Lions Club News

Next Thursday night's meeting of the local Lions Club will probably be one of the largest ever held by the club. It will be regular meeting and ladies night combined no charge for Lions, but ladies and other guests will be 75¢ per plate. Lions W. C. Bridges, Roy Jewel and J. W. Noel are in charge of night Jan. 24th. Come and bring a lady, prospective member or other guest.

The membership contest is still b inging in new members. To date there have been 23 new members added to the club this month. Lion Otis Owens, Admiral of the Navy is ahead with 10 for their side, the Airforce with Alva Simmons as Air Chief has 9 new membas and the Army with Sam Owens as General has 4 new membe:s. The contest lasts until January 31st. Bring in your new member, you will receive an award and the club has a chance of winning a valuable prize.

1946 Seed Loans

Loans are now being made to finance 1946 crop production in Donley County, according to Harold O. Himmel, local Field Supervisor for the Dallas Emergency Crop Loan Office of the Farm Credit Administration.

Applications for these loans are being taken in Clarendon at AAA will be a good one. The banquet office, between 1:30 and 3:30 p. m will be at the High School Auditorium at 7:30 p. m. Thursday on the crops to be financed. The loans are available only to those farmers unable to secure loans from banks or other sources.

> These loans, generally known as The Seed Loans", have been made in Texas since 1931 and have proven of great benefit to farmers whose cash requiremenes are small. Repayment of the oans has been high. Borrowers are required to plant larae gardens for home use and a balanced program of feed, food and cash crops is encouraged.

A loan to finance the purchase or production of feed is also made on livestock by this Agency.

The maximum loan to an individual is \$400.00.

The seed and feed loans are administered in Texas under the direction of W. E. Farwell, manager of the Emergency Crop and Feed Loan Office, 405 U.S. Terminal Annex Building, Dallas 2, Texas.

WEEKLY NEWS ANALYSIS Truman Takes Legislative Fight To People; CIO Extends Drive To Retain High Take-Home Pay

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Living in damp, dark basement like average German family in Frankfort, this couple emerges with chickens and rabbit in arms for breath of fresh air.

WHITE HOUSE:

Puts on Heat

With President Truman having taken to the fireside to carry his legislative program to the people, interest centered on public response to his appeal to prod congress into action on a string of proposals deemed important to the orderly functioning of the postwar economy.

In calling upon the people to arouse their representatives. Mr. Truman was careful not to antagonize congress itself, patting the solons on the back for having fully supported the administration's foreign policy designed to further international collaboration, and charging only a few members in committee for having blocked consideration of domestic legislation.

While the President touched upon no less than nine phases of his national program, he placed particu-lar emphasis upon the creation of machinery to outlaw strikes for a 30-day period during which a fact finding board with subpoena power would study labor controversies and recommend solutions; mobilization of resources for providing five million homes as quickly as possible to relieve an acute housing shortage, and extension of price control and emergency authority to head off in-flation and permit equitable distribution of scarce materials to industry until supplies balance demand.

Declaring that "what the American people want is action," Mr. Truman suggested that if congress did not favor his proposals, it should go ahead with its own to solve immediate pressing problems.

LABOR:

Strife Spreads

With no major reconversion wage pattern yet set, labor unrest contin ued to mount, with the latest strike threat shaping in demands of the CIO-United Packinghouse Workers for a 25-cent hourly pay increase for 200,000 members.

The possibilities of a walkout drew an immediate response from Secretary of Agriculture Anderson, who declared that a work stoppage must be averted, with reserves low, civilian and overseas needs high, and normal marketing of farmers threatened: Though 60,000 members of the AFL-Amalgamated Meat Cutters and Butcher Workmen's union announced that they would not join the CIO, a strike of the latter would seriously crimp the production of

100 million pounds of meat daily. In asking for a 25 cent hourly wage raise, the CIO stated that it would agree to a 171/2 cent hourly pay boost, with the remainder to be negotiated when the general busi-ness picture became clearer. Standing alone, the Hormel company was the first to accept the compromise, and the union announced that the firm's plants in Minnesota, South Dakota and Texas would not be struck but would produce meat for hospitals and other institutions.

Meanwhile, the government sought to avert a walkout of 700,000 steel and allied workers over the CIO-United Steel Workers' demands for a \$2 a day wage increase by presidential appointment of a fact finding board to study the issue and instructions to OPA to consider industry requests for price increases on carbon products to assure profitable op-

In asking OPA to weigh the indus-try's bid for higher ceilings and then submit them to the fact finding board pondering the wage issue, Mr. Truman reversed the previous administration policy calling first for

STEEL:

Not only is the iron and steel in-dustry's present annual capacity bigger than ever-but it is more widely distributed over the nation than ever before in 27 states. Part of the industry's 1945 steel

ingot capacity of 95,505,280 tons is located in four states, Oregon, Virginia, Tennessee and Utah, which in 1938 had no such facilities. Altogether, 25 states have open hearth capacity now against 22 states in 1938,

the boosting of pay and then for an application for price increases if necessary to cover the added ex-

Administration back-tracking on original policy followed indications that the CIO was determined to press its bid for the \$2 a day raise and the U.S. Steel corporation, as pacesetter for the industry, was equally determined to hold out against settlement until granted re-lief on price schedules. With steel products essential to the manufacture of many major items, any disruption of output of the metal would play havoc with the reconversion program.

Government efforts to curb the normling strike wave also extended to the telephone and electrical indus tries over demands of both independent and CIO unions for increased reconversion pay to maintain high war time take-home earnings.

ARAB LEAGUE:

Push Boycott

Seeking to apply pressure against Jewish ambitions in Palestine, the Arab league, standing 33 million strong throughout the Middle East, prepared to undertake an extensive boycott of "Zionist" manufactured

Though Syria, Lebanon and Saudi Arabia reportedly had already acted, and Fgypt, Iraq and Trans-Jordan were completing arrangements, Palestine itself held back, with the close business relationships between the Arabs and Jews in that troubled

of Jaffa municipal comm sion, Dr. Halkal (left) greets Britain's new high commissioner for Palestine, Sir Allan

state leading to a more cautious approach to the movement.

Jewish exports to Syria, Lebanon, Saudi Arabia, Egypt, Iraq and Trans-Jordan have increased five-fold since 1938, rising to \$12,500,000 in 1944 and representing 30 per cent of Jewish sales abroad. At the same time, the six Arab states' deliveries to Palestine tripled since 1938, reaching \$34,000,000 in 1944.

New Outfits

Traditional garb of seafaring men since the 14th century, the laced sailor trousers with bell-bottoms may be discarded by the U. S. navy if new uniforms including regular type pants are permanently adopt-Also scheduled for elimination is the big black neckerchief, copied by the early American navy after the British design created as mourning dress for Lord Nelson.

Currently under test for the gobs' wardrobe are three new uniforms: two consisting of blue and white pants with blue battlejacket for dress or winter wear and one comprising gray trousers and shirt for duty. Sport shirts of jumper design will replace the present tight wear.

Typically American, the new working uniform also will include a long-peaked gray baseball type cap, notably worn by Vice Admiral Mitscher through the Japanese campaign and extremely popular among personnel fighting under the scorching Pacific sun.

Predicts Eclipses

Although the shadow of war no longer darkens the earth a near-maximum number of six eclipses will darken the heavens in 1946, according to Prof. Oliver J. Lee, of Northwestern university's observatory.

Despite the abundance of eclipses, only one will be visible in the United States. It will be an eclipse of the sun, with 44 per cent of the sun covered.

Playful Kitten That Rolls a Spool Between Its Paws Charms Everyone

By Ruth Wyeth Spears

THIS cutting gray and white kit-ten with a bright red bow is so life-like that it charms everyone, young and old. It is designed so that it playfully rolls a spool between its paws, yet it is very simple to make. It is just layers of wood fastened together with brads. An actual-size pattern for all the parts gives an accurate guide for cutting the pieces either by hand or with a power jig saw.

To press materials that get shiny easily, like white rayon for in stance, try using a firm piece of cheesecloth washed until all the sizing is out of it. Dampen slightly before placing over the material to press.

To insure longer life for pillows, fluff them gently each day to force air around the feathers.

When washing woodwork, use a strip of cardboard to protect the wall next to door frames and baseboards from getting splashed.

Take the headboard off that old

fashioned bed and the foot be-comes the head. Make a slip-cover for the new head or leave as it is and stand by for compliments. Cut away one side of a grocery carton and keep it for your very own. Kneel in the box when scrub-

bing floors. Protects knees and

The painting is fun. There is a pattern for that too. As you follow it the kitten comes to life—the fur looks so real and the expression in the face so animated. It is a charming toy and an appealing one if you like to make novelties for gifts or toward.

. . . NOTE-Pattern 291 with actual-size cutting and painting guide and complete di-rections for this kitten is 15c. Write di-rect to:

MRS. RUTH WYETH SPEARS Bedford Hills

Drawer 10 Enclose 15 cents for Pattern No. 291.

TO GET PROMPT RELIEF from distress of those nagging colds that cause coughing and make you feel all stuffed up—put a good spoonful of Vicks VapoRub in a bowl of boiling water.

Then feel relief come as you breathe in the steaming, medicated vapors. These medicated vapors penetrate to the cold-congested upper breathing passages. They soothe irritation, quiet coughing, help clear the head and bring such grand comfort.

FOR ADDED RELIEF...On throat, chest and back at bedtime rub Vicks VapoRub. It works for hours—even while you sleep—to bring relief. Now try this hometested treatment, tonight.

"Hey, Ref-aren't you out of bounds?"

In basketball or business, Americans expect fair play all down the line. In basketball, the referee is there to see that the game is played according to the rules. But he's not a

In business, the referee is the government, which establishes regulations for fair practices.

But when government goes beyond governing and into business and competes with its own tax paying citizens, the American tradition of fair play is set aside. The referee then becomes a player, and he takes advantages that are denied to all the other players in the game.

Take government-owned or subsidized electric power

systems, for example. They pay no taxes. When they need money, they call on our U. S. Treasury funds and get it at little or no interest. If they have loses, through political management, why worry? You, as a taxpayer, will have to take

Business-managed power systems, on the other hand, do not have these special government privileges. They pay their full share of taxes, pay fair interest on any loans.

It is a tribute to American self-reliance that tax-paying, self-supporting companies supply over four-fifths of the tremendous amount of electricity used in this country.

The same forethought and experience which furnished the required electric power to win a global war will continue to assure America dependable—and cheap—electric service for a postwar world. And businessmen can do the job better

DICK: "I wonder how the distillers feel about that new movie built around an

OLD JUDGE: "It's funny you asked that, Dick... I was just reading a piece about it." DICK: "What did it say?"

OLD JUDGE: "A very sensible statement. It said the beverage distillers are fully aware of this problem and are cooperating in every way possible to help solve it. The alcoholic is to the beverage distilling industry what the reckless driver is to the automobile industry. There is nothing wrong with the automobile, but in the hands of a man who doesn't know how to drive it or is reckless, it becomes a menace. Likewise, it's not the use but the abuse of alcoholic beverages that causes trouble.

DICK: "Wonder why it is most men can drink moderately and others can't?"

OLD JUDGE: "Intensive research at a great university has shown that most excessive drinkers are really sick people. They are suffering from some physical, social or emotional upset. And great strides have been made in developing clinical methods of helping these unfortunate people."

This advertisement sponsored by Conference of Alcoholic Beverage Industries, Inc.

has announced the end of tire rationing e January 1, 1946 — but what does this you as a motorist? Does it mean you can v tires today?

Packaged Mixes, Sugar, Syrup Aid Sweet Tooth

Even new brides will find it simple to make creamy-smooth chocolate pie with the directions given in the column. Whipped cream or meringue may be used as a top-ping for this chocolate delight.

Culinary Strategy

If you're one of those cooks who likes to have toothsome dishes to set on the table, but hates to fuss with too many of the frills, then there's no time like the present to try out some of the ready-mixed

New brides, and by those I mean not only the recently wed, but those

married for awhile, but are just now cooking for a brand new husband, will find plenty of help on grocery shelves. A twist of the wrist at home, an

eye to attractive decoration, along with an ability to follow instruc-tions will yield rich rewards. It used to be that a pie was difficult to tackle, but not with all the sugar-saving mixes we now have on

hand. You can use one of the packaged preparations for the filling, or sweetened condensed milk which is now back on the market. The pie shell, too, may be made of a ready-prepared mix, or it can be tossed together from one of the

good pie crust recipes which you have on hand. In a cream pie, the crust is baked ahead of time and allowed to cool before filling.

Magie Chocolate Pie. 2 squares unsweetened chocolate 11/2 cups (1 can) sweetened condensed milk

Baked pie shell (8-inch)
Melt chocolate in top of boiler. Add sweetened condensed milk, stirring over boiling water about five minutes or until mixture is thickened. Add the water and mix until thoroughly blended. Pour into baked pie shell and garnish with whipped cream, if desired. Chill before serving.

*Butterscotch Tarts. Make tart shells either in muffin tins or small pie plates. Prepare butterscotch filling according to di-rections on packaged mix, adding a beaten egg yolk and melted butter if extra richness is desired. Fill cooled pastry shells and top with meringue made by beating an egg white and blending in two tablespoons of granulated sugar. Swirl on top of tarts and brown under broiler for two to three minutes.

For those of you who are anxious

about making desserts, there's good news in the appearance of an extra - sweet corn market. It contains a higher amount of dextrose than the

ordinary corn syrup, and while it is not only more nutritious, it is also 50 per cent sweeter than the standard corn syrup. Here are two recipes which you

will enjoy using with extra-sweet corn syrup Refrigerator Cookies.

(Makes 4 dozen 2-inch cookies) 1/2 cup shortening

Lynn Says:

Prepare foods in advance and save time: Meat loaves, stews and soups may be made in advance and stored in the refrigerator for later use. Just heat and

serve when ready. Mix a week's supply of refriger-ator rolls and bake as needed. Freshly baked rolls are always a

treat. Dry ingredients for biscuits, muffins and pastry can be mixed in advance and the liquids added just before using. Chilling makes most of these mixes even better. Home-made frozen creams, ices and sherbets may be made rin advance and stored in the

freezing compartment. Gelatin puddings and salads are quickly served if they are tossed together in advance. Custards, too, keep well when chilled.

Lynn Chambers'

Menu Ideas Meat Loaf Creamed Potatoes Buttered Cabbage Green Salad Cinnamon Rolls *Butterscotch Tarts *Recipe given.

1/2 cup sugar 1/4 cup extra-sweet corn syrup egg, slightly beaten ½ teaspoon vanilla

134 cups flour

1/2 teaspoon baking powder Cream shortening and add sugar slowly, creaming well after each addition. Add the corn syrup, a small amount at a time and con-tinue creaming. Add a third of the egg at a time and beat well after each addition. Blend in vanilla. Sift flour, measure and sift with baking powder. Add to creamed mixture, blending well. Shape into a roll, two inches in diameter. Wrap in waxed paper and chill in refrigerator. Slice very thin and bake in a moderately hot (375 degrees F.) oven for 10 minutes.

Apple Pie.

7 apples cup extra-sweet corn syrup 1 cup cream

l tablespoon corn starch 1 tablespoon sugar 1 teaspoon einnamon 1 pie shell

a pie shell using

Peel and core the apples and then cook them with the corn syrup in a covered pan until tender. Remove the cover and cook down the syrup. Make

nine - inch tin. Place the apples in the pie shell, pour in the cream, one tablespoon of cornstarch, one tablespoon of sugar and dust with cinnamon. Bake the pie in the open shell.

If you have trouble keeping the cookie jar filled on busy school days, then you'll like this recipe which makes four dozen delectable crunchies

Orange Crunchies. (Makes 4 dozen)

1 cup flour 11/2 teaspoons baking powder

1/2 teaspoon salt 1/2 cup soft shortening

1/2 cup sugar I teaspoon grated orange rind

l egg 4 cup milk

3 cups corn flakes 34 cup broken nuts

Sift flour before measuring, then sift again with baking powder and salt. Cream shortening, add sugar and orange rind and cream until light. Beat in egg vigorously. Add flour mixture alternately with milk. Fold in gradually corn flakes and nuts. Drop from teaspoon onto a greased baking sheet, two inches apart. Bake in a moderately slow (350 degrees F.) oven for 15 minutes or until lightly browned. Remove cookies from pan at once.

Butterscotch tarts are easy to make when the pastry shells are prepared or mixed in advance. A ready-made filling will taste homemade with the addition of eggs and butter, added for richness.

Now that bananas make their appearance occasionally at the store, you'll be interested in new ways to prepare them. Here they go into a mouth-watering pudding with a vanilla wafer crust, custard and meringue, all of which spell nourishment as well as good eating.

Banana Pudding. (Serves 6)

34 cup sugar 1/2 cup flour

1/4 teaspoon salt

2 eggs, separated 2 cups scalded milk teaspoon vanilla

sliced bananas 2 tablespoons sugar

Vanilla wafers Line a seven-inch baking dish with vanilla wafers. Mix sugar with sifted flour and salt. Gradually add beaten egg yolks to scalded milk and pour slowly into dry ingredients. Cook 15 minutes in a double boiler, stirring constantly until thickened. Add flavoring. Place bananas in wafer-lined dish and cover with custard. Beat egg whites until stiff, add two tablespoons sugar and spread over custard. Bake 15 minutes in a slow

AMINO ACID NEEDS OF DOGS STUDIES

Lack of Even One of 10 Substances May Spell Disease

Studies of the amino acid require ments of dogs are proceeding parallel with the work being carried forward of amino acids in numan rutrition

reports.
Amino acids found in common foods, are just as essential as vita-Dr. W. L. Roberts whether a given protein food has

little or great nutritional value, states Dr. W. L. Roberts, the Center's technical consultant. It has been estab-lished tha: 10 of the 20-odd known amino acids are dietary essentials for animals, and that the lack of any one of them causes growth failure, physical deterioration and disease. Vitamins and amino acids work hand-inglove. Lack of £-B-C-D-E vitamins may make it impossible for the body to utilize the amino acids, while the lack of amino acids may make it impossible for the vitamins to perform their essential functions in the nutrition of the body.

While research in amino acids goes on, according to Dr. Roberts, the following suggestions by the U.S. Department of Agriculture continue to constitute a practical guide for the feeding of dogs. animals, and that the lack of any one

"An adequate ration will keep most mature dogs at a uniform body weight and in a lean, thrifty condition. This is a very useful guide in determining the correct amount to feed."

"A good coat, bright clear eyes, and an abundance of pep are reliable indications that the ration is

"Dogs should be fed at regular in-tervals, and the best results gener-ally may be expected when regular feeding is accompanied by regular exercise.

"Mature dogs are usually fed twice daily, a light meal in the morning
