NOW IRONING IS A JOY, NOT A DREAD

FUKA, MISSISSIPPI.—Mrs. Florence Solomon has discovered a wonderful relief for "ironing day blues." Here is what she said about it to Faultless Starch recently:
"I used to dread ironing day so much, but after I began using Faultless Starch, ironing is a pleasure instead of a dread."
Do you dread ironing day, too? If you have to iron with a "sticky" iron, no wonder! Your arms get tired, your back aches, your neck aches, your legs ache. It's mighty hard work to iron when the iron sticks at the end of each stroke. But you don't HAVE to iron with a "sticky" iron. Just change to Faultless Starch and iron with a smooth, slick iron that just flies along!

AMAZING EASY IRONING There's a simple reason why Faultless Starch makes ironing easy. You see, it is made a special way. One of the special things about Faultless Starch is that it contains ironing-aids, already mixed in, that make it easy to go smooth, beautiful ironing. No more "sticky" iron!

EASY TO MAKE THIS STARCH But that isn't all. You know how busy you are on washday. Then you have to stop and take out ten or fifteen minutes to make hot starch. But not when you use Faultless Starch! You make Faultless Starch in barely a minute—NO COOKING! Just crum it with a little cool water, add boiling water while stirring and presto! you're through! Start on starch!

You deserve the wonderful advantages of Faultless Starch. NO COOKING! NO "STICKY" IRON! So ask your grocer for Faultless Starch. Give all your wash-day absolutely faultless look!

WOMEN '38 to '52 are you embarrassed by HOT FLASHES? If you suffer from hot flashes, feel weak, nervous, hysterical, a bit blue at times—due to the functional "middle-age" period peculiar to women—try this great medicine—Dr. E. Crises in China and Indies Threaten Peace in Far East; Foresee Substantial Wage Gains

Released by Western Newspaper Union. These editorials, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

Given noisy welcome by populace, marines arrive in Tientsin, China, to occupy port after Jap surrender. As crowds cheer, their leathernecked enjoys spin in bicycle rickshaw.

FOREIGN POLICY: Regional Security

Though Japan has laid down her arms, peace has not yet come to the Pacific, what with Chinese nationalists and communists at swords points and Indonesians seeking their independence from Dutch rule. U. S. troops stood in the middle as Chinese nationalists squared off against the communists, with marines guarding the vital coal mines and rail route around the shipping port of Chinwangtao in the troublesome northern zone.

Heretofore, the communists have considered this territory their special domain, and until Chiang Kai-shek's troops set foot upon it after disembarking from U. S. vessels, no nationalist forces had ever challenged Red control there. While the communists withdrew in the face of nationalist landings at Chinwangtao, they remained active to the west, cutting rail routes over which Chiang could deploy his armies.

With the U. S. supporting the nationalists and the Russians having recently promised to keep hands off of Chinese politics, Chiang has enjoyed every advantage in his effort to extend his domination over the country. While his representatives have haggled with the Reds over terms in Chungking, Chiang has cleverly pressed his edge in the north.

Meanwhile, natives of the East Indies, led by President Soekarno of their recently established republic, looked to conference with Allied authorities to clear their claims for independence. Strongly organized early this year when the fortunes of their Jap conquerors began falling, the Indonesians presently represent a formidable trouble-making force hoping to browbeat the Dutch into terms.

The Mr. Big of the independence movement, Soekarno was kept busy trying to quell Indonesian hot-heads whose outbreaks threatened his control of the situation and promised to weaken his hands in dealing with the Dutch.

WAGE POLICY: Labor Sees Gain

Though President Truman left the way for reconversion wage settlements up to the collective bargaining of employers and unions, labor looked to the administration program to pave the way for substantial pay increases within the stabilization structure.

By appealing for maintenance of high wartime "take-home" pay, and declaring business well able to absorb the added costs, or eligible for moderate price increases, Mr. Truman was seen to apply pressure on management at a time when attention is being focused on the all-important wage negotiations in the automobile, oil and steel industries.

In enunciating his reconversion wage policy to a radio audience estimated at 32,000,000, the President did so only after administration consultations with both big business and labor leaders. As a result of one of these conferences with Henry Ford II, government officials expressed confidence a satisfactory settlement could be arranged in the

FARM PRICES:

Substantial gains in prices received by farmers for truck crops, grains and cotton were primarily responsible for a two-point upturn in the general level of prices received by farmers to 199 per cent of its August, 1909-July, 1914 average in mid-October, the department of agriculture reported. October parity prices reached another new 25-year high as prices paid by farmers for commodities, interest and taxes, advanced.

"IS THAT IN THE RULE BOOK?"

Whether it's football or business, Americans expect fair play all down the line.

In football, the referee is there to see that the game is played according to the rules. But he's not supposed to run with the ball.

In business, the referee is the government, which establishes regulations and fair practices.

But when government goes into business and competes with its own citizens, the American tradition of fair play is set aside. The referee then becomes a player, and he enjoys advantages that are denied to all the other players in the game.

Government-owned electric power systems, for example, pay no taxes. When they need capital, they get your tax money at little or no interest from the U. S. Treasury. To cover operating losses—an accepted political condition—you, as a taxpayer, will take care of that.

Business-managed power systems—unlike tax subsidized political methods—do not have these special privileges. They are not tax dodgers, they pay their full share of taxes, pay fair interest on public loans. Fortunately for you and your tax bill, over 80 per cent of all the electric power in this country is produced by tax-paying, self-supporting electric companies, owned and operated by several million folks like you.

When Your Back Hurts

And Your Strength and Energy Is Below Par
It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove stone acids and other waste matter from the blood.
You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.
There should be no doubt that prompt treatment is wise in this respect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested for many years. Are at all drug stores. Get Doan's today.

Try Making Cough Syrup at Home. Quick Relief

Saves Big Dollars. No Cooking. No matter what you usually use for coughs due to colds, you'll be more than surprised when you make up this simple home mixture and give it a trial. You'll wonder why you never used it before. It certainly does the work in a hurry.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's no trouble at all. Or you can use corn syrup or liquid honey, if desired.

Get from your druggist 2½ ounces of Pinex. Pour this into a pint bottle and fill up with your syrup. This makes a full pint—a family supply—and gives you about four times as much for your money. It tastes fine, and never spoils. Children love it.

And for quick action, you've never seen its superior. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easier, and lets you sleep. Pinex is a special compound of proven ingredients, in concentrated form, a famous reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.—Adv.

HOUSEHOLD MEMOS by Lynn Chambers

It's Roast Turkey Time Again! (See Recipe Below)

Time for Thanks

The first peacetime Thanksgiving in America for several years can really be a thankful one. It sees loved ones coming home to be with their families once more. The family cupboards, though bare in almost every other country, are full here. Yes, it can really be a thankful Thanksgiving.

Thanksgiving is a very "homey" sort of holiday. Families and neighbors gather and share their year's harvest. The food, too, is of the homey type: Mr. Turkey, proud, plump and bursting with good stuffing; crisp, crackly cranberries; hot, fluffy rolls; relishes fresh from the cupboard in the cellar; and, of course, the crowning touch, pumpkin pie, shiny and plain or topped with whipped cream, if you wish.

One of the nicest centerpieces for a Thanksgiving table is made of fruit. There are rosy-cheeked apples, golden-hued pears, flaming oranges, all woven with strings of cranberry and clusters of grapes. Yes, pretty, and good to eat, too!

An easy way to serve is to have cups of chilled cider in the living room before the serious business of dinner begins. Don't forget to pass crackers, salted nuts, and relishes with the first course. Or, if the weather is a mite chilly, try hot cups of tomato juice, spiced up with a bit of lemon juice. These will help break the ice and bring the folks to the table in a jovial mood.

How to Prepare Turkey.

Since the bird by holding over a flame. Remove pin feathers with knife or tweezers. Remove oil bag from tail.

If internal organs have not been removed by the butcher, make an opening carefully under one of the legs, or at the vent, and remove them carefully, taking care that the gall bladder which lies near the liver is not broken. The intestines, gizzard and liver should all be removed together.

The lungs and kidneys which lie near the backbone must also be removed. Clean the gizzard by cutting through to the inner coat, half way around, take off the outer coat and remove the bag which is inside.

The giblets, which are the gizzard, liver and heart, should be washed carefully, placed in cold water, heated quickly and cooked until tender.

Wash the bird thoroughly inside and out, and rub the body cavity with salt before stuffing. Fill lightly with dressing.

To truss the fowl (this is done after stuffing) tie end of skin of neck with string, leaving two long ends to pull it over the back. Turn wings

LYNN SAYS

Let's make good piecrust: Excellent pastry is the result achieved from careful measurements and little handling. A good, standard proportion is 1 cup flour, ½ cup fat, and ¼ teaspoon salt. For double this recipe, not more than ½ cup of cold water should be used.

All ingredients should be well chilled before working. This is especially important when the fat is being worked into the flour. In this case the fat does not melt, but is rather coated with the flour, and the method makes for flakier pastry.

If too much water is added, the manipulation necessary to shape the dough and roll it out develops the gluten. This makes a sticky dough and tough crust. If too little water is added, the crust is crumbly rather than flaky because there is not enough moisture to bind the crust.
