WEEKLY NEWS ANALYSIS

UNO Weathers First Big Test; Rail Unions Balk at Pay Award; Civilian Output at Peak Rate

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

Seated on stone block of ruined public building, Polish girl views desolation of once modern building section of Warsaw. Once proud Polish capital is now ghost city of Europe, with half of its population half-starved and ill-clad.

UNO:

Weather Storm

Fraught with danger to the United Nations Organization and world peace, the tense Russo-Iran-ian dispute melted under the prom-ise of diplomatic compromise, with Moscow saving face and Tehran its sovereignty.

Secretary of State James Byrnes, chief U. S. delegate to the UNO se-curity council, started the happy train of events, suggesting that both countries state their position in the dispute over Russian failure to withdraw from Iran before UNO considered action in the case.

Russia had walked out of the security council after its decision to consider the question and Byrnes' proposal offered an excellent opportunity for the Reds to walk back in without losing prestige. Making the most of the chance, the Russians wrote UNO that they were pulling out of Iran without imposing any conditions for their retirement and their troops should be gone by

Taking his cue, Iran's representative then told the security council that if definite assurances could be obtained that the Russians would apno pressure for oil concessions or Red-backed provincial govern-ments as a condition for withdrawal, Iran would consider the matter

And upon that happy note, UNO appeared to have overcome its first great hurdle.

RAIL PAY: Balk at Findings

In protesting the 16-cent-an-hour raise awarded by a labor-manage-ment arbitration board, railroad union officials declared that the boost granted failed to meet higher living costs and adjust differences in pay between railroad workers and employees in other industries.

Declaring railroad workers were entitled to a 46-cent-an-hour increase, B. M. Jewell, representing non-operating unions, and E. E. Milliman, president of the Brotherhood of Maintenance of Way Employees, asserted that the minimum award should have included 111/2 cents an hour for higher living costs plus the general industry-wide 181/2

cent-an-hour postwar advance. Meanwhile, railroad officials also complained against the arbitration board's wage decisions, estimated to add up to \$400 per year for 1,220,000 members of three operating and 15 non-operating unions and cost the carriers \$584,000,000 an-

Echoing the carriers' warnings that increased wages would require rate boosts, President Fred G. Gur-ley of the Santa Fe announced that the 16-cent-an-hour award was too large and his road would immediately appeal for higher freight tariffs. Stating that the wage increases would add \$25,000,000 yearly to Santa Fe operating costs, Gurley said the boost coupled with higher material, supply and fuel costs against reduced income made the

step necessary.

Because both the railroads and unions had agreed to accept the arbitration boards' findings as final in submitting their dispute for settlement, no work stoppage loomed

because of disagreement over terms.

The recommendations were handed down even as a fact-finding panel conducted hearings on demands of the Brotherhood of Locomotive

FARM LOANS:

Farm operating loans will be made to approximately 10,000 farmers-principally World War II veterans-this spring with the additional 15 million dollars made available to the Farm Security administration by deficiency appropriation.

Legislation increased the amount

for rehabilitation loans this fiscal year from 67½ to 82½ million dol-lars with the additional amount permitting continued lending through late spring.

Engineers and Brotherhood of Railway Trainmen for a 25 per cent wage increase and changes in working rules. In demanding that wages and working rules be considered simultaneously, the two unions refused to join the other 18 in submitting the pay issue to arbitration.

CONGRESS:

Pay Adjustment

Government employees were in ne for a pay increase as a result congressional action but an administration measure to raise the minimum wage to 60 cents an hour appeared doomed because of the farm bloc's insistence that the same bill hike the parity formula over President Truman's protest.

The senate and house strove to get together on a uniform pay increase for U. S. employees following their approval of conflicting raises. While the senate had o.k.'d an 11 per cent boost, the house voted a \$400 a year advance. Since Sell Star the house also decided to limit department appropriations in the 1947 fiscal year to those of 1946, how-ever, the higher pay would cover fewer employees and thus cut the federal payroll by 200,000.

In pushing for an upward revision of the parity formula as an amend-ment to the 60 cent an hour minimum wage bill over President Truman's veto threat, the farm bloc sought to protect farmers' returns in a period of rising costs. Trum-peting administration disapproval, Secretary of Agriculture Anderson declared revision of the parity formula to include farm wages would result in a 33 per cent boost in farm prices and spark an inflationary cycle.

PRODUCTION:

Rosy Prospects In meeting the pent-up and ordi-nary demands of consumers, requirements for a

large military estab-

lishment and heavy

exports, the U. S.

faces an unparal-

leled period of pros-

perity, Reconver-sion Director John

Snyder indi-

President Truman. Despite work stop-

pages and material shortages, civilian production had reached a rate of 150 billion dollars during the first three months of 1946, Snyder said, with private wages and salary payments returning almost to the pre-V-J day rate of 82 billion dollars. Non-agricultural employment total-ed 44,700,000 in February, with 2,-700,000 jobless seeking work.

Indicative of the huge demand for goods, Snyder said that consumer and business purchases during the first quarter of 1946 equaled those of the Christmas period in contrast to an ordinary drop of 10 to 12 billion dollars. Though overall civilian production rose, the textile shortage remained acute, being aggravated by mills' refusal to sell unfinished goods because of higher profits on bleached or printed cloth.

Notwithstanding increasing production and high taxes, the threat of an inflationary spiral remains, Snyder said. Noting the trend, he pointed out that on March 15 wholesale food prices were 3.1 per cent above those on the same date last year and the prices of other products were up 2.5 per cent.

Laundries Boom

Showing a continuing trend in increased patronage of commercial laundries, the nation's laundries did a record-breaking 634 million dol-lar business in 1945. This all-time high represents increases of 4.6 per cent over 1944 and 127 per cent over 1933.

Increases in laundry services sales volume were reported from every section of the coun-

OVERSEAS RELIEF: London Confab

The problem of tiding war-stricken countries over the 1946-'47 consumption year concerned delegates from 18 Allied, neutral and former enemy nations at the Emergency

Economic conference for Europe being held in London. With the U. S. aiming to ship 1,000,000 tons of wheat monthly toward a goal of 11,000,000 tons, efforts were bent on stimulating contributions from other countries to fill out the huge deficit. In this con-nection, a report of the conference's combined food board recommended that Russia be requested to furnish cereals and that steps be taken to increase the extent of Argentine

Little Ireland followed the U. S. in setting an example to participating nations, announcing it would send 35,000 cattle, 9,000,000 pounds of canned meat, 20,000 tons of sugar as well as milk, bacon and cheese to the continent this year. Normally Eire sends most of its cattle and eggs to Britain.

MIHAILOVITCH:

U.S. to Aid

Lauding Gen. Draja Mihailo vitch's contributions to the Allied cause in the early stages of the European war, the U. S. state department asked the Yugoslav government that American officers at tached to the Chetnik leader's headquarters be permitted to testify on his behalf in his forthcoming treason trial.

Famed for his daring guerrilla warfare against the Germans during the height of Nazi domination. Mihailovitch lost his grip on the Yugoslav resistance movement with Allied recognition of the Communist-trained Tito following the Russian resurge in 1943. At odds with Tito, Mihailovitch became a fugitive, charged with collaborating toward the end with the German invaders.

In coming to Mihailovitch's defense in the face of bitter Communist allegations against the Chetnik leader, the state department said many American army fliers had been rescued and returned to Allied lines through the daring efforts of his forces. It was also pointed out that U. S. officers were attached to Mihailovitch's headquarters as liaison men in co-ordinating resistance operations.

Sell Stamps

Individual hobbyists and dealers shared in the purchase of Franklin D. Roosevelt's famed stamp collection, which brought heirs to his estate over \$210,000. Representing a lifetime collec-tion of the late President, the stamps were appraised in ad-

vance of the auction at \$80,000. Berry Hill, a New York deal-er, was one of the biggest buyers at the sales, paying \$1.885 for most of 29 lots of French stamps and die-proofs and \$1,615 for four groups of German stamps included in statistical showing the extent inflation in the reich after World

Dr. L. L. Ruland, a hobbyist, topped bids to pay \$4,700 for 62 lots of Chinese stamps presented to Mr. Roosevelt by Chiang Kai-shek. K. Biloski, a Cana dian dealer, paid \$2,100 for 848 stamps of a Russian collection tendered to the late President by Soviet Ambassador Maxim Litvinoff.

Almost \$8,000 was realized on the sale of 107 lots of Venezuelan

stamps and albums. NEAR EAST: cated in a report to Plot Thickens

Long the pawns of European pow er politics, natives of the Near East again figured in the diplomatic double play of the oil-rich region, with reports that the Russians were aiding chieftains of 5,000,000 Kurds in Iran, Turkey, Iraq and Syria in the establishment of an independent re-

Though the Kurds in these countries enjoy relative freedom in the mountainous regions under local chieftains, the independence movement reportedly has thrived under Russian backing. An independent Kurdish republic already has been proclaimed with headquarters at Mehabad in northern Iran and Russian technicians were said to have arrived there to help strengthen native forces.

Headed by Ghazi Mohammed, the Kurdish movement was thrown into gear at a conference of tribal leaders held in Baku, Russia, last November. Revenue and troops reportedly are being furnished by the chieftans who attended the powwow, with the heart of the movement cen-tered in British-controlled Iraq. Like Iran, Iraq's oil fields form part of the huge near eastern deposits prized by the major powers.

ASIA:

With production off 40 billion pounds below the 1936-40 average, Asiatic countries are threatened with a serious rice shortage, especially in areas where the cereal is the staple diet, the department of agriculture said. The scarcity is the result of a small 1945-46 crop, which was reduced by the war, and inabilto transport comparatively small surpluses to shortage areas. It will become most acute in the next few months as stocks from the 1945-46 harvest become exhausted.

Results Count ..

In the Cattle Business, same as anywhere else—a ranchman may have a wonderful-looking bunch of cows and good-looking bulls. If they do not nick, the results are apparent both in the show ring and in commercial auction sales. That is, even with good pasture, chemicals, water and feed, it takes proper handling and management.

The same conditions apply to the electric business. Miles of well-constructed transmission lines, neatly-kept substations and impressive generating stations do not complete the service of an electric company to its community. It takes folks seasoned in the "know how" of their business to render proper service and steeped in the customs of this section to sell this section's advantages to the nation.

Employees of this company are proud of their West Texas ancestry, and of their part in rendering, in addition to electric service, community service worthy of this great section.

Woman's World **Pretty Bedroom Accessories** Can Be Made of Old Curtains

By Ertta Haley

WHETHER you share your bedroom with another member of the family or enjoy its privacy, you want to make it the most attractive and cozy room in the house. Bedrooms and dressing rooms can truly reflect their owner's personality, and in fact, they offer more opportunity to show your skill with the

needle than the other rooms.

Pink and blue are the old standbys in color schemes for the bedroom, but the trend now is to introduce just a little bit of sophistication even when these colors are used. Instead of pink, you may want to use a melon shade and add touches of chartreuse or lime as a color complement. If your choice is blue, then perhaps a deep blue with touches of deep, bright red would make the most of the room.

After your color scheme is decided, then is the time to look into available materials to see what can be made or remodeled to make the room as pretty or smart as your heart desires. If no new materials are available, then take a trip to the attic to see what you can discover. The chances are ten to one there will be a discarded set of frothy curtains or a faded pair of drapes or an old tablecloth that can readily be converted into something extremely practical.

If you are fortunate enough to have a dressing table in room, then bear in mind that it is the focal point of the room. In making the skirt for it, remember that good draping and a full skirt are the keys to its being truly success-

The style of the dressing table skirt depends upon your own in-dividual taste. If you go in for tailored things, then you will dispense

If you have a pair of "weary" curtains . .

with that fluffy, frosted look and concentrate on draping and detail, smart color and accessories. If you like the room to be as feminine as possible, plan a skirt that is made fluffy with a sheer or starchy material and use wide ribbon for bows and draping at the top.

But what can be converted into dressing table skirt, you ask? If the skirt is a two-piece affair-a sheer fabric on top, and an opaque material for the under skirt, your choice would naturally be discarded curtains of some sheer material. The under skirt can be almost anything you happen to have—an old damask tablecloth, cotton sheeting, bedspread or drapery. Even the full skirt of an old sheer evening gown can successfully be reconverted into a frilly overskirt.

Your best choice for a tailored dressing table skirt is any old

Fashion them into a dressing table skirt. drapery material which you will probably dye to suit the color scheme of the room. Some of the old tablecloths or old formals have a lovely heavy material which also might be utilized. For this type of skirt you will not need as much material as for the very feminine, but you do have enough for deep plaits or tucks so the finished skirt does not look skimpy. Fit Material to Table

Before Cutting Before you begin working on the material, see that it is carefully laundered and pressed or dry cleaned. Patterns are not a great deal of help since the sizes of the tables vary a great deal. It will be best for you to actually fit the material to the table itself. The

Nice but Neat

The ever popular bolero suit appears in a Nettie Rosenstein version with a double-breasted box bolero over a brown crepe top dress of light blue wool. The straw hat with the perky veil is in keeping with the neatness of the suit.

material should go all the way around and open in front, with enough overlapping in front, of course, to prevent the skirt from

As you pin the material to the table, allow for tucks and pin them in, using a rule or measuring tape to see that they are evenly spaced. For the feminine dressing table skirt, allow generously for the flounce at the bottom. This, of course, may be done after the skirt is cut, but do see to it that you have enough material to go all the way around.

For ease in making the skirt, and also as a help in laundering or clean-ing, the two-piece skirt is made in four parts. Both skirts will fit four parts. Both skirts will fit around half the table coming to-Both skirts will fit gether in the middle at the front. If the table is placed solidly against a wall, the skirt need not go all the way around the back.

Probably your only purchase for the skirt will be ribbon for the trim. Don't dash out to the store as soon as you get the idea for making it. Take your measurements first, and use strips of paper for fitting and tying in bows if you want to be perfectly accurate.

In the tailored type of skirt, you may want to do some dyeing. Sturdy cotton or cotton and rayon draperies will dye fairly easily. This should be done before cutting. Sheer curtains are best left their original white, but the under skirt which is of opaque material will be pretty in a light pastel tint, if you want to introduce just a little color.

Patching Pointers

Every woman has her share of mending to do whether she likes it or hates to approach the task. Doing it on a regular routine will take some of the drudgery out of and assure the family of their clothes always being ready to

A darning basket or kit is a necessity and should be kept separate from sewing materials. All different types of thread are essential and also a quantity of buttons. Make a habit of putting loose buttons directly in the mending kit so as to have the right ones on hand.

Snaps and hooks and eyes are also essential. Other "musts" are a pair of small, sharp-pointed scissors, a darning egg, darning and sewing needles; darning thread, tape and a small razor.

A darning stitch which is most often used for mending is like a weaving stitch. It substitutes for the material and therefore the thread should be as much like the material as possible.
In mending dainty, fragile gar-

ments, use fine thread and small stitches. Lace should always be mended by dainty overhand stitches.

Spring Fashion Notes

Shoulders in both suits and coats are very wide and full but soft. Sleeves, too, carry out the fullness. In many of the coats you will find wrist length sleeves with buttons just as on dresses or blouses. Your favorite choice of mate-

rials for this season are first, thin rayon crepes; second, soft satins; third, sheer and not so sheer cot-

graceful than in years before. They boast a soft quality, but frou frou is absent.

Radiant colors in stripes, polka dots and solids are all first choice for the younger fashions now. Graceful skirts play up the youthful figure, giving it a sense of free movement and grace and minimizing the waist.
