What the Bible Says **About Baptism**

By M. F. Manchester

Because the Church of Christ teaches exactly what the Bible says about baptism, it is often accused of preaching water salvation. Baptism alone will not save anyone; just as faith alone will not save. Before baptism can have anything to do with salvation, it must be preceded by a living active faith gs, in Christ and genuine repentance from the heart. Then and only then does baptism have anything rm to do with salvation from sin. L. Jesus said to the apostles, "Go ye into all the world and preach the gospel to every creature, he that believeth and is baptised shall be kas saued; he that believeth not shall dg. be damed." Mk. 16:15-16.

If not, why not?

On the Day of Pentecost, after Peter had preached the gospel, many believed in Christ and asked what to do. Senate Approves Atom Control; Bevin Warns Russ Against Break; Italian Voters Topple Monarchy

SENATE: Kept Busy

By unanimous vote, the senate passed and sent to the house a bill for the national development and control of atomic energy during a busy week which also saw the upper chamber agree to an extension of the draft and take up the question of continuing OPA.

ATOM-Prepared by the senate committee on atomic energy headed by Senator McMahon (Dem., Conn.), the bill for developing and controlling atomic power provides for a special commission possessing sole authority over the production and storage of A-bombs or other A-weapons. A military liaison board would be set up to consult with the commission on army and navy applications of atomic energy, with the right to appeal to the President in case of disputes.

The government would be granted a monopoly over the materials, patents and production facilities used in converting atomic energy and it would be authorized to acquire stockpiles of uranium ores and other necessary materials and license their transfer.

Besides the special commission, committee of scientists and technicians would be formed for advisory purposes and a permanent congressional committee would be created to check atomic policies.

tions, the senate agreed to extend mate which slowed reconstruction bill to conference with house representatives to iron out differences between the two bodies.

As the senate pushed through the extension, it agreed with the house only on the exemption of fathers, limiting service to 18 months and pegging the size of the army at 1,070,000, the navy at 558,000 and the marines at 108,000 by July, 1947. In getting their heads together, the senate-house conferees had to settle these differences:

Whereas the senate act carries selective service over to May, 1947, the house version restricted it to February, 1947, and whereas the senate set the draft age at from 18 to 44, the house made it from 20 to 29 and barred any inductions until after October, 1946.

While the senate voted substantial pay raises to personnel, ranging from 2 per cent among higher grades to 50 per cent for buck privates, the house approved of a 10 per cent boost for ranking officers in addition to 50 per cent for buck privates.

GPA-The senate banking committee's curb of OPA powers, following the pattern set by the house, presaged a hot fight on the floor of the upper chamber when the bill extending the pricing agency for another year was reported out for de-

concessions to business, the senate committee's bill called for removlower consumer prices.

Relief to business included a ban against forcing dealers to absorb manufacturers' price increases and an amendment specifying markups for farm implement dealers; elim-

AIR TRAVEL:

More ductile instrument panels, control wheels and the removal of structures which repeatedly cause injury to knees are some of the safety measures initiated as a result of extensive research made on injuries suffered in airplane crashes by the National Research Council working with the safey bureau of the Civil Aeronautics board and study groups in the army air forces and is that a major portion of disposa-

ination of the so-called maximum average price formula under which clothing makers are compelled to balance their output of cheap and expensive garments and award of a 5 per cent incentive to cotton products manufacturers when they reach 90 per cent of their peak volume between 1936 and 1945.

LABOR: Maritime Hurdle

Though the maritime labor disputes were expected to be the last

major strike threats of the year, they also shaped as among the knottiest, with the government pre-pared to mobilize the army, navy and coast guard to keep Uncle Sam's great merchant marine operating. Irked over the government and

ndustry's concentration on settlement of the demands of six CIO and one independent union embracing 214,000 members, the AFL Seafarers and their affiliated Sailors' union of the Pacific threatened to walk out also unless consideration be given to their wage and working demands. Like the CIO, the AFL asked for higher wages, larger overtime pay and reduction in working hours.

The AFL's determination to press its demands in the midst of government and industry deliberations with the CIO indicated that the Seafarers and Sailors' union would respect CIO picket lines in the event of a ship-ping strike. This presaged a break in AFL ranks since the AFL Long-shoremen's chief, Joseph P. Ryan, condemned the CIO maritime leaders as threatening to pull off a strike to increase their prestige.

Besides its interest in keeping communication lines open, the government was vitally concerned over the maritime negotiations because it owns 80 per cent of the ships now being operated.

BIG THREE: Last Word

Getting the last word in on the big three's open discussion of European issues, bulky Foreign Minister Ernest Bevin of Great Britain told commons in a voice that went beyond parliamentary walls that his majesty's government would continue to press for an equitable solution of postwar problems in the face of Russian opposition.

Declaring that there could be no guarantee of permanent peace unless Russia entered freely into a European settlement, Bevin urged the Reds to grasp this opportunity to work out an equitable solution or else the chance may not come again.

Hinting that Britain might make separate peace treaties with former enemies, Bevin said London could not countenance a continued staleand left eco omies unbalanced. He reiterated that settlement of the Italian - Yugoslav border question should be founded on racial lines. While favoring the U.S. proposal for a 25-year disarmament pact for Germany, he called for a federalized Reich instead of an amputated state with its important western industrial provinces taken from it.

ITALY: King Falls

One month after he had succeeded his father, Victor Emmanuel, as king of Italy, 42-year-old Humbert II of the house of Savoy packed his bags preparatory to leaving the country that voted an end to royalty and chose to establish a republic.

Even as it was announced that over 12 million Italians had cast their ballots for a republic to over 10 million for retention of the monarchy, a dispatch from Naples re-ported that the Humbert household had moved at least 50 trunks and crates from the royal villa to the cruiser, Duca Degli Abruzzi, lying in the harbor. One crate contained a sewing machine lending a dramatic, if not significant, touch to the proceedings.

While Italy voted to put an end to the monarchy that had lent its prestige to Mussolini and in turn had been glamorized by Il Duce, the country as a whole swung to In addition to making substantial | the right in selecting a constituent assembly that will write a new constitution. With the Catholic church ing control over meat, dairy and poultry products and lopping off one billion dollars in subsidies to finance tian Democrats, cinched over 280 seats for a majority. Russian demands for heavy reparations from Italy and Yugoslavian acquisition of Italian territory in the north did the communists no good and they ran third in the voting.

Predict Record Spending

The rate of spending by consumers in the United States during the first quarter of this year indicates that savings during 1946 will be considerably lower than last year.

With total income for this year expected to be below that of last year and spending expected to reach an all-time high, the prospect ble income will be used.

ELECTIONS: Ponder Trends

Primary election results in the east and west and run-offs in the south set political wiseacres to scratching their heads for an inkling of voting trends prior to the allimportant congressional races scheduled for this fall.

Aside from Gov. Earl Warren's convincing sweep of both the Re-publican and Democratic gubernatorial nominations in California, where the election laws permit entrance in inter-party primaries, the political wise-birds were hard-pressed to note a trend toward either party or a real indication of CIO-PAC strength.

In California, for instance, while Senator Knowland (Rep.) defeated PAC-backed Will Rogers Jr. for the Republican senatorial nomination, Rogers turned around to whip Knowland in the Democratic primary. In Alabama, while PACbacked Rep. Luther Patrick lost in a congressional runoff in the highly industrial Birmingham district, PAC-backed James E. (Big Jim) Folsom copped the gubernatorial runoff. Some of the significance of Folsom's PAC support, however, was qualified by his stout disavowal of its backing through his hillbilly campaigning.

Neither did the decisive rebuff of PAC candidates in the New Jersey Republican congressional primaries offer a real clue to PAC strength since the CIO organization could hardly be expected to muster telling influence in the ranks of the tradiionally conservative GOP.

By decisively defeating Attorney-General Kenny in the Democratic primary and besting him by a wide margin in the GOP vote, Governor Warren emerged as a GOP hopeful for the 1948 presidential race. As the keynoter to the 1944 Republican convention in Chicago, Ill., the big, personable Californian made an immediate hit and could have had the vice presidential nomination for the asking.

Sign of the Times . . .

There was a flash back to the dizzy postwar period of the twenties when Marshall Jacobs climbed atop a 176-foot flagpole in Coshocton, Ohio, on Memorial Day and blandly announced that he was there to stay until July 4. Despite his lofty

perch, life went on almost as usual for the stunt man, who tuned in his radio, bathed himself and enjoyed a visit from his girl friend. While she was raised a third of the way up in a bos'n's chair, Jacobs lowered himself down to meet her for a warm embrace.

WHITE HOUSE: New Appointments

In what was interpreted as a move to please liberal elements, President Truman nominated Sec. of the Treasury Fred M. Vinson, Democrat, as chief justice of the supreme court. Long an administration handy-man as congressman, head of the Reconstruction Finance corporation, Director of War Mobilization and Reconversion and finally treasury secretary, Vinson's presence on the bench is expected to tilt the scales in favor of the liberal wing.

Vinson's appointment was one of a flurry announced by the Presi-

John W. Snyder, conservative St. Louis banker and personal adviser to the President, was shifted from the post of reconversion director to the vacant treasury seat.

John L. Sullivan, assistant secretary of the navy for air, was appointed undersecretary of the

Warren R. Austin, 68-year-old Republican senator from Vermont and leader in the movement to get the GOP to adopt a broader foreign policy, was appointed U. S. repre-sentative to the United Nations security council.

ACCIDENTS:

With traffic authorities anticipating a big postwar rise in traffic mishaps, interest centers on Pennsylvania's practice of sending drivers involved in accidents to "driving clinics" where mechanical devices aid detection of their faults.

Nearly 3,000 Pennsylvania drivers who have been involved in auto accidents attend the clinic each year. So far, less than 1 per cent of all these drivers have been involved in highway mishaps since state troopers helped improve their driving.

LEONARD KING of Childress for

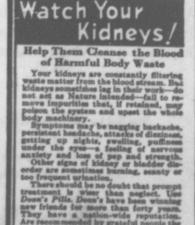

DISTRICT ATTORNEY

I deeply appreciate the many kind expressions of interest and support that I have received from all parts of the district in my campaign for District Attorney.

This office is one of great importance in the matter of law enforcement and merits and requires the full time and best efforts of the lawyer who holds the office. If I am elected your next District Attorney I propose to make the duties of the office the matter of first consideration and to devote my full time and best efforts towards making you a good District Attor-

The experience I gained as an Assistant Attorney General of Texas before I entered the Army and as County Attorney since my discharge from the Armed Services particularly qualifies me for this

Your continued efforts in my behalf will be greatly appreciated.

Make a Main Dish Meal of Vegetables

Get Your Vitamins

Summer months with their wealth of vegetables give you a chance to put away those pills and remedies you've been relying on to keep going during the winter. You're especially lucky

if you have your own vegetable garden because then you can gather the vegetables and cook them immediately, without undue loss of precious vitamins and min-

Take a tip from the Chinese when you cook vegetables. Use only a small amount of water when cooking, and don't overcook. You'll save color, flavor, and nutritious quali-

Just in case you have a family that needs coaxing and wheedling and conniving when it comes to eating vegetables, take a look through the recipes given today if you want to serve them something that doesn't need a sales talk. Don't forget that you should have two or three good sized servings of

these yellow and green vegetables to maintain good health. It's better still if you serve them fresh, be-cause they are then at their tasty best, and there's been no loss of valuable nutrients in cooking.

Shiny eggplant is really delicious when baked, one of the methods pre-ferred in vegetable cookery. Have an oven dinner when you prepare it

Baked Crumbed Eggplant.

(Serves 6) 114-pound eggplant 4 tablespoons flour 11/2 teaspoons salt 1/8 teaspoon pepper 1 egg 2 tablespoons water

½ cup fine bread or cracker crumbs 1/3 cup water

1/4 cup drippings Cut eggplant into 1/2 inch slices. Peel, if desired. Dredge with flour mixed with salt and pepper. Dip in slightly beaten

egg (which has been mixed with 2 tablespoons

water) and then in crumbs. Place in casserole in overlapping slices. Add 1/3 cup water and bake in a moderately slow (325-degree) oven for 1 hour. Before serving, pour melted drippings over eggplant. Scalloped Zucchini Squash.

(Serves 6) 11/2 pounds zucchini squash 1/2 teaspoon salt 4 tablespoons butter or substitute 2 tablespoons flour 11/2 cups milk

1 teaspoon minced onion 1/2 cup grated cheese 34 cup soft bread crumbs

Lynn Says:

Why Eat Vegetables? Two servings of leafy and green vegetables plus one or more servings of potatoes are nec-essary in the diet because they contribute vitamins, minerals and roughage to the diet.

For vitamins A, B1 (thiamin), B2 or G (rboflavin) and C (ascorbic acid) and the mineralscalcium, phosphorous and iron, vegetables are good sources. For vitamin A, calcium, phos phorous and iron, eat kale, spin-

ach, greens and carrots.

For vitamin C, get plenty of the following: chicory, escarole, dandelion greens, lettuce, romaine, watercress, cabbage, carrots, celery, parsley, peppers, radishes, scallions, tomatoes and

Eat green leafy vegetables raw, in salad form, whenever possi-ble, as vitamin C is easily destroyed by cooking.

Wash the squash and slice it crosswise into 1/2 inch pieces. Cover with one cup boiling water to which 1/2 teaspoon salt has been added. Cook for 15 minutes. Make a sauce of 2 tablespoons butter, the flour, milk or water, stirring while it thickens. Place half the cooked squash in a casserole, sprinkle with some of the onion, half of the cheese and half the sauce. Add the remaining squash and other ingredients in same order. Top with bread crumbs to which 2 tablespoons of butter have been added and bake in a moderate (350-degree) oven for 30 minutes.

California Beets. (Serves 6)

21/2 cups sliced raw beets 1 cup orange juice 1 tablespoon butter 1 teaspoon salt

1 teaspoon grated orange rind Peel raw beets thinly and slice them into a greased casserole. Cover with remain-

ing ingredients and bake in a moderate (350degree) oven for about 45 minutes. Use beets when you want to add brilliant color contrast to your meals.
