Lions Club News

At last week's Lions Club meeting the attendance was still up to the 80% set at the first meeting of the attendance contest. Also several visitors were present including one new Lion. Next week's meeting will be at 7:15 p. m. Lions J. R. Hall and Walter Hughes have charge of the program and it should be a good one. This week the directors of the club will meet. Several items of importance will be discussed.

The rain last week end interfered with the County Fair's number of exhibits as well as the attendance. Visiting the exhibit Saturday, we noted a first place ribbon on Charles N. Johnson's painting of a palomino horse, also several other ribbons in the Hedley booth on tomatoes, pumpkin, etc. We hear that Jimmy Owens won first, second and third place in the Duroc gilt show.

The Fort Worth and Denver train schedule has been changed as follows:

Northbound, 7:38 a. m. and 8:39 p. m.

Southbound, 1:45 a. m. and 12:51 p. m.

We are glad to again be mailing Tom Stotts' Informer to Giles instead of an APO address.

Begin planning now to make your contribution to the USO campaign. Community committees will be announced next week.

HEDLEY BOY SERVES ON USS SOUTH DAKOTA, NIMITZ' FLAGSHIP

On the USS South Dakota off Japan—Fred L. Hutson, 23, coxswain, USNR, son of Mr. and Mrs. John L. Hutson, Hedley, is serving aboard this battleship, which was one of the first to enter Tokyo Bay for the formal capitulation of Japan and which was used by Fleet Admiral C. W. Nimitz, Commander-in-Chief, Pacific, as his flagship for the occasion.

The South Dakota fired the first salvo of the first bombardment of the Japanese homeland when it blasted the steel center of Kamaishi on July 14. Then she struck Honshu, Hokkaido, northern Honshu, the Kobe-Kure area, Hamamatsu and made a return visit to Kamaishi. The battleship fought at Savo, Saipan, Iwo Jima and Okinawa.

News From Our Men In Service

The following letter is from Pfc. Edward Shields, son of Mr. and Mrs. A. F. Shields, who has been serving with the First Marine Division on Okinawa. He was wounded in the leg earlier in the war in action on Guam.

Dear Mother, Dad and family; Will answer your letter. Really was glad to hear from you all and to know that you all are making it fine. Well, this leaves me fine except my leg. I have been having a little trouble with it. I went to the doctor this morning. He said I had a nerve shot in it. That schrapnel that hit me like to tore my leg off. It tore my pants off me and my pack. The shell hit right on our machine gun and tore it all to pieces. I sure thought I was dead, but I made it out of that place. I was dragging my leg and bleeding like a stuck hog. The people back in the States don't realize what war is like. They have no idea. Out of 250 men in our company there were only 4 men left. The rest of them were wounded or killed. I saw men that were torn all to pieces, and we ate our C ration right over dead Japs and the old green flies all over everything.

There were two Japs came out of a cave and I was playing with that old Jap rifle and that was all I had. I let them have it with it and they went to meet their an-

cestors. Say, when it gets home tell Dad to clean the rust off it for me and take good care of it. I wouldn't take for it. Well, I have got to go, so answer real soon. From the one who is always thinking of you.

With love,
Ed

WHAT DOES OUR HOME TOWN NEED?

The week of October 22nd has been designated by Lions International as "What does our home town need week."

Thinking people generally are aware that we face a critical period in our history. Towns and cities make a nation, and if the towns and cities are progressive and prosperous.

We live in a community with the potential ability to better itself. Each person has his own basic needs, mental satisfaction and emotional desires. Some of these desires, satisfactions and needs can be met by his own efforts. Others can only be gratified by cooperative or public action.

This paper would like to hear from its readers. Just let us know of your ideas in regard to something that would be a benefit to the town and community and if possible a solution to the problem. We will be glad to keep this column open for the things our home town needs as long as you wish to send in your ideas.

Double Wedding

An informal double wedding ceremony uniting Miss Peggy Zoe Stotts and Sgt. Johnny V. Rowan and Mrs. Yvonne de Vlaming and Sgt. William Wall was held at the Saint Anthony Hospital in Amarillo Saturday, Sept. 29.

The double ceremony, held at the hospital due to the illness of Mrs. de Vlaming, was read by the Rev. Lloyd Jones, pastor of the Buchanan St. Methodist Church in Amarillo. Mrs. Victor Smith was the only attendant.

Peggy Zoe wore a powder blue gown with brown accessories. Mrs. de Vlaming was attired in black. Both wore shoulder bouquets of carnations and talisman roses.

Peggy Zoe, daughter of Mr. and Mrs. H. Stotts of Hedley, graduated from Hedley High School with the class of 1944. For several months previous to her marriage she had been employed as a nurse in the Clarendon Clinical Hospital at Clarendon.

Sgt. Rowan is the son of John J. Rowan of Staten Island, New York. He attended Manhattan College and is a graduate of Columbia University. He has been in the army nearly four years and served sixteen months overseas. Before entering the armed forces he was an attorney at law in New York City.

Mrs. Wall is the daughter of Mr. and Mrs. Victor Smith of Clarendon and Sgt. Wall is the son of Mr. and Mrs. Daniel Wall of Long Island, New York.

Mrs. Rowan is staying in Hedley until such time as Mrs. Wall is able to travel, when they plan to join their husbands, who are stationed at present at Chanute Field, Ill.

SNAPPY FACTS
about
RUBBER

A U. S. Senator traveling in the West stopped to help a young lady change a flat tire. The flat developed a friendship that blossomed into marriage.

Soap is one of the important manufacturing agents of synthetic rubber. A. F. Goodrich has developed a synthetic rubber using a resin soap derived from Southern pine trees that is a great improvement over ordinary synthetic.

Demand for passenger car tires will total about 70,000,000 casings in the first year after the war and the new cars and replacements.

WORKS WONDERS FOR MRS. WILLIAMS

NASHVILLE, TENN.—A recent letter from Mrs. Johnny Williams of Nashville, Tennessee, to the Faultless Starch Company reveals an important time-saving ironing secret. Here is what Mrs. Williams wrote:

"For the past three years I have been doing my own laundering. Last week I decided to give Faultless Starch a trial. It certainly made my ironing easier and I finished in almost half the time. I shall never stop praising Faultless Starch; and I am telling all my friends about it. It sure worked wonders for me."

Would you like to save half your ironing time, like Mrs. Williams does? We certainly can't promise it, of course, because you surely iron with a different iron and in a different way—but you can't lose anything by trying Faultless Starch. And it may help you save time, just as it has Mrs. Johnny Williams.

EASY, BEAUTIFUL IRONING
There is an important reason why Faultless Starch makes ironing so easy. You see, Faultless Starch contains ironing-aids, already mixed in, that keep the iron from sticking. No more fighting a "sticky" iron. No more pushing or pulling at the end of each stroke. Your iron just slides along smoothly and beautifully. No wonder Mrs. Williams found she could save half her ironing time.

YOU DESERVE FAULTLESS
Why should you go on fighting a "sticky" iron, when Faultless Starch can make your ironing so easy? Why tire yourself out when Faultless Starch can help save your back, your arms, your legs? Why work so hard when Faultless Starch can make it so easy to do beautiful ironing? Just ask your grocer for Faultless Starch—and use it. Then you'll know why Mrs. Williams says it "works wonders" for her.—Adv.

WEEKLY NEWS ANALYSIS
CIO Strives to Maintain High Pay Level in Postwar Industry; Act to Spur Building Activity

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of the author.)

Facing tough winter in war-torn Austria, Viennese scratch for future provisions. At left, woman is shown picking up stray grain in harvested field, while at right another woman is pictured carrying home wood found in shelled forest.

LABOR: Seek Peace

Armed with emergency powers, Secretary of Labor Lewis Schwellenbach moved into the troubled industrial front, where CIO demands for appreciable wage boosts threatened to retard the reconversion program and jeopardize stabilization policy.

Schwellenbach faced no easy task, what with the strategic oil, automobile, farm equipment and steel unions striving for wage readjustments to bring 40-hour-a-week pay up to wartime overtime levels, and major producers bucking the demands in the face of rigid price control.

In all instances, CIO demands for substantial wage boosts were predicated on the claim that the big companies had made sizable wartime profits and could use the money to defray part of the increases until peacetime production could be re-established on a volume basis.

While oil workers already had walked out of midwest refineries in a strike that threatened to spread and imperil the national fuel supply, principal interest continued to center in the troubled automobile situation, where the United Automobile Workers headed by R. J. Thomas laid plans for enforcing their demands for a 30 per cent wage increase by walking out on individual companies and leaving their competitors free to invade their markets.

In assuming command of a labor department strengthened by the inclusion of the War Labor Board, war manpower commission and United States employment service, Secretary Schwellenbach planned to proceed slowly before exerting emergency powers, first exhausting ordinary procedure.

PACIFIC: MacArthur Disputed

Taking sharp difference with Gen. Douglas MacArthur's declaration in Tokyo that only 200,000 American troops may be needed for the Japanese occupation, Pres. Harry S. Truman feared for its effect on army demobilization plans and Acting Secretary of State Dean Acheson said that at this time it was difficult to forecast the eventual size of the force.

Basing his estimate upon the Japs' wholehearted effort at co-operation with his command, MacArthur's latest figure of 200,000 was a sharp reduction from the 400,000 recently projected and the 900,000 at first thought necessary. In making his statement, MacArthur said that the Japs' execution of his dictates through their governmental framework relieved the U. S. of establishing an elaborate military authority to perform the same tasks.

In seeking to offset expectations that MacArthur's announcement might lead to speedier demobilization, President Truman declared the program was not dependent upon occupation needs.

Speaking for the state department, Acting Secretary Acheson asserted that the ultimate size of the occupation force will depend upon the scope of the job of eradicating the whole Jap war-making economy.

DEMOBILIZATION: Point Cut

Asserting that no man would be kept just to maintain a big army, Gen. George C. Marshall revealed a stepped-up demobilization program providing for a further decrease of discharge points to 60 on November 1 following the October 1 slash to 70. At the same time, the total necessary for officers was to be cut to 75.

Marshall reviewed demobilization plans at a meeting with 300 congressmen at which he also affirmed receipt of General MacArthur's estimate of an occupation force of only 200,000 for Japan by next summer. Though MacArthur had reduced his estimate, Marshall said, General Eisenhower's figure of 400,000 for Germany remains the same.

Declaring that the present rate of releases has been determined solely by the availability of discharge facilities, Marshall said that all G.I.s without useful army work would be freed within three to four weeks. With the exhaustion of high point men by late winter, the army may further alter its demobilization program by releasing all men with two years of service.

POSTWAR BUILDING: Lid Off

With removal of all building controls, government agencies bent themselves to the task of speeding up construction and at the same time keeping costs within bounds to head off an inflationary boom during the reconversion period.

As experts looked for the erection of 500,000 private dwellings next year and a peak of 800,000 in 1948, officials sought to increase the supply of scarce building materials, permitting wage and price boosts and priorities to break bottlenecks, if necessary. Inventory controls also were to be strengthened to prevent hoarding and creation of artificial shortages.

RETAIL PRICING: Absorb Increases

Declaring that up to now retailers have not been squeezed by price control, OP Administrator Chester Bowles reiterated government policy that dealers would have to absorb any increases in manufacturing costs in the reconversion period.

Rejecting a plea of a retailer group that such absorption would be uneconomic and unfair, Bowles said that dealers' markups were not reduced during the war, and records show that profits soared under increased volume and lower operating costs. Whereas the profit margin of department stores stood at 1 1/2 during the 1933-'39 period, it reached 12 per cent in 1944, he said.

Under OPA's pricing policy for manufacturers for the reconversion period, some increases will be permitted to allow for higher labor and material costs. Profit margins will be held to half the industry-wide average for larger businesses or prewar levels for smaller firms, however.

Industry Takes Kindlier View of Oldsters

Because of their generally fine performance while "pinch-fitting" during the wartime labor shortage, older workers will find employment opportunities much broader in the postwar era than in prewar years, Northwestern National Life Insurance company found in a survey.

Hard-and-fast age limitations existing in the prewar era were pretty thoroughly broken down during the

Active Land Mines

Since V-E Day, a total of about 1,000 civilians a week have been killed by land mines planted by the Nazis in France, Italy, Belgium and the Netherlands. As only 5 per cent of the 115,000,000 mines that were buried in these countries have been located so far, from three to five years will be required to remove all of them.

Kidneys Must Work Well

For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, stinging or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

POST-WAR FLYING IN YOUR HOME TOWN
 By C. C. CAMPBELL, Member, Aviation Writers Association, Washington, D. C.

Freedom of Personal Flight
 The development of aviation has been so rapid that many of the rules and regulations made only a few years ago to govern it, are already obsolete.
 "Not only are many restrictive regulations considered needless in these days of advanced mechanical controls and vastly improved operating facilities," says Joseph T. Geuting Jr., manager, Personal Aircraft Council, "but it is contended that they endanger the whole future of flying in America by preventing many people from flying."
 In order to call this situation to the attention of the country and to Congress and Washington aviation officials, the Council has drawn up a statement of policy on the "Freedom of Personal Flight."
 Just as the airplane has made tremendous technical and operational strides during the war years, the Council points out, it is now necessary for the rules of flying to be simplified and advanced in proportion.
 The airplane's most important role in the future may very likely be as a private conveyance of the ordinary citizen, similar in social and economic importance to the automobile, it is asserted. Yet the Civil Air Regulations up to now have taken little cognizance of the personal plane or its ownership and operation by folks like you and me. Instead, many of the rules governing fast

Joseph T. Geuting Jr.

commercial flights of passengers and cargo were applied to those flying small, private airplanes. Naturally, as they now stand, they just do not fit any more than rules and regulations written for bus and truck operation would fit personal automobile operation. Fortunately, regulations now are being revised to do away with a great deal of needless and time-wasting procedures and requirements.
 Among the points which the Personal Aircraft Council makes are: 1. the air is free; 2. airspace should be available to all persons for all purposes of air travel; 3. ownership and operation of an airplane should not be restricted to any greater degree than is the comparative use of an automobile. The statement of policy also calls for termination of special clearance, flight plan, and other "paper work"; and that no airport built partly with public funds should be permitted to exclude any type of air traffic, unless special fields are provided for such excluded craft.
 Other recommendations would make the right to pilot aircraft dependent solely on proof of ability to fly with reasonable skill, and would waive many of the difficult but unnecessary qualifications for pilot certification for personal flying. Changes in traffic rules are also advised.
 It seems unlikely that any one will take issue with the purpose of the suggestions, which is to make personal flying simple and easy within reasonable bounds and thus advance the whole progress of America's aviation.
 This is the second of a series of articles on post-war flying and its effect on community life. The next article "On the Air Map" will appear in an early issue.

Mail G.I. Christmas Gifts Overseas Early

CHRISTMAS packages going to servicemen still overseas must be mailed early again this year, advises Marjorie Griffin, Rural Home editor of Capper's Farmer.
 "Lists to Santa Claus from overseas servicemen are already on their way home," she writes in the nationally circulated magazine.
 "Family photographs head many requests as always. Next come canned snack foods, such as nuts and olives. Books, writing portfolios, service watches, good pipes, pens, engraved identification tags and waterproof wallets rate high also.
 "Mailing regulations are similar to last year. Packages must be mailed between September 15 and October 15. Boxes must be metal, wood, solid fiberboard or strong double-faced corrugated fiberboard. Newly available will be boxes 10 by 6 by 4 inches; these will be stronger than many previously used.
 "Letters from your own overseas service folks will be the final guide to gift selection."

Take Care of Pans

With a little attention, kitchen utensils will serve you well for years. But if they're carelessly banged around and neglected, you'll soon be ashamed to use them, declares the Rural Home editor of Capper's Farmer, whose advice on household matters is read by 1,250,000 farm families. In general, put pans in to soak after using them. Run cold water into those used for egg and flour mixtures; hot water will set them, making food particles hard to remove. Greasy or sugary pans should be soaked in hot water.

Household Hints

A small pie pan comes in handy placed in the drawer of your range or other conveniently located spot. When you are cooking, let it hold stirring spoons, testing forks, and the like. Makes clean-up easier.

A gum eraser is excellent for removing spots from dark suede accessories. Brush thoroughly after using.

It's a good idea to cover labels on medicine bottles with a coat of colorless nail polish. Then should medicine spill over the labels, directions won't smear.

Garden Flowers for Gay, Cozy Kitchen

IT IS all a myth that your new kitchen must be cold and clinical. It may be as gay and cozy as you like and your modern equipment will settle right down and be perfectly at home. So, if you have ever wished that you could have bright flowers on your cupboard doors, drawer fronts and canisters, go right ahead. You

can even have them twining around the window and door frames and on the furniture. What is more, you can paint them yourself with the painting pattern shown here and have a lot of fun doing it.

These garden posies are of the type used in all peasant art—simple in design, gay in color. All you have to do is to trace the outlines from the pattern and then fill them in following the color guide. The pattern may be used over and over, and there are motifs of different sizes. You may want to use them for decorating tin trays, boxes and gifts for Christmas too. A list of materials and full directions are included.

Note—This Garden Flower Painting Pattern may be obtained by sending 15 cents with name and address direct to:

Tomatoes, Mushrooms, Eggs and Rice Cakes Make Good Lunch

A tomato treat that's hard to beat is this one in which cottage cheese is used for stuffing. Frilly sandwiches can be made by spreading thinly sliced bread with mayonnaise, seasoning the lettuce and rolling up the bread.

Lunch is often one of the most neglected meals of the day because the whole family is not at home to eat it. Then, too, many homemakers feel they just don't want to bother fixing something palatable and attractive.

But, let's look at it this way. Lunch, according to nutritionists, should contain at least one-third to one-half the day's calories, and the proper balance of proteins, carbohydrates, vitamins and minerals. This doesn't mean that you have to spend a lot of time preparing this noon-day snack, because, chances are, there are plenty of things in the refrigerator, ready to be made into satisfying, nourishing lunches.

Now that food rationing has eased, it might be a good idea to invite friends in for a quick lunch; or, better still, have a plan whereby you invite four to six people over for noon-time, and then have everyone take turns having each other to luncheon. It's a neighborly way, and you will be sure to get into better luncheon habits this way.

Here is a colorful salad plate that makes a quick and easy lunch. It looks pretty, too, on gay, informal plates.

Stuffed Tomato Salad Plate.
(Serves 6)
6 large tomatoes
½ pound cottage cheese
1 cup chopped cucumber
3 tablespoons real mayonnaise
Parsley
Scallions
Lettuce rolls

Section tomatoes to within ¼ inch from bottom. Mix cottage cheese, cucumber and real mayonnaise. Fill tomatoes. Serve with scallions and lettuce rolls. The rolls are made by spreading thinly sliced white bread with mayonnaise and then placing a lettuce leaf on each slice. Sprinkle this with salt and pepper. Roll up and fasten with a toothpick.

Occasionally we all have some leftover rice in the refrigerator, possibly after a chop suey dinner the night before. What a beautiful, crispy, golden brown rice cakes for lunch, served with apricot jam or marmalade, and some spinach made delectable with a cream sauce. There you have nourishment plus in addition to a colorful and contrasting menu.

Rice Cakes.
(Serves 6)
2 cups cooked rice (½ cup uncooked)
1 beaten egg
2 tablespoons flour

Lynn Says

Hints for the Home: Sugar bags make good dishcloths. Cut, hem and launder before using. A dishwashing apron is easy to make out of oil cloth. Cut to pattern, bind the edges and you will have a water-resistant apron. Old pillow cases are excellent for protecting the tops of clothes while they hang in the closet. Use this tip for putting away out-of-season clothes.

Odd bits of linoleum make nice covers for kitchen or laundry table and may even be used as shelf covering.

Old socks are excellent for applying wax to furniture; they may be used for cleaning silverware, too.

If you are crowded for space, build a blanket bin across the narrow end of a hall, underneath the windows. This is good to use in storing clothes, too. Fold the latter in clean tissue paper to prevent wrinkling.

*Country Omelet
*Swiss Spinach Rye Bread
Asparagus Salad With Cheese Dressing
Prune Cake
Beverage
*Recipe given.

1 tablespoon melted butter
1 teaspoon salt
Dash of pepper
1 teaspoon sugar

Mix all ingredients together in order given. Drop by spoonfuls onto hot, greased griddle. Sauté until golden brown on each side, turning only once.

*Swiss Spinach.
Into 2 cups of finely chopped spinach, blend ½ cup very thick, well-seasoned white sauce (flavored with onion and a dash of nutmeg), just enough to hold spinach together.

Eggs can always pack a nutritional punch into lunch and still keep a meal on an economical plane. You'll like both of these suggestions, one served hot, the other crispy cold!

Sunshine Egg Salad.
(Serves 6)

8 hard-cooked eggs
1 cup finely diced celery
¼ cup salad dressing
1 teaspoon Worcestershire sauce
1 tablespoon lemon juice
1 teaspoon scraped onion
Salt and pepper
Celery curls
6 thick slices of tomato
Salad greens

Chop eggs, but not too fine. Add celery, dressing and seasonings. Season to taste with salt and pepper. Press into molds, and chill before serving. Unmold each on a slice of tomato in a bed of salad greens. Garnish with celery curls, paprika and additional salad dressing, if desired.

*Country Omelet.
(Serves 5)

2 cups diced, cooked potatoes
3 slices bacon
¼ cup minced onion
4 eggs, separated
2 tablespoons top milk
1 teaspoon salt
¼ teaspoon pepper
1 tablespoon chopped parsley

Brown potatoes, bacon and onion together in a frying pan. Cool. Beat egg yolks slightly, add milk, salt, pepper and chopped parsley. Beat whites until stiff and fold into egg yolk mixture. Heat frying pan, add 2 tablespoons shortening into the pan. Pour in egg mixture. Cook over low heat until lightly browned on bottom (about 15 minutes). Brown top slightly under broiler and serve.

There's a surprise in store with mushrooms de luxe that will make guests ask for more. An all vegetable luncheon like this is served with a smooth, creamy mayonnaise sauce made by mixing mayonnaise and milk and heating together.

An easy, point-free luncheon is made with mushrooms and served with vegetables. It takes only about 20 minutes to bake.

Mushrooms De Luxe.
(Serves 6)

12 large mushrooms
¼ cup dry bread crumbs
1 tablespoon chopped green pepper
1½ tablespoons chopped onion
1 teaspoon chopped parsley
1½ teaspoons salt
¾ teaspoon pepper
½ cup real mayonnaise
½ cup milk

Wash mushrooms, remove stems and chop. Mix chopped stems, bread crumbs, green pepper, onion, parsley and seasonings. Brown in 2 tablespoons of the mayonnaise. Fill mushroom caps. Bake in a moderately hot (400-degree) oven 20 minutes, or until tender. Serve with vegetables and mayonnaise sauce, made by heating remaining mayonnaise with ½ cup milk and cooking until smooth. This is cooked over low heat, stirring constantly, 5 minutes or until hot.

A dressing for tomatoes, equal to none, is made by merely sieving well ripened avocado and seasoning with lemon juice and garlic salt. This will reduce the pressure on hard-to-get salad oil, ordinarily used for dressings.

Frozen Lemon Pie Is Toothsome Dish

FROZEN lemon pie is a toothsome dinner dessert for the family that's been working hard all day, says the Country Cooking editor of Capper's Farmer.

Graham cracker crumbs are crust and topping for the chilled yellow filling, she writes in the nationally circulated farm magazine. Pie-shaped pieces are made by cutting diagonally across the refrigerator tray in which pie is frozen.

The dessert which will be an ever-popular family favorite, serves 8, the Capper's Farmer expert advises.

FROZEN LEMON PIE
Eggs, separated
1/2 c. lemon juice
Rind of 1/2 lemon
1/2 c. sugar
1 c. evaporated milk, whipped
1/2 c. graham cracker crumbs
or, cookie or cake crumbs

Beat egg yolks; add lemon juice and piece of rind sliced from lemon and all but 2 tablespoons of the sugar. Cook over low heat 15 minutes, stirring constantly. Remove rind and cool. Beat egg whites until stiff; add remaining sugar and fold into cooked mixture. Add whipped evaporated milk. Line refrigerator tray with waxed paper. Sprinkle with 1/4 cup of the crumbs. Pour in lemon mixture; sprinkle with remaining crumbs. Freeze with temperature set at coldest. Serves 8.
