ocean-going planes.

A check of 7,200 farm-owned trucks showed that only 25 per cent of the tires on them were good; 54 per cent were fair; and 21 per cent were in poor condition.

## Colorful Woven Rags for Your Rugs And Cushions Proves Sound Economy

MANY an American of pioneer background can remember when all the floors in the house except the parlor were covered with woven rag rugs and carpets. Today the local weaver with a rug loom is flourishing in many communities.

The modern weaver has an assortment of colors in warp and filler that may be used with the rags that you have prepared in the

manner shown here. About one and three quarter pounds of sewn rags will be required for a square yard of carpet. Rugs may be either cotton or wool but do not use both in the same rug. The rags should be soft and clean and hems or uneven finishes should be removed. Dye white rags the colors you wish to predominate.

NOTE—It is possible to make a great variety of floor coverings from odds and ends of things on hand. Books 9 and 10 of the series offered with these articles contain fascinating new designs for hooked and braided rugs. In Book 7 there is a rug made from old felt hats and school pennants. ### METHODIST CHURCH

G. E. LeMond, Pastor

The Lion sponsored "Go To Church Month" brought to our Church a number of new people. Their coming has been an inspiration. Our attendance has increased in a fine way, especially in the evening service. It has been my pleasure to be the Captain of the Pharisee Team, and the work of this group has been splendid. Unusually good work has been done by a number, but at the present accounting Earl Fortenberry has the highest score of 1100 points. A record that will not likely be equaled by any other member of either team. For Key will run a close second. The pastor is anxious that the good work thus begun will enhance the membership too. I suggest that all our churches join forces in such a campaign.

A battlewagon loaded with various explosives, bombs, torpedoes, oil and gasoline is not the safest place to be with a fire raging, so all but the smaller ships of our Navy are equipped with elaborate fire fighting apparatus.

It may be that this equipment never will be used during the entire course of the war, but it must be paid for out of the War Bonds and Stamps that we are setting aside each payday. U. S. Treasury Department
