VOL. 36

HEDELY, DONLEY COUNTY, TEXAS, FRIDAY, FEB. 22, 1946

NO. 15

## Basketball News

The Hedley boys were defeated in the semi-finals of the district basketball tournament at Goodnight last week by Claude, the winner, by the score of 32 to 22. They reached the semi-finals by defeating Brisco 39 to 22 and Mabee 51 to 15. Charles Neal Johnson and Arthel Gibson made the all-district team, receiving gold basketballs as awards. The Quail boys won second place in the district by defeating Kelton and Samnorwood and losing to Claude in the finals 26 to 25. An effort should be made to get the tournament in this part of the district next year and give the boys in this end of the district a better chance.

## American Legion

The 18th District meeting of the American Legion will be held at Pampa Tuesday night Feb. 26th. This will be a one night meeting with business meeting, eats and other entertainment. Several local Legionnaires plan to attend. Work on the Legion Hall is at a standstill now. They are waiting for sheet rock to finish the ceiling. To date the building has been braced, the ceiling lowered, a new roof put on and rewired. Soon as the material arrives work will be resumed. The Post is going to have to put on a membership drive it looks like. Only 46 members have paid up for 1946. New members should leave their dues and service records with C. L. Johnson, Adjutant. Old members just have to pay the \$3.00 dues.

## Valentine Party

The Juniors were entertained with a Valentine Party in the home of Mrs. Sam Owens. Refreshments were served to Betty and Erna Jean Spear, Elsie Howell, Margare Baker, Wanda Moore Veal, Johnson, Thelma Moss, Warren Wynn, Herman Wells, Lynn Cherry, Charles Neal Johnson, Martha Nell Reid and Lo a Faye Owens. All reported a very good time.

Out of town relatives and friends attending the funeral of J. E. Neely last Thursday were Mr and Mrs. O. D. Kerr and Mrs. G. J. Teel of Amarillo, Will Webb and Mrs. Rayburn Smith of Clarendon, Mr. and Mrs. M. L. Neely and grandson Jerry, J. W. Neely, Mrs. Cecil Bilbrey and Mrs. L. R. Anderson of Altus, Okla., W. H. Jones and Mr. and Mrs. Ivan Jones and daughter of Ft. Worth.

## THE WISE OLD OWL

Why did Wanda June leave the party Thursday night?  
Why didn't Betty finish rolling her hair? Was she in a big hurry?  
What is the matter between Velvia and Samnorwood?  
What was the matter with Gibb the other day at noon? Watch your step, Gib.  
Why are the boys so willing to have Girls District here?  
Is Wanda Jennings accustomed to talking in her sleep?  
Is Reba just interested in any boy?  
Isn't it more convenient now for Bobby Gibson to see his girl since she lives in town.

## Hedley Host To Girls Dist. Basketball Meet

Prettiest lasses from ten counties will spend Friday and Saturday in Hedley and we mean spin too. They are colorful basketball champions coming here to compete for the district championship. Coach Bill Flatt and Lion Clifford Johnson, at a meeting in Claude Monday night, convinced the other school representatives that Hedley was the logical place for the tournament. "Plenty of gym space to take care of the crowds, centrally located, hot and cold running water, excellent food and southern hospitality, extra exhibitions, boxing and music; promises they couldn't resist! Let's live up to them!"  
Remember Hedley is host. The Liyns are backing it and the PTA asks your support. So call and let Mrs. Mary Sue Longan know how many of the pretty girls you will accommodate with lodging and breakfast. And turn out and see the games.

## A Sketch of USS Tennessee's Record

Following is a sketch of the USS Tennessee, the ship on which J. M. Dickson of Hedley served. Her first shots fired in anger shattered the peaceful routine of a Sunday morning in Pearl Harbor, Hawaii, on 7 December 1941, within a few moments after the first Japanese bombs fell. The ship was hit by two bombs, but, with her guns manned, the Tennessee shot down five of the attacking aircraft. Still able to steam, the ship was given hasty repairs and assumed duty as a part of the line interposed between the Hawaiian Islands and possible Japanese surface attack. She was on this duty during the Battle of Midway. Again she was refitted, and departed for Alaskan waters, participating in the Aleutian Campaign. As the pace of the war speeded, so did the activities of the Tennessee. The mighty fire power of her main batteries helped to soften up the islands of Kwajalein, Tarawa and Atolis of the Marshall Islands. She fired her main battery at the Jap positions during the diversionary attack on Kavieng, New Ireland. At the Kavieng bombardment, the Tennessee was straddled by a salvo of Jap fire from shore batteries, but was undamaged. At Saipan, she was hit by a shell from a Jap shore battery, and silenced the guns which were firing at her in the next salvo. Repairs were quickly made and the ship returned to fight in the invasion of Guam. The Tennessee's next assignment was in the campaign which led to the recapture of the Philippine Islands. The ship shelled in advance of troop landings on Leyte. The next assignment was her greatest and the greatest fought by any navy in exclusively surface combat during the Second World War. It was the battle of Surigao Strait. As a part of the force under Vice Admiral Jesse B. Oldendorf the Tennessee was in the battle line that night as the Jap Fleet closed. Vice Admiral Oldendorf withheld the fire of his ships until the Jap battle force had come in to 20,000 yards. In the 13 minutes after "Commence Firing" was signalled, the Tennessee fired 13 salvos from her main battery, more than any other vessel engaged. Jap losses in the battle included two battleships, two cruisers, and four destroyers. American naval losses were nil; one destroyer was damaged. At Okinawa on 12 April, during heavy enemy air attacks, the Tennessee was hit by a crashing Kamikaze plane. The ship remained in the fight, despite this, for about a month before retiring for emergency repairs. The Tennessee then headed back for Okinawa, and she was there when the Japanese surrendered. For the Tennessee it has been a long and hard war. The ship has participated in 15 engagements and, in addition, the occupation of Japan. She has fired more main battery, secondary battery and anti-aircraft ammunition than any other battleship in the Navy.

## WEEKLY NEWS ANALYSIS

### Seek to Avert Mass Starvation In Europe; New Wage-Price Plan Seen as Spur to Production

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

#### WORLD RELIEF: Need Great

In calling upon the American people to pull in their belts and get along on a smaller and less varied selection of meats, cheese, evaporated milk, ice cream, margarine, salad dressing and beverages, President Truman declared that the threat of starvation overseas was greater today than at any other time in history.

While Americans have been consuming about 3,300 calories per person, he said, more than 125 million people in Europe will have to subsist on less than 2,000 calories a day; 28 million will receive less than 1,500 calories a day, and large groups will get as little as 1,000 calories.

In shaping a nine-point program to enable this country to meet relief requirements overseas, the administration placed emphasis upon conservation of dwindling wheat supplies to assure fulfillment of export goals of 225 million bushels.

No less than 25 million bushels of wheat were expected to be saved during the first half of 1946 by raising the quantity of flour produced from a bushel of wheat to 80 per cent. As a result, more dark bread will be made. Another 20 million bushels of grain are to be conserved by discontinuing the use of wheat in the direct production of alcohol and beer and limiting the use of other grains for beverage alcohol to five days' consumption per month.

At the same time, the department of agriculture will seek to cut down on use of feed grains by encouraging the speeding of marketing of hogs and beef cattle and culling of poultry.

The other provisions of the administration's nine-point program include the acceleration of rail shipments of wheat, corn, meat and other foods; exportation of 375,000 tons of fats and oils, 1,600,000,000 pounds of meat, and increased supplies of canned milk and cheese; establishment of wheat and flour inventory controls on millers, bakers and distributors; and efforts to move more copra for coconut oil from the Philippines.

#### WAR CRIMINAL: No Reprieve

Having been convicted by an American military commission for countenancing atrocities in the Philippines, Gen. Tomoyuki Yamashita's life rested in the hands of President Truman after the Supreme court had validated his trial and Gen. Douglas MacArthur refused to mitigate the sentence.

As the President considered clemency there was resentment in Japanese circles over MacArthur's orders that Yamashita be stripped of his uniform, decorations and other army accessories in being hanged. Declaring that Yamashita was an adherent of the ancient Samurai warrior tradition, Nipponese generals said he was entitled to a soldier's rather than a common criminal's death.

In ordering Yamashita's hanging in disgrace, MacArthur asserted that the Jap had dishonored the military profession by countenancing troop rapacities instead of insisting upon their protection of the weak, whether friend or foe. Scoring the Japanese sack of Manila, MacArthur compared the destruction with American respect for the city in 1942 despite its impending loss.

#### CONGRESS: Labor Curb

Despite quick house action in passing the drastic Case bill with its restrictive labor legislation, the senate was expected to proceed more slowly in considering the measure.

Holding their lines solidly throughout the week-long debate on the bill, a coalition of Republicans and conservative Democrats beat down all efforts to take the teeth out of the legislation by modifying provisions or eliminating all enabling clauses to reduce the measure to a mere declaration of policy.

While liberals assailed the bill as one of the most vicious anti-strike laws to come before congress, proponents clung fast to provisions setting up a mediation board to consider disputes; requiring 30-day cool-

ing off periods before strikes; making both management and labor liable for contract violations; outlawing violence and intimidation, and banning sympathy walkouts or boycotts.

#### WAGE-PRICE: New Policy

Culmination of a long and strenuous tug-of-war between government and industry, and between administration officials themselves, a new wage-price formula loomed with the expectation that it would pave the way for labor peace and start up full-scale production.

Pushed by Reconstruction Director Snyder, and at first vigorously opposed by OPA Administrator Bowles, the new program reportedly called for general wage increases approximating 17 per cent and corresponding price boosts to permit industry

OPA Administrator Bowles (right) and newspapermen.

to absorb the added expense. Though admitting that a rise in living costs would result from the policy, administration leaders declared that the volume output following resumption of work would bring prices to normal, reasonable levels.

In developing the new formula, President Truman affirmed his belief in a previous plan he had proposed under which prices would have been raised only if industry had proven its inability to absorb wage increases. While the plan would have worked with full production, he said, obstructions to large-scale output necessitated a revision of policy.

#### UNO: Save Face

At odds in the United Nations organization over the question of the presence of British troops in Greece, Russia and Britain patched up their differences with acceptance of a face-saving formula under which the security council dropped consideration of the issue without a formal pronouncement.

By dropping the question without further ado, UNO avoided the possibility of impairing the prestige of Russia by refuting its charges that the presence of Tommies in Greece threatened the peace of the world or of offending Britain by acknowledging the Red accusations.

Russia's charges that the Tommies' alleged protection of rightist interests in Greece against leftist elements would have international repercussions followed close upon what it believed were British inspired Iranian complaints against Red interference with orderly government in that country. Occupying a strategic position along the British life-line in the eastern Mediterranean, Greece, along with oil-rich Iran, ranks as a key spot in the Near East.

#### Debate Site

While residents of the Stamford-Greenwich, Conn., area recommended to UNO as a site for permanent headquarters, protested against the selection, a strong movement against approving the locality developed within UNO itself.

In leading opposition against the Stamford-Greenwich site, Australian Delegate W. R. Hodgson declared that purchase of the land for \$20,000,000 was too costly, residents did not welcome UNO and no central facilities for interim operations were available in New York.

Despite proposals for purchasing the area recommended for from \$600 to \$800 per acre, residents of both Greenwich and Stamford voted against the inclusion of town areas in the site.

#### Liquor Revenue Up

Federal revenue of 2.4 billion dollars — an all-time high — were collected for the government in 1945 by the alcoholic beverage industry, an analysis of Bureau of Internal Revenue data shows.

#### FULL EMPLOYMENT: Water Bill

With Democrats and Republicans alike expressing agreement, the house passed a diluted version of an administration-backed "full employment" bill that would have committed the government to providing jobless work at prevailing wages.

As finally framed by a house-senate conference committee and pushed through congress, the new bill sets up a council of three economic advisers delegated to prepare annual reports on levels of employment, production and purchasing power and draw up a program for correcting maladjustments. A congressional committee of seven will then act upon the recommendations.

In typical comment on the measure, Rep. Manasco (Dem., Ala.) declared that it was high time congress announced an unwillingness to continue deficit spending except in extreme emergencies, and Rep. Judd (Rep., Minn.) said the bill could do no harm and may do good.

#### LABOR: Bloody Outbreak

Murder charges were filed against four armed guards of the Toledo, Peoria and Western railroad following an altercation between employees of the company and pickets near a siding at Gridley, Ill., in which two strikers were killed and three others wounded.

Climaxing the T.P.W.'s tempestuous labor relations with the railroad brotherhoods, the bloody affray developed after the company had run its first train over its eastern division since the union walkout last October. At that time, the government had returned the T.P.W. to its owners following its wartime operation of the strategic 239 mile line after taking over the property in 1942. Seizure resulted from T.P.W. President G. P. McNear's refusal to arbitrate a dispute.

Having followed the train along a paralleling highway, about 25 pickets parked their cars close to a siding in Gridley and moved toward a nearby switch which the four armed guards approached to "throw." As the guards and pickets neared each other, shots were fired and the strikers fell. Though it was admitted that the pickets carried rocks, police sought to determine whether any had been armed.

#### NEAR EAST: Russ Claims

Repeated communist demands for the return of Turkish-held Armenian lands to Russia focused increasing attention on the Near East.

Latest communist appeal for the return of Turkish provinces of Kars and Ardagan to Russia was made by Grigori Arutinov, secretary of the Communist party of Soviet Armenia. In an election speech at

Yerevan, played up in Moscow, Arutinov declared that the Armenian people raised the question of regaining the territory ceded to Turkey in 1921 in a border dispute.

In the face of growing Russian pressure for the readjustment of Turkey's mountainous eastern border, and other demands for a strip of Turkey's northern Black sea coast, Istanbul has stood fast against territorial revisions. With the central government announcing its intentions to fight for every inch of ground, nationalists sentiment in the threatened provinces has been fanned to a patriotic pitch.

#### WORLD COURT: None American

Top legal body of the United Nations Organization, the new International Court of Justice will include one American among its 15 members, Green H. Hackworth of Chevy Chase, Md., being elected to the tribunal.

In supplanting the old world court the new tribunal ranks as the principal organ of UNO for resolving judicial disputes between nations. In addition, the court can be called upon to furnish legal advice to accredited UNO agencies.

A legal adviser to the state department since 1925, Hackworth has participated in many international conferences. Accompanying Secretary of State Hull to Moscow in 1943, he subsequently attended the Dumbarton Oaks and San Francisco conferences. With the U. S. delegation at the London sessions of UNO, Hackworth also is chairman of the United Nations committee of jurists. As a justice on the new court, he will draw \$20,200 annually.

#### FARM LAND: Sales Drop

A continued rise in farm land values and a moderate decline in the volume of sales were leading developments in the farm real estate market during the year 1944-45, the agriculture department said.

For the United States as a whole, land values during World War II (1939-45) increased 50 per cent as compared with a 25 per cent increase during World War I (1914-18).

#### Chauncey Believed There Was a Time for All Things

The late Chauncey Mitchell Depew, who was a U. S. senator from New York, had a genius for after-dinner speaking which was universally acknowledged and admired, and as a result he was called upon to eat everywhere and with every manner of organization.

"Chauncey," remarked a friend, "I don't see how you can stand it. I should think it would give you dyspepsia. I suppose you can eat everything?"

"No," replied Depew, "there are two things I always positively refuse to eat for dinner."  
"And what are they?"  
"Breakfast and supper," he replied.

#### Ever Try Making Cough Syrup In Your Kitchen?

**Quick Relief. No Cooking. Easy!**

If you've never tried mixing your own cough medicine, you've missed a lot. It's no trouble—needs no cooking—and gives you about four times as much cough syrup for your money. You'll say it beats anything you ever tried for coughs due to colds. And here's how it's done—

Make a plain syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until it is dissolved. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Get 3 1/2 ounces of Pinex from your druggist. Put this into a pint bottle and fill up with your syrup. This makes a pint—a family supply. Tastes fine and never spoils. Children love it.

And as for results, you've never seen anything better. It goes right to work on the cough, loosening the phlegm, soothing the irritation, and helping clear the air passages. You will like it for its results, and not merely for the money it saves.

Pinex is a special compound of proven ingredients, in concentrated form, a most reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.—Adv.

#### Household Hints

Before replacing a broken pitchfork handle or anything similar, boil the end of the new handle for about five minutes. Then the fork is easily driven in.

Even an old funnel can be glamorous. Paint it to match your kitchen color scheme and hang it on the wall as a holder for a ball of twine.

To restore the gloss of dark furs, rub lightly with a brush which has been dipped in brilliantine.

The envelope type of purse can be made of felt. This is a suggestion especially for children's purses. They, too, may be decorated with yarn or with small figures or designs cut from felt of contrasting colors.

**ELEMENTARY,  
my dear Watson!**

Here's a problem for you, Watson. What living cost has DECREASED while nearly all other costs have gone right on rising?

My dear Watson, the answer is at your finger-tip. What else gives you twice as much for your money as it did 15 years ago? What else is ready day or night, winter or summer, to lighten your tasks and make life more comfortable for you? What else gives you so much service for just a few pennies a day? What else, my dear Watson, but Electric Service?

Elementary, my dear Watson. Electric Service—dependable and cheap—is the result of hard work, private initiative and experience on the part of the men and women of your electric company—under sound, steady business management.

**That Nagging Backache**

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—in its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter stone acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

THE OLD JUDGE SAYS...

**HENRY:** "I've heard that same thing several times lately... that alcoholics are really sick people. It was news to me. Do you agree with that statement, Judge?"

**OLD JUDGE:** "Yes, it's true, Henry. It's no notion of mine... it's a statement made by scientists who have studied the subject."

**HENRY:** "What did they find out, Judge?"

**OLD JUDGE:** "Well as a result of their medical research, they found out that approximately 95% of the people who drink, drink sensibly. 5% drink unwisely, at times. Included in that 5% is the small percentage known as alcoholics."

**HENRY:** "But why are they called sick people?"

**OLD JUDGE:** "Because it has been discovered that, in many cases, excessive drinking is a symptom of some physical or emotional maladjustment... not the cause of it."

**HENRY:** "Now I understand it, Judge. I am glad to hear of the modern approach to this problem and that so much is really being done to help these folks."

Shrimp-Stuffed Peppers Are a Surprise (See Recipes Below)

Fish Food Favorites

There are quantities of fish on the markets right now. This food arrives often, you'll find on investigation, more than just once a week, and you may buy it fresh, canned, and often frozen.

Fish is a delicate food and needs only short cooking time to bring it to perfect doneness. Broiling is a good method of preparation because it gives fish a crusty, golden brown appearance; and so is baking because it makes preparation so easy.

You'll want to use all varieties of fish to round out the diet. For, fish is not only good when properly prepared, but it's also a fine protein food with many fine minerals.

Seasonings are important because they enhance the delicate flavors of fish itself. A touch of onion is always in order, and occasionally you'll want to add parsley, chives and herbs.

Here are two unusually tasty baked fish recipes. They use cereal to extend the fish, and make a fine blend when the food is baked:

Crunchy Fish Scallops. (Serves 6)

- 8 tablespoons butter or substitute
3 tablespoons flour
2 cups milk
1 teaspoon salt
1/4 teaspoon pepper
2 tablespoons onion juice
4 tablespoons finely chopped green pepper
2 cups (1 pound) flaked fish, cooked
1 tablespoon lemon juice
2 hard-cooked eggs
1 cup coarsely crushed corn flakes
1/2 cup grated American cheese

Make a white sauce by melting the butter, adding the flour and blending. Add milk, salt and pepper. Cook and stir until thickened. Then add onion juice and green pepper.

Flaked Fish Puff. (Serves 6)

- 1 cup milk
4 tablespoons farina or corn meal
1/2 teaspoon salt
2 tablespoons water
2 teaspoons chopped chives or onion
2 tablespoons chopped parsley
1 cup cooked flaked fish
4 tablespoons chopped celery
2 eggs

LYNN SAYS

Use Common Sense: Problems that every cook comes up against every once in a while can be solved with some good, practical common sense. Here are some examples:

Rolls and muffins which have become too stale to eat can be refreshed by sprinkling with water and placed in a brown paper sack to be heated for about 5 minutes in a moderate oven.

Tea mixed with a little grated orange rind will go twice as far, and will be delicately flavored.

To use leftover egg yolks, poach them until they are hard-cooked, then grate them and use as a garnish for salads and vegetable dishes.

Fresh Fruit Cookies

Heat milk to the boiling point, combine cereal and salt with the water. Add to the hot milk, continue cooking until thickened. Add chives and parsley. Remove from heat and add fish and celery. Beat egg yolks slightly and add to fish mixture. Beat egg whites and fold into mixture. Pour into a greased baking dish, place in a pan of hot water and bake in a moderate oven (350 degrees) until inserted knife comes out clean (about 45 minutes).

Many of you have eaten and enjoyed Fish Chowder, but have you ever tried it in pie form with a crusty topping? Any type of fish filets may be used in the following recipe.

Fish Chowder Pie. (Serves 9)

- 1 1/2 pounds fish filets
1 cup cooked, diced carrots
2 hard-cooked eggs
1/4 cup fat
2 tablespoons chopped, green pepper
1 cup chopped onion
1/4 cup flour
1 cup milk
2 tablespoons lemon juice
1/2 teaspoon Worcestershire sauce
1 1/2 teaspoons salt
1/4 teaspoon pepper
1 recipe pastry

Poach or simmer fish for about 20 minutes in 1 quart boiling water to which 2 slices of onion, 2 1/2 teaspoons peppercorns, 1 bay leaf and 1 teaspoon salt have been added. Drain fish and flake coarsely. Save liquid.

Arrange fish, carrots and sliced eggs in a greased casserole. Heat fat, add green pepper, onion and cook slowly over low heat for about 10 minutes. Blend in flour, add milk and 1 cup liquid left from fish. Cook slowly until thickened, stirring constantly. Add lemon juice, Worcestershire sauce and seasonings. Pour over ingredients in casserole. Top with pastry and bake in a hot oven (450 degrees) about 30 minutes or until crust is lightly browned.

Note: 1 pound of cooked or canned fish may also be used in the above recipe.

There's nothing new about stuffed peppers, but if the filling is nutritious and delectable shrimp, then there's definitely something new in this dish. Here's the way it's done:

Shrimp-Stuffed Peppers. (Serves 6)

- 7 ounces canned shrimp
1/2 cup diced celery
1/4 cup chopped onion
1/2 cup sliced carrot rings
1/2 cup mayonnaise
1/4 cup chili sauce
3 tablespoons lemon juice
Scallions, radishes and potato chips

Reserve six shrimps for garnish. Chop remaining shrimp and combine with celery, onion and carrots. Mix together mayonnaise, chili sauce and lemon juice. Combine with shrimp mixture. Use to fill pepper shells. Garnish each with a whole shrimp. To serve arrange stuffed peppers on a platter with scallions and radishes. Pile potato chips in center of platter.

Another stuffing which is certain to find favor is this one:

Shrimp and Cabbage Stuffing.

Combine 7 ounces of shrimp with 1/2 cup chopped cucumber, 1/4 cup diced tomato and 1/2 teaspoon salt. Blend 6 tablespoons mayonnaise with 3 tablespoons grapefruit juice; add to shrimp mixture and toss lightly. Use to stuff peppers or tomatoes. Released by Western Newspaper Union.
