## Dorcas Class Picnic

Around thirty guests enjoyed the picnic supper Tuesday evening given by the Dorcas S. S. class in the Baptist Church basement. It was honoring Mr. and Mrs. Mike Mason and family and Mr. and Mrs. A. C. Williams and family, who are moving from Hedley within the next few days.

After a most bountiful supper a social hour was engaged in, during which Mrs. A. T. Simmons expressed the regret of the class in losing Mrs. Mason and Mrs. Williams as members. Each was presented with a nice gift as an expression of good wishes in their new homes. A sing-song concluded the evening's pleasure.

## T. E. L. Class

## News From Our Men In Service

With the 35th Infantry Division, Assembly Area Command, France—T-4 Byrham C. Johnson is enroute home from Europe with the 5 Star "Santa Fe" Division, which in ten months battled across the Elbe River to within 42 miles of Berlin.

The 35th ended its occupational duties in Germany during the second week of July and moved to Camp Norfolk, one of the Assembly Area Command's 17 redeployment camps near Reims. Elements of the Division served as Honor Guards for President Truman when he arrived at Antwerp.

Hitting Omaha Beach July 7, 1944, the 35th forced the Germans from St. Lo, broke the counter-offensive at Mortain, swept across France, cracked into Germany's Saar Valley on December 12, and then whipped into Belgium and Luxembourg to wither Von Rundstedt's Ardennes bulge.

Following a shift to the Vosges Mountains, the Division dashed 300 miles north through Holland to jump the Roer and Rhine rivers, crush Siegfried Line defenses, and scoop up more than 30,000 PW's by V-E Day, to mark the end of over 1600 combat miles in the ETO.

Sergeant Johnson is the husband of Frances Lorraine Johnson of Lubbock and son of Mr. and Mrs. W. C. Johnson of Hedley.

He holds the Bronze Star Medal, the Good Conduct Medal and the EAMET Ribbon.

Pfc. Don R. Knox is at home on a convalescent furlough recuperating from wounds he received during the last days of the European conflict. He left New York on Oct. 13, 1944 and upon landing in England was placed in the 101st Airborne Division. He took part in the Battle of Bastogne and his division remained in the Battle of the Bulge 33 days. The remaining men were moved to the 7th Army sector.

Upon his return to the states on June 8, 1945, Pfc. Knox was sent to Barnes General Hospital at Vancouver, Wash., for treatment.

Don is a cousin of Roy Blanks and visited the past week in the Blanks home. The later part of the week he left for San Francisco Cal. to visit his mother before returning to the hospital.

Lt. Clyde A. Thomas came in Wednesday from overseas service in the European theatre. He has been overseas 14 months and has seen more than 9 months combat duty. Clyde received his commission on the battlefield.

## Draft Still Necessary

Following is a news release from Selective Service headquarters at Austin:

Commenting upon the continued induction of men for the armed forces and the consequent resignation of some Texas local boards, General J. Watt Page, State Selective Service Director, said Friday that "as a matter of fact, the number of local boards who have asked that their resignations be accepted is so small as to be almost negligible—only 4 out of 351 boards."

"Naturally," General Page said, "they are all tired after five years of arduous service. As board members they have done one of the most patriotic jobs in the annals of our country. In addition to being non-compensated, they have neglected their own business. In many cases they have lost money and friends of long standing, and have been subjected to all manner of abuse—these men without decorations. They can never be fully repaid for their contribution to the winning of World War II. Their only remuneration is contained within their hearts and souls in the knowledge that they have served fearlessly, tirelessly and honestly for their country. No man can do more. BUT THEIR SERVICE IS NOT YET COMPLETED, even though the shooting-war is over.

"Millions of our boys are overseas and have been there and in combat for several years. Certainly, they should now be allowed to come home to their families. For example, I haven't seen my boy for three years. Now, 'my boy' is simply representative of hundreds and hundreds of thousands of other fathers and mothers and wives with men long in the service. The government is strenuously trying to return these men. In fact, right here in Texas the official reports of discharges which we are receiving at Selective Service Headquarters now total close to 1,000 notices per day. The Army, the Navy, the Marine Corps and the Coast Guard cannot keep this up unless, of course, we can send able-bodied men overseas to replace those who should now be sent home.

"Surely, in this democratic country of ours, it is expected that every man shall participate in its wars. A great many of our young men in the 18 through 25 group have been deferred for several years for one reason or another. These young men have been on good salaries. They have been able to sleep in good beds and have good food. They have had almost complete security with little or no jeopardy of life or limb. Why should not these young men now take up the gun and 'stand guard' for a while?

"That is why we must for the present continue to issue calls for the induction of men. The calls are small—about 50,000 per month for the nation—but, as President Truman has pointed out, they are still necessary. This is why most of the local boards are 'standing by their guns' and not resigning. The boys 'over there' didn't lay down their guns until it was all over."

Mrs. Rex Kendall and three children, Rex Anne, Gary and Don of Lawton, Okla., came in Sunday for a visit in the Frank Kendall home.

We hear that the Biffle Laundry has been sold to Clyde Black of Brownfield.

Miss Wynona Kyte has sold the Charm Beauty Shop to Mrs. Ansil Adamson, who plans to continue in the same location. She will be open for business Wednesday, Sept. 5.

Miss Kyte has made no definite plans for the future as yet.

The Hunt Grocery is looking very nice with a new awning and screen door.

George Reynolds is convinced that Hedley has one of the best doctors in the country in the person of Dr. D. H. Cox. Mr. Reynolds had been assured by several other doctors that a head operation would kill him within 5 to 15 minutes. Dr. Cox has now performed this operation three times, and Mr. Reynolds is still alive and kicking, which seems to be pretty good evidence.

## To Miss Kyte's Customers:

I have purchased the Charm Beauty Shop, effective Monday, and will be open for business on Wednesday, Sept. 5, in the same location. Your patronage will be appreciated.

WEEKLY NEWS ANALYSIS

Japs Guard Against Uprising; Plan to Demobilize 7,000,000; Nation Shifts to Peace Economy

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Following the joyous news of Japan's capitulation, many persons the country over recently made their way to church to offer prayers in gratitude for the cessation of hostilities.

PEACE: Tighten Imperial Grip

Even as General MacArthur arranged the complicated procedure for Japanese surrender and occupation, the U. S. prepared for the major readjustments looming ahead before the nation once again could tread the paths of peace.

With the Japanese government anxious to bring about a cessation of firing before the preliminary surrender parley in Manila, the conference was postponed to permit members of the imperial household to fly to the far-flung Asiatic battlefronts to enforce the emperor's orders to lay down arms.

Appointment of tough and able 57-year-old Prince Higashi-Kuni as Jap premier disclosed an effort to bring all of the weight of the imperial family behind the surrender acceptance to avert any outbreak of diehards which might upset the internal situation.

While it was expected that some fanatical officers may try to fight on, or commit hara-kiri, the great mass of Japanese were expected to give up peaceably.

U. S. Demobilizes

With the end of the war, the services' carefully prepared demobilization plans were scheduled to be put into effect, with the draft continuing for men under 25 years of age unless the President or congress ordained otherwise.

Approximately 261,000 enlisted men and 40,000 officers are eligible for release under the navy's newly announced discharge plan requiring 44 points for the enlisted men and 49 for the officers.

Designed to relieve men with the longest service, the navy program will permit release of about 2,000,000 men within the next 12 to 18 months, which, with the army's plan for discharging 5,000,000 G.I.s within a year, will result in a total demobilization of 7,000,000 by 1947.

Except for four categories of specialists, all army personnel with 85 points or more will be immediately released, along with men 38 years of age or over.

With G.I.s in the Pacific eligible for discharge due to be released, men with low-point scores in the U. S. or with only brief European

Army Teaches G.I.s Virtues of Thrift

How widely the members of the armed forces have been taught the virtues of thrift is indicated by figures supplied by the war department office of dependency benefits.

CROPS: Another Good Year

Owing to record yields of wheat, oats, peanuts, rice, peaches, pecans and commercial truck crops; near record prospects for hay, tobacco, soybeans, sugar cane, and large production for potatoes, sorghum grains and flaxseed, the department of agriculture predicted the 1945 harvest would be the third best in history.

With the wheat crop estimated at a record 1,146,283,000 bushels on the basis of conditions as of August 1, and with oats at 1,546,032,000 bushels, feed grain production was at a high level despite the estimated drop in the corn harvest to 2,844,478,000 bushels.

One of the bright spots in the crop picture was the estimated increase in sugar cane production to 6,378,000 tons, and rise in sugar beet output to 9,322,000 tons, promising to relieve the tight supply in the commodity.

Conservation Needed After the most extensive study of farmland resources ever undertaken by any nation, the soil conservation service reported that more than 90 per cent of the country's farmland was in need of treatment to protect it from erosion and maintain fertility.

More than 3,600,000 man years of labor would be required for the huge task, the service said, along with 327,441 years of motor equipment; 1,059,978 years of horse-drawn facilities, and 2,544,106 tons of seed.

Of the 417,561,000 acres of farmland now under actual cultivation, the service said that 43,000,000 should be retired because of steepness, erosion, wetness and stone.

LABORITE BRITAIN

With Great Britain and all the rest of the world awaiting the pattern of postwar life in the United Kingdom, King George VI presented the victorious Labor party's legislative program, with nationalization of the Bank of England and the coal mines heading the agenda.

At the same time, the king revealed that the war's end would not bring about a release of wartime restrictions, with the Laborites seeking power during the reconversion period to maintain control over materials and services to assure proper distribution at fair prices.

Besides nationalizing the Bank of England to promote employment and development, and socializing the coal mines as part of a program to integrate the fuel and power industry, the Laborites propose to reorganize transport; provide social security and industrial insurance; buy land for housing, and set up machinery for planning in vestments in new business.

WORLD RELIEF: Needs Boosted

With the termination of the war in the Pacific expected to multiply its problems, the United Nations Relief and Rehabilitation Administration Director Herbert Lehman declared that more than two billion dollars in additional funds would be needed to help stricken countries before their restoration of stable economies.

Speaking at the third international conference of UNRRA at London, Lehman revealed plans for coping with the Asiatic relief problem, disclosing that plans already have been formulated for the shipment of supplies to China over the Stilwell road and through coastal ports.

The London meeting was enlivened by Australia's demand to broaden the UNRRA control council to nine members instead of the present Big Four to provide smaller nations with greater representation in the allocation of funds.

FRANCE: Break Marshal

Leader of France's liberation movement, Gen. Charles de Gaulle spared the life of Marshal Henri Petain by commuting his death sentence for plotting against the internal safety of the country to life imprisonment.

Nevertheless, the jury's additional sentence of national indignity stood, imposed even after Petain's final assertion: "My thought, my only thought, was to remain with the people of France as I promised instead of abandoning them in their agony."

Most controversial French case of the century, Petain's trial found the country sharply divided, with charges on the one hand that the old marshal had delivered the state up to the Germans, and counter-charges on the other that prewar politicians were using the proceedings to whitewash themselves.

CONSUMER BACKLOG: Big Order

The American people bought nearly 23 billion dollars less of automobiles and parts, and furniture and housefurnishings in the three years, 1942-44, than they would have if these goods had been available in prewar volume, the department of commerce estimates.

In automobiles and parts actual expenditures totaled 1.8 billions, with expected expenditures under normal conditions, 16.2 billions and the deficiency in purchases, 14.4 billions.

North Magnetic Pole The first plane to search for the exact position of the North Magnetic Pole was the British Aries, which made two flights over and around the charted location on Boothia peninsula, Canada, between May 19 and 23, 1945, says Collier's. The special instruments employed indicate that this pole is some 250 miles north-northwest of the position shown on charts and maps for many years. It is still, however, nearly 1,200 miles south of the North Pole itself.

Nizer Ex-Rays a Columnist  
By LOUIS NIZER

Attorney, Author of "What to Do With Germany," "Thinking on Your Feet," Etc.

I am afraid to write this column because a columnist must have many talents.

1. He must be a humorist, whose column wears a pun-stripped suit. As for example:

Alimony is the high cost of leaving. Sex magazines are the fifth column of America.

Today we have many sulfa-conscious young doctors. True pals stick together 'til debt do them part.

He adored her and the feeling was nuptial. Time wounds all heels.

2. A columnist must be a movie and theatrical critic who can create stomic bomb devastation with a phrase. As for example:

It took the Curies 30 years to find radium; it took Sir William Ramsay 16 years to discover helium; it took this play only 2 hours to produce tedium.

3. A columnist must be a lexicographer who can invent new words which tickle the brain and surprise the eye. As for example:

Bilboorish, Rank-in-justice, Teutonic Plague, guesstimate, syndicated column, kilocyclopedia, Emperor or Fearohito, infantuation, Petainted.

4. He must be a philosopher who disguises his wisdom in simplicity so that he does not appear pretentious. As for example:

It's better to give than to lend and it costs about the same. Suggested sign for a museum: "Touch as much as you like with your eyes, but don't see with your fingers."

I am afraid of Senators who have a difficulty for every solution. Love at first sight often ends with divorce at first sight.

Funny thing about temper, you can't get rid of it by losing it. Man argues that woman can't be trusted too far. Woman argues that man can't be trusted too near.

The President has the power to appoint and disappoint the members of his cabinet.

5. He must be a religionist who realizes that religion is caught, not taught. As for example:

An atheist is a man who has no invisible means of support. The best reply to an atheist is to give him a good dinner and ask him if he believes there is a cook.

6. He must be an ironist who does not hesitate to master the art of insult. As for example:

She dresses like a bad photograph—underdeveloped and overexposed. His mind is like his farm, naturally barren and made worse by mistaken cultivation.

He is addressing his speech to posterity, but his audience will be here before he finishes.

7. He must be an economist who knows that when a theory collides with a fact, there is a tragedy. As for example:

Those who complain about rationing ought to remember that there was no sugar until the 13th Century, no coal until the 15th Century, no coffee until the 17th Century, no matches until the 18th Century and no gasoline until the 19th Century.

8. He must be an internationalist who keeps the conscience of the people boiling. As for example:

A good motto for the war criminal trials is: "The prisoners, not the sentences, should be suspended."

Don't relax. Germany has more intelligence per square head than any other nation.

International moral: President Lincoln saw a small boy carrying a child up a hill on his shoulders. He asked him whether the burden was not too much for him. The boy answered: "It's not a burden, it's my brother!"

Under fascism, the only virtue is strength. Under democracy, the only strength is virtue.

9. He must be a historian with a human interest touch. As for example:

The spelling backward craze goes back a long way. In 1808 there was a political fight over Jefferson's embargo. His political opponents ridiculed him in cartoons as "O Grab Me."

10. He must be a reporter who can reveal information kept secret even from any Government officials.

Our Army found in a German chemical laboratory a new secret gas so powerful that a drop no larger than a pinhead would kill a human being. The Nazi laboratory chief revealed that Hitler lost his nerve. He was afraid to use this weapon because he had been informed that the Chemical Warfare Division of the United States Army had even more fearful gases and in much larger quantities!

Luscious Ice Cream—Favorite Summertime Dessert (See Recipes Below)

Select Desserts Carefully

The choice of dessert should be a careful one—a light dessert if the meal has been rich and hearty; a substantial one if the menu has been on the light side.

A dessert should be the perfect close to a meal, not just something thrown in because we think there ought to be an "ending" to eating.

One of the best ways to selecting the appropriate dessert is the guide that the seasons offer. In summer we can depend upon fruits and berries, plentiful supplies of eggs, milk and cream. In winter, of course, there are some fruits, but it's a good idea to make puddings the mainstay.

Ice cream is a perfect choice for warmer weather. If you want a dressed-up dessert, you can round it out with cake and berries; for simplicity, just serve the velvety mixture with fresh berries or crushed fruit sauce.

Here is a Lemon Cream that has a piquant flavor and is a perfect close to a light, cool supper when served with fresh berries:

**Lemon Cream.**  
(Serves 6)

- 2 well-beaten eggs
- 1/4 cup sugar
- 1/2 cup light corn syrup
- 1 cup milk
- 1 cup light cream
- 1/4 cup lemon juice
- 1 cup crushed, sweetened berries

Whole berries for garnish

Beat eggs and sugar. Mix corn syrup, milk, cream and lemon juice. Add to egg mixture. Freeze in automatic refrigerator tray until just set. Beat until light. Add crushed berries. Continue freezing until firm, about 2 to 3 hours. Garnish with whole berries.

An unusual sherbert with a tang that is bound to please is the following, using ginger ale:

**Ginger Ale Sherbert.**  
(Serves 6 to 8)

- 1 tablespoon unflavored gelatin
- 1/4 cup cold water
- 1/4 cup hot water
- 1 1/2 cups sugar
- 1/2 cup lemon juice
- 2 cups unsweetened pineapple juice
- 1 cup water
- 1 pint pale, dry ginger ale

Soften gelatin in cold water; dissolve in hot water. Add sugar and stir until it dissolves. Cool; add lemon juice, water and ginger ale. Freeze in ice cream freezer until crank turns hard. Remove dasher and pack.

Let stand 2 to 3 hours before serving.

Have you ever thought of using candy as a sweetener? Here is a suggestion for a deliciously flavored dessert that uses no sugar at all.

**Lynn Says**

**Make New Things From Old:** Old wornout oil tablecloths can be made into attractive place mats by cutting them into squares with pinking shears.

If towels have faded, dye them in colors to match the bathroom. Old shower curtains can be cut down in size and used as curtains in the pantry, bathroom or kitchen.

When shades become discolored and old, they may be covered with attractive prints in cotton, cretonne or chintz to match the room's decorative scheme.

Wornout pajamas with the leg parts still good can be used to pad out the ironing board by cutting to size.

Discarded curtains make nice pot holder filler; or, they may be sewed together (six layers) after cutting, into dishcloths.

Lynn Chambers' Point-Saving Menu

- Ham and Egg Souffle
- Green Lima Beans
- French Fried Onions
- Molded Apricot-Grape Salad
- Vanilla Ice Cream with Jam Beverage
- Nut Bread

It's combined with chocolate for a flavor combination hard to resist:

**Peppermint Wafer Dessert.**  
(Serves 9)

- 1/2 pound peppermint stick candy
- 1/2 cup light cream
- 2 tablespoons unflavored gelatin
- 2 tablespoons cold water
- 1 1/2 cups evaporated milk, chilled and whipped
- 1/2 pound chocolate wafers

Crush candy; add light cream. Heat in double boiler until candy dissolves. Add gelatin softened in cold water. Chill until partially set. Fold in beaten, chilled evaporated milk. Break chocolate wafers in half and stand around outside of a 9-inch pan. Place layers of wafers on bottom; spread with 1/2 of the gelatine mixture. Top with second half of wafers and spread with remaining gelatine mixture. Chill for 12 hours. Cut in squares and serve.

Cherries are another great favorite for dessert. The family will enjoy these tarts made with either fresh or canned cherries:

**Cherry Tarts**  
(Serves 6)

- 2 cups canned or fresh sour, pitted cherries
- 6 tablespoons sugar
- 2 tablespoons cornstarch
- 1/4 teaspoon salt
- 1 1/2 tablespoons butter
- 2 tablespoons currant jelly
- 6 baked tart shells

Drain cherries. Mix together sugar, cornstarch and salt in saucepan; add cherry juice or a small amount of water (1/2 cup). Cook together 15 to 20 minutes until thickened, stirring constantly. Remove from fire; add butter and jelly. Fold in cherries. Pour into tart shells. Bake in a hot oven (475 degrees) about 5 minutes.

There are some evenings when most of us enjoy a bit of well-chilled fruit with a few crispy cookies. In this case, you will want the cookie jar full with these Orange Honeys that taste better as they mellow:

**Orange Honeys**  
(Makes 7 1/2 Dozen)

- 3 cups sifted flour
- 3 teaspoons baking powder
- 1/2 teaspoon salt
- 1/2 cup shortening
- 1/2 cup sugar
- 1 egg
- 1 teaspoon vanilla extract
- 1 cup honey
- 1/4 cup chopped nuts
- 1/4 cup chopped candied orange peel
- 1/4 cup chopped candied lemon peel

Sift together flour, baking powder and salt. Cream together shortening and sugar until light and fluffy. Add egg and vanilla extract. Beat well. Add flour mixture, nuts, orange and lemon peels to creamed mixture. Mix well. Drop by teaspoonfuls into well greased baking sheets. Bake in a moderate oven (375 degrees) for 10 minutes.

**Margarites.**  
(Yield: 2 1/2 dozen, 2 inches in diameter)

- 2 eggs
- 1 cup brown sugar
- 1/2 cup flour
- 1/4 teaspoon baking powder
- 1/4 teaspoon salt
- 1/2 cup chopped nut meats
- 1/2 cup whole bran

Beat eggs slightly; add remaining ingredients in the order given. Fill small buttered pans 2/3 full of mixture. Bake in a moderate (350-degree) oven about 15 minutes. Cool slightly before removing from pan. Dust with powdered sugar.

Household Hints

Wash burners on gas stove once a week in a solution made of one gallon water, two tablespoons washing soda and soap flakes. Rinse and dry well.

Don't throw away lemon and orange skins. Bake them in a moderate oven until very crisp. When cold grate or grind them and store in a well corked bottle. A pinch in a pudding or cake makes a great improvement.

Moderate heat should be used to preserve the life of your porcelain enameled utensils. When the contents have reached the boiling point, the flame may be lowered even more. This is a fuel saving tip also.

Keep cooked meat covered. Chopped and sliced cooked meats spoil more quickly than meat in the piece. Cut or chop just before using. Keep meat sandwiches and salads cold right up to time of serving.

Put a few pieces of charcoal into glass in which aacin bulb is planted to keep the water sweet.

**That Nagging Backache**

May Warn of Disordered  
Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strains on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!
