

THE HEDLEY INFORMER

PUBLISHED EVERY FRIDAY

REV. C. R. LEMOND, Editor

Entered as second class matter October 28, 1910, at the postoffice at Hedley, Texas, under the Act of March 3, 1879.

All obituaries, resolutions of respect, cards of thanks, advertising of church or society functions, when admission is charged, will be treated as advertising and charged for accordingly.

In case of error in legal or other advertising the publisher does not hold himself liable for damages in excess of the amount received for such advertising.

NOTICE—any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will gladly be corrected upon its being brought to the attention of the publisher.

THEY DIE BY TWO'S AND THREE'S

Fire losses for the nation during the first five months of this year are estimated at \$163,660,000, an increase of \$15,578,000 over the same period in 1942.

When anything less than a billion dollars is small potatoes, many people will scarcely notice these figures—unless they happen to be among those unfortunate souls whose property contributed to the ghastly total. And make no mistake, ghastly is the only word that adequately describes the gigantic and wholly unnecessary fire waste in the United States. What is more ghastly than the waste itself is the fact that the country accepts the wiping out of several hundred millions of dollars worth of homes, factories, and farms as a routine annual occurrence.

Occasionally public complacency is ruffled by horrors, such as the Boston night club tragedy. Then agencies like the National Board of Fire Underwriters can get temporary cooperation to put in force fire prevention measures which public lethargy has long blocked.

And so, slowly through the decades, the science of fire prevention has moved ahead. Steady progress in fire prevention depends upon continuous public education. Individuals must learn to recognize common fire hazards and fear them sufficiently to remove them. Full and effective fire prevention is impossible otherwise.

WHILE OTHERS CHEER

When the prospect of peace becomes more real, literally hundreds of millions of people will stand ready to join in a deafening tumult of relief and happiness. Victor and vanquished alike will revel in a reunion with loved ones.

But there is a group whose shouting will be muted—the doctors. For them the job of rebuilding the shattered wreck that humanity has made of itself and of the world, will begin. Many of them will not be able to return home. They will have to stay in far away places battling as they never battled during the war, against disease and starvation. They will have to work against time to develop new aids and new techniques in a world-wide struggle to control the spread of fearsome maladies.

Laymen, who know so little of the grim task the doctors face, should endeavor to ease their burden whenever possible. The standards of our medical men are high. They serve rich and poor alike to the best of their ability, and the ability of American doctors is not surpassed. We should reflect soberly on these things in the years ahead when doctors will be fighting the greatest battle of all time—for us—and pause before heeding an insatiable howl for an impossible Utopia under the banner of social reform.

IN SPIITE OF THE STORM

WASHINGTON — An automobile race was staged in Brazil recently which should interest gasless Americans: Thirty-two cars took part and not one of them used a drop of gasoline.

Each car was equipped with a charcoal-burning apparatus known as "gasogene," producing a charcoal gas whose combustion takes the place of the combustion of gasoline in the ordinary automobile engine.

These devices have been so successful in Brazil that they are being produced at the rate of 40 per day, selling for about \$200 each. Some of the units are capable of generating a thousand horsepower, and are used even on the inter-city buses between Santos and Sao Paulo.

Brazil has practically no petroleum resources of her own.

TANKERS DELIVER PLANES

Everybody knows that bombers have long been delivered to England under their own power. But the big problem has been to deliver fighter planes, which have had to be taken apart, crated, then reassembled on the other side.

Now, however, a new system has been devised whereby U. S. tankers are carrying fighters on deck—20 to each tanker—and setting them down a few days later in England.

The war shipping administration is keeping the army "cleaned" out of fighters by this method of delivery, and is rapidly building up the strength of the Eighth Air Forces command which is battering Germany.

NO GERMAN SAUSAGE

The diplomats' grapevine reports that the German food supply is running low. A new cut has been made in the meat ration. This coming at a time when the greatest muscle must be exerted in defense of the Vaterland, it is expected to be a severe blow to German morale.

The basic ration of meat for normal uses was 140 grams at this time last year. But now the ration has been cut to 250 grams which is about half a pound per week including fat and bone. An effort is being made to compensate this reduction by the substitution of cheese and groats (hulled and crushed oats and wheat). During the winter, however, it was reduced to 300 grams. In the spring, the ration was moved up to 350 grams, recognizing the importance of more nourishment of the coming of the season of more military activity.

ARMY AND GOLD MINING

American soldiers who spent dreary winter months tracking through the Arctic forest to build the Alcan Highway to Alaska frequently saw the sparkle of gold in the stream beds, and wanted to stake out claims for peacetime development. They were not allowed to do so.

Now, however, civilian construction crews are coming along the same trail, and are staking out claims for the gold which U. S. soldiers could not touch.

Boys from almost every state were sent to Alaska on that pioneering job—cutting a road through tall timber where none but Indians had passed before. They worked from Dawson Creek, in Alberta, to Fairbanks, Alaska, but the place where they say the gleaming gold was in the Yukon, near Whitehorse.

At first there was little time to think about private projects, for one battalion was racing against another to complete its 20-mile stretch of highway. But when a lull came in the work, the men asked permission to try their luck at panning gold. The officers, however, ruled this out.

Another season has rolled around, and things have changed. The pioneer road is being replaced by a permanent highway, built by big construction companies—Elliott Construction company, and Bechtel, Price and Callahan.

These companies have mining engineers attached to the construction gangs, and they are not bound by military discipline.

NOTE: Finally the army has modified its regulations to permit a little amateur gold panning by soldiers in Alaska, for recreational purposes. This activity will be in the same class with fishing, to give the soldiers sport in their spare time.

MERRY GO ROUND — Congresswoman Clare B. Luce made one of her public appearances on...

CROP REPORT

War Food Administrator Marvin Jones said recently that, on the average, farmers are meeting this year's production goals for field crops. Earlier reports indicated that livestock and live-stock products also will reach production goals. Mr. Jones said: "We will have enough food in this country—given at least average weather for the rest of the year—to give civilians adequate and healthful diets, in addition to meeting military and other essential wartime requirements. This does not mean, of course, that there is any better chance than appeared earlier for having all the food that civilians would like to buy, or that civilian supplies for some individual items will not be far below the demand."

"For some important crops—including rice, oats, flaxseed, and potatoes, estimated 1943 acreage is well above the year's goals. "Acreage of corn, hay, barley, grain sorghums, cotton, and tobacco is about at the goals. Acreage of sweet potatoes, dry field beans, peanuts, and sugar beets is below 1943 goals."

SOLDIERS' LIFE INSURANCE

Soldiers—at home or abroad—are reminded that less than three weeks remain in which they can get National Life Insurance without a physical examination. Until August 10, 1943, every application will be accepted regardless of the individual's medical condition. After August 10 a rigid physical examination will be required.

CLOTHES RATIONING

A program to make clothes rationing unnecessary, recently announced by Donald M. Nelson, chairman of WPB, contains these six points: (1) increased production, (2) orderly and adequate distribution, (3) more "volume" merchandise, (4) allocation of materials to essential needs, (5) increased imports of burlap, and (6) proper care of clothing by consumers. There is an adequate supply of textiles to meet civilian needs, the WPB has determined.

FARMERS WILL GET GASOLINE

"Farmers are entitled to first call in receiving motor fuel when they present valid 'F', 'R' or bulk coupons or ration checks which are issued pursuant to Ration Order 3-C of the Office of Price Administration. Dealers (whether retail or wholesale) must accord them this privilege. This means, that if necessary, the dealer shall not deliver any motor fuel for any non-agricultural or non-military use until these preferred demands have been 'satisfied'—statement by Acting Petroleum Administrator for War Ralph K. Davies.

DAIRY PRODUCTS SUPPLIES

Civilians will get 8 of every 10 pounds of butter produced in the year which began July 1, the War Food Administration has announced. The armed forces will get 1 1/2 lbs. and the Russian army will get 1-2 pound. Civilians will also get 5 1-2 of every 10 pounds of cheese, and 4 1-3 cases of evaporated milk out of every 10.

DRY BEANS FOR CIVILIANS

Civilians will get more dry beans and peas this year than they consumed in 1942, said the WFA in announcing allocations of these foods. More than half of the 22,200,000 hundred pound bags of beans will go to civilians; who will also get 1,524,000 bags of dry beans—more than were eaten in 1942, and 76,000 bags more than the 1935-39 average civilian consumption.

CANNED VEGETABLES AND FRUITS

Nearly 70 per cent of the can-

ned vegetables, and 53 per cent of the canned fruits and juices available in the next 12 months will go to feed civilians. These quantities, allocated by the WFA for the 12 months beginning July 1, constitute about 4 per cent more canned vegetables but about 40 per cent less canned fruit than were consumed on the average during the 1935-39 period.

EGG SUPPLIES HOLD EVEN

About the same quantity of eggs will be available to civilians in the 12 months beginning July 1, as in the same period last year, the WFA has indicated. Of a total of 5 billion dozen eggs civilians will get about 3-1-3 billion dozen.

SOLDIERS SEND MONEY BY RADIO

American soldiers overseas except those in Alaska, Hawaii, Panama Canal Zone, and Puerto Rico may now send money home by radio. In a recent week more than 9,000 soldiers sent nearly \$1,000,000, in amounts of \$10 or more, with no maximum limit. Money may be transmitted to an individual payee, or to a bank. The process is speedy and sure. If a soldier desires to do so, he may also purchase war bonds by this method.

FROZEN FOOD LOCKER

New operators of frozen food lockers must charge prices in line with those charged by firms in business in March 1942, the OPA has ruled. Prices charged by new frozen food locker plants will be investigated and adjusted by the OPA according to prevailing prices for similar services in the same locality in Mar. 1942.

THESE WOMEN!

By d'Alessio

"Well, maybe those men aren't looking at US, but it's in our DIRECTION, anyway!"

NO CORN FOR LIQUOR

Corn cannot be used for manufacture of distilled spirits and high wines, a recent directive of the War Production Board says. The action was taken to conserve stocks of corn for essential purposes, although the amount of corn saved is likely to be small because distillers already had shifted largely to the use of wheat.

NO COTTON QUOTAS FOR 1943

The war food administration, on recommendations of the Agricultural Adjustment Agency, has announced that there will be no marketing quotas for the 1943 cotton crop and that no quotas will be set for the 1944 crop. On July 1, farmers were cultivating about 3 million acres less cotton than the acreage permitted in 1943, and about a million and a half fewer acres than they were cultivating on July 1, 1942.

FARM LAND VALUES

Farm land values on March 1,

1943 were higher than they were in 1942, the Bureau of Agricultural Economics said, in explaining that the index of average per-acre values had risen to 99, (1912 to 1914 equals 100). The index of average per-acre values in March, was 91. A low point of 33 was reached in 1933 in the aftermath of inflation started during the last war. One anti-inflationary force at the present time is the fact that many farmers have been using a considerable part of their cash income to pay off mortgage debts.

8 MILLION POUNDS OF WASTE FATS

American housewives salvaged 8 million pounds of waste kitchen fats in May—the highest total since the fats and greases salvage program was started. This result surprised government officials who add that a drop might have been expected because meats and fats have been rationed since March. Nevertheless, the 8 million pounds is only about 50 per cent of the needed quota of 16,667,000 pounds per month.

Advertisement for Moreman's grocery store. The main headline reads 'Balance YOUR FOOD BUDGET at MOREMAN'S'. Below this, it says 'Lean budgets and fat budgets all find a place at Moreman's. Here you can buy all your groceries and market needs in one store, with several prices to choose from, watch for our ads. We're looking for special purchases to enable you to buy for the lowest prices. You will like trading here—clean, neat; courteous clerks.' At the bottom, there is an illustration of various grocery items like cans of soup, coffee, and other food products.

Sentinels of Health
Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use **Doan's Pills**. They have had more than forty years of public approval. Are endorsed the country over, insist on Doan's Pills at all drug stores.

DOAN'S PILLS

SUGAR—Stamp No. 13 valid for five pounds until midnight, August 15.

CANNING SUGAR—Stamps 15 and 16 in Ration Book One valid for 5 pounds of sugar each through Oct. 31, 1943. Those needing additional sugar for canning may apply to local rationing boards.

COFFEE—Stamp No. 21 valid for 1 pound from July 1 through July 21. Stamp No. 22 valid for 1 pound from July 22 through August 11.

SHOES—Stamp No. 18 in Book 1 good for 1 pair of shoes through Oct. 31.

MEAT, EDIBLE FATS AND OILS, (including butter), **CHEESES, CANNED FISH** Stamps P, Q, R, and S (16 points each), expire July 31.

PROCESSED FOODS — Blue stamps N, P, and Q valid from July 1 through August 7.

Mileage Rationing

GASOLINE—Value of each coupon in A, B and C books is 4 gallons. A-G coupons expire midnight July 21.

TIRE INSPECTION—All "A" book holders must have second official tire inspections by Sept. 30, 1943. Subsequent inspections for A book holders will be once every six months.

TIRES—If official tire inspector recommends a tire replacement apply to local ration board for the tire ration certificate. Tires will be rationed to all on the basis of tire inspections and county quotas available with most essential mileage to come first. Recaps can now be secured without rationing certificates.

Other Rationing

Eligible purchasers needing new automobiles, bicycles, typewriters, rubber footwear and other commodities, (except farm machinery and pressure cookers) on which sales might be restricted should see their local ration board. Persons interested in securing farm machinery and pressure cookers should see their county USDA War Board.

TYPHUS FEVER IN ALMOST EVERY PART OF TEXAS

AUSTIN — Reports coming into the State Health department indicate the presence of typhus fever in almost all sections of the state without any particular apparent regard to city or rural population according to Dr. Geo. W. Cox, state health officer.

In urging full cooperation from all communities in a campaign to exterminate rats and thus control the possible increase of typhus Dr. Cox said, "It must be kept in mind that the rat acts as reservoir of the typhus germ, and the rat flea is the means by which typhus is transmitted to man. Rats are known to travel many miles from one community to another, and it is therefore obvious, Dr. Cox said, "that it will be necessary to conduct a vigorous rat extermination program over the entire state."

Dr. Cox recommends a four-point extermination program in addition to the already widely used poisoning campaign, which he asserts will assure more than temporary typhus control. This program includes making all food stuff inaccessible to rats through proper garbage storage, collection and disposal; rat proofing homes, business and public places; keeping at least two traps set and baited in every home which is not rat-proof and proper educational measures.

In discussing the educational measures, Dr. Cox pointed out that since the typhus fever rat is known to inhabit practically every section of the state it will necessarily take state wide cooperation to exterminate the pest. In order to do this the public must become adequately acquainted with the habits of the rat and the various effective control measures that may be applied.

Dr. Cox stated that the state department of health has available motion picture films on this subject and that the department has also issued a bulletin outlining rodent control measures. "This bulletin will be mailed free upon request," Dr. Cox said, "and the films may be had for public showing upon application through local health units."

ON THE FOOD FRONT

COLLEGE STATION — Mrs. Glenn Reynolds of Avoca, Jones County, is advising her friends to try a strawberry bed. From a three-year-old plot 8 by 50 feet in size, Mrs. Reynolds obtained enough strawberries for 75 pints of preserves and all she and her husband could eat. In addition, she gave the neighbors 50 pints.

For whole fruit preserves use berries that are just a little green. They will hold their shape better. To get full flavor, add the juice of fully ripened berries.

NOTICE FOR BIDS

Whereas at the May term of court in 1941, the City of Hedley bought the property known as the Florence Antrobus Heass, property.

All of Lots No. 22-23 in Block No. 2 in Hedley.

and whereas, the two years has expired since that sale we hereby advertise for bids on said property.

Motion was made by Councilman W. M. Biffle and seconded by Councilman B. C. Johnson, and unanimously passed that this property be offered for sale to the highest bidder for cash, the City reserving the right to reject any and all bids.

The City requesting you file your bid at the City Secretary office on or before August 3rd, 1943.

THE CITY OF HEDLEY,
By J. P. DEVINE,
SEAL Secretary,
28-31c

NOTICE FOR BIDS

Whereas at the May term of Court in 1941, The City of Hedley bought the property known as the E. P. Harkness, and W. W. Harkness property, which contains 12-8 acres, Abst. 1194 Sec. 34 in the City of Hedley.

and whereas, the two years has expired since that sale, hereby advertise for bids on said property. Motion was made by Councilman W. M. Biffle seconded by Councilman B. C. Johnson. Unanimously passed that this property be offered for sale to the highest bidder for cash.

The City reserving the right to reject any and all bids. The City requests that you file your bid at the City Hall with your bid at the City Secretary on or before the 3rd day of August, 1943.

CITY OF HEDLEY,
By J. P. DEVINE,
SEAL Secretary,
28-15c

RISE IN FOOD PRICES SLOWER DURING THIS WAR

COLLEGE STATION — The rise in retail prices for food has been slower during the current war period than have average consumer incomes.

This is true even when allowance is made for the payment of direct personal taxes, according to U. S. Department of Agriculture figures cited by C. E. Bowles, organization and cooperative marketing specialist for the A. and M. College extension service. In fact, food prices early in 1943 were two per cent below those of 1918, while average consumer incomes were 87 per cent higher, Bowles points out.

The average cost of the working man's family "food basket" used in the Department's study took 22 per cent of his local income in the five year period, 1935-1939. By the end of 1942, the average consumer income had so outdistanced retail food prices that the same "food basket" could be bought with 16 per cent of it.

Consumers' expenditures for food has shown a sharp advance more because people have bought greater quantities and perhaps a higher quality of food, than because of increased prices.

"Fortunately," Bowles observes, "agricultural production up to the present has been able to do a fair job of supplying civilian and military, as well as lend-lease, requirements."

Farmers have met the demands of war for food and fiber with sharp increases in production and fewer severe difficulties. The volume of agricultural production in 1941 was 13 per cent higher than in the 1935-1939 period, and 28 per cent higher in 1942, Bow-

les believes that continued expansion at this rate, or even maintenance at this high level, is unlikely because of weather uncertainties, scarcity of farm labor, dislocation of certain prices, and limitations on machinery, feed, fertilizer and other needed supplies.

Did you know that about three medium size tomatoes furnish a day's requirements of vitamin C for the average person?

Try putting parsley in stews, meat loaves, and raw vegetables salads. It contains vitamin A, vitamin C, and iron.

Believe it or not, your little sister is in the Motor Corps. Don't laugh, I really am! I've found out a lot of things about engines, too. Even if you are driving one of those monster tanks, I'll bet you don't know that less use of cars and slower driving here on the home front make for trouble, especially acid forming in the cylinders -

You know me for reading ads - that's how I found an answer for that trouble. It's Conoco No. 1 oil that oil-plates engines. Our Commander told the girls the other day that my car was the sweetest-running of the lot. We said you (over)

"Harmless" REMARKS SOLVE THE AXIS AGENT'S PUZZLE...

Don't help the Axis spies complete their jig-saw puzzle. Every piece of information, loosely passed, helps them to solve it.

Freedom of Speech is a sacred heritage, but in wartime every American must be careful how he exercises the privilege. Unless we are cautious, harmless remarks give enemy agents information that may mean death for our fighting men.

In the Middle West, a mother remarks that her boy has just sailed... in the East a father says his son is being trained in coast invasion tactics... and in the Gulf South a war worker tells his neighbor how many parts he's turned out on his lathe. Harmless? Seemingly. But they're facts the enemy agents pick up—study, sift, check—until often a complete picture appears... a picture that gives America's plans to the enemy.

IT WILL HELP FOR ALL OF US TO REMEMBER THIS RULE!

If you HEAR it from someone—don't repeat it,

If you SEE it yourself—don't repeat it.

But if you read it in the newspapers or magazines or hear it on the radio, then it's public property—and it may be discussed publicly without concern.

United Gas Pipeline Closely Guards Secrets That Might Aid Enemy

Cooperating in the nationwide effort to closely guard all information which might be of value to the enemy, United Gas Pipe Line company and associated companies are publishing an advertisement this week in the Informer and over 300 other daily and weekly papers in the Gulf South which points out how information, loosely passed, can aid the enemy.

Illustrated by a drawing of a jig-saw puzzle being put together by an Axis spy, the advertisement points out that "Freedom of Speech is a sacred heritage, but in wartime every American must be careful how he exercises the privilege. Unless we are cautious, 'harmless' remarks give enemy agents information that may mean death for our fighting men."

The sponsoring organization is engaged in production and transportation of natural gas to meet the fuel requirements of war industries, cities and military centers throughout the Gulf South. Its oil production is going to meet military requirements in this country and at distant battle fronts.

FIRST BAPTIST CHURCH

It is gratifying to see the interest that folks these days are taking in the Lord's work. We are especially glad to see the way that Baptists are responding in all phases of the church activities. In the past few months several things have been done to give us a very optimistic outlook for the future. There have been about thirty additions since last November, the church has missions in its budget now, and has given liberally to the special offerings that have been taken. Sunday school attendance are averaging one-third and one-fourth more than the same time last year, while offerings are doubling and tripling what were given last year at this time. The number of visitors in all the services indicate the friendly atmosphere of the church.

Things are being done in a material way, too. New steps have been installed at all entrances, and a lovely curtain hung behind the pulpit with curtain on the choir rails to match. A nice bath room has been installed in the parsonage, and plans are complete and work is ready to start re-papering and repairing the parsonage. We are hoping to do some extensive work on the church this fall. The church is in excellent financial condition, members are working in splendid cooperation with the pastor and one another and we are looking forward to a great revival this summer to bring us to a spiritual peak, winning souls and making life a little happier for everyone.

Bob Jenkins, Pastor

METHODIST CHURCH NOTES

In various ways the public has been informed as to what the thing of supreme interest at our Church is right now. It is the Revival. We urge that you attend every service. These men who have come to help are outstanding in the Evangelistic field and they will do us good. Let us give them a chance.

C. R. LeMond, Pastor.

Mr. Eva Hickey of San Antonio is here for a few days visiting with his parents.

CHURCH OF THE NAZARENE

Howard Smith, Pastor
The summer meeting at our church will begin the Monday night, Aug. 2nd. The Evangelist is to be Rev. R. L. Holder of Lamesa, Bro. Holder has been in the field of Evangelism for years and is a good revival preacher. May we give him a good hearing, and may we trust that it will be a time of great work for the Kingdom.

Why did you not come to Church Sunday. Don't tell us. Tell yourself. That is, if you can find the answer that would be a reason. Reasons are facts that exist, but excuses are homespun. They are made, is yours real, are is it artificial? The Church needs you and you need the Church. The Church can probably get along without you, but can you get along without the Church? "I was glad when they said 'Let us go into the House of the Lord.'"

SUBSCRIBE FOR THE INFORMER.

NOT A FAMILY REUNION BUT A LOT OF FOLKS

The Roy Blanks home was the scene of a large gathering of kin and otherwise folk on the past Sunday. Included in those present other than the ones living here were Uncle Harve Blanks from Lakeview, Bob Sanford of Pampa, Leroy Blanks and daughter of Amarillo.

CARD OF THANKS

Mr. and Mrs. Roy Key and Mrs. Key's sister, Mrs. Clyde Crockett wish to use this means of conveying their thanks to the men who so gladly went to Clarendon recently to be typed for a blood transfusion for Mrs. Crockett. To the following men we wish to express our appreciation: Ross Adamson, Jeff Wiggins, Tomie Bain, Omar Wood, Joe Crawford, Rev. Bob Jenkins, Raymond Everett, J. B. Key, Billie Mack Biddle, Rev. Howard Smith, Burnett Hitt, Calvin Holland and Rev. C. R. LeMond. Thank you one and all. Also may we express our deep appreciation to those who rendered a kindly service in connection with the funeral of Mrs. Crockett's infant son.

TAKE NOTICE

Cases of paralysis July 11-17 last year 7, this year 90. Folks, be careful. This information was released by the State department last week.

NOTICE

All church calendars with resident pastors are up to date in this issue of the Informer. If the other churches will furnish us the information we will be glad to have your calendars and announcements, etc. — Editor.

MRS. J. T. ROBERTS RETURNS

Mrs. J. T. Roberts (Mattie Irene Mobley) returned home this week from a two months vacation. She has been visiting in Dallas and vicinity. She is expecting a visit from her husband J. T. Roberts First Class Seaman. He has been on the water since December.

McKNIGHT HOME REPAIRED.

The home of John Tate in the McKnight community is undergoing a lot of changes and repair this week. A concrete floor is being poured in one porch, another porch is being added, the house is being painted with a green roof and the walls will be painted white. One room on the inside will be sheet rocked and papered, and perhaps other minor repairs made.

HOME FROM CLAUDE

Miss Ila Faye Reid and her sister are home from Claude where they were employed for the past several weeks. Ila Faye is working at Sargeant's Cafe.

NOTICE

All transfers of pupils in school districts where the grades are not taught must be done on or before August 1. Please take care of this, for it is very important. 27-14

FOR SALE: Fresh milk cow and mixed Angelus calves. —W. P. Doherty. 36-2tc.

H. M. HORCHLER'S HOME REPAIRED

Already one of the neatest little homes in town the Horchler's home has been receiving some new paper and paint and the bath room has been enlarged. This addition will make it a most attractive home.

JANE RUTH HALL EMPLOYED AT WOMACK'S

Miss Marguerette Beach until recently employed at the Womack Funeral Home has resigned her work here to go to Berger to be with her folks, Miss Jane Ruth Hall takes her place at the Funeral Home.

Mr. and Mrs. A. Womack and Mr. and Mrs. John Morrow and daughter Beth, all of Memphis were visitors of Mrs. Harry Womack Sunday afternoon.

MRS. KEMPSON CRIPPLED

Mrs. D. B. Kempson fell last week and either fractured or sprained her ankle. While she is recovering, slowly the pain is still great reports Mrs. Kempson. She will be confined to her room for several weeks.
Jimmie Taylor had the misfortune of sticking a pair of scissors in his ankle this week and it is thought probably the scissors went to the bone, but there is no serious after effect. Jimmie is doing OK now.
