## Basketball News

Tuesday night the Hedley Boys lost a close hard fought game to Samnorwood by the score of 19 to 13. Huffman and Everett were the high point men for Hedley. Sims missing from the lineup was sorely felt. The Junior boys lost a so by the score of 17 to 12. However the Hedley girls redeemed the boys losses by nearly doubling the score of the Samnorwood girls. The girls looked exceptionally good in the last half of the game and if they keep this up should win many more games.

Thursday night the Hedley boys enter the Claude Tournament where they will meet some of the best Class B, A and AA teams of the Panhandle. Let's all pull for them to bring back a trophy.

Let C. E. Johnson, manager of the Hedley Telephone Co., write your fire and hail insurance.

## Security State Bank Stockholders Meet

The Security State Bank held its annual stockholders meeting last Tuesday. All the old officers and directors were re-elected. They declared their regular 5% semi-annual dividend, making 10% for the year, also a salary bonus to their employees of a like percent. During the year the bank added approximately \$8,000.00 to surplus and undivided profits account making a capital structure now of Capital, \$35,000.00; Surplus, \$26,000.00; Profits, \$12,779.42; Reserves, \$1,000.00; total, \$74,779.42. Many banks in much larger communities have less capital structure than this and this should enable the bank to take care of the needs of the community under any circumstances. Deposits show \$589,788.68 the largest in the bank's history.

## Guy Wright Announces For Re-election

In announcing my candidacy for re-election for Sheriff-Assessor and Collector of Donley County, I wish first to thank my friends and supporters for their faithfull and whole hearted cooperation in the past.

Without your help effective law enforcement would not have been possible. With your continued support we can bring lawlessness in Donley County to an absolute minimum. With the end of the war a reality now, state and federal authorities predict a sharp increase in crime. To combat this menace to society, men of experience and training will be urgently needed.

My record is open to the public. The public is cordially invited to visit my offices at any time. We are happy to serve you when you are in need.

I am not a member of any set or clique and am running strictly on my own merits. If re-elected I promise all a fair, honest and conscientious administration.

I hope to see each and every voter before the Democratic primary.

Respectfully submitted,  
Guy Wright

**SERVICE MERGER: On Way**

With President Truman throwing his full weight behind a merger of the fighting services, early congressional action on unification of the army, navy and air forces was foreseen.

Meanwhile, rougher sailing loomed on the chief executive's proposal for compulsory military training for youths 18 to 20 years of age to build up an experienced reserve adequate to meet future emergencies.

In casting his lot for the merger of the armed forces after strenuous naval objections to unification, Mr. Truman called for a single department of national defense under a civilian head, with assistants for the various branches, and a military chief of staff, with commanders from the three services. The military leaders would join with the President in an advisory council.

Maximum efficiency would result from unification, the President declared, because close co-ordination would acquaint each branch of the armed forces with the capabilities and limitations of the others, and economy would be achieved by eliminating a duplication of effort and supply.

**FARM BUREAU: Discuss Parity**

Despite imperfections in the present parity formula, American farmers were urged to retain the system by Secretary of Agriculture Anderson in his address to the annual convention of the Farm Bureau in Chicago, Ill., referring specifically to the government program for price support at 90 per cent of parity at 109 per cent of parity at the 1910-14 base, output is below requirements, he said, while eggs at 80 per cent might lead to plentiful production.

Declaring that the parity formula should be based upon the 10 years preceding the present program rather than on the 1910-14 level, Edward A. O'Neal, farm bureau president, called for all agricultural groups to unite on an over-all plan rather than insist on a separate system for each commodity.

Pointing up the need for additional rural health and education facilities, Senator Hill (Dem., Ala.) said that with millions of farm dollars ending up as profits in industrial districts after consumer purchases, only federal taxation and expenditures for social service could assure the return of some of the money back to agricultural areas for public purposes.

**LABOR: Talk Turkey**

With early maneuverings for position jolted by President Truman's request for fact-finding anti-strike machinery to speed settlement of labor disputes, the CIO United Automobile Workers and major producers entered into discussions of principal issues, with Ford continuing to steal the show.

With the UAW's Ford division having provided the first real break in the deadlock with agreement to penalize wildcat strikers hindering output, the company took one step closer toward agreement by proposing a 15-cent an hour wage increase. Despite Ford's alteration of the union's security plan and the UAW's rejection of the company's wage offer, the two propositions provided a meeting ground for a settlement somewhere between.

Meanwhile, the Sinclair-United Oil Workers (CIO) pact providing for an 18 per cent wage raise and union assurance against wildcat striking loomed as the model contract for all of industry. In arriving at a settlement, H. F. Sinclair declared that the two parties agreed that voluntary solution of disputes was preferable to government intervention, such as proposed by Mr. Truman.

**SHIP SINKING: Convict Skipper**

Acquitted on a charge of inefficiency in the sinking of the cruiser Indianapolis in the Pacific last July with a loss of 880 lives, Capt. Charles B. McVay was found guilty of negligence in the operation of the ship, with sentence subject to review of the secretary of the navy.

Clearance on the charge of inefficiency for not issuing timely orders to leave the vessel after it was struck by a torpedo followed McVay's testimony that he had at first believed the ship could be saved but then called for its abandonment when convinced of the real extent of damage. Shortly after the Indianapolis capsized, taking a heavy toll of life.

In being convicted on the negligence charge, McVay was accused of failing to order a zig-zag course during the trip from Guam to Leyte and thus divert the aiming of a U-boat. In defense, McVay contended that poor visibility and lack of moon that night governed his decision not to take on a diversionary course.

**Stresses Need for Additional Knowledge of Nutrition**

A drastic change in the diet may be harmful even when it adds beneficial food, Dr. C. A. Elvehjem, professor of biochemistry at the University of Wisconsin, asserted in calling for increased research into nutrition to permit wider knowledge of balanced consumption.

For example, Dr. Elvehjem says, most workers in this field regard a high level of protein in the diet as desirable, but it has recently been discovered that a deficiency in vitamin B6, or pyridoxine, develops faster on high protein diets. A high level of fat may tend to reduce tooth decay, he continues, but it may also tend to reduce the necessary synthesis of vitamins in the intestinal tract.

**TELEVISION: Charge Restriction**

Accusing Scophony, Ltd., of Great Britain and Television Productions Inc. and General Precision Equipment Corporation of America of retarding development of television in the U. S. through a cartel agreement dividing markets between Europe and the western hemisphere, the government filed anti-trust charges in New York City.

In stating that the companies had agreed to stay out of competing areas, the government declared that the American firms had obtained exclusive rights to an advanced television set controlled by Scophony, but had done nothing to either develop or promote its sale and use.

Employing an independent light along the principle of the motion picture projector, the British product is capable of transmitting images 20 by 24 inches on home sets, 3 by 4 feet on school and club sets and 12 by 15 feet on theater screens, the government said. In contrast, American sets are limited to reproductions of 4 by 6 inches and 6 by 8 inches.

**JAPAN: Tells Secret**

In guarded memoirs left after his suicide to prevent arrest as a war criminal, former Jap Premier Prince Konoye left some glimpses of the behind-the-scenes maneuvering that marked his country's diplomacy before the surprise attack on Pearl Harbor.

One of the top disclosures was Konoye's report on the evolution of a peace plan covering the Far East after unofficial negotiations in which former Postmaster General Walker and Bishop Walsh of the Catholic Maryknoll missionaries figured with government knowledge. Sabotaged by Ultra-Nationalist Japanese officials, the plan called for Jap withdrawal from China, restriction of immigration thereto, and co-operation in the restoration of the open-door trade policy. In return the U. S. was to recognize Manchuria.

In another revelation, Konoye reported Russia's tentative agreement to join the Rome-Berlin-Tokyo Axis in 1940 under inclusion of Iran and India in her sphere of influence. No concrete alliance developed, however, because of the failure of the Nazis and Reds to work out details, and the whole plan collapsed with Germany's drive to the East in 1941.

**Frontier Figure Dies**

Death of **Morgan Pruett**, 73, in Oklahoma City, Okla., from pneumonia recalled his one-time eminence as a frontier attorney, with a record of acquittals for 303 accused slayers. Having studied the law in an attorney's office, where he was employed as a shoe shine boy and janitor, Pruett, a colorful figure with long, black hair falling below his shoulders, was among the first to introduce emotion in court practice in the Southwest.

On one occasion when the prosecution sneered at his plea of self-defense for a client accused of killing a man who threatened him with a pencil, "Old Morgan" suddenly seized a juror by the collar—thrust a pencil at his breast and secured an admission that the pencil resembled a knife under the circumstances.

After being convicted as a boy of a robbery—which he said he did not commit, Pruett resolved to study law. Addressing the judge, he roared: "I'll turn murderers and thieves loose in your midst."

**FARM CROPS: Year's Review**

With a New Year ringing in, American farmers could look back on the old as marking the best in food grain production on record with an all-time wheat crop of 1,123,143,000 bushels featuring the harvest.

At the same time, the department of agriculture reported that feed grains were the third largest on record, though corn fell off slightly to 3,018,410,000 bushels from the 1944 figure. As a result, huge quantities of feed will be available for fattening livestock and assuring the country of banner meat supplies through 1946.

Along with wheat, new records were established for oats, tobacco, rice, popcorn, hops, peaches, pears, grapefruit, almonds and fresh truck crops, while new records were set for hay, soybeans, flaxseed, potatoes, sugar cane, oranges, grapes and pecans.

Despite the general banner production, the cotton harvest fell to its lowest figure since 1896, while apples, barley, rye, dry beans, buckwheat, sorghum silage and forage, sweet potatoes, sugar beets, apricots and sour cherries were also below average output.

With a decrease of 4,000,000 acres from 1944, production of all crops in 1945 was only 1.5 per cent off. Output was 2 per cent below the peak of 1942.

**LUFTWAFFE RECORDS:**

A 250-ton documentary record of the German air force which will tell the American people more about the Luftwaffe than the Germans themselves know, has been housed at Wright Field, Ohio.

In disclosing possession of the records, the army presumed possession of a detailed report on German research would save the government a great deal of time and money by eliminating duplication of experimentation in those fields in which the Germans had surpassed us.

THE OLD JUDGE SAYS...

**HARRY:** "I don't know what they'll weigh up, Judge, but my cattle and poultry sure have been gettin' fatter since I started to use distillers' dried grains in their ration."

**OLD JUDGE:** "You're about the tenth one who has told me that, Harry. How do you account for it?"

**HARRY:** "The by-product recovered from grains used by distillers is very high in vitamin and protein content. It's the best feed supplement we can get to balance the rations we feed our dairy cows, livestock and poultry. Mixed with original grain, these dis-

tillers' dried grains have a much greater feeding value than the original grain has."

**OLD JUDGE:** "Have any trouble getting all you need?"

**HARRY:** "Yes, at times, even though the distillers produced 1,200,000,000 pounds of it for the year endin' last June. I hope they'll be in a position to produce a lot more next year."

**OLD JUDGE:** "Then I guess nobody can tell you grain is wasted in distilling."

**HARRY:** "Not me, Judge... I know."

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and helps them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

**Memos to the Editor:**

The War Dept. phoned our Girl Friday regarding some unhappy letters from G.I.s in Europe. Gen. Eisenhower personally was contacted, said the caller, and "couldn't believe anyone would say or write it." . . . The letters, it appears, dealt with a "rumor" that this column allegedly published—but we never said it or broadcast it or wrote it or anything! . . . The grievance was over a report that G.I.s in the European zone "with 70 points or more" couldn't come home to the U. S. because they had criminal records or v.d. . . . Drew Pearson finally revealed that it originated in London recently over the British Broadcasting System. . . . We have since been told that Gen. Eisenhower is so informing all concerned among our troops abroad.

A news weekly recently reported that two of the eight saboteurs (who were landed by Nazi sub at Long Island and Florida) had tipped the FBI of the landings and that these two men were promised "a break" and didn't get it. . . . These two are named Dasch and Furger. . . . The military tribunal decided all eight be put to death, but J. Edgar Hoover told FDR that Dasch and Burger had helped considerably, and it was FDR who commuted their death sentences to 30 years for one and life for the other. . . . Dasch, it appears, is "almost a mental case," and Burger "still is helpful to our gov't as a witness against former enemies." . . . When the war is officially declared ended by Congress they'll probably be deported to Germany.

The late Blaise, owned by the Elliott Roosevelts, continues to wield influence on air travel. Gen. Hap Arnold and his wife are flying to the Coast about New Year's when the General steps into a top job in non-military aviation. They hoped to take along (by plane) their cocker spaniel, but Mrs. Arnold was worried there'd be another newspaper controversy. She didn't worry long—every company on the West Coast offered to send a plane. . . . Ex-Cong. Maury Maverick, now in Japan, says: "Not enough news or broadcasts about the Pacific. Gen. MacArthur is the right man for holding down the Japs, and we are demobilizing in the U. S. A. too fast!"

President Truman stepped in and prevented the budget director from shaving FBI appropriations. Truman is giving the G-Men the same support they got from Roosevelt. . . . Our recent fact that J. Edgar Hoover (after 24 years' service to the U. S.) is broke, brought him several offers from big firms to take executive posts at fancy wages, but he is staying in Washington indefinitely.

His former special agent in charge of the Detroit office (John Bugas), who resigned to become Henry Ford's public relations chief, is said to be getting \$85,000 per annum. Another report is \$50,000. . . . Mr. Hoover gets \$10,000. . . . At one time he got \$9,000 while the Dept. of Justice press agent got 10 Gs. . . . Incidentally, the various reports on LaGuardia's salary as a commentator are said to be exaggerated. . . . The report that "\$100,000 is low" does not jell with what insiders claim—that it is \$50,000.

**Bigtown Vignette:** Reporters tell it about one of the craft who was assigned down the bay to meet a liner bringing home troops. . . . He was to particularly interview one of the heroes. . . . The reporter was armed with copy paper and pencils, but when he sat at his typewriter he couldn't do the story. . . . "I'm sorry," he told his city editor, "I can't even figure how to get two paragraphs out of it. I told him we wanted to do a nice piece about him being a hero, and this is all I could get out of him. He said: 'First we stood and shivered in the wet. Then we ran like the devil. There was a heluva noise and then I heard a nurse say: 'Drink this, please.'"

**The Big Parade:** Wally and Noah, the cheery Beerys, looking like Waldorphanas as they waited for cabs in front of that hotel. . . . Ella Raines, the Hollywood eyeful, crossing 51st and L'Avenue des Ameriques. . . . Walter Abel raising Cain with a Sardi's waiter. . . . Bing Crosby at the Jerome Kern memorial rehearsal as the rumor spread that Bing had suddenly passed away. . . . Hattie Carnegie, the fashionist, looking very chic in creations of her own. . . . Nancy Carroll and her former groom, producer Jack Kirkland, still the best of pals.

**Broadwayites** suspect the reason Rita Hayworth's marriage to Orson Welles curdled is that he stepped out of the shower one day and she forgot to shout: "Bravo!" . . . Ex-Ambassador Hurley would like the GOP presidential candidacy, but will settle for vicepres. . . . Hank Greenberg may get the Ford agency in N. Y. . . . Sec'y of the Navy Forrestal has assigned several smart intimates around the nation (one is Clendenin Ryan Jr.) to form civilian lobbies to fight the army's unification plan.

**HOUSEHOLD MEMOS... by Lynn Chambers**

**Cake Is a Welcome Treat for Returning Servicemen!**  
(See Recipe Below)

**Welcome Home Parties**

If your favorite serviceman is coming home, either on a furlough or a discharge, then you'll want to welcome him home with plenty of mouth-watering cakes and cookies. These, among other things, are the foods they've been dreaming about, so plan to have them in generous quantity.

What about the shortage of sugar? There's no need to worry about that as long as you can get syrups which substitute so nicely. If you follow the recipes exactly as they're given, the texture and taste will be perfect. You won't even miss the sugar.

Keep simplicity in mind for these "Welcome Home" parties. Cake or cookies, perhaps some ready-made sandwich fillings in the refrigerator, fruit and beverages are all you will need. There should be no fuss or bother, just plenty of good food, served appetizingly.

The following cake is made by the newer, shorter method, and can be done either by hand or with an electric mixer, if you are lucky enough to have one. Use the clock or count accurately when beating.

- \*Delicate White Cake.**  
2 cups sifted cake flour  
2 1/2 teaspoons double-acting baking powder  
3/4 teaspoon salt  
1 1/4 cups sugar  
3 egg whites  
3/4 cup vegetable shortening  
3/4 cup milk  
1 teaspoon vanilla

Sift flour once, measure into sifter with baking powder, salt and 1 cup of sugar.

Beat egg whites until foamy. Add remaining 3/4 cup sugar gradually, beating only until the mixture will hold up in soft peaks. Set aside.

Have shortening at room temperature; mix or stir just to soften. Sift in dry ingredients; add milk and vanilla and mix until all the flour is dampened. Then beat 2 minutes. Add egg white mixture and beat 1 minute longer. (Count only actual beating time, or beating strokes. Allow 100 to 150 full strokes per minute. Scrape bowl and beater often.)

Turn batter into two 8-inch layer pans which have been greased, lined on the bottoms with waxed paper and greased again. Bake in a moderate (375-degree) oven about 25 minutes.

Spread prepared Butterscotch or Chocolate filling in between layers and sprinkle top with powdered sugar.

**Corn Syrup Substitution:** Use 1/2 cup corn syrup and 1/4 cup sugar in above recipe. Measure 1/2 cup sugar into sifter and use 1/4 cup sugar in meringue. Decrease milk 2 tablespoons. Combine syrup with milk and vanilla.

If you prefer icing the cake to sprinkling powdered sugar over it, then you will want a festive Furlough Frosting.

- Furlough Frosting.**  
2 egg whites  
3/4 teaspoon salt  
1 cup light corn syrup  
1 teaspoon vanilla

**LYNN SAYS:**

**To Make Soup:** Place soup meat and bones in cold water and allow to come slowly to the boiling point. Soups should be simmered slowly to bring out their full flavor.

A good proportion to use is 1 quart of water to every pound of bone and meat. Soup stock will keep several days in the refrigerator if stored in freshly scalded jars or pitchers. The cake of fat which forms on top should not be removed until all the stock has been used. Then it can be rendered and used for frying or for the fat salvage.

A good batch of soup stock can be used for several days. The first part can be cooked with vegetables; the second batch with noodles or rice; and the third time herbs or dumplings may be added.

To make clear soup, the white of 1 egg may be mixed with 1 teaspoon of cold water and boiled in the soup for 2 minutes. The crushed egg shell may also be used before boiling, and removed by straining through a cheese-cloth.

Beat egg whites with salt until stiff enough to hold up in peaks but not dry. Pour syrup in a fine stream over the egg whites, beating constantly about 10 to 15 minutes, or until of the right consistency to spread. Add vanilla.

**Honey Frosting:** Use above recipe substituting 1 cup honey for syrup. Omit vanilla.

When making cookies for the returning serviceman, be wise and select recipes that use inexpensive ingredients but make plenty of good cookies. Try these, for example:

**Mincemeat Refrigerator Cookies.**  
(Makes 7 dozen cookies)

- 3/4 cup shortening  
1 cup sugar  
1/2 teaspoon lemon extract  
1 teaspoon grated lemon rind  
1 egg, beaten  
2 1/2 cups flour  
1/2 teaspoon salt  
1/2 teaspoon soda  
1 teaspoon cinnamon  
1/2 cup mincemeat  
1/2 cup chopped nuts

Cream together shortening and sugar until light and fluffy. Add lemon extract and lemon rind. Add beaten egg and mix well. Sift together flour, salt, soda and cinnamon. Fold gradually into the creamed mixture alternately with the mincemeat. Add nuts. Mix into a stiff dough. Form into rolls and wrap in waxed paper. Store in refrigerator until ready to use. Slice 1/4 inch thick and bake on ungreased cookie sheets in a moderate (350-degree) oven about 15 minutes.

**Spley Pumpkin Cookies.**  
(Makes 2 dozen cookies)

- 1/2 cup fat  
1/2 cup sugar  
1 egg, beaten  
1/2 cup cooked, prepared pumpkin  
1 cup flour  
2 teaspoons baking powder  
1/2 teaspoon salt  
1 1/4 teaspoons cinnamon  
1/2 teaspoon ginger  
1/2 teaspoon nutmeg  
1/2 cup raisins  
1/2 cup chopped nuts

Cream fat, add sugar gradually. Cream until light and fluffy. Add egg and pumpkin; mix well. Sift flour once, measure. Sift flour, baking powder, salt and spices together. Add dry ingredients and mix until well blended together. Add raisins and nuts. Drop by spoonfuls on a greased cookie sheet. Bake in a moderate (375-degree) oven for approximately 15 minutes.

**AROUND THE HOUSE**

Take your outmoded gauntlet or your elaborately trimmed glove and cut it down to a wrist-length shorty—this season's favorite.

Never starch linens that are to be stored, since starch tends to make the fabric crack. Wrap in blue paper to prevent yellowing.

For boring small holes in plate glass or ordinary window pane, a triangular saw file makes a good drill. Apply the file with light pressure and dip in water from time to time.

Windows will gleam if washed with water containing a little witch hazel.

Mattresses should be turned from top to bottom one week and side to side the next to prevent sagging.

Lamb chops taste better if they are dipped in lemon juice before broiling.

Squeaky floors can be made noiseless by sifting talcum powder between the boards.

Men now in the Army who reenlist before February 1 will be reenlisted in their present grade. Men honorably discharged can reenlist within 20 days after discharge in the grade they held at the time of discharge, provided they reenlist before February 1, 1946.

There's a long list of attractive reenlistment privileges in the new Armed Forces Voluntary Recruitment Act of 1945. The ability to keep your present grade is only one of them, but this privilege expires on January 31.

There are plenty of other reasons why many thousands of men have enlisted, and more thousands are enlisting every day. You'll certainly want to know all of the opportunities open to you. If you'll read them carefully, you'll know why a job in the new peacetime Regular Army is being regarded today as "The Best Job in the World."
