**THE BIGGEST PROBLEM** facing Americans today is the threat of double-digit inflation, which continues to eat up our constantly-shrinking dollars.

Inflation, which causes virtually everything that we need and use to increase in price, has been eating at our pocketbooks for the past 20 years. After each cycle, which sees the economy take brief dips and jumps, the nation's economy has been pushed to a higher basic price level.

Inflation does some funny things to the economy, and in recent years it actually spurred the longest business expansion in postwar history. Faced with the prospect of higher and higher prices, consumers changed their buying plans, spending money on items they had planned to buy later, hoping to avoid the inflationary depreciation of their dollars.

This caused the nation's savings rate to hit a new low, and the consumer debt figure to hit an all-time high.

Most families have been able to ride the tide of the new rise in inflation by virtue of both husbands and wives working, but even multiple-income families have seen their buying power lessened to a large extent.

In the midst of these economic troubles, financial experts have been expecting President Carter to encourage Congress to cut spending, and to instigate tax cuts as a means of helping the situation.

It seems that the liberals in Congress are bent on spending more tax money, for new or expanded federal programs. This would be popular with many voters, with an election year coming up, but it should not endear them to the working class.

One threat, which we were discussing with a local businessman this week, is that government programs, including welfare and all of its spin-offs, will someday have more people getting the "dole" than there are those of us taxpayers who are working to provide their living as well as ours.

When this happens, it will be virtually impossible—and it apparently isn't too far away—to oust the money-spenders in Congress in favor of more conservative-minded representation. There are pockets of the country already, where this might not be possible to achieve, even today.

We may be somewhat more fortunate in this section of the country, pertaining to the economic situation, in that the price we pay for our energy resources is still somewhat below that of other sections.

And, we are less likely to have the bitter cold winter weather that may cause residents in the north and east not only to pay substantial amounts of their paychecks for heating oil, but face the possibility of a fuel shortage.

Surely there is an answer to the economic woes of our nation, and we would hope that those who have the solutions to the problems will be heard, and that the course which is better for all of our people will be adopted, rather than one which is politically more expedient for either a president or members of congress who are running for re-election.

Leaders should not play politics with a situation which could put our country in real fiscal trouble. If not treated properly, it could make the Cuban troop situation look like two children arguing over toys.

**EDDY NICHOLSON** says, in reference to President Carter, "You know, it's just hard to trust a guy who gets up and jogs five miles every morning and then announces "I feel great!"

But, Nicholson adds, you have to hand it to Carter, "He's doing the work of two men—Abbott and Costello," the humorist jibes.

## Welding Course Is Scheduled Locally

A Farm Arc Welding short course for adult farmers will be held October 22-25 under the sponsorship of the Bovina High School Vocational Agriculture Department, according to Bob Owen, Superintendent, Lawrence Widner and Butch Willoughby, teachers of vocational agriculture.

Royce Hart, Arc Welding Specialist with the Vocational Agriculture Division of the Texas Education Agency, and the Department of Agricultural Engineering at Texas A&M University, will do the instructing in the course. He is headquartered at Texas A&M University.

Hart is a native of Upshur County, Texas, and was reared on an East Texas farm. He graduated from Union High School near Gilmer, Texas. He received his B.S. degree in Agricultural Engineering from Texas A&M University in 1960. He was owner-manager of a truck and tractor company in Gilmer for a number of years. For four years, Mr. Hart was involved in sales, planning and installation of feed handling and storage equipment. Prior to joining the Agricultural Education Adult Specialist Program on January 1, 1975, he participated in an intensive welding training program.

The short course at Bovina High School is scheduled to begin October 22-25 at 8 p.m. in the vocational agriculture building. During the dates the short course is in progress, Mr. Hart will be available to assist farmers with individual problems and to provide on-the-farm instruction, according to Lawrence Widner.

Farmers interested in attending the short course should write or call

**ROYCE HART**

Owen, superintendent of the school, or Widner. An entry fee of \$10 will be charged. Farm Arc Welding short course certificates will be presented to each enrollee who attends all the training sessions.

Mr. Hart states that the short course will be adjusted to wishes and interests of farmers enrolled but that he expects to cover such subjects as safety in welding, factors controlled by the operator in running a bead and striking an arc, types of electrodes, preparation of joints, distortion, cutting, hardsurfacing and pipe welding.

"Short courses in welding, as well as in other areas, are now available to farmers throughout the state under a cooperative program between the Texas Education Agency and Texas A&M University," states Bob Jaska, associate professor, Department of Agricultural Education at Texas A&M University, who coordinates the program for Texas A&M.

# Body Found Here Believed To Be Of Missing Man

The body of a dead man, presumed to be that of a Bovina man missing since last May was found late on the afternoon of September 25 by a group of Bovina youngsters near the Santa Fe railroad bridge east of town.

The body was discovered in a ditch by three youngsters, notably Bobby Robledo, who reported it to his father who in turn notified Henry Minter.

Early on the morning of September 26, Sheriff Charles Lovelace, along with deputies Bill Morgan and Minter, Bovina Marshal Jerry Atchley and Justice of the Peace Wayne Spears went to the scene to investigate.

The officers found a grisly scene. The body was lying face down in plain view, clothes intact except for the shoes and stockings. The skull was not attached to the body. The feet and right arm were missing. There was very little body tissue remaining.

In one of the pockets was found an ignition key, which upon checking fit a pickup belonging to Kent Glasscock, which had been driven by Gilbert Rocha, and had been discovered near the scene on May 20, 1979. Rocha had been missing since that time.

A belt buckle found on the body also proved to belong to Rocha.

Officers also found two red stockings and some human bones in a ravine approximately 100 yards from the body. Also found were a pair of brown Western boots in a trail next to the highway.

Clothing on the body consisted of a

pair of blue Levis, shorts, and a short-sleeve red striped shirt.

Officers sacked the belongings into plastic bags, and contacted Pat Johnson, DPS lab technician in Lubbock, who agreed to check the remains.

Rocha had been missing since about May 20, when his house was found open by Deputy Minter. It was assumed that he might have gone to South Texas. A missing persons report on Rocha was filed on June 25 after no trace of Rocha was found.

## Hernandez Winner In Football Event

Another week has gone by in the Bovina Businesses Football Contest and despite having one tie game and one game that did not count, the scores were better than the previous week.

Three people picked eleven right, which means they only missed one game other than the tie game. Manuel Hernandez Jr. was this week's winner. He missed the Sanford-Fritch/Vega and Oakland/Denver games, and was 14 points off on the tie-breaker.

Second place went to L.E. Jarecki who missed the Sanford-Fritch/Vega and Washington/Atlanta games, and was 22 points off on the tie-breaker. Third place was won by Jimmie Cockerham, who missed the Sanford-

Fritch/Vega and Los Angeles/St. Louis games and was 24 points off on the tie-breaker.

After four weeks, Mike Perez has taken a commanding three point lead in the contest. Last week, Mike was in a three-way tie for first, but the other leaders didn't score as well as usual.

Sponsoring the 1979 contest are Bovina Pump Company, Bovina Wheat Growers, Inc., Sherley Grain Company, Charles Oil Company, Bovina Blade, Bovina Feeders, First State Bank.

Also, Big Nick Farm Machinery, Lawlis Gin Company, Horn-Clayton Insurance, Paul Jones Texaco, Dairy Freeze, Parmer County Spraying Service, Crop Care, Inc., and Agri-Sprayers, Inc.

## Freeze Contest Is Underway Locally

The 15th annual First Freeze Contest, sponsored by The Bovina Blade, is underway.

Those wishing to enter the competition can write the forecast of the first killing freeze on a postcard and mail it or bring it to The Blade office on Third Street. Do not forget to write the date on which you enter, the time and your guess of the date of the freeze.

If more than one person predicts the same date, the entry received first will be declared the winner.

Contestants are cautioned not to confuse the first frost with the first killing freeze.

Deadline for entering the contest is 5 p.m. Wednesday, October 17.

The person coming closest to guessing the exact freeze date will earn a \$5 cash prize, along with the

title, "Champion First Freeze Predictor of Bovina, 1979."

The contest is conducted by The Blade because of the widespread interest among residents of the area in the first freeze. The interest is prompted by the effect of the freeze on the overall agricultural situation in the Bovina community.

Past champions include Charles Smith, '65; Mrs. E.L. Cochran, '66; Cathie Trimble, '67; Johnnie Horn, '68; Mrs. Rita Mast, '69; Dalton Morrison, '70; Mrs. Flossie Rhinehart, '71; Mike Spears, '72; Gary Cox, '73; Mrs. Donald Kay Kerner, '74; Mrs. Bill Bradshaw, '75; Mrs. Radford Venable, '76; Cathie Trimble, '77; and Wendy Stanberry, '78.

## Powder Puff Game Set For Monday

The Fillies Club will be holding a Powder Puff football game next Monday, October 8, at 7:30 p.m. The game is being held in order to raise funds for the Fillies Club and will be used to buy carpet to put in their dressing room.

According to Filly coach, Russell Kellner, the game will be played under flag football rules. The Bovina High School coaches will serve as referees and some of the Mustang football players will serve as team coaches.

The teams will consist of the senior and freshman girls against the junior and sophomore girls. Boys from Bovina High School will have the duties that normally fall upon the cheerleaders.

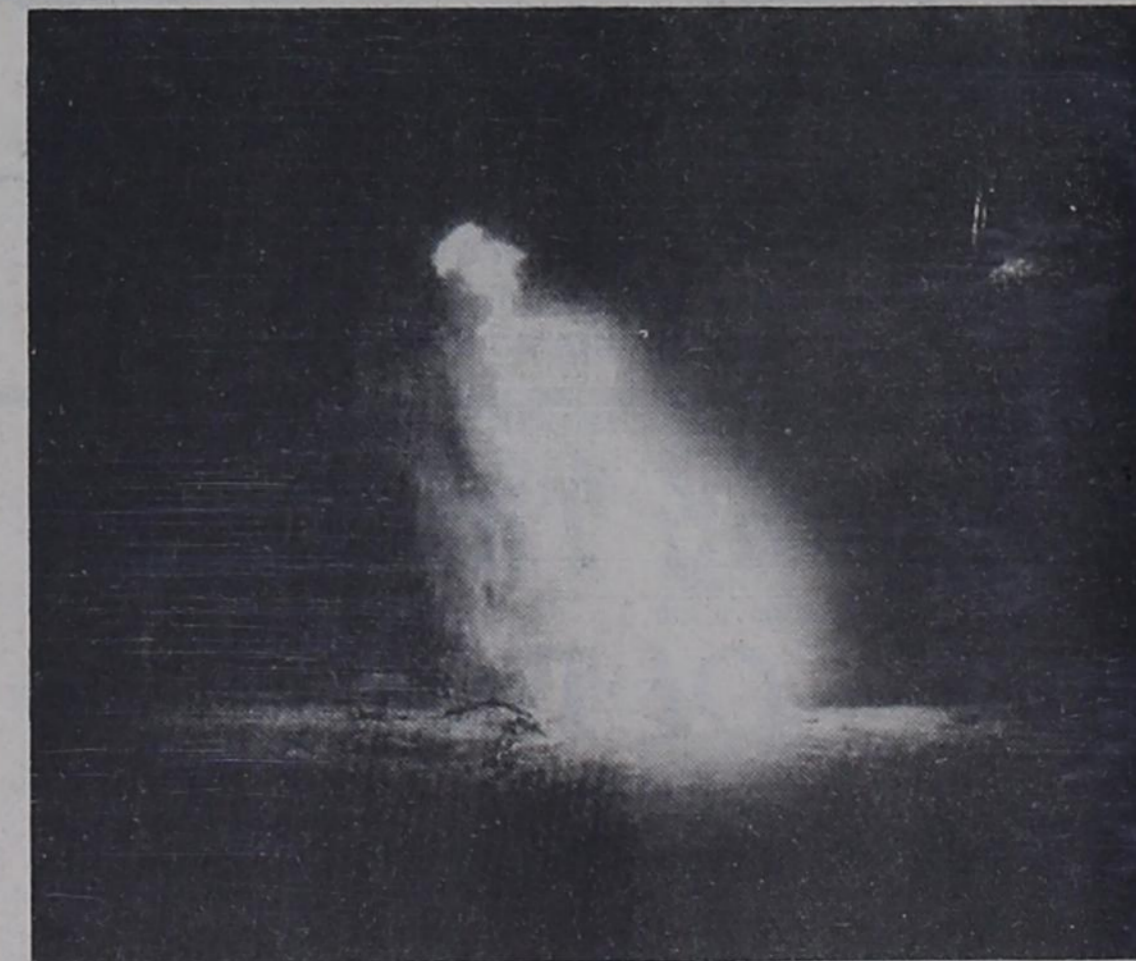

Cost of admittance to the game will be \$1.50 for adults and \$1.00 for students. A concession stand, which will feature homemade products, will be open.

## Grid Tickets Are Available

The Bovina I.S.D. announced that there are still some season tickets left for Bovina High School home games. The tickets are available at the Superintendent's Office.

They are on sale at a reduced price of \$9.60 for the remaining four home games.

Some American Indians once thought it would turn their hair white to touch a snake.

**BONFIRE....The Bovina High School Homecoming bonfire, held here last Thursday, was well-attended by students and fans, and was held in ideal weather. The fire is shown at the height of its brightness.**

### QUESTIONS OFTEN ASKED ABOUT YOUR EYES

By B.W. Armistead & Steven D. Smith  
 Optometrists-Littlefield

**Q:** Why should hunters have their vision checked annually?

**A:** A hunter's decision to squeeze the trigger is influenced primarily by what he "sees," or more specifically, "what he thinks he sees." The quality of his vision is a key factor. If his vision is inadequate, he increases his accident potential substantially--becoming a hazard to himself as well as to others.

Many hunters are unaware that their vision is defective. They think they see just fine, while others hesitate to admit they have a problem for fear they must give up their sport. Fortunately, most vision defects can be corrected and, generally, there is no need to give up hunting.

**Q:** Is defective vision really that dangerous?

**A:** Yes. A Minnesota Hunter Casualty study showed that 77 per cent of those who wounded fellow hunters had defective vision--and half of them were not aware of it. Also, it is estimated that as high as 8 per cent of our male population are color-blind and have particular trouble distinguishing between red and green. (Of approximately 17 million hunters, 850,000 cannot distinguish color properly, a dangerous threat to fellow huntsmen.)

**Q:** What vision skills are needed to be a safe and successful hunter?

**A:** Hunting is a sport that requires excellent hand-eye coordination. Reflexes must be fast, and the hunter's eye true if he is to hit his target with any degree of accuracy. A hunter must be able to:

- Distinguish detail at considerable distance and against a variety of backgrounds;
- Focus clearly on near and distant objects and switch focus within a fraction of a second;
- Judge distance with speed and accuracy;
- Detect objects and movements on either side of the target;
- Identify colors;
- See comfortably and perform under a variety of light and weather conditions.

"It was a good thing I remembered my first-aid lesson," the dowager told a group of friends. "I was crossing the street when I heard a crash. I turned around and saw a poor man lying there...struck down by a taxi.

"He was in a bad way. Then all my first aid came back to me, and I stooped right down and put my head between my knees to keep from fainting."

"Yesterday is but a dream; tomorrow is only a vision, but today well lived makes every yesterday a dream of happiness and every tomorrow a vision of hope."

Have a good week and take care of each other....Scooter.

## Think On These Things

Honesty is the foundation stone of great character. A Chinese proverb states that if there be righteousness in the heart then there will be beauty in the character; if there be beauty in the character then there will be harmony in the home; if there be harmony in the home then there will be order in the nation; if there be order in the nation then there will be peace in the world. A German adage says that if a man loses wealth he loses nothing; if he loses health he loses something, but if he loses character he loses everything.

The Apostle Paul has given us the key to having a heart of righteousness and a life of great character. In the book of Phillipians he speaks as a father in his last days of admonition to his children.

"Finally, brethren, whatsoever things are true, whatsoever things are honorable, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue and if there be any praise think on these things. Begin with a good heart, develop a sense of high honor, have the courage of your convictions, be straight forward, listen to your conscience and walk honestly as children of God. The results will be a life of beauty, serenity, boldness, confidence and respect for he who "walks in integrity walks securely but he who perverts his ways will be found out." (Proverbs 10:9).

Anybody can "talk" energy savings. Olson did something about it.

Olson's extra big 7" mainline will save you thousands of energy dollars over others' 6" or 6-8/8" mainlines.

Any engineer will tell you: the larger the mainline the less friction you'll have pumping water through it. Less friction means less hp and less power consumption. That's why, of all major center pivot manufacturers only Olson gives you a big 7" mainline as standard equipment. All others are 6" or 6 5/8". Over the life of your system, Olson will save you thousands of dollars.

# Ranchers Spoil BHS' Homecoming Game

Last Friday night was Homecoming for Bovina High School, and although the activities planned for the night went off without a hitch, the Mustang supporters left the game with feelings of disbelief and discouragement, much the way most of us felt after the Cowboy-Browns game.

The two games, though played on entirely different planes, had much in

common. Both games were full of miscues and mistakes on the part of the teams that area residents supported.

But there were differences also, the Cowboys were able to move the ball pretty well, only to fumble just as they neared the opponent's goal line. The Mustangs seemed to hold their own during the first quarter, but

suffered through injuries and

mistakes for the rest of the game.

The Mustangs lost three players to injuries during the contest, Ricky Jamerson, Ricky Shepherd and Michael DeLeon. Jamerson suffered muscle spasms in his back, Shepherd received a hairline fracture and bruises to his ribcage, and Michael DeLeon suffered a possible dislocated shoulder.

All but DeLeon are expected to be able to play when the Mustangs take on Sunray Friday, October 12 here in Bovina. It was also learned Tuesday that Jody Watts will be able to return as he did not break his wrist, but only suffered a bad sprain.

Despite the loss, the Homecoming evenings were a highlight during the evening. Annette Stevenson, daughter of Mr. and Mrs. Oakley Stevenson, was named as the Homecoming Queen. Eddie Garcia, son of Mr. and Mrs. Dino Garcia, was named as the Homecoming King.
