WEEKLY NEWS ANALYSIS

New Wage-Price Policy Pattern For Settling Industrial Strife; FBI Warns Of Crime Increase

Released by Western Newspaper Union

(EDITOR'S NOTE: When spinions are captioned in these columns, they are those of Western Newspaper Union's newspaper.)

Industrial Front-With labor adamant in its demands for appreciable wage increases to assure continued high "take-home" pay, and with management equally determined to resist sizable raises in the face of OPA ceilings, President Truman and his aides sought to stave off an economic deadlock imperiling reconversion by granting companies price relief.

among the principal causes.

Representing a complete reversal | CRIME WAVE: of announced administration policy of granting price increases only after operations had proven that management could not absorb wage boosts given first, Mr. Truman's new approach to the problem was expected to result in a general pattern of settlements embodying pay

raises of from 15 to 18 per cent. The administration's new policy was first applied to the dispute in the steel industry over the CIO-United Steel Workers demands for a \$2 a day wage increase and was quickly utilized in efforts to break the deadlock in the packing field over the CIO and AFL bid for a 25

cents an hour pay boost. As a result of the administration decision to grant price increases to the steel industry, the companies agreed to resume negotiations with the USW, though they were not permitted the full advances asked. Pending industry offers of what the USW called adequate counter-proposals to its wage demands, the union considered holding off its scheduled strike of 700,000 workers, affecting the aluminum and magnesium as well as steel trade.

In holding out offers of price increases to the big packers, the gov-ernment stated that they could help the companies in figuring out what wage raises they could actually advance following their initial pro-posals of about 7½ cents per hour. In asking for a 25 cents per hour raise, the CIO and AFL declared they would be willing to accept 171/2 cents to start with before the situation clarified itself.

The packing dispute was of particular interest to the nation's farmers since companies' fixed costs would go far to determine bids for live cattle to permit profitable operations against wholesale price ceilings. Of general interest was the whole new administration policy in its possible effect upon efforts to hold down living costs and avert an inflationary spiral which would cheapen wages and income and lead to still further demands for relief.

DEMOBILIZATION: G.I.s Kick

Incensed over war department plans for a slow-down in demobili-zation, G.I.s the world over raised a storm of protest, with the army quickly reacting to the complaints by ordering the immediate return of surplus overseas troops and announcing a re-examination of policy.

At the same time, General Mac-Arthur declared that soldiers would not be punished for orderly demonstrations in the Pacific theater, stating that the unrest was primarily caused by "acute homesickness aggravated by the termination of hos-

In ordering the immediate return of surplus overseas personnel, Chief of Staff Eisenhower said that extensive shipping facilities should be used in sending the men home, with troops with the highest point scores and longest record of service given

A re-examination of the whole demobilization program would touch the recent formula for spreading scheduled shipments home for the first three months of 1946 over a half-year because of war department claims of a shortage of re-placements. Despite the slowdown, army strength was expected to be pared by 400,000 under previous estimates by July 1, with more than half of the 1,550,000 troops remaining in service in overseas duty.

Having started in the Pacific shortly after announcement of the slow-down program, G.I. demonstrations quickly spread to Europe, where troops protested in support of their buddies in the east. In all cases, the men were orderly and no violence occurred.

Most vociferous of all, the Pacific demonstrators attributed the slowdown to administration efforts to force through a compulsory military bill to secure replacements; "brass-hats" seeking to retain war-time rank by maintenance of a large army, and the state department's "imperialistic" policies in political purposes, Spaak was electthe far cast. G.I.s were told to applicate the far cast. ply pressure to friends back home 23 vote over the Soviet-sponsored to petition congress for a revision candidate, Foreign Minister Trygve of demobilization plans.

abroad are not readily available, about two-thirds of all life insur-

vention, declared.

WAR CRIMES: New Case

Even as the U.S. Supreme court considered Gen. Tomoyuki Yama-shita's petition against his conviction by an American military commission in the Philippines, the war crimes trial cf his predecessor, Lt. Gen. Masaharu Homma, got underway in Manila on similar charges of countenancing atrocities of his

In appealing to the highest Amer-ican judicial tribunal, Yamashita's three U. S. army attorneys had declared that the cessation of firing had ended the need for special military measures and entitled the doomed Jap chieftain to a hearing before an ordinary court. In contesting the petition, the government declared that a ruling against war crimes procedure would upset ef-

forts for punishment of suspects. Forty-nine-year-old V/Sgt. James Baldassarre of New Haven, Conn., a vet with 28 years of service, was one of the principal witnesses as tum, FBI officials warn, with lenient treatment of old offenders and a the Homma trial began. One of the survivors of the "death march of Bataan," he told of how Jap guards shot or bayoneted sick or thirsty American soldiers who wandered from their ranks. "The Japs did nothing for us," Baldassarre said. No food, no water, no medicine Nothing but bullets and bayonets.

Ask German Relief

While Senators Wherry (Rep. Neb.) and Langer (Rep., N. D.) rapped the administration for re-fusing to permit the private ship-ment of food to Germany to help avert starvation, Dr. Lawrence Meyer of the Missouri synod of the Lutheran church revealed efforts to organize a Christian congress, to push for alteration of government

Wherry's and Langer's criticism of the administration came in the midst of President Truman's announcement that he had told a senatorial committee that it was impossible under present conditions to permit shipments. In reporting on the conference with Mr. Truman, a member of the delegation said that Russia objected to reopening of mail to Gerntany, and service could not be re-established without the unanimous consent of the Big Four.

In revealing his intentions to work for a Christian congress embracing both the Catholic and Protestant churches, Dr. Meyer declared that the force of 60 million members of all faiths in America must be mobilized to impress the administration that the country is not committed to a policy of vengeance. Reporting on his visit to Germany, Dr. Meyer said that of 100 children he saw in one Frankfort hospital, 75 were marked for death because of insufficient food.

FOOTBALL: Fewer Deaths

Reflecting improved techniques. football fatalities continued to drop during the last season, with only 9 reported as against 49 when Dr. Floyd R. Eastwood of Purdue university first undertook a compilaage group made up 14 per cent of all murderers; 36 per cent of all tion of grid accidents.

While no fatalities directly at-34 per cent of all thieves; 25 per cent of all arsonists; 63 per cent tributable to collegiate football were recorded through 1945, those occurring were evenly divided between high school and sandlot play, Eastwood said. Despite the toll among the growing wave of youthful lawsecondary teams, the actual incilessness, Hoover recommended indence of high school deaths was only about .48 per cent per 100,000 designed to direct youngsters' enof contestants.

In undertaking his study for the rules committee of the National Collegiate Athletic association and the committee on injuries and fatalities of the American Football Coaches association. Eastwood called for consideration of methods for minimizing occurrence of cerebral hemorrhages. Such mishaps have accounted for 44.7 per cent of all foot ball fatalities reported since 1931.

ization officially got underway with the election of Foregin Minister Paul Henri Spaak of Belgium as its TOBACCO:

Kentucky Acts

As the market for burley tobacco took a big drop and farmers reportedly were losing \$1,000,000 a day in comparison with the previous month, Gov. Simeon Willis of Kentucky acted to close all warehouses under unanimous recommendation of the state legislature.

Main cash crop of Kentucky farmers, burley tobacco, used in cigarette, chewing and pipe mixtures, is auctioned off in various warehouses throughout the state, with buyers laboration of nations, Attlee de-clared that the various governments should work through UNO instead from the big manufacturing companies bidding against each other. The season usually runs from December through January.

With the requirement that all sales be transacted under OPA ceiling regulations, prices have been set on all 26 different grades of the tobacco, ranging up to 50 cents a pound or more. Following sharp price recessions after early favorable bidding, average paid for the crop slumped to 38 cents.

POLIO:

Infantile paralysis attacked nearly 14,000 persons in the United States in 1945, making it the fourth worst poliomyelitis year on record, the National Foundation for Infantile Paralysis revealed. Invading all 48 states, polio erupted into epidemics in sections of six states and hit 28 states harder than in the near-record year of 1944.

The incidence of poliomyelities reached its peak the week of September 15, when 962 cases were re-

POST-WAR FLYING IN YOUR HOME TOWN By C. C. CAMPBELL, Member, Aviation Writers

One of the four fundamentals of our nation's airpower is personal flying and public airmindedness. The other three are (1) a strong, permanent air force; (2) the fullest development of air commerce; (3) a progressive aircraft industry based on continued technological superiority.

Local Flying to Aid American Air Power

The development of personal flying and the building of air landing facilities is more than a community affair, it is very much in the national interest.

done much to win the wars. It will

War I and World War II air-minded chine was made in America, although many of the foremost imof American ingenuity, when war are, the United States lagged far it the future of America, lies in the behind.

This was particularly true in the number of trained flyers and of air mechanics. Vast training camps had to be established and from our comparatively few trained men and women, a substantial number had to be side-tracked into the instruction of America's youth.

Today, literally millions of young people know flying. They are the nucleus of both our military and civilian aviation of the future. It is

necessary that the United States keep them trained and interested in flying. This can be done, only if there are planes for them to fly and fields from which to take off and on which to land.

Unless communities in every part of the nation provide these facilities Air power of the United States has the future of aviation will be very uncertain, government officials and do much to provide for our future the military services agree, and if security as well as build American America loses its supremacy in the air, our country will be wide open to aggression from other lands.

Then too, America now leads the America was still lacking in air world in commercial air transpor-power Although the first successful tation The commercial pilots, coflight with a heavier-than-air ma- pilots and other air and ground crewmen of tomorrow will, in large measure, be the young people of toprovements in flying technique and day, who have learned to fly their aircraft construction were the result own personal airplanes.

development of community flying. Many towns and communities have registered their intention to do their share . . . to build landing facilities and encourage local flying.

More communities will join the movement, for economic or other reasons, until there will be a complete network of facilities in every state. Thus United States Air Power will be assured.

This is the sluth and last of a series of articles on post-war flying and its effect on community life.

Hedley Lodge No. 991

A. F. and A. M. meets on the

irst Monday night of each

month. All members are urged

o attend. Visitors are welcome.

C. E. Johnson, Secretary.

C. E. Johnson at the Hedley

F. L. Hill, W. M.

Adamson-Lane Post 287, American Legion

Meets on the 2nd Tuesday of each month. All Legionnaires ire requested to attend.

This badge indicates an honorably discharged veteran of

Church of the Nazarence

W. E. Bond, pastor. Sunday School 10 A. M. Preaching service 11 A. M. Evening Service 7:30 P. M. W. M. S. each 2nd Wednesday. Mid-week Prayer Service, Wednesday 7:30 P. M.

Informer Rates

Please remember that the Informer rate is \$1.50 per year in Donley county, and \$2.00 per year elsewhere, except that serv-

World War II. ice men ge		.50 rate.

Space-Saver Racks For Closet Doors

WHY wish for more and bigger VV closets if the ones you have are not organized so that all the space is used? Handy racks on the door add readily accessible space for things used every day leaving inside shelves for storage. The racks shown here are careful-

ly planned to hold the things you use the most, yet they are less than three inches deep.

Everyday hats are held in perfect shape by a curved front made to fit crowns. Both small and large articles are held conveniently in the lower rack which also has a hanger rod. These racks are also useful for children's togs and '.ys. They are easy to cut out of scraps of plywood with an ordinary compass saw from the dime store.

NOTE — Pattern 283 gives actual-size cutting guides for all parts of both of the racks shown here. Illustrated directions for assembling and a list of all materials required are included. To get pattern 283, send 15c with name and address to:

MRS. RUTH WYETH SPEARS Drawer 10 Enclose 15 cents for Pattern No. 283

Noted Pianist Holds There Are Three Ages of Man

Shakespeare divided the ages of man into seven, but Moritz Rosen-thal recognizes only three. Speak-ing from the shady side of 75, the great pianist observed:

"A man is young if a lady can make him happy or unhappy. He comes to middle age when she can make him happy, but can no longer make him unhappy. He is old when a lady can make him neither happy nor unhappy."

COLD PREPARATIONS

LIQUID, TABLETS, SALVE, NOSE DROPS CAUTION-USE ONLY AS DIRECTED

PAZO IN TUBES! Millions of people suffering from simple Piles, have found prompt relief with PAZO ointment. Here's why: First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parte—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check minor bleeding. Fourth, it's easy to use PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment. SUPPOSITORIES TOOL

Some persons, and many doctors, prefer to use suppositories, so PAZO comes in handy suppositories also. The same soothing relief that PAZO always gives. Get PAZO Today! At Drugstores!

FLUSH KIDNEY URINE

Benefit wonderfully from famous doctor's discovery that relieves backache, run-down feeling due to excess acidity in the urine

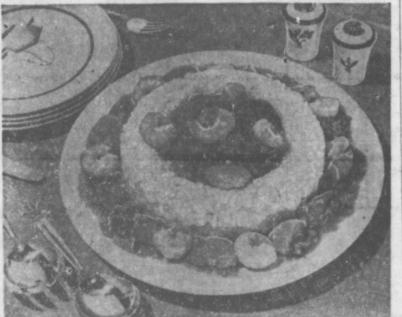

ellef from painful symptoms of bladderritation caused by excess acidity in the
rine. DR. KILMER'S SWAMP ROOT
cts fast on the kidneys to ease discomfort
y promoting the flow of urine. This pure
serbal medicine is especially welcome
where bladder irritation due to excess
cidity is responsible for "getting up at
ight". A carefully blended combination
if it herbs, roots, vegetables, balsam; Dr.
climer's contains nothing harsh, in abolutely non-habit forming, Just good inredients that many peops say have a
narvelous effect.

Send for free, prepaid sample TODAY;
like thousands of others you'll be glad
hat you did. Send name and address to

255, Stamford, Conn. Ofter limited. Send

Bureau of Standards

A BUSINESS organization which wants to get the most for the money sets up standards by which to judge what is offered to it, just as in Washington the government maintains a Bureau of Standards. You can have your own Bureau of Standards, too. Just consult the advertising columns of your newspaper. They safeguard your purchasing power, every day of every year.

Seasoning Saves This Shrimp Dish (See Recipes Below)

Meals With Zest

Families, long accustomed to the rigors of wartime cooking, now want something different since rationing has ended. This does not necessarily mean more meat, but it does mean that you cooks will have to wise up to the new ways of seasoning and make things taste extra special.

If you and your familly are tasteconscious-and who isn't these days then handle

each food as though it were a priceless possession and try to make the most of it. In vegetables this means cooking them until they are tender,

but still crisp and crunchy. In meats, it means bringing out the best in those hearty flavors; and in salad dressings, it means a careful blend of seasonings that will accent the best in fruit and vegetable fla-

Take pork chops, for instance. We all know they're good, but they can be very special when their rich, savory flavor is highlighted with a bit of sage dressing, like this:
 *Pork Chops on Sage Dressing.

(Serves 4) pork chops, floured tablespoons sliced onion teaspoon salt

½ teaspoon sage 11/2 cups diced bread 1 tablespoon butter or substitute 1 teaspoon minced celery tablespoon mineed parsley

tablespoons milk tablespoons broth

Blend all ingredients except pork chops and place in a shallow dish. Top with pork chops, cover and bake 45 minutes in a moderate (350-degree) oven. Remove the cover and bake 30 minutes longer at 375 degrees.

String beans, one of our more common vegetables, take on added appeal when they are prepared with a sauce that accents their delicate flavor. Here's how it's done:

String Beans. (Serves 6 to 8) 2 pounds string beans Salt and pepper

Cook slowly in a covered pan with a small amount of water. Dust with salt and pepper. For Sauce:

tablespoons oil l tablespoon butter medium-sized onion 1 clove of garlie

tomatoes, fresh or canned 1 tablespoon minced celery l tablespoon minced parsley

I teaspoon mixed herb vinegar 1/4 teaspoon rosemary 14 teaspoon sugar Salt and pepper to taste

Heat oil and butter, simmer the minced garlic, onion, celery for 5 minutes. Add cut up, peeled tomato, rosemary, seasonings and vine-

Lynn Says:

Save fuel by using your range properly: Keep a pilot burner

When a quart of water is nough, don't heat a gallon. Turn the gas or electricity off before instead of after removing the utensil from the range.

For top-of-the-stove cooking, use a pan with straight sides as it heats more efficiently. Cook several foods at the same

time when using the oven. casserole, vegetable and pudding may all be baked at one time. Duplicate or triplicate pans, made to fit together over one burner, are excellent to use for cooking and saving fuel.

To prevent failures while baking, and also to save fuel, use the oven regulator and refrain from peeking into the oven.

gar. Simmer 10 minutes. Pour over beans and serve.

Shrimp and rice were made famous by a song, but they are popular by their own right-flavor. To bring out the flavor in shrimp and make it a real taste thrill, bacon or ham is often added to it, as in the following two recipes:

Shrimp Creole. (Serves 6)

3 strips bacon medium-sized onions, sliced green pepper, cut in rings

3 cups canned tomatoes 1 teaspoon salt 1 cup cooked green peas small cans shrimp 1 teaspoon chili powder

3 cups hot boiled rice Cut bacon in ¼ inch pieces. Put in a frying pan with sliced onions and cook until bacon is crisp and the onion is slightly yellow. Add pepper rings, diced celery, tomatoes and salt. Cook until celery and pep-per are tender and sauce is thickened. Add peas, shrimp and chili powder and cook 5 minutes more. Mold rice in ring and surround with sauce.

Shrimp Jambalaya.

(Serves 6) 2 tablespoons bacon fat 1/2 pourd smoked ham, cubed 1 medium-sized onion, chopped

4 teaspoon finely minced garlie 2 cups cooked tomatoes 11/2 cups water 1 teaspoon worcestershire sauce

14 teaspoon paprika Dash of cayenne pepper

½ teaspoon salt ½ cup uncooked rice 1 small can shrimp

Melt bacon fat in heavy skillet, add cubed ham, onion, green pep-per and garfic. Saute for 10 minutes. Add cooked tomatoes, water and seasonings; bring to a boil, Add rice slowly, cover tightly and cook until the liquid is absorbed and the rice almost done, about 20 minutes. Add the shrimp and cook covered 5 to 10 minutes longer.

Salads are popular during the cool 0 weather because they satisfy our need for "green things." Make them co. rful and well seasoned and the family

will reward you by asking for t. helpings of vitamins. Beet and Lettuce Salad.

(Serves 6) green onions, sliced fine cups cooked beets, chopped tablespoons salad oil

head lettuce tablespoons vinegar uncooked egg yolk 1/2 teaspoon salt 1/2 teaspoon dry mustard

1/4 teaspoon sugar

Beat egg yolk with a fork, add onions, salt, mustard and oil. Just before serving add vinegar. Chop lettuce to medium sized chunks and place in a large bowl. Add chopped beets. Pour dressing over this.

*Carrot-Lemon Salad. (Serves 5) 3 large carrots, grated 1 lemon, ground with skin 1/2 teaspoon salt

2 teaspoons sugar 1 tablespoon salad oil Blend all ingredients together with a fork. Serve on crisp lettuce

Try Making Cough Syrup at Home. **Quick Relief**

Saves Big Dollars. No Cooking.

Saves Big Dollars. No Cooking.

No matter what you usually use for coughs due to colds, you'll be more than surprised when you make up this simple home mixture and give it a trial. You'll wonder why you never used it before. It certainly does the work in a hurry.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's no trouble at all. Or you can use corn syrup or liquid honey, if desired.

Get from your druggist 2½ ounces of Pinex. Pour this into a pint bottle and fill up with your syrup. This makes a full pint—a family supply—and gives you about four times as much for your money. It tastes fine, and never spoils. Children love it.

And for quick action, you've never seen its superior. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easier, and lets you sleep.

Pinex is a special compound of proven ingredients, in concentrated form, a famous reliable soothing agent for throat and bronchial irri-

LABOR:

Basic Dispute

A settlement of the steel case portended early solution to a whole string of major strikes affecting basic industries and promised speedy resumption of large-scale production since reconversion has been reported as already 90 per cent completed.

In stepping into the steel dispute to prevent a shutdown of the nation's mills supplying vital material to American industry, President Truman proposed a settlement on the basis of a wage increase approximating 16 per cent and a price boost to operators in the neighborhood of \$4 a ton. Though representing a compromise between the two parties, the offer fell below the CIO-United Steel Workers' mini-mum demands and also ignored their position that price raises were unnecessary.

Because solution of the steel controversy would enable industry to ac-curately estimate costs partly based on steel prices, an early settlement of the automobile and electrical appliance walkouts was expected to

Meanwhile, government concili-ators worked feverishly for a settlement of the CIO and AFL strike against the big packers as the nation's meat supply dimin-

POST-WAR FLYING IN YOUR HOME TOWN

By C. C. CAMPBELL. Member, Adiation Writers tasociation, Washington, D. C.

One of the four fundamentals of our nation's airpower is personal flying and public airmindedness. The other three are (1) a strong, permanent air force; (2) the fullest development of air commerce; (3) a progressive aircraft industry based on continued technological superiority.

Air Power

The development of personal flying and the building of air landing fields from which to take off and on facilities is more than a community affair, it is very much in the national interest.

At the beginning of both World to aggression from other lands. War I and World War II air minded Then too. America now lead America was still lacking in air flight with a heavier than-air ma-chine was made in America, al-crewmen of tomorrow will, in large though many of the foremost im- | measure, be the young people of toprovements in flying technique and day, who have learned to fly their aircraft construction were the result own personal airplanes. of American ingenuity, when war came, the United States lagged far

This was particularly true in the Vast training camps had to be established and from our comparatively few trained men and women, a substantial number had of America's youth.

Today, literally millions of young people know flying. They are the nucleus of both our military and civilian aviation of the future. It is

Local Flying to Aid American necessary that the United States
Air Power keep them trained and interested in flying. This can be done, on'y if there are planes for them to fly and

which to land. Unless communities in every part of the nation provide these facilities Air power of the United States has the future of aviation will be very done much to win the wars It will uncertain, government officials and do much to provide for our future the military services agree, and if security as well as build American loses its supremers in the America loses its supremacy in the air, our country will be wide open

Then too, America now leads the world in commercial air transporpower. Although the first successful tation. The commercial pilots, co-

Thus the future of aviation, and in it the future of America, lies in the development of community flying. Many towns and communities have number of trained flyers and of air registered their intention to do their share . . . to build landing facilities

and encourage local flying.

More communities will join the movement, for economic or other to be side-tracked into the instruction reasons, until there will be a complete network of facilities in every state. Thus United States Air Power will be assured.

Follow Rules for Melt-in-Your-Mouth Muffins

Quick, Hot Breads

Taste-tempting hot breads add a flavorful touch to any meal. Goldencrusted muffins or fluffy biscuits are the perfect accompaniment to meat and salads and go equally well with a glass of milk for a snack or with coffee or tea for breakfast.

Don't shy away from making muffins because you fear only fair results. Quick breads are the most easily mixed of all baked goods and you need to bear in mind only a few simple rules to have success.

The most important point to re-member is not to "over-mix." Muffin batter, for example, should be "bumpy" — stirred only until the dry ingredients are dampened by the liquid. Biscuits should not worked to death-they will be far more flaky and tender if the cook is not too ambitious.

Quick hot breads are an easy way to put appetite appeal into the simplest meal. CEPPY Served with butter and jam, they will really give the family some FFFFF thing to look forward to even if the main dish is hash from left-

over roast or soup and salad from an accumulation of dabs of food in Cheese adds flavor as well as pro-

tein to a meal when made with muffins like the following: *Cheese Muffins. (Makes 12 medium-sized 21/4 cups sifted all-purpose flour

3 teaspoons baking powder 14 teaspoon salt 34 cup grated American cheese

1 eup milk 14 cup melted butter

Sift flour once, measure; sift into mixing bowl with baking powder and salt. Add grated cheese and mix thoroughly. Beat egg, add milk and melted butter, and pour into the center of the dry ingredients. Stir quickly until dry ingredients are just dampened. Batter should not be smooth. Fill greased muffin pans about % full. Bake in a moderately hot oven (425 degrees) for 15 or 20 minutes until golden brown.

Serve hot with butter and jam. If you want to do other unusual things with muffins you might like them with a prune or a spice fla-vor. Both of these will add extra enjoyment to meals.

Prune Muffins.

31/2 cups flour 1/3 teaspoon salt 4 teaspoons baking powder 1/4 teaspoon nutmeg

% cup shortening cup brown sugar

134 cup milk 34 cup cut, cooked prunes, well drained Prunes and nuts for decoration Sift together first four ingredients

Cream shortening and add sugar

Lynn Says:

Here are tips on egg cookery: Beads on a meringue come from too much sugar. Frothy meringue comes from too little sugar. Two tablespoons of sugar to one egg white is a good rule to follow. Eggs keep better if they are

not washed before refrigerating. Never place meringue on a hot pie filling. It will form syrup between filling and meringue and 'skid." Pile the meringue in the center of the pie and anchor to the crust on the edges after

spreading. To open eggs evenly without breaking the shell, crack with a knife that is not too sharp.

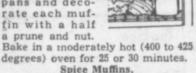

The volume of the egg white may be increased slightly when 11/2 teaspoons of water are added to white before whipping. This applies particularly if the eggs are not as fresh as possible.

gradually. Then add beaten eggs and milk. Add dry ingredients and mix thoroughly. Mix in prunes. Turn into greased muffin pans and decorate each muffin with a half a prune and nut.

egg

cup sugar cup milk cup melted shortening teaspoon ginger teaspoon nutmeg teaspoon cinnamon

2 cups sifted flour

teaspoons baking powder 1 teaspoon salt Sift together all dry ingredients. Combine egg, sugar, shortening and milk. Add dry ingredients and stir smooth. Fill greased muffin until pans % full and bake in a mod-erately hot (400 to 425 degrees) oven until done, 25 to 30 minutes.

What are our standards for makling biscuits? Perfect biscuits are light and fluffed, fairly straight and even on the sides, level on top, well shaped and regular. Their tender crust is golden brown and rather smooth. When broken open, they show a creamy white, fluffy crumb which is even and fine-grained.

Over-mixing, or too long kneading of the dough makes biscuits tough with a pale crust. Speed and light handling are essential for flakiness. Under-mixing, on the other hand,

causes lack of flakiness in biscuits. These biscuits also lack in volume. The fat needs to be well distributed for a flaky texture. The proportions for plain biscuit

are as follows: 2 cups of flour, 2 teaspoons baking powder, % teaspoon salt, 5 tablespoons shortening and 1/2 cup milk. The dry ingredients are mixed; the fat

cut in, and enough milk added to make the dough. Knead the dough for about 30 seconds, then roll and cut. Use a hot oven (450 degrees) and bake biscuits for 12 to 15 min-

Apple Sauce Biscuits. cups flour

teaspoons baking powder 14 teaspoon soda 1 teaspoon sait 3 tablespoons fat

legg 1/2 cup tart apple sauce 1/2 cup thick sour cream

Sift dry ingredients. Cut in fat. Beat egg and add to applesauce and sour cream. Add to first mixture. Turn on a floured board and knead for 20 seconds. Roll to 1/2 inch thickness and cut into 2-inch biscuits. Place on an oiled cookie sprinkle with grated cheese and bake.

Buttermilk Biscuits. cups pastry flour teaspoon salt 4 teaspoons baking powder 14 teaspoon baking soda 4 tablespoons shortening

% cup buttermilk Sift dry ingredients and cut in shortening. Add buttermilk and quickly mix to a soft dough. Turn out on floured board and knead for 30 seconds. Pat to desired thickness and cut with a small cutter. Place on oiled sheet and bake in a hot (425 to 450 degrees) oven for 10 to 12 minutes.
