The purpose of the Association is to furnish safe credit at the lowest possible cost, and the plan is designed to serve borrowers in good times as well as bad times.

The local Secretary, Rayburn L. Smith, is anxious to discuss the type of service available to those needing long term credit in the purchase or improvement of farm and ranch land.

For the very young child, there is nothing more practical and safe than soft, non-breakable stuffed animals, or old fashioned stuffed dolls. A variety of such toys can be made inexpensively from a few small cotton bags, such as those in which you purchase sugar, meal, flour. These toys are easily grasped by the young tot, and may be laundered easily when they become soiled.

Features of the stuffed animals and dolls can be attractively em-

brodered in colored thread. The variations which may be achieved in style and type are virtually limitless. Soft, fluffy cotton forms an ideal stuffing for these toys.

"Bag of Tricks for Home Sewing," a new illustrated booklet offered free to American housewives, will intrigue you with its many novel ideas for conserving the serviceable material from cotton bags. For your free copy, write National Cotton Council, Box 18, Memphis 1, Tennessee.

Benefit Ball Games

In a game resplendent with thrills and spills (probably more spills than thrills) the Clarendon Lions Club team defeated the Hedley Lions Club team in the last minute by a score of 24 to 21. The local team had an alibi of course. They said it was one of two things, either too much Clarendon or not enough Hedley.

In the first game, with not as many thrills or spills, but probably more basketball, the Hedley High School team was defeated the Outsiders by a score of 31 to 23. This was also a very close game until the last few minutes of play.

The games were played for the benefit of the Donley County Memorial Fund and \$29.40 net proceeds were added to this fund. The Memorial Fund Committee wishes to express its thanks to the Boy Scouts, Lions Clubs of Clarendon and Hedley and the others who played and came to the game for their efforts in this good cause.

Mrs. Tom Crabtree Announces Candidacy For County Treasurer

Having talked to many friends and thought the matter over carefully, I am announcing my candidacy for County Treasurer. I have lived in Donley County 35 years and feel that I am fully qualified as a citizen, and know the people fully and what they expect. From knowledge attained through the experience of hard work and making my own way for the past several years, I believe I am fully qualified and if elected will try to merit the confidence placed in me by the people of Donley County.

I will try to see personally as many of you as I can before election time. Your vote and influence will be greatly appreciated. Mrs. Tom Crabtree

City Election Tuesday

Only 15 men and 10 women voted in the city election Tuesday. Rosco Land was reelected Mayor and the following aldermen were elected: B. C. Johnson, W. C. Johnson, W. M. Biffle, Jim Lynn and Bert Stone.

The House Situation

Burt Stone is building a new house in East Hedley on the lot he purchased from Richard Lance. It will be a five room bath modern stucco. He has foundation and walls up and to have the house finished in summer, doing most of the work himself.

Burt should be commended for his foresight in seeing the seriousness of the house situation in Hedley soon to come. We predict there will be other new houses and remodeling of houses. While we admit labor is high now, there is very little danger of its being cheaper for a year or two after the war, and the war might last for three years longer. So now is the time to get things done.

Mrs. Roxie Wyninegar has chased two houses from Grand Wood on North Main St. She plans to sell one of the houses and improve the other and keep it for a home.

Mrs. Wyninegar shows rare judgment in picking these houses. While we have heard nothing definite in regard to when the work of the highway will begin it is a definite fact that the money has been appropriated and it is to be rolled down Main Street. Commissioners court meets next week and perhaps they may know something about that time. With a paved highway in front of the house, side nearness to church and school, will be an ideal location for a home.

T. O. McFarland has purchased the residence in which he has lived on South Main St. from the Home Owners Loan Corporation. McFarland is already remodeling the barn and making other improvements, and will have a beautiful home. Here is another man who should be complimented on his foresight.

Adamson-Johnson

Pfc. Ansil Adamson, son of Mrs. S. S. Adamson, and Miss Mary Omie Johnson were united in marriage March 27 at Long Island, N. Y. The couple are at home at 7816-19th Rd., Jackson Heights, Long Island, N. Y.

Miss Lottie Randall visited her parents, Mr. and Mrs. J. T. Randall, the first of the week. Miss Randall is employed with Western Union at Dallas.

Mrs. Rhea Stotts is visiting in Dalhart.

The Chief Was Contented

Chief Baker says that the following explains how the Indian gets along.

An American gogetter noticed an Indian chief lolling at the door of his wigwam out west.

"Chief," remonstrated the gogetter, "why don't you get a job?"

"Why?" grunted the chief.

"Well, earn a lot of money."

"Why?" insisted the chief.

"Oh, if you worked and saved your money, you'd have a bank account."

"Why?" again asked the chief.

"For heaven's sake!" shouted the exasperated gogetter. With a big bank account you could retire and then you wouldn't have to work any more."

"Not working now," pointed out the chief.

Household Hints
To avoid shine on much-worn trousers and skirt seats brush the garments after each wearing.

Stretching is fine for the figure, likewise the budget, but don't stretch table linen when ironing it. Iron while damp and press until dry to preserve its stiffness.

When a ladder is used to trim trees or pick fruit, a small, strong chain should be substituted for the top rung as it grips trees or poles more securely.

Here's a hint for the busy mother whose baby is at that "high-chair-tipping" age. A screen door hook fastened on the back of the chair, and a corresponding screw-eye in the woodwork at a convenient place in each room will safeguard baby from tipping while mother works.

Cotton blankets should be washed singly in lukewarm water and enough mild soap to make a two-inch standing suds. Rinse in several lukewarm waters. Dry in shade.

Narrow windows can be made to appear wider by hanging draperies in such a way that they do not cover the glass but have their inside edges even with the window frames. Fasten two small blocks of wood on the side of the window frame to hold the curtain fixtures.

Hang a full-length mirror in the kitchen and small children can see for themselves whether they have clean faces and combed hair. It also serves as a daily reminder of one's own appearance.

SNAPPY FACTS ABOUT RUBBER
Seriousness of the truck tire shortage will be appreciated when it is known that 34 of the country's largest cities receive all their milk by motor trucks.

Underinflation is a voracious waster of tire rubber. A check on Michigan war workers' cars recently showed that more than 15 per cent were underinflated.

Rubber and processing represent about 40 per cent of the cost of manufacturing a popular size automobile tire.

The first rubber-tired motor bus was operated in Brooklyn, N. Y., in 1900. It was used for sightseeing purposes.

"What I wouldn't give for some new track and a couple more trains!"

"You see, I've been adding to my railroad ever since I got it three years ago. Some of the first track I got is kind of bent and crooked in spots. A couple of my oldest trains aren't so good any more, either. Can't do anything about it now, though. They're not making any toy trains and track until the war is over."

The "grown up" railroads have their problems, too, Jimmy. It's no cinch to keep trains and track in tip-top shape during these days when there's so much traffic to handle. They need new track and new trains, too. But as long as other war requirements have had prior claim on needed materials, they've done an outstanding job with the limited rations allotted them.

"Guess I'm pretty lucky, at that. Gosh, just think of the fix I'd be in now, if I hadn't added new stuff when I could get it."

Here, too, Jimmy. Between World War I and

II, the railroads spent ten and a half billions of dollars for equipment and improvements. That's why, today, they are able to handle the biggest job in transportation history.

"Dad and I have been working out new routes and connections for my railroad lately. We play like we have to get guns or tanks or soldiers somewhere in an awful hurry. Then we figure out the quickest way to get 'em there. Boy, do we make time!"

That's the game all the railroads are playing in dead earnest these days, Jimmy. They're handling both military and vital civilian transportation the best and quickest way they know how. They're one big team, all pulling together to keep America's transportation front the strongest in all the world. The FORT WORTH AND DENVER RAILWAY is proud to be on that team. Situated as it is—the direct rail line between Texas and Colorado—it is an essential link in transcontinental transportation.

Kidneys Must Work Well—

For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. Thousands "got back in the harness"

FARM BOYS are apt to be husky fellows—good pilots and sailors and soldiers. Service stars hang in the windows of most farm homes. That complicates the problem of producing more food, particularly on dairy farms. Milk isn't reaped in a single harvest. Cows need individual care every morning, every night, every day of the week. So what has happened in the dairy regions all over the land? Men and women, little boys and girls, are working harder. Thousands of old-timers, who thought their working days were over, have "got

back in the harness". In spite of difficulties, the Government's dairy goals must be met. More milk! And nutritious products of milk, such as cheese. Nearly 450 million pounds of cheese for our fighting men and fighting allies! Over 500 million more pounds for you and other civilians to eat! More than twice as much cheese as the nation could produce at the last war's end is needed now. America's dairy farmers shoulder a tremendous load. Fortunately for the U. S. A. and for the world, they have the spirit to carry it.

Because of the tremendous demand, both military and civilian, you may not be able to get as much Kraft Cheese as you would like, or get your favorite varieties—Kraft American, "Old English", "Philadelphia", Brand Cream Cheese, Velvets, and so on. But you may be sure, as always, that any cheese or cheese food which bears the Kraft name represents the very highest standard of quality.

Sunsuits are a "must" for children. They are inexpensive, too, if made from the sturdy, washable material that comes to you free every week in feed, flour, and sugar bags.

Laundered cotton bags give you an easy-to-handle material, naturally white but easily tinted or dyed

to suit your taste. It is serviceable, comfortable to wear. An embroidered monogram and any one of dozens of ideas may be employed if trimming is desired.

Sunsuits and numerous other money-saving ideas are contained in a new booklet, "Bag of Tricks for Home Sewing," which brings you many profitable sewing tricks with cotton bags. For your free copy, write National Cotton Council, Box 18, Memphis 1, Tennessee.

Reclaim That Brush
Good paint brushes being scarce these days, it behooves the housewife to clean up old ones and give them better care, declares the Home Editor of Capper's Farmer, Topeka, Kan., whose advice on household matters is read by 1,250,000 farm families. Fortunately commercial preparations are available. The powder forms are perhaps easiest to use, since they are mixed with hot water in needed quantities.

Slick Chicks Find Key to Smoothness

THE time for coaching on this business of etiquette is beforehand, like right now, according to Holly Miller, whose column "Some Coaching Please" in Capper's Farmer is a popular feature among teen age boys and girls and their parents as well.

"Observe any slick chick or Beau Brummel and you'll notice the smoothness isn't done with mirrors," she writes. "It's a safe bet they've been beating the etiquette books."

"Take that off-puzzling question of 'Who Goes First?' when youngsters step out for a snack.

"When entering a restaurant, the girl follows the waiter to the table and is seated by him," advises this Capper's Farmer authority. "If all the waiters are hiding—that gives Joe a chance to lead the procession and to seat the damsel."

"Of course a smooth pigeon never tears into a room a good 20 feet in front of her striving-hard-to-keep-up escort. He pulls the chair and she sits down from the left on the front half. Then she ups-a-daisies slightly and good old Joe slides the chair under her."

BUT...

OIL-PLATING YOUR ENGINE is like outdoing the future—today

The first changes in new cars might be "miracles"—or moderate. Regardless, no new engines will be free from corrosive acids, always "planted" inside by every engine's explosions—just as in your present car. The more it stands unused, the greater the risk from trapped acid. This stepped-up risk arrived with rationing. Yet even before, when steadier heat in unrationed driving ousted acids partly, the prudent motorist still took advantage of all the extra acid-resistance made possible by having his engine OIL-PLATED.

This big advancement—a safely OIL-PLATED engine—can be "standard equipment" in your own car right today, at the mere price of a Spring oil change.

Out with unfit Winter oil! Then change to Conoco Nth motor oil to have your engine automatically OIL-PLATED. The highly advanced synthetic in Conoco Nth oil—patented—seems like "magnetism" in causing inner engine surfaces to attract and hold a layer of OIL-PLATING... a corrosion-resisting shield between acids trapped inside and every surface that's OIL-PLATED.

Wouldn't that make you OIL-PLATE your Victory car? It can help you bridge the gap until then, too. Simply change to Conoco Nth for Spring at Your Mileage Merchant's Conoco station. Continental Oil Company

HIAWATHA—G.O.P. STYLE
"Fendell Wilkie during his visit was made a member of the Indian tribe and christened 'Flying Eagle.'"—News item.

Forth upon the Gitche Gumee, By the shining Big-Sea-Water, At the doorway of the wigwam, With the royalties about him, Wen-Del-Will-Kie stood and waited.

All the air was full of freshness, All the earth was bright and joyous, And before him, through the sun-shine, Westward, eastward, northward, southward Passed the golden swarms, the Ahmo, Passed the bees, the presidentials, Singing "Nice place is the White House," Chanting "This time you can make it."

Bright before him shone Chi-Caw-Go, Level spread the boom before him; From it leaped the nomination, Sparkling, flashing in the sunlight, Looking fair again and tempting. Even after what he'd been through.

Toward the sun his hands were lifted Both the palms spread out against it, And between the parted fingers Fell the sunshine on his features, Something in the mist of morning Loomed and lifted from the water, Now seemed floating, now seemed flying Coming nearer, nearer, nearer.

Was it Brick-Er, the self-made one, Or the Bob-Taft from Ohio? Or the great Shu-Shu-Shu-Tom-Tom The crusading one called Catch-Em, The famed warrior on rackets, Baritone from far Owosso Known to all the tribes as Dew-Eh?

None of these! But delegations, Delegations from the prairies, Delegations from the cities, Come by birch canoe with paddles, Trying out their vocal organs, And the mighty Flying Eagle, With his hands aloft extended, Waited full of exultation, Saying in his best make manner: "Beautiful the sun, oh palsies, Bright the prospects are, oh walsies."

"Never bloomed the chance so brightly, Never shone the outlook better!" And the delegates made answer: "Not so fast, best-seller chieftain, "Take it easy, global airman, "We admit your deeds of valor, "But as yet 'tis early Springtime; "Gentle June is still far distant, "Anything is apt to happen, "Keep your shirt on, keep your shirt on!"

And the Brick-Er and the Dew-Eh From their haunts among the fens-lands Screamed "Farewell, oh, Wen-Del-Will-Kie; "We're your buddies, we're your tribesmen, "But the battle is the pay-off!"

And the Wen-Del-Will-Kie answered, "How I wonder, how I wonder!"

AMERICAN DIALOGUES
"There's a fortune in it for you."

"Now look here, if you expect to get anywhere with this proposition, don't depress me."

Louis Schwartz, a New York garcon known as "Louie the Waiter" has personally sold four million dollars' worth of war bonds, a record to be proud of. It occurs to us that possibly he took to selling bonds because they are the only thing a customer could ask for and get.

We can't help wondering if Mr. Schwartz, when a customer says, "I'll take a bond, medium-well," replies, "but remember no butter."

The war department has ruled that dogs in the war may be cited but not decorated. Fido would rather have a bone, anyhow. How about a Distinguished Service Knuckle With Meat Attached?

A senator has introduced a bill asking for an investigation into the matter of why shirttails are getting shorter and shorter. It could be merely a matter of suspenders getting weaker and weaker.

If Japan intends to remove admirals and generals every time Uncle Sam kicks her in the pants she will soon be running her war entirely through first sergeants and corporals.

Two big hosiery manufacturers have been fined \$40,000 for ignoring OPA ceilings. It can't be said they didn't have a leg to stand on.

Wanna Bet?
"However much the storm may rage around our fortress, the day will come when from behind the dark clouds the sun will shine and smile on us."—Adolf Hitler, in a recent address to the German people.

As a weather prophet Hitler is going to prove a terrible bust, too.

STAGE-SCREEN-RADIO

Released by Western Newspaper Union.

DANNY KAYE, who is such a sensational success in his first film, Samuel Goldwyn's "Up in Arms," began his career in the group of summer camps near New York known as the "Borscht Circuit." He did everything, from waiting on tables to entertaining the guests. Then he toured the Orient as part of a troupe—says he perfected his pantomime then, since no one hearing him understood English. Next came night clubs, and such success that he was engaged for the stage production of "Lady in the Dark," which established him in the theater. A big factor in his success is his wife, Sylvia Fine, who writes his songs. Now here's "Up in Arms," which lands him at the top in films.

Charlie McCarthy would like everybody to know that 14-year-old Jane Powell is his one and only protégée. Ever since he and Edgar Bergen worked in "Song of the Open Road," when Jane was made the star of the picture, Charlie's been

swamped by letters from teen-age girls who want him to sponsor them. Jane's done so well in her first picture that another story, "Cinderella Goes to Town," has been bought for her.

Though Adolphe Menjou returned last November from his seven-month tour of England, Algeria and Sicily, to entertain the armed forces, he is only now returning to the screen. It took him three months to regain the 28 pounds he lost on the trip.

Vincent Lopez ("Luncheon With Lopez," three times a week), believes that American audiences not only know good music from bad, but good orchestrations from bad ones. He proved long ago that he knows what the public wants, not only in music, but in stars; Betty and Marion Hutton are two of those whom he discovered and trained. Karole Singer and Bruce Hayes, now appearing with him, are two more.

Ronald Colman has been swamped by mail as a result of his NBC show, "Everything for the Boys." From Montana came a letter from a mother, saying "Won't you put my son and your namesake, Ronald Colman Dunn, on your program?" But it's the army that chooses the overseas fighters who talk to Colman.

Evidently the acting bug is catching. Now the real-life wife of "Dagwood" (Arthur Lake) of "Blondie," of screen and radio fame, is taking to the screen. She is Patricia Van Cleve Lake, and will appear in the new Republic production, "New Faces."

Jack Benny has signed a new contract with Warner Bros.; he recently completed "The Horn Blows at Midnight." But he doesn't expect to start a new film until next July—wants to make another trip overseas first, to entertain the armed forces.

A program full of youngsters without a single cracked voice in the collection—that's a unique feature of the "Archie Andrews" program, heard weekdays over Mutual. The show's producers feel that growing pains should not also inflict pain on the listeners, so base the humor of the series on believable situations.

Something new in radio—a member of the Metropolitan Opera company has been cast in a regular role in a daytime serial drama. The singer is Edith Herlick, mezzo-soprano, who also sings popular music Sunday nights for television. The serial is "The Goldbergs."

ODDS AND ENDS—John Hodiak rode straight to success in "Lifeboat"—now working opposite Lana Turner in "Marriage Is a Private Affair," he's been cast for the male lead opposite Ann Southern in "Music Goes to Reno." . . . RKO announces that the Sister Kenny will get under way as soon as the executive office considers the story right—also that at no time did Rosalind Russell refuse to make the picture. . . . That's a nice lot of Westerns that RKO has lined up—they've bought screen rights to eight Zane Grey novels. . . . Amos 'n' Andy fans are cheering because "Madame Queen" is back—and she talks just as they think she should!

Mr. Carr Found Friends Unsympathetic at Late Hour

The late William J. Carr of the state department had occasion once to call at the house of a friend late at night. He rang the doorbell. After a long wait, a head was poked out of a second-floor window. "Who's there?" asked a voice.

"Mr. Carr," was the reply.

"Well," said the voice as the window banged shut, "what do I care if you missed a car? Why don't you walk, and not wake up people to tell them about it!"

Pattern No. 8580 is in sizes 10, 12, 14, 16, 18 and 20. Size 12, with sleeves, requires 3 1/2 yards 35-inch material.
