

# The Hedley Informer

VOL. 35

HEDLEY, DONLEY COUNTY, TEXAS, FRIDAY, JAN. 26, 1945

NO. 11

## W. S. C. S.

The Women's Society for Christian Service of the Methodist Church has started out the year very enthusiastically. Each member is urged to be present at each weekly meeting. The women of the church who are not now members of the Society should join as soon as possible and make a pledge to help carry on the work. There are certain duties of the Society, and no other branch of the church is responsible for these things.

A few of the material things accomplished last year were:

Church yard,	\$ 6.50
Band for McMurray College	18.50
World Day of Prayer offering	2.45
Gifts for members moving away	23.75
Red Cross Fund	5.30
Flowers for sick and funerals	13.50
Life Memberships	11.24
Church and parsonage furnishings and repairs	210.95
Pledge to missionary work and week of prayer	73.00
Total	\$365.19

The programs for each weekly meeting are very spiritual and interesting, and the women are deeply in earnest about the Lord's work. Come and get your share of the spiritual uplift. In such work you receive spiritually according to the way you give.

The Society plans to hold a social meeting each fifth Monday. Keep this in mind, and don't miss one. These meetings will be both entertaining and inspirational.

The C. R. Hunsicker family visited the Denver Powell family at Turkey Sunday.

Let C. E. Johnson, manager of the Hedley Telephone Co., write for rates and hail insurance.

## Legal Notice

State Of Texas  
To Ralph W. Jacobus, Defendant  
in the herein after styled and numbered cause:

You are hereby commanded to appear before the District Court of Donley County, Texas, to be held at the courthouse of said County in the City of Clarendon, Donley County, Texas, at or before 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance hereof; that is to say, at or before 10 o'clock a. m. of Monday the 20th day of February, 1945, and answer the petition of plaintiff Ruth Buck Jacobus, in Cause Number 2263, in which Ruth Buck Jacobus, plaintiff Ralph W. Jacobus is defendant, filed in said court on the 12th day of January, 1945, and the nature of which said suit is as follows: Suit for divorce on grounds of three years abandonment and for the care, keeping and custody of one male child, named Guy Allan Jacobus, approximately two (2) years old.

Witness, Helen Wiedman, Clerk of the District Court of Donley County, Texas.

Issued and given under my hand and the seal of said Court at office in the city of Clarendon, this the 12th day of January, 1945.

Helen Wiedman  
Clerk of the District Court,

Mr. and Mrs. Jack Eden and daughters were Memphis visitors Sunday afternoon.

## District Governor Visits Lions Club

Tuesday night the Hedley Lions Club had the pleasure of hearing Lee Johnson of Wink, Texas, District Governor of District 2-T Lions International, who spoke to about 45 local Lions and their guests. Other visitors at the club this meeting were R. E. Drennan, and Oliver Elliott of Clarendon, W. C. Johnson, Mrs. L. P. Trimble and Mrs. Chester O. Hill.

Report from the Membership contest going on this month shows ten new Lions added to the club and several more that may be added before the end of the month. Each year the Hedley Club has won some valuable awards in this contest and looks like they will win again this year. At the present time it looks like the side captained by W. C. Bridges will give the side captained by Sam Owens a nice feed in February.

A directors meeting has been called for next week. The program for the meeting week after next will be in charge of Lions Tommie Cain and W. M. Pickering.

For Sale—5 burner New Perfection with cabinet, also coal heater, kitchen cabinet and good oak table.

S. G. Adamson

Let us wash your curtains. We have stretchers to do the job properly.

Miss Jessie Davis and Mrs. Ethel Miller

Mr. and Mrs. Herman Horschler have moved to Seymour to make their home, and will be missed by a large number of friends here. We understand that O. L. Spear has purchased the Horschler home.

Mrs. Rhea Stotts and son David and John Richard Lemmon are visiting in Dalhart.

Billy C. Johnson and Estelle De-Bush of Lubbock visited here last week end.

## Giles News

By Mrs. Arthur Ranson

Mrs. Geo. Foster is visiting in Amarillo with her son J. D. Foster and family.

Misses Kathryn Baker and Bonnie Eden attended the ball tournament at Samnorwood.

Mrs. Kay Autry from Amarillo visited friends here Thursday.

Cpl. and Mrs. Hubert Foster of Abilene and Miss Nina Jo Foster of Memphis visited in the G. T. Foster home over the week end.

R. O. Kelley of Finch's Ranch visited his parents Mr. and Mrs. B. F. Kelley Friday.

Mrs. Dorothy Gilchrist and son Jerry Mevin from Antelope Flat visited in the Eden home.

Mrs. E. M. Glass is on the sick list this week.

Mr. and Mrs. W. B. Proffitt and family were Memphis visitors Saturday.

Veta Bethe and Patricia Ann Godfrey of Memphis visited their grandparents Mr. and Mrs. Arthur Ranson Sunday.

Mr. and Mrs. Jack Eden and daughters were Memphis visitors Sunday afternoon.

## 42 Tournament To Aid Infantile Paralysis Fund

The Womens Culture Club will sponsor a 42 and domino tournament to celebrate the President's Birthday next Tuesday night, Jan 30, at 8 p. m. at the American Legion hall.

Tickets are 25¢ and may be secured from any member of the club. They will also be on sale at the door Tuesday night. Proceeds will go to the "March of Dimes" infantile paralysis fund.

Pie, cake and coffee will be served at intermission. Come out and enjoy a good time and do your bit for a worthy cause.

I am assessing the Hedley school taxes for 1945, and want to finish them in the next few days. If you have not made your rendition, see me at once or Phone 48.

S. G. Adamson

Will you pay 12½¢ for your low grade cotton, regardless of how low, if staple is 15-16. See me before you sell.

Alabama Hill 113c

For Sale—1 kerosene heater, 1 kerosene cook stove, 1 ice box, 1 kitchen cabinet, 1 large electric cream separator. See Clyde Johnson, Hedley. 113p

Coming two year old pair of mules, for sale or trade for cattle. 113p

J. F. Hill

For Sale—DeLaval separator, \$35.00. 113c

A. R. Butler

For Sale—1939 Chevrolet in good shape. See Emmett Stiles. 93p

"The Wise Old Owl"

Folks, I found out some things that happened last week that would have been missed, by Dick Tracy and Pat Patton went to Shamrock to find out some dope, but forgot all about what they went there for after they saw some of the girls that were at the tournament.

Redtop got around to see his girl from Kelton, the one he asked Santa to send him at Christmas time. I guess that he thinks that better late than never. And at the same time he got to Wellington, but couldn't find her there.

Does Carter have a girl in every town, I just wonder?

Will Vera be lonesome when Sam is away this week end?

With Bragg shut in, what will Bonnie do?

Faydeen has gotten around to meeting all of the Arnold family or the Owens or Carey.

Will the Owls water be cut off by the new 9 P. M. curfew?

What has happened to Bucky here lately? Has T. E. taken over?

Is Johnnie Ray back where he was in August of 1943, Margaret?

Who is it that Edna Jewell fed biscuits to the other day?

These foggy night have interfered with my traveling, for I can't get any wind shield wipers so that I can see what is going on down below. Aren't you glad, folks?

## News From Our Men In Service

With the Fifth Army, Italy—Pfc. Jiggs Land of Hedley is a member of the 339th "Polar Bear" Regiment, which recently shattered the vitals of the vaunted Gothic Line, taking Italian peaks as high as 3400 feet east of Highway 65 and Futa Pass.

The 339th Infantry Regiment is in the 85th "Custer" Division, part of Lieutenant General Lucian K. Truscott, Jr.'s Fifth Army.

The 339th landed in Italy last March 15 after a training period in North Africa, and was the first unit of the 85th Division in the line when it was committed to action the following day.

Under command of Colonel Brookner W. Brady, Los Angeles, California, the "Polar Bears" have repeatedly captured strong cores of enemy resistance, rocky mountain peaks above the cloud level and strongpoints nestled behind curtains of intense fire, minefields, barbed wire and earthworks.

Amarillo Army Air Field, Amarillo, Texas—William T. Hufman, son of Mr. and Mrs. W. H. Hufman of Hedley has completed his course of studies as an aviation mechanic in this Army Air Forces Technical Training School.

His graduation from this technical training school.

His graduation from this technical school now fits him for airplane maintenance. He will be sent to an air base where he will assist in keeping America's Heavy Bombers in the air for Allied victory.

Teddy Joe Myers, S 2-c, left Tuesday for Great Lakes, Ill., after a visit with home folks here.

Ens. Ralph W. Alewine Jr. has completed his training at Miami, Fla., and has been assigned to fleet duty in the Pacific.

Yeoman I-c and Mrs. T. J. Hansard of Key West, Fla., announce the arrival on Saturday, Jan. 20, of a fine little son.

Pvt. James B. Garside is now stationed at Camp Howze, Texas, where he is taking his final training before going overseas. He entered the Air Corps on July 1, 1943, and was later transferred to the Infantry.

His wife and son are living here with her parents, Mr. and Mrs. A. F. Shields.

St. Sgt. and Mrs. Weldon G. Simmons and daughter of Ardmore, Okla., have been visiting their parents, Mr. and Mrs. N. A. Simmons of Hedley and Mr. and Mrs. H. W. Stout of Goodnight.

Pvt. Edward F. Shields was sent overseas on Nov. 12 and is now somewhere in the South Pacific. He says that he will come back to Hedley some day and hopes to find it like it was when he left.

He entered the U. S. Marine Corps on May 23, 1944. He was in boot camp at San Diego, Calif., and was then transferred to Camp Pendleton, Oceanside, Calif.

We hope that recent fires will not increase the insurance rate in Hedley but in case it should it would be mighty good judgment to insure now before the rate increase goes into effect.—C. L. Johnson, Ins. Agency.

## BASKETBALL

The Hedley Owls entered the Samnorwood tournament last Friday and Saturday. Our first game was with Childress. The Owls defeated Childress by several points. The B team lost their first game so that they would not have to play the A team of Hedley. The first game with Quail B was more or less a practice game for the Hedley B team.

On Saturday the B team played Childress and defeated them and the winning of this game put them in the semi-finals for consolation. Fifteen minutes after playing Childress the B met Shamrock for the final game and lost by two points.

The A team played Quail and defeated them on Saturday and went on to the semi-finals to play Wellington and were defeated by Wellington. The Owls played Pampa Tuesday night and lost, but our loss was also our gain in practice for the District which will be played at Claude on February 9 and 10.

Hedley's first game at the District will be with the winner of the Samnorwood-Claude game that will be played on Friday night. The odds seem to favor Samnorwood to win the game with Claude. From all sources it seems that Hedley has been picked as the winner of the District for this year.

The Hedley B team will enter the Lakeview tournament next week end. The A team will not have any more games until after the district unless some game is scheduled in the near future.

## J. C. Wooldridge Moves

The J. C. Wooldridge Co. is moving this week to the Cicero Smith location. See their ad elsewhere in this issue.

The J. C. Wooldridge Co. recently purchased the Cicero Smith yards at Hedley and Turkey.

## New Ration Stamps

District Food Rationing Officer Opal L. Wood has announced the validation of food ration stamps for both processed foods and meats and fats for the coming month.

Six red stamps to become valid on January 28 are Y5, Z5, and A2, B2, C2 and D2. Five blue stamps to become valid on February 1 are H2, J2, K2, L2 and M2.

## PAY YOUR TAXES!

Don't forget to pay your taxes by next Wednesday, Jan. 31.

## Work Begins On Locker System

Work has begun on the Moreman Locker System, which will be located in the old M&M building. The work will be rushed to completion as soon as possible, and will be of great benefit to the people of this community and surrounding area.

Six head work stock for sale. See Allen DeShazo. 83p

## Wolfe Nursery Offers New Type Berry

One of the most sensational developments in the nursery field in recent years has been announced by Ross R. Wolfe, owner of the Wolfe Nursery, of Stephenville, Texas, who has completed tests with a new type berry. This berry, to be known as the Rossberry, will make history, Mr. Wolfe believes.

Originally created by the plant wizard, Luther Burbank, almost 30 years ago, it was never given full attention by the famous horticulturist because his attention was being given at that time to projects he considered more important. During the years since Burbank created the berry it has displayed so many features of value that Mr. Wolfe became interested in it and plans to produce and promote the new "wonder berry" vigorously on a national basis.

The new berry, according to Mr. Wolfe, tastes very much like the raspberry, is redish purple in color and grows to large size, often as much as two inches in length. The vines are very hardy and produce prolific yields of the giant berries. In its manner of growth the vine resembles a grapevine and spreads rapidly during the growing season. Each year after the berries have been picked the vine is cut back to the ground and it immediately starts new growth which will produce the crop of berries the following spring.

Late May is the fruiting season of the Rossberry. It grows and thrives in all sorts of soils and climates and one of the things that interested Mr. Wolfe most was its ability to do well in climates ordinarily too dry for most berries.

"I am convinced this new berry will become one of the big producers of the South," Mr. Wolfe said recently in discussing it. "Our nursery is promoting it aggressively and we are printing and issuing 100,000 new circulars in which it is being featured. The tests have been completed. Value and merit of the berry are already fully demonstrated. If Burbank had not been so busy with other things the berry would have been popular years ago because it meets every requirement. The taste is delicious. It is ideal to eat fresh or to can or to use for jelly, jam or juices. It stands shipping and handling better than most berries and brings a top price on the market."

Mr. Wolfe's enthusiasm for the Rossberry is further demonstrated by his advertising program featuring it in several magazines of wide circulation. He also plans to advertise it in approximately 200 weekly newspapers in Southern states, among them being the Informer.

LOOK, LADY!

MOTHER MACA SAYS...

Here's Success Insurance for Your Baking! Amazing MACA YEAST

Use just like compressed yeast—nothing new to learn. Yet it keeps fresh on your pantry shelf for weeks! Needs no refrigeration!

Imagine! Now—with Maca Yeast—you can be sure of baking delicious bread and rolls fast... using it just like compressed yeast. No special methods or recipes. Yet you enjoy the flavor and convenience advantages of granular yeast that only Maca gives you!

Save Time and Energy 2 Ways! Maca Yeast acts so fast—rises so quickly—you're all finished baking in a few hours. Maca saves extra trips to the store, too—because you can keep it fresh for weeks on your pantry shelf, always handy. It's dated for your complete protection. And what a difference in results! Maca gives bread and rolls that thrilling old-fashioned flavor... just like grandma's bread used to have.

All Yeast! No Water, No Filler!

MAKE A HIT WITH MACA! Serve your folks tempting, golden-cruised bread and rolls with that thrilling old-time flavor. Just bake with Maca, the original fast granular yeast. Ask your grocer for Maca Yeast today!

P. S. Since Maca is serving the armed forces, your grocer might not always have it. If he doesn't, ask for Yeast Foam, your faithful standby. It, too, gives bread and rolls a grand old-fashioned flavor.

WEEKLY NEWS ANALYSIS

Great Battle Shapes As Yanks Move on Manila in Philippines; Extend Controls on Home Front

Released by Western Newspaper Union. EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

Key steps in MacArthur's return to the Philippines include (1) landing on Leyte and neighboring islands; (2) invasion of Mindoro; (3) landing on Marinduque, and (4) great invasion of main island of Luzon.

PACIFIC: Battle Looms

On the great plain leading southward to Manila in Luzon, the decisive battle of the Philippines shaped up, as the U. S. Sixth Army moved inland from an expanding 25-mile beachhead on Lingayen Gulf and the Japanese brought up troops to counter the liberators.

As the first large-scale open fighting of the whole Pacific campaign loomed, after three years of arduous undercover jungle warfare, U. S. war planes clouded the Philippine skies in endless attacks upon enemy installations and lines of communications leading to the big battleground.

Working in close coordination with the ground forces, Adm. Chester Nimitz' Pacific fleet rode the enemy's inner sea lanes in an effort to prevent the Japanese from rushing reinforcements to their Philippine armies.

EUROPE: Back Again

Their drive stopped, their flanks under increasing pressure from Field Marshal Montgomery's forces on the north and Lieutenant General Bradley on the south, the Germans slowly withdrew from their big bulge in Belgium and Luxembourg, seeking satisfaction in their claims that the offensive had relieved Allied pressure on the Ruhr and Saar.

Meanwhile, the Nazis continued their limited offensive in Alsace on the southeastern end of the winding 460-mile front, shifting the weight of their attacks to the Strasbourg region after the U. S. Seventh Army blunted their attempt to split it in two near Bitche.

Although relinquishing most of the ground gained during the initial burst of his great December offensive, Field Marshal Von Rundstedt managed to extricate the bulk of his forces from the bulge, leaving only scattered rearguards to cover his retreat through the swirling blizzards.

By diverting the bulk of Allied forces with the drive into Belgium, the Nazis claimed, they preserved much of their war-making potential by temporarily stalling the drives on the great steel, chemical and coal centers of the Ruhr and Saar.

Action on the eastern front continued to center in Hungary, though the Russians were reported probing into German defenses in the Baranov region, some 120 miles below Warsaw on the road to Silesia.

HOME FRONT: Tighten Economy

Congressional hearings on a work or fight bill for men from 18 to 45 years old; imposition of an \$18 ceiling per 100 pounds on live beef cattle; an appeal to householders to keep temperatures at 68 degrees, and a ban on all advertising lighting using power developed from coal marked the government's latest moves on the home front to fit the nation into the tightening war economy.

Considered after President Roosevelt's demand for a national service act, the work or fight bill under discussion provides for the induction of any draft registrant from 18 to 45 into army labor battalions if he fails to enter essential employment or shifts jobs without permission of local boards. With the services planning to take 900,000 men within the next six months, and with another 700,000 persons needed in essential war work plus replacements for those drafted from industry, some sort of legislation was held to be the most effective way for routing manpower in the future.

Regarding the draft, Secretary of War Stimson said practically all

Exclusive on Farm Draft!

By Walter Shead WNU Washington Correspondent The farm public is unduly alarmed over the recent directive of War Mobilizer James F. Byrnes subjecting 360,000 agricultural workers 18 to 26 to induction in the new mobilization of manpower for the army and navy, according to farm leaders in the nation's capital.

There is no evidence, they say, that the Selective Service commission intends to nullify the Tydings amendment to the Selective Service act, which specifically provides for deferment of farm labor, if replacements are not available, and if local draft boards determine the workers are more essential on the farms.

It could be, authorities say here, that if there are any farm workers who have left the farm for other work... if there are any who may be considered non-essential, such as workers on hop farms, or mushroom growers... they may be called to military service under reclassification.

able-bodied men under 30 will be drafted this year, because of the services' emphasis on younger men.

Establishment of an \$18 ceiling on live cattle up to July 2, when the top will fall to \$17.50, came after lengthy discussion between government representatives and feeders, who declared the move would result in less choice beef because of rising production costs. Emphasizing its desire for output of more low grade beef, Economic Stabilizer Vinson ordered OPA and War Food administrator to limit choice and good cattle slaughter for each month.

The appeal to householders to keep temperatures at 68 degrees, and the order to cut off advertising lighting, were both aimed at conserving fuel, what with estimated consumption of soft coal for 1945 set at 620,000,000 tons and production at 580,000,000, with the latter figure reflecting a reduction of 45,000 in the mining force since 1943. Furthermore, the industry's stockpiles amount to only one month's supply.

WACS SAVE UNCLE SAM \$2,700,000 YEARLY ON FOOD BILL

The rigor of army life notwithstanding, the WAC, true to her femininity, still eats less than the average G.I.; the war department has discovered, with the result that a readjustment of the women's army corps' menu will effect a \$2,700,000 annual saving to Uncle Sam. The WAC, though a soldier and leading an active life, does not eat a man's ration. She can be adequately

nourished on rations providing 3,100 calories per day—which is 650 calories less than the number required by male soldiers, but is still 600 calories over the minimum recommended by the national research council for the moderately active woman.

The WAC likes about the same food that her soldier brother likes, but in different quantities.

SEWING CIRCLE NEEDLEWORK

Lingerie Makes Acceptable Gift

Charming Nightgown

EASY to make and easy to launder, this charming round necked nightgown will be lovely in a flowered rayon crepe or satin or in soft pastels. Tie with velvet or taffeta ribbons in rich colors. It makes a treasured gift for birthdays, showers or trousseaux.

To obtain complete pattern and finishing instructions for the Round-necked Nightgown (Pattern No. 5818), sizes 14, 16, 18 included in pattern, send 16 cents in coin, your name, address and the pattern number.

Fingerprints

The fingerprint division of the FBI is now 20 years old. There are more than 90,000,000 fingerprints on record.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Form for requesting sewing circle needlework pattern, including fields for name, address, and pattern number.

For Quick Cough Relief, Mix This Syrup, at Home

No Cooking, No Work, Real Saving. Here's an old home mixture your mother probably used, but, for real results it is still one of the most effective and dependable, for coughs due to cold. Once tried, you'll swear by it.

It's so trouble at all. Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments until dissolved. No cooking is needed. Or you can use corn syrup or liquid honey, instead of sugar syrup. Now put 2 1/2 ounces of Pinex into a pint bottle, and add your syrup. This makes a full pint of truly splendid cough medicine, and gives you about four times as much for your money. It keeps perfectly and tastes fine.

And you'll say it's really amazing, for quick action. You can feel it take hold promptly. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Thus it eases breathing, and lets you sleep. Pinex is a special compound of proven ingredients, in concentrated form, well-known for its prompt action on throat and bronchial membranes. Money refunded if not pleased in every way.

HEARTBURN

Relief in 5 minutes or double money back. Who ever stomach acid causes painful, suffocating gas, sour stomach and heartburn, doctors usually prescribe the fast-acting medicine known as 'antacids'—medicines like those in Bi-Usa Tablets. So fast-acting, Bi-Usa brings comfort in a jiffy or double your money back on return of bottle to us. In all drug stores.

MONEY CAN'T BUY... Bi-Usa Tablets are more dependable than genuine pure St. Joseph Aspirin, world's largest seller at 10¢. Why pay more! Big 100 tablet size for only 55¢.

Advertisement for Fleischmann's yeast featuring a cartoon of a man and woman. Text includes: 'I'LL SETTLE FOR 25 MORE YEARS OF YOUR COOKING!', 'ED: It was worth having all the young folks here for our anniversary just to hear 'em rave about your delicious rolls. But weren't they a lot of extra work, Mary?', 'MARY: Phaw, no trouble at all! But they did turn out nice. I used a grand double-quick recipe with Fleischmann's yellow label Yeast... the yeast with extra vitamins!', 'YES, SURE! FLEISCHMANN'S IS THE ONLY YEAST FOR BAKING THAT HAS ADDED AMOUNTS OF BOTH VITAMINS A AND D AS WELL AS THE VITAMIN B COMPLEX. VITAMINS APLENTY, I SAY!', 'I'M FREE! SEND FOR ME... Ben-Gay contains up to 2 1/2 times more of two famous pain-relieving agents, methyl salicylate and menthol—known to every doctor—than five other widely offered rub-ins. So—insist on genuine, quick-acting Ben-Gay for welcome, soothing relief!', 'BEN-GAY—THE ORIGINAL ANALGESIQUE BAUME', 'Also For PAIN RHEUMATISM MUSCLE PAIN AND COLDS. THERE'S ALSO MILD BEN-GAY FOR CHILDREN.'

**Caulk All Cracks**

The conservation division of WPA is urging home owners to caulk heat-leaking crevices and other openings in their homes in order to save fuel. Comments that where wood or metal adjoin masonry, joints around outside radiators, delivery boxes, built-in wall iceboxes, coal chutes, and points where pipe and wiring enter the house are often overlooked when the more obvious cracks around doors and windows are being caulked. The points mentioned, cumulatively, can cause considerable added heat loss if they are not sealed with caulking compound or weather stripping if they are too large for caulking.

**Drying Shoes**

Wet shoes should not be dried in an oven, on a radiator, or close to an open fire. This weakens the leather and makes it brittle. Use shoe trees or stuff toes with paper and dry at 70 m temperature with a good circulation of air. When dry, polish and give a light coating of wax.

**Overseas France**

Overseas France is an empire 22 times the size of the mother country, and second only to Great Britain's colonial empire, which is three times as large. About 71 million people, widely varied in race and creed, live in the French colonies.

**Cromwell Wrong**

Oliver Cromwell, British statesman and military genius, was wrong when he told his cavalry at the Battle of Edgehill three centuries ago to "keep your powder dry." according to a bureau of mines chemist. A bit of moisture in the powder of his guns would have made the weapons more reliable. Black powder, used now in mining and by the armed forces—and often containing the same ingredients as the powder used in Cromwell's time—actually is more sensitive and ignites more quickly when it contains a small amount of moisture. This is shown in a new technical report of the bureau released recently.

**Liberty Bell**

The circumference around the Liberty Bell is 12 feet, and around the crown, 7 feet 6 inches; from lip to crown the bell measures 3 feet; height over the crown, 2 feet 3 inches; thickness at lip is 3 inches; thickness at crown, 1 1/4 inches; weight, 2,080 pounds; length of clapper, 3 feet 2 inches.

**Children's Typewriter**

An American concern manufacturing typewriters for children uses birds and animals around the letters of the keyboard and supplies a set of matching rings to be used on the fingers to strike the keys.

**BOOST G. I. MORALE WITH GOOD LETTERS, GIRLS ARE URGED**

WRITE the kind of letters that will make your G. I. Joe, sergeant brothers, sisters, cousins, friends say "That sounds just like Jeannie." is the advice Holly Miller gives to teenage girl readers of her column in Capper's Farmer.

"You'll be lifting morale and at the same time having yourself a good time," she declares in the nationally-circulated farm magazine. "The trick is to write as if you were talking to the person. If he or she were there, you'd probably tell him how you thought you'd die try-

ing not to laugh backstage when the villain's beard dropped off just as he raised his gun in the second act of the Junior Class play. And how he covered it by saying "That was the quickest shave I ever had."

"Put in a little spice. Give your correspondent the low-down on the latest gossip, if you will, but keep a light unmalicious touch. For a good will bonus, tuck in snapshots, clippings, cartoons.

"As to the actual letter, remember it's the only tangible evidence the receiver has of you. You'll want it to look neat and legible. Use nice paper. V-mail if it's to go overseas. Your special G. I. Joe will probably like the faint scent obtained by sprinkling bath powder or sachet in the bottom of your stationery box."

**India Curry Sauce**  
**Peps Up Cauliflower**

Crown a plump head of cauliflower with teasing India curry sauce containing onion and apple and you'll add unsuspected newness and pleasure to a cold-weather meal.

That's a tip to home-makers given by Marjorie Griffin, Home Editor of nationally-circulated Capper's Farmer. Parsley or watercress garnish will give color, she says, while curry powder and tabasco sauce will pep up the blandest cauliflower.

**India Curry Sauce**  
1/2 tsp. butter 1/2 tsp. curry powder  
1/2 tsp. minced onion 1/2 tsp. flour  
1/2 tsp. dried apple 1/2 c. cauliflower water  
1/2 tsp. salt Parsley  
Melt butter and add onion and apple; cook slowly until tender. Add salt, curry powder and flour, stirring until well blended. Slowly add cauliflower cooking water, stirring constantly. Cook over low heat about 7 minutes. Pour sauce over a head of cooked cauliflower, garnish with parsley, and serve at once. Serves 6.  
"You'll be amply paid for the time and ingenuity used in planning appetite-whetting dishes such as this," Miss Griffin writes.

**That Nagging Backache**

**May Warn of Disordered Kidney Action**

Modern life with its hurry and worry, irregular habits, improper eating and drinking—the risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

**THE OLD JUDGE SAYS...**

"Judge, remember that place up in the mountains where we went trout fishing last year?"  
"I sure do, George. We had a great time up there, didn't we?"  
"I'll never forget it. But this will interest you, Judge. I heard just yesterday that the revenue men raided a big still right near there. Guess that's where all that high-priced moonshine we heard about has been coming from."  
"Wouldn't be a bit surprised. I saw in the paper the other day where the Government has raided thousands of such stills during the past year."

"Sounds sort of reminiscent, doesn't it, Judge?"

"Exactly and it's not hard to figure out. As soon as the distillers stopped making whiskey and devoted their entire facilities to the production of industrial alcohol for the Government... the racketeers muscled in again."

"I hate to think of how that might have spread, Judge, if the Government hadn't found it possible, without interfering with our war effort in any way, to permit a short resumption of legal whiskey production recently."

## MOOS OF THE MOMENT

BY UNCLE BOB  
of the Kraft Dairy Farm Service

If you think that cartoon is just another funny picture, draw up an easy chair alongside of me and I'll prove that it makes sense. A well planned pasture-system really puts dollars in the dairyman's pockets.

To prove how true that is, an extension bulletin I read recently reports a survey made in seven dairy areas. This survey showed that one-third of the cows' actual food came from pastures, but that this third cost only one-seventh of the total feed bill.

In addition to your permanent pasture, you need temporary pastures to provide forage from the earliest possible date in spring to the latest date in the fall.

Emergency pastures take up the slack in mid-summer when permanent pasture burns. They also give you grazing in the fall which will postpone barn feeding.

I have just received a new pasture handbook from the Extension Service at the University of Illinois, Urbana, Ill. It is Bulletin 505 which covers rotation pastures in detail.

One of the many interesting things it contains is a table showing the total number of days of pasturing from various pasture crops. It will help you plan the best pasture system for your herd.

Your county agent also can assist you greatly since he knows what crops will do best in your own county. In addition here are some other booklets to get: Extension Circular 193, University of Missouri, Columbia, Mo., and Extension Bulletin B-69, Texas A&M College, College Station, Texas.

I'm strong for the younger generation and I'm quite sure that if the younger generation is strong, the future will be brighter. Certainly the future of dairying hinges on raising strong, healthy calves.

The proper feeding and management of calves is a most important job. Give them a good start in life and you've taken a big step in improving your dairy herd.

A rule of thumb says to feed calves a pound of milk per day for each ten pounds of body weight. However, if your milk is high in butterfat, feed slightly less than that amount. If using a commercial calf starter, follow the manufacturer's directions. Calves, the same as small children, can get tummy aches if they get too much or the wrong kind of food. Calves should be encouraged

to eat grain and hay early, say at ten days to two weeks. Coarsely ground oats and corn mixed with about 20% wheat bran is a good starting grain ration.

At two weeks, give the calf handful of choice, green leafy hay. At eight weeks, the calf should be off milk and needs up to 4 lbs. of grain concentrate, plus all the good hay it will eat. Put the calf on a regular heifer ration at 16 weeks.

For further details on calf feeding, I suggest you get Bulletin 377 from the Extension Service, University of Missouri, Columbia, Mo., and Circular 308, Extension Service, University of Wisconsin, Madison, Wis.

Here it is near the end of January and I haven't mentioned cooling milk yet—one of my favorite subjects of conversation. If the temperature is sliding way down there as you read this, it may sound funny to talk about cooling milk, but it should be done after every milking.

Bacteria don't seem to pay much attention to what the thermometer reads outside the milkhouse. As long as the milk temperature holds from 60 to 80, bacteria multiply rapidly.

The only way to protect your milk is to get its temperature down near 50 as fast as possible. The USDA figures millions of pounds of milk are spoiled every year because of lack of proper cooling.

That's bad any year, but it's worse this year. You know we are asked to produce 120 billions of pounds of milk in 1945. We'll have to do everything we can to meet that goal.

And by the way—you'll see some fine articles on pastures in the January-February issue of the *Kraftsman*, now being distributed. It devotes a lot of space to a pasture-hay program for 1945. Drop me a card at 609 Peabody Court, Chicago 90, Ill., and I'll mail you a copy.

\*NOTE: There usually is a 5c charge for pamphlets mailed to non-residents of a state, but possibly your own state has a free pamphlet on the same subject. Ask your county agent.

### Cooking Meat

Cooking with moist heat tends to make tough meats tender. The moisture may be applied in the form of water, vegetable or fruit juice, or milk. Dry heat is best for tender cuts. This means that no moisture is added, the meat is neither covered nor basted. Low to moderate steady heat is best for cooking all meats, all cuts, by all methods. It makes for evenness of cooking, tenderness, preserves flavor and prevents waste in shrinkage.

### Seals Surface

Frequent saturation is conducive to surface dusting, unsightly stains and crumbling of porous surfaces, such as old brick walls, stucco and cement mixed materials. Freezing may cause moisture expansion which may result in serious crumbling. Correctly formulated paint will seal the surface and thus eliminate the cause of disintegration and staining.

### Quick Succession

In 1841 three United States Presidents held the office within a little more than a month. When Martin Van Buren's term ended on March 4, 1841, he was succeeded by William Henry Harrison who died on April 4, 1841, and John Tyler, vice president, took the oath of office as President two days later.

### Immigration

Only those aliens who are mentally sound, morally clean and physically fit shall enter the United States. If a person is a United States citizen he need pass no physical test to reenter this country.

GROVE'S COLD TABLETS FOR QUICK RELIEF

SNAPPY FACTS ABOUT RUBBER

Technical men say that about three gallons of alcohol are used to produce sufficient butadiene to make an average-size synthetic tire. Use of synthetic and alternate materials, particularly in field wire and telephone cable, resulted in the conservation by the Signal Corps of the U. S. Army of more than 12 million pounds of crude rubber in the first 4 months of 1944.

The importance of rubber tires to the economy of Michigan is indicated by the fact that 65.2 per cent of all inbound and 69 per cent of all outbound freight in that state is carried by motor truck.

ONE WORD SUGGESTION FOR ACID INDIGESTION "TUMS"

Ernie Pyle's Slant on the War:

Lack of Experience at First Slowed Up Allies American Algerian Troops Were Green and Officers Unseasoned

By Ernie Pyle

(Editor's Note: This dispatch was written and first published when Pyle was with the G.I.s at the Algerian front. It is now on his way to cover the boys in the Pacific war zones.

ORAN, ALGERIA.—Men who bring our convoys from America, some of whom have just recently arrived, tell me the people at home don't have a correct impression of things over here.

They say people at home think the North African campaign is a walkaway and will be over quickly; that our losses have been practically nil; that the French here love us to death, and that all German influence has been cleaned out. If you think that, it's because we newspapermen here have failed at getting the finer points of the situation over to you.

Because this campaign at first was as much diplomatic as military, the powers that be didn't permit our itchy typewriter fingers to delve into things internationally, which were ticklish enough without that. I believe misconceptions at home must have grown out of some missing part of the picture.

It would be very bad for another wave of extreme optimism to sweep over the United States. So maybe I can explain a little bit about why things over here, though all right for the long run, are not all strawberries and cream right now.

In Tunisia, for instance, we seem to be stalemated for the moment. The reasons are two. Our army is a green army, and most of our Tunisian troops are in actual battle for the first time against seasoned troops and commanders. It will take us months of fighting to gain the experience our enemies start with.

In the second place, nobody knew exactly how much resistance the German would put up here, so we had to be set for full resistance. That meant, when the French capitulated in three days, we had to move eastward at once, or leave the Germans unhampered to build a big force in Tunisia.

So we moved several hundred miles and, with the British, began fighting. But we simply didn't have enough stuff on hand to knock the Germans out instantly. Nobody is to blame for this. I think our army is doing wonderfully—both in fighting with what we have and in getting more here—but we are fighting an army as tough in spirit as ours, vastly more experienced, and more easily supplied.

Our losses in men so far are not appalling, by any means, but we are losing men. The other day an American ship brought the first newspaper from home I had seen since the occupation, and it said only 12 men were lost in taking Oran.

The losses, in fact, were not great, but they were a good many times 12.

Wounded to England. Most of our convalescent wounded have been sent to England. Some newly arrived Americans feel that, if more of the wounded were sent home, it would put new grim vigor into the American people. We aren't the sort of people from whom wounded men have to be concealed.

The biggest puzzle to us who are on the scene is our policy of dealing with Axis agents and sympathizers in North Africa. We have taken into custody only the most out-and-out Axis agents, such as the German armistice missions and a few others. That done, we have turned the authority of arrest back to the French.

The procedure is that we investigate and they arrest. As it winds up, we investigate—period. Our policy is still appeasement. It stems from what might be called the national hopefulness of French emotions. Frenchmen today think and feel in lots of different directions. We moved softly at first, in order to capture as many French hearts as French square miles. Now that phase is over. We are here in full swing.

We have left in office most of the small-fry officials put there by the Germans before we came. We are permitting fascist societies to continue to exist. Actual sniping has

been stopped, but there is still sabotage. The loyal French see this and wonder what manner of people we are. They are used to force, and expect us to use it against the common enemy, which includes the French Nazis. Our enemies see it, laugh, and call us soft. Both sides are puzzled by a country at war which still lets enemies run loose to work against it.

There are an astonishing number of Axis sympathizers among the French in North Africa. Not a majority, of course, but more than you would imagine. This in itself is a great puzzle to me. I can't fathom the thought processes of a Frenchman who prefers German victory and perpetual domination rather than a temporary occupation resulting in eventual French freedom.

But there are such people, and they are hindering us, and we over here think you folks at home should know three things: That the going will be tough and probably long before we have cleaned up Africa and are ready to move to bigger fronts. That the French are fundamentally behind us, but that a strange, illogical stratum is against us. And that our fundamental policy still is one of soft-gloving snakes in our midst.

Nurses are Tops. The American nurses over here—and there are lots of them—have turned out just as you would expect: wonderfully.

Army doctors, and patients, too, are unanimous in their praise for them. Doctors tell me that in that first rush of casualties they were calmer than the men. One hospital unit had a nurse they were afraid of. She had seemed neurotic and hysterical on the way down. The head doctor detailed another nurse just to watch her all through the hectic first hours of tending the wounded. But he needn't have. He admits now she was the calmest of the lot.

The head of one hospital, a colonel who was a soldier in the last war, worked in the improvised hospitals set up at Arzew to tend the freshly wounded. He says not a soul in the outfit cracked up or got fustered. "You're so busy you don't think about it being horrible," he says. "You aren't yourself. Actually you seem to become somebody else. And after it's over, you're thrilled by it. Gosh, I hope I'm not stuck in a base hospital. I want to get on to the front."

The Carolina nurses of the evacuation hospital about which I've been writing have taken it like soldiers. For the first 10 days they had to live like animals, even using open ditches for toilets, but they never complained.

At this tent hospital one nurse is always on duty in each tentful of 20 men. She had medical orderlies to help her. In bad weather the nurses wear army overalls. But Lieut. Col. Rollin Bauchspies, the hospital commandant, wants them to put on dresses once in a while, for he says the effect on the men is astounding.

The touch of femininity, the knowledge that a woman is around, gives a wounded man courage and confidence and a feeling of security. And the more feminine she looks, the better. Only about 100 of the hospital's 700 patients are wounded men. The others are just sick with ordinary things, such as flu, appendicitis, sprains. They've got a whole tentful of mumps, and a few cases of malaria and dysentery.

At the far end of the hospital, behind an evil-looking barricade of barbed wire, is what Colonel Bauchspies calls "Casanova park." Back there are 150 soldiers with venereal disease. "What's the barbed wire for?" I asked. "They wouldn't try to get out anyhow." "It's just to make them feel like heels," the colonel said.

Army Hospital Cuts Red Tape

The hospital already has handled more than 1000 patients and hasn't lost a one. The doctors run to the nearest stake and knock on wood when they say it. The surgeons have performed more than 125 operations. There's no red tape about whether a patient is legally entitled to enter the hospital or not. They take anybody who comes—soldier, civilian, Arab, Frenchman, anybody.

The other day we were looking at those round-bellied iron stoves half-buried in the ground in each tent. "What do you burn in them?" I asked Lieutenant Colonel Bauchspies. "Wood," he said. "Where do you get the wood?" I asked. "Steal it," he said.

SEWING CIRCLE PATTERNS

'Twasn't So Breezy When Guest Awoke Next Morn

The traveling salesman had never struck such a stuffy hotel in all his life. In vain did he come sheep. Sleep just would not come. He had made numerous attempts to open a window without putting on the light, but had found it tightly sealed. He tossed and turned. Desperate at last, he got out of bed, wrapped a blanket around his hand, and smashed the window. Then he breathed deeply for a few moments, got back in bed, and almost immediately fell into a deep and refreshing sleep.

Next morning he had to pay five dollars for smashing the wardrobe mirror.

All obituaries, resolutions of respect, cards of thanks, advertising of church or society functions, when admission is charged, will be treated as advertising and charged for accordingly.

In case of error in legal or other advertising the publisher does not hold himself liable for damages in excess of the amount received for such advertising.

NOTICE—Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Informer will gladly be corrected upon its being brought to the attention of the publisher.

**Character Loans**

It is a mistaken idea that a collateral loan is the only kind of credit extended by banks today.

Ability and integrity—as shown by a man's financial statement and paying record are the foundation for many that we are making regularly for any purpose that squares with sound banking practice.
