

The Hedley Informer

VOL. 36

HEDLEY, DONLEY COUNTY, TEXAS, FRIDAY, JULY 12, 1946

NO. 35

Baseball

The Hedley boys will play a team from Clarendon here next Sunday. Hedley played the Clarendon first team at Clarendon July 4th and lost by the score of 12 to 11. It was a see saw game all the way with first one ahead then the other and was anybody's game until the last man went out Sunday the Hedley boys played the Clarendon second string at Clarendon and defeated them by the score of 28 to 8.

Notice

Be sure all pupils are transferred to the school whose grades are not taught in the home district. The rural schools have been reclassified as follows:

- 1 Teacher—6 grades
 - 2 Teachers—7 grades
- Ruth M. Richerson
Co. Supt. of Schools

Peaches

I am now picking peaches at Luttrells orchards, 2 mile west Hedley. W. J. Luttrell 314c

FARMERS and RANCHERS

Why not use a Federal Loan to purchase a farm or to add improvements? The Federal Land Bank of Houston is owned by the land owners of Texas. It's terms are specially designed to fit the farmers needs. For full information contact—

Donley County National Farm Loan Association
Rayburn L. Smith, Secretary-Treasurer
Office located in Mulkey Theatre Building—Phone 166.

Mrs. May Williams and Mrs. Georgia Lair visited Mrs. E. M. Glass Tuesday.

CHAPLAIN MOORE AND BETHANY-PENIEL QUARTET TO BE HERE FRIDAY, JULY 12

Fred A. Buntin Dies

Clarendon, July 10—Fred Andrew Buntin, pioneer Clarendon businessman, died in the Adair Hospital here today. He was 55 years old.

Until February, 1945, Mr. Buntin owned and operated the Buntin Funeral Home here. He had been a resident of Clarendon since 1899.

Funeral services will be held at 10 o'clock Friday morning in the Methodist Church. Rev. E. D. Landreth will officiate, assisted by Rev. H. W. Hanks. Burial will be in Citizens cemetery.

Mr. Buntin is survived by his wife, Eunice Buntin; a daughter, Phebe Ann, and a sister, Mrs. W. P. McConnell of Fort Worth.

Intermediate M. Y. F.

The Methodist Youth-Fellowship met Sunday night in the basement of the church and re-elected officers. They were as follows: president, Loy Taylor; vice president, Martha Alexander; secretary-treasurer, Dorothy Meek; reporter, Jerry Bannister; pianist, Joan Ray Moreman; song leader, Dolores Gunn.

Our Youth Fellowship meets each Sunday night at 7:15 o'clock and we invite everyone, especially the young people who do not attend worship services anywhere.

The Junior Youth Fellowship, also meets at 7:15 o'clock in the basement and they also need more attendance and invites everyone who can come.

Reporter

For Sale—3½ lots. See Cotton Williams at the M System not later than Thursday, July 18.

James H. Stone came in this week with a discharge from the Navy. He has been in service for over a year, and has spent some time in Japan.

Mrs. J. H. Cooper of Amarillo was a Hedley visitor last week end.

Peaches

Nice yellow Freestone peaches for canning and locker. W. P. Doherty, phone 32-4 rings 8-15p

Choice city lots for sale. See S. G. Adamson. 323p

Methodists and the McMurry Pledges

On Monday night July 22 O. W. Carter, District Superintendent, Abilene, will speak at the Methodist Church here on the movement to aid McMurry. We have a great college on the way to becoming greater if we fulfill our pledges. We lack \$125.00 having our pledges paid. Some who made pledges moved away, so the rest of us will have to do more. Some who are in our church made no pledges. These should help what they can. Let's not let the young people at McMurry down.

On the afternoon preceding that night, committees in four sections of the town will canvas for donations, then after dinner reports will be made. Let's all do our best.

Local Chairman

Revival Meeting

A revival meeting will begin Aug. 2 at the Church of Christ and will run through Sunday, Aug. 11. Frank Smith of Houston will do the preaching, and there will be both morning and evening services.

Everybody is cordially invited to come out and hear him.

For Sale—cable barrel .410 shotgun. See W. M. Biffle.

Patricia Davenport is visiting here while her parents, Mr. and Mrs. Lyman Davenport Jr. are vacationing in California and Canada.

R. S. Lowe Dies

R. S. Lowe passed away Wednesday afternoon after a long illness. Funeral arrangements are incomplete as we go to press.

Notice

Increased labor cost forces us to raise the minimum price on washing from 45¢ to 50¢.

E-Z Way Laundry

New Bus Service

Another new service was made available to Hedley's traveling public Wednesday with the announcement by Continental Trailways Bus System of through bus service between Amarillo and Fort Worth.

Heretofore, due to operating conditions, passengers have been transferred at Wichita Falls to Continental's Wichita Falls-Fort Worth buses. With the new service, passengers destined to Henrietta, Bowie and other points between Wichita Falls and Fort Worth will have no changes en route.

Two through schedules daily will be operated to start with and others will be added as additional new equipment is received, Continental officials revealed. The present schedules will depart from Hedley at 1:11 p. m. and 7:56 p. m. with arrivals in Fort Worth at 9:11 p. m. and 3:10 a. m. respectively.

A feature of the new service will be direct connections at Amarillo with Continental's new through buses from Dallas to Colorado Springs and Denver. Effective Sunday, four through schedules daily were placed in operation over this route to mark the first such bus service to be offered to the Southwest. The new Fort Worth-Amarillo service will thus provide service to the Colorado vacation points with only the one change in Amarillo.

For passengers traveling westward from Amarillo to Albuquerque and Los Angeles, direct connections are afforded with Continental's Dallas-Albuquerque buses.

Rev. W. F. Gaede is attending the pastors, school at Dallas and Mrs. Gaede is visiting her parents at Grand Prairie.

Mrs. D. D. Peters of Pagosa Springs, Colo, and Mrs. Keith Bain of El Paso stopped over here on their way home from a trip to Wichita Falls.

Johnnie Myers and family of Henrietta visited here this week.

Miss Gertrude Boliver of Dallas is visiting relatives here.

Capt. and Mrs. Willis Thomas are visiting home folks.

Mrs. Myrtle Eskew of Fort Worth is visiting her brother, L. P. Trimble.

S. E. Harris and family left Friday for their home at McAllen after a visit here.

Hobart Moffitt is visiting in San Antonio.

Anna Lee Hill of Canyon spent last week end here.

Knife Box and Stand; Two Pull-Out Leaves

IN GREAT GRANDMOTHER day knife boxes were a popular project for home craftsmen. Today, they are proving so useful

and attractive that the old designs are being copied in modern work shops.

The design shown here also has an Early American stand with small leaves that pull out with tiny brass knobs. Both pieces are easy to cut and assemble from white pine which, when oiled and waxed, has a real antique appearance.

Pattern 281 is actual size for the sharp pieces, also gives cutting diagrams for either parts, illustrated directions and list of materials. Price of pattern is the postpaid. Order pattern direct from:

MRS. RUTH WYETH SPEARS
Bedford Hills, N. Y. Drawer 10
Enclose 15 cents for Pattern No. 281.

FLUSH KIDNEY URINE
Benefit wonderfully from famous doctor's discovery that relieves headache, run-down feeling due to excess acidity in the urine
People everywhere are finding relief from painful symptoms of bladder irritation caused by excess acidity in urine. DR. KILMER'S SWAMP ROOT acts fast on the kidneys to ease discomfort by promoting the flow of urine. This powerful medicine is especially useful where bladder irritation due to acidity is responsible for "getting up at night." A carefully blended combination of 18 herbs, roots, vegetables, balsams. Kilmer's contains nothing harsh, is completely non-habit forming. Just good ingredients that never say have a narcotic effect. All druggists sell Swamp Root.

WEEKLY NEWS ANALYSIS
Ample Food Supply Forecast; U.S. War Dead Over 308,000; Protest Russ Use of U.N. Veto

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

In midst of battered ruins of Munich, symbolic of shattered dreams of Nazism, former bund leader, Fritz Kuhn, walks streets in search of job. Deported to Reich after the war, Kuhn has settled with his family in the Bavarian birthplace of national socialism.

FOOD: Production Outlook
Though the peak in famine shipments will be reached within the next month, export requirements throughout the next year will remain large because of small carry-overs in foreign countries, the department of agriculture reported.
At the same time, the department stated that domestic supplies should remain at high levels, though less meat will be available and grain conservation will be required to spread stocks for U. S. and foreign use.
Approximately 21 billion pounds of meat will be produced, assuring consumers of a per capita consumption of from 135 to 140 pounds, some 10 pounds below this year's average but above the prewar figure.
Despite an expected 4 to 8 per cent drop in egg production and an 8 to 12 per cent decline in poultry, supplies should fill both domestic and foreign demands.
Continued high production will assure civilians of about the same percentage of dairy products during the next six months while government demands for foreign relief shipments of cheese, canned milk and dried milk will largely be met.
Supplies of processed foods and vegetables during the next 12 months should equal or exceed those of the last year but dried fruits may be scarcer.
The continued shortage of fats and oils will persist and domestic consumption probably will be limited to the 1945-46 level.

FOREMEN: Unionization Bucked
Brought to a head by John L. Lewis' determination to organize supervisory employees in the coal mines, the struggle between industry and labor over unionization of foremen wound up in federal court with the Jones and Laughlin Steel corporation fighting the move.
The corporation's legal action was intended to block government administrators of its four mines in western Pennsylvania from negotiating an agreement with Lewis' United Clerical, Technical and Supervisory Employees of District 50 of the United Mine Workers. Although excluded from the UMW itself, some 135 foremen were declared eligible for membership in the UMW's branch by the National Labor Relations board.

OPA: Goods Flow
Settlement of the status of OPA was expected to result in a flow of farm commodities and manufactured goods to the nation's markets to relieve the huge pent-up postwar demand.
Heavy shipments of hogs and cattle were anticipated by the department of agriculture, which even predicted a temporary meat glut. Because of government price supports, however, farmers were assured of near-ceiling returns.
Increased quantities of manufactured goods were also expected, with many producers releasing large stocks previously held back for final settlement of OPA pricing policies.

CASUALTIES: Complete Report
While New York with 31,215 killed suffered the largest number of army casualties during World War II, New Mexico showed the high-

UNCLAIMED FUNDS: To States
Large sums of money are turned over to state treasurers annually because persons have failed to claim funds due them, the Council of State Governments reports.
In New York last year, more than \$200,000 in pari-mutuel winnings unclaimed by bettors was turned over to the state. Unclaimed race winnings in Illinois go into a veterans' rehabilitation fund.

SUGGESTS ATOMIC MONEY
Atomic energy development may lead to a new and more stable monetary system based on uranium instead of gold, Professor Farrington Daniels of Chicago suggested.
Professor Daniels explained that a given quantity of uranium or its by-product is equivalent to a definite number of kilowatt hours of energy having a potential value comparatively free from price fluctuations.

CAPITOL HILL: Irks President

In one of the rare public tiffs between a President and senator, Mr. Harry S. Truman dipped his pen in acid and excoriated Charles W. Tobey (Rep., N. H.) for fighting him since he has been in office. Reading the letter on the senate floor, Tobey immediately replied that the President seemed to forget the legislative privilege to take a side on controversial issues of the day.

Mr. Truman took his pot-shot at the senator after the latter had written to him and said he was making a "Macedonian cry" (term for help derived from biblical yere) for government diversion of grain to livestock and poultry feeders as well as foreign relief. Replying that the Secretary of Agriculture was instructed to meet the situation as best he can, the President added that between livestock and people, he would prefer to see livestock starve.

At the same time Mr. Truman took occasion to whack Tobey for leading the fight against Edwin W. Pauley's nomination as undersecretary of navy, charging that such congressional assaults made it difficult for the chief executive to induce capable men of accepting appointments. Pauley asked that his nomination be withdrawn after heated hearings in which he was charged with soliciting funds for Democratic political campaigns from tidewater oil men on promises that the U. S. would drop its claims to these petroleum fields.

RUSSIA: Punish Republics

Demonstrating its demands for strict adherence to the communist cause, the Soviet government deprived two of its federated republics of their self-rule for wartime collaboration with the Germans and resettled many of their inhabitants in other parts of the country.
No less than 1,500,000 people were affected in the Crimean and Chechen-Ingush republics subjected to punishment. Situated in the southeastern Caucasus, Chechen-Ingush, with its oil fields, represented the high-water mark of German penetration in the area before Stalingrad.
Specifically, Tartars of the Crimea and Chechens of Chechen-Ingush were charged with fighting alongside of the Germans and carrying on diversionary warfare behind the Russian lines. The population as a whole was scored for not offering resistance to the native collaborators.

Bury Dog in Style

Having won the affection of young old, "Trixie," seven-year-old "singing dog" belonging to Mrs. Amelia Ipson of Los Angeles, Calif. (in picture) was tendered a full-dress burial following death from food poisoning. Paying last respects to grey-black canine, friends filed fearfully past flower-bedecked casket. Nine car cortege then was formed to motor 30 miles to Calabasas for cemetery services.

UNRRA: Cite Need

With congress called upon to appropriate another 465 million dollars for the United Nations Relief and Rehabilitation administration, UNRRA revealed the crying need for food in China, Austria, Italy and Poland where disease, public disorder and starvation are feared.

The most critical situation exists in China, UNRRA reported, with 33 million people on an inadequate diet and 7 million on the brink of starvation. In the drought-stricken rice bowl of Hunan province people are eating grass, roots, clay.

A further reduction in bread rations has aggravated the situation in Austria, where residents of Vienna were said to go to the country on Sunday to pick nettles and cook them like spinach.

Severity of the food situation in Poland led to the diversion of 20,000 tons of seed grain for human consumption, reducing production estimates by 100,000 tons.

TAXES: Pour In

Federal taxes in the five years from 1941 through 1945 have yielded over 121 billion dollars, about 38 per cent more than the 88 billion returned in internal revenue receipts during the preceding 151 years of our national history, according to a study of the New York Trust company.
Really heavy taxation in this country is a product of the last ten years, with revenues reaching a peak in the war years.

SEWING CIRCLE PATTERNS

Round Yoked Dress Flattering Simple Style for Young Girls

Flattering Frock
AS PRETTY a summer frock as you'll see is this flattering yoke charmer that makes up so nicely in contrasting fabrics. Wide extended shoulders accent a tiny waist, darts insure a neat fit. Try it in a heavenly pink stripe with a plain fabric or white eyelet for yoke and sleeves, and trim with oversize ric rac.

Pattern No. 8021 is for sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2 yards of 36 or 39-inch fabric; 3 1/2 yards ric rac. Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.
Send your order to:
SEWING CIRCLE PATTERN DEPT.
530 South Wells St. Chicago 7, Ill.
Enclose 25 cents in coins for each pattern desired.
Pattern No. _____ Size _____
Name _____
Address _____

Pattern No. 1527 comes in sizes 12, 14, 16, 18, 20, 40 and 42. Size 14 requires 2 1/2 yards of fabric in 33 or 36-inch for lower part of dress; 1 1/2 yard for contrasting yoke and sleeves.

Household Hints
The oyster shell is good for something. Put it in the bottom of the tea kettle and it will prevent formation of hard-water scale.
"One meat ball" will go just a bit farther if you will only remember to add a little cooked macaroni to the meat mixture when serving with tomato sauce.
In building a casement window in the kitchen remember that it should open out, not in. And the base should be at least a foot above the sink.
When game is on the menu, avoid handling before cooking by flouring this way: Put a small amount of flour in a paper sack, pour in the pieces of meat and shake the bag until each piece is well coated with flour.
Record the guests who have dined at your table by having them autograph the tablecloth. Then, before the next dinner, you can embroider each signature in outline stitch.
A basket equipped with such items as soap, polishes, short-handled brushes, sponge, clean and lintless dustcloths, and the like will save time in cleaning as you go from room to room.

**Mrs. Brodie
BALANCES
the Budget!**

"You have to be a trained seal to balance a budget these days!" complains Mrs. Brodie.

"Everything costs so much! Take clothing—when you can get it," says Mrs. Brodie, "and look at the price tags! And food—that's simply skyrocketed! House furnishings—if you can find a house to furnish—are way up!"

"But not electricity!" says Mrs. Brodie. "No, indeed!" says Mrs. Brodie.

"Electricity has been coming down steadily for years!"

"Electricity," says Mrs. Brodie, "is just about the easiest thing in my budget to balance!"

If you have a budget to balance—and who hasn't?—you'll appreciate that the low cost of electricity is no accident. It took plenty of practical planning and experience on the part of the folks in this company who—like Mrs. Brodie—have budgets to balance, too.

Those you can get with an OIL-PLATED engine

CONOCO

Nth

MOTOR OIL

OIL-PLATES YOUR ENGINE

Breathes there an American who isn't checking on cars? Chief question is, "What's different for '46?" An OIL-PLATED engine brings you this swell difference: it will escape lots of carbon and sludge by escaping lots of wear. That special type of wear-defense—internal OIL-PLATING—will likewise favor your oil and gasoline mileage.

You can have an OIL-PLATED engine in any car—in the newest or oldest—just simply by making sure to use Conoco Nth motor oil; that's all.

The difference in Conoco Nth oil—patented—is its added ingredient that OIL-PLATES. This is done in a magnet-like manner—by making metals attract and hold lubricant. And that's what puts inner engine surfaces under cover of OIL-PLATING. It stands in wear's way; acts to prolong that new car feeling. . . . And it will act to prolong any older car's usefulness. So if that's your particular problem, change now to Conoco Nth oil—at Your Mileage Merchant's Conoco station. Continental Oil Company

Dry Steel Wool
To prevent steel wool scouring pads from rusting, place them to dry on a radiator or over the pilot light of gas stove after each use.

When Your Back Hurts—
And Your Strength and Energy is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. Frequently many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer severe backache, rheumatic pain, headache, dizziness, getting up at night, leg pain, swelling. Sometimes frequent and noisy urination with stinging and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wise. Use Doan's Pills. It is better to rely on a medicine that has won worldwide approval than on something favorably known. Doan's have been used and tested many years. Are at all drug stores. Get Doan's today.

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be sagging backache, persistent headache, attacks of dizziness, getting up night, swelling, puffiness under the eyes—a feeling of nervous acidity and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

New York Ringside:

One of us wondered how the Louis-Conn RKO fight films would get over since there wasn't a real blow struck in Round One and not much fighting in the following rounds until the finish.

"The movies will be awful dull," said a fellow.

"They'd look a lot better," said a wag, "with Lana Turner!"

Gracie Allen, the fight expert of Burns & Allen, was among the Working Press section in Row A. . . . When the 6th round ended, she ho-hum'd: "Only nine more rounds to go!" . . . Sherman Billingsley was the guest of Prof. Runyon at the ringside. The Stork man was thrilled about getting a "free" seat. He bought \$1,000 worth of \$100 ddcats, which he gave to friends. . . . After round two (in which Conn irked the champ with some fancy hoop-la) Louis gave Conn the most refrigerated glare since Sonja Henie iced Dan Topping. . . . When Income Tax Collector Nunan met heavy taxpayer Ann Sheridan, she groaned: "Hullo, boss." . . . As the gambling wisecraps put it: "Never bet against a champion—until he loses."

Admiral Halsey was irked over an editorial in a mid-western paper, which rapped his former Comdr., Harold Stassen. . . . The editorialist inaccurately stated that Stassen "hid behind Halsey's skirts." . . . "That's the damndest tommyrot I ever heard of," barked the Admiral. "It was just the other way 'round! I was far behind Stassen's ship when the Japs dropped bombs on it—killing 75 of Stassen's crew!"

Gen. Eisenhower has a new style of answering politicians who are trying to get him to give some hint on whether he'd consider running for President on the Republican ticket. He refers them to his wife, who says: "I don't like politics." . . . While Uncle Sam sends vast hunks of our fleet to Bikini for destruction—the British continue to build up their navy. . . . The king without a throne (Leopold of Belgium) will figure in a story out of Switzerland where he plans to white-wash his war record with some sort of defense. . . . The National City Bank has purchased a plot of land in Sao Paulo (Brazil) and paid more for it than they paid for their Wall Street headquarters. . . . A Boston firm recently bought a million and a half surplus knives, forks and spoons from the gov't. Then they stamped them: "Stolen from the U. S. Army." They sold like mad to war vets who like to boast.

A group of Soviet engineers have arrived in the U. S. "to study public works systems," under the tutelage of the Federal Works Agency. . . . They'll visit Chi, San Francisco, Los Angeles and San Diego. They are "interested" in bridges, streets and highways. . . . Is dot zoh? . . . If the Army-Navy merger goes through (which insiders believe it won't), Stuart Symington will be Secy of Nat'l Defense. . . . Lots of big shots are reported loaded with Mexican gold. They keep it to circumvent the ruling about possessing American gold coins. . . . You'd be amazed at the number of big-shot American writers and others who pay no taxes by living in Cuba—and continue selling pieces up here. And for good reason, too: they often use four years to write a book, and if it's any good, it is a best-seller. Then they are taxed heavily the year they are paid—not the four years devoted to doing the work.

Silhouettes About Town: Admiral Halsey, in mufti, at the Stork with his daughter, Mrs. Lee Spruance, confirming that it is pronounced Hirrah-shim-mah not Hiro-she-mer. . . . When we reported that months ago a Navy lad "corrected," . . . Youthful Lord Lascelles (King Geo's neevy), one of England's greatest "catches," lunching unrecognized at the Colony. . . . Gen. Hap Arnold is a tweed get-up at the same spot. . . . Jimmy McLarnin, who furiously fought Tony Canzoneri many times at the Garden, embracing him at Toots'. . . . D. Runyon shopping at Hanson's drug store unrecognized by some of the kerriickers he got rich writing about. . . . Prof. Albert Einstein, New York's top answer to England's Bevingrate. . . . Dudley Digges, the first to be signed for Eugene O'Neill's "Ice Man Cometh" play. . . . Jacques Goldstyne, RKO's good-will man-about-town, in charge of visiting Ingrid Bergman. Tough job.

F. Sinatra probably was the heaviest better on the fight if these perils. Put a skyscraper bundle on J. L. . . . G. O. Welles' best trick in his new show ("Around the World") is making the critics eat their reviews. . . . In "Born Yesterday" co-star Paul Douglas rips apart several phone tones easy as pie. Not that Paul Douglas couldn't (without this trick), but if you bake a phone book you can tear it in two without much exertion. . . . A midtown dress designer is expected to contest Major Bowes' will.

DIRECT FROM BIKINI:

An Eye Witness Account Of Atomic Bomb Blast

Damage from the atomic bomb test blast is shown here as the light carrier USS Independence is pictured burning shortly after bomb explosion.

By WALTER A. SHEARD
WNU Washington Correspondent.

ABOARD USS APPALACHIAN, OPERATIONS CROSSROADS.
From a military standpoint the explosion of the fourth atomic bomb was a huge success but as a spectacle worth traveling 8,000 miles to see it did not live up to its advance billing. From the standpoint of efficiency and precision the plutonium bomb was dropped squarely in the target area. The advance weather predictions held true. It was dropped on time to the second. The air drones were sent through the cloud area and shepherded back by their mother ships. The boat drones were sent into the area of radio activity and brought back via radio control. The cameras clicked and the instruments built especially to measure the results of the blast worked.

But to those of us here aboard the Appalachian, who had been orientated and lectured day after day for the past two weeks, who had interviewed scientists and scientific writers, the bomb burst and the atomic cloud were a disappointment. The recapitulation of the damage showed the troop transports Gilliam and Carlisle sunk; the destroyer Lampton capsized; heavy damage was done to the submarine Skate, the light cruiser Pensacola, the carrier Independence, the Jap cruiser Sakawa, and the German pocket battleship Prinz Eugen. Light to negligible damage was caused on the Jap battleship Nagata, the battleship Nevada, the oiler No. 160 and LCM No. 1. Small fires were started and later extinguished on the destroyer Wilson, the Pensacola, the transport Briscoe, the Nevada, the carrier Saratoga and transports Niagara, Bladen, Banta, Butte, Cortland, Bracken and Faun and the battleship New York. Heaviest damage was caused on the Independence and the fire which burst into flames on her stern was more dramatic to watch than the bomb burst insofar as this writer was concerned.

Because the atomic cloud did not reach the heights achieved in previous drops was not considered as reflection upon the efficiency of the bomb. Reasons for the relatively low cloud given were that water absorbed much of the heat energy and the difference in atmospheric structure caused a slower rise.

It may be that those of us who stood along the starboard rail of the Appalachian were expecting too much. We had been led to believe from many sources to expect drama and adventure and excitement. Let me assure you there was no drama and certainly no excitement. I confess that as I pulled the polarized plastic goggles over my eyes as we heard the signal "bomb away" I did feel excited and tense as I awaited the blast. It came as I saw it, well above the horizon, a huge orange ball. It might have been a fireworks display on the Fourth of July, although not near so dazzling. I watched the cloud appearing like nothing more than a huge cherry ice cream soda. Cream white on the surface but deep inside the hues were pink and rose, and it boiled and seethed up through a cumulous natural cloud which hid it from our view. I felt a slight "ptt" in my ears but felt no heat blast. Seconds later the sound of detonation came like a distant peal or roll of thunder that's all, but then we were 18 miles away.

Ten minutes after the blast the cloud had mushroomed up to a height of 26,000 feet and was approximately 12,000 feet across the

top. The trade winds soon broke it up and it was pushed westward where it gradually leveled off and dispersed as our ship steamed slowly along the seaward side of Bikini island.

We could see the ghost fleet in the lagoon through our binoculars. Fire amidships showed on the Saratoga. The Salt Lake City was ablaze. There appeared to be a small fire aboard the Nevada. These fires made a smoke haze over the lagoon, but it soon cleared away and as I look toward the lagoon now there is little indication of a fire anywhere.

We're changing course now, following the Mt. McKinley, Admiral Blandy's flagship, apparently with the intention of entering the lagoon. Television receiving sets in the ward room of the Appalachian registered the blast from cameras installed on the island, then they went out of commission.

The carrier Independence likely suffered more damage than any other capital ship to its superstructure and all planes which were atop its flight deck were carried away. There was superficial or superstructure damage to other ships of the 73 in the target fleet but to me the pathos of the thing was emphasized when I saw the sturdy masts of the old Nevada brilliant in its orange paint, standing there still staunch and true despite the atomic bomb.

There was no wind, no waves and no thunderstorm. No trees were damaged on the island. There was no tidal wave and no earthquake. In fairness there was no prediction from the navy or army officials that any of these things might happen. The navy frankly said they didn't know what would happen. These wild predictions were made by scientists or scientific writers. Also, in all fairness to the officers of joint task force No. 1 the bomb, which looked so small to the lay writers, may actually have been big.

Scientifically of course there can be no adequate judgment of the results until the instruments have been read, the damage on the various ships actually determined and measured. In the light of the objectives, the navy and the army had in mind the actual effect of the bomb on naval construction, navy and army material, armament, ordnance and other equipment.

Admiral Blandy, commander of the task force, issued a statement in which he said he was highly pleased with the whole operation; with the bomb drop and with the efficiency of the bomb. There are several aboard the ship who saw the Nagasaki bomb drop and the drop at Los Alamos, N. M. They declared this bomb appeared to be smaller, judging from the flash and the atomic cloud which in the case of Nagasaki soared to a height of about 55,000 feet.

There is no doubt that the force of this terrible energy is like nothing ever known on earth before but the distances out here are so great that the energy was dispersed and dissipated over a vast area. For instance, at Nagasaki the area of total bomb damage was in six square miles, or an area of about a mile and a half radius while the distance of the Nevada from the shore of Bikini lagoon was about three miles. And the lagoon itself is 10 miles across and 25 miles long. It must also be remembered that as this story is written for transmission in time to get it to you there has been no actual assessment of the real damage. There may be more as we enter the lagoon and can visually assay the damage.

ASK ME ANOTHER?

A General Quiz

- The Questions**
1. Canada is made up of how many provinces and territories?
 2. The Rock of Gibraltar, symbolic of strength is composed of what?
 3. Calenda was the name given by the Romans to what?
 4. What was the original name given the department of state?
 5. The testimony of what animal is accepted in a court of law as evidence?
 6. Does the octopus put its head in the sand to hide?
 7. What is the bird referred to in William Cullen Bryant's poem that ends: "Robert of Lincoln, come back again; chee, chee, chee"?
 8. Bullets fired to the right of a swiftly moving plane have a tendency to drop, those fired to the left to rise. Why?

The Answers

1. Nine provinces and two territories.
2. Soft limestone.
3. The first day of the month.
4. The department of foreign affairs.
5. The bloodhound.
6. No. It grubs for worms and other food.
7. Bobolink.
8. The bullets spin clockwise and friction from the right-angle wind exerts force at the top of the bullets fired to the right and on the bottom of bullets fired to the left.

VERONICA LAKE speaking:

Co-Starring in "SO PROUDLY WE HAIL," a Paramount Picture.

"Keep your teeth groomed to the teeth!"

"CALOX is the tooth powder I prefer."

A dentist's dentifrice—
Calox was created by a dentist for persons who want utmost brilliance consistent with utmost gentleness.

1. Scrupulous cleansing. Your teeth have a noticeable clean feel after using Calox.
2. Calox gently cleans away surface stains, loosens mucin plaque.
3. Made by McKesson & Robbins, Bridgeport, Conn.—a laboratory with over 100 years' experience in making fine drugs.

"That's the damndest tommyrot I ever heard of," barked the Admiral. "It was just the other way 'round! I was far behind Stassen's ship when the Japs dropped bombs on it—killing 75 of Stassen's crew!"

Gen. Eisenhower has a new style of answering politicians who are trying to get him to give some hint on whether he'd consider running for President on the Repub ticket. He refers them to his wife, who says: "I don't like politics." . . . While Uncle Sam sends vast hunks of our feet to Bikini for destruction—the British continue to build up their navy. . . . The king without a throne (Leopold of Belgium) will figure in a story out of Switzerland where he plans to white-wash his war record with some sort of defense. . . . The National City Bank has purchased a plot of land in Sao Paulo (Brazil) and paid more for it than they paid for their Wall Street headquarters. . . . A Boston firm recently bought a million and a half surplus knives, forks and spoons from the gov't. Then they stamped them: "Stolen from the U. S. Army." They sold like mad to war vets who like to boast.

A group of Soviet engineers have arrived in the U. S. "to study public works systems," under the tutelage of the Federal Works Agency. . . . They'll visit Chi, San Francisco, Los Angeles and San Diego. They are "interested" in bridges, streets and highways. . . . Is dot zoh? . . . If the Army-Navy merger goes through (which insiders believe it won't), Stuart Symington will be Secy of Nat'l Defense. . . . Lots of big shots are reported loaded with Mexican gold. They keep it to circumvent the ruling about possessing American gold coins. . . . You'd be amazed at the number of big-shot American writers and others who pay no taxes by living in Cuba—and continue selling pieces up here. And for good reason, too: Authors often use four years to write a book, and if it's any good, it is a best-seller. Then they are taxed heavily the year they are paid—not the four years devoted to doing the work.

Silhouettes About Town: Admiral Halsey, in mufti, at the Stork with his daughter, Mrs. Lee Spruance, confirming that it is pronounced Hirrah-shim-mah not Hiro-shee-mer. . . . When we reported that months ago a Navy lad "corrected." . . . Youthful Lord Lascelles (King Geo's neevie), one of England's greatest "catches," lunching unrecognized at the Colony. . . . Gen. Hap Arnold in a tweed get-up at the same spot. . . . Jimmy McLarnin, who furiously fought Tony Canzoneri many times at the Garden, embracing him at Toot's. . . . D. Runyon shopping at Hanson's drug store unrecognized by some of the kerrippers he got rich writing about. . . . Prof. Albert Einstein, New York's top answer to England's Bevingrate. . . . Dudley Digges, the first to be signed for Eugene O'Neill's "Ice Man Cometh" play. . . . Jacques Goldstyne, RKO's good-will man-about-town, in charge of visiting Ingrid Bergman. Tough job.

F. Sinatra probably was the heaviest better on the fight if these perfs. Put a skyscraper bundle on J. L. . . . G. O. Welles' best trick in his new show ("Around the World") is making the critics eat their reviews. . . . In "Born Yesterday" co-star Paul Douglas yepers apart several phone tones easy as pie. Not that Paul Douglas couldn't (without this trick), but if you bake a phone book you can tear it in two without much exertion. . . . A midtown dress designer is expected to contest Major Bowers' will.

DIRECT FROM BIKINI: An Eye Witness Account Of Atomic Bomb Blast

Damage from the atomic bomb test blast is shown here as the light carrier USS Independence is pictured burning shortly after bomb explosion.

By WALTER A. SHEAD WNU Washington Correspondent.

ABOARD USS APPALACHIAN, OPERATIONS CROSSROADS.—From a military standpoint the explosion of the fourth atomic bomb was a huge success but as a spectacle worth traveling 8,000 miles to see it did not live up to its advance billing. From the standpoint of efficiency and precision the plutonium bomb was dropped squarely in the target area. The advance weather predictions held true. It was dropped on time to the second. The air drones were sent through the cloud area and shepherded back by their mother ships. The boat drones were sent into the area of radio activity and brought back via radio control. The cameras clicked and the instruments built especially to measure the results of the blast worked.

But to those of us here aboard the Appalachian, who had been orientated and lectured day after day for the past two weeks, who had interviewed scientists and scientific writers, the bomb burst and the atomic cloud were a disappointment.

The recapitulation of the damage showed the troop transports Giliom and Carlisle sunk; the destroyer Lampson capsized; heavy damage was done to the submarine Skate, the light cruiser Pensacola, the carrier Independence, the Jap cruiser Sakawa, and the German pocket battleship Prinz Eugen. Light to negligible damage was caused on the Jap battleship Nagata, the battleship Nevada, the oiler No. 160 and LCM No. 1. Small fires were started and later extinguished on the destroyer Wilson, the Pensacola, the transport Briscoe, the Nevada, the carrier Saratoga and transports Niagara, Bladen, Banta, Butte, Cortland, Bracken and Faun and the battleship New York. Heaviest damage was caused on the Independence and the fire which burst into flames on her stern was more dramatic to watch than the bomb burst insofar as this writer was concerned.

Because the atomic cloud did not reach the heights achieved in previous drops was not considered as reflection upon the efficiency of the bomb. Reasons for the relatively low cloud given were that water absorbed much of the heat energy and the difference in atmospheric structure caused a slower rise.

It may be that those of us who stood along the starboard rail of the Appalachian were expecting too much. We had been led to believe from many sources to expect drama and adventure and excitement. Let me assure you there was no drama and certainly no excitement. I confess that as I pulled the polarized plastic goggles over my eyes as we heard the signal "bomb away" I did feel excited and tense as I awaited the blast. It came as I saw it, well above the horizon, a huge orange ball.

It might have been a fireworks display on the Fourth of July, although not near so dazzling. I watched the cloud appearing like nothing more than a huge cherry ice cream soda. Cream white on the surface but deep inside the hues were pink and rose, and it boiled and seethed up through a cumulous natural cloud which hid it from our view. I felt a slight "pft" in my ears but felt no heat blast. Seconds later the sound of detonation came like a distant peal or roll of thunder that's all, but then we were 18 miles away.

Ten minutes after the blast the cloud had mushroomed up to a height of 28,000 feet and was approximately 12,000 feet across the

top. The trade winds soon broke it up and it was pushed westward where it gradually leveled off and dispersed as our ship steamed slowly along the seaward side of Bikini island.

We could see the ghost fleet in the lagoon through our binoculars. Fire amidships showed on the Saratoga. The Salt Lake City was ablaze. There appeared to be a small fire aboard the Nevada. These fires made a speckle haze over the lagoon, but it soon cleared away and as I look toward the lagoon now there is little indication of a fire anywhere.

We're changing course now, following the Mt. McKinley, Admiral Blandy's flagship, apparently with the intention of entering the lagoon. Television receiving sets in the ward room of the Appalachian registered the blast from cameras installed on the island, then they went out of commission.

The carrier Independence likely suffered more damage than any other capital ship to its superstructure and all planes which were atop its flight deck were carried away. There was superficial or superstructure damage to other ships of the 73 in the target fleet but to me the pathos of the thing was emphasized when I saw the sturdy masts of the old Nevada brilliant in its orange paint, standing there still staunch and true despite the atomic bomb.

There was no wind, no waves and no thunderstorm. No trees were damaged on the island. There was no tidal wave and no earthquake. In fairness there was no prediction from the navy or army officials that any of these things might happen. The navy frankly said they didn't know what would happen. These wild predictions were made by scientists or scientific writers. Also, in all fairness to the officers of joint task force No. 1 the bomb, which looked so small to the lay writers, may actually have been big.

Scientifically of course there can be no adequate judgment of the results until the instruments have been read, the damage on the various ships actually determined and measured. In the light of the objectives, the navy and the army had in mind the actual effect of the bomb on naval construction, navy and army material, armament, ordnance and other equipment.

Admiral Blandy, commander of the task force, issued a statement in which he said he was highly pleased with the whole operation; with the bomb drop and with the efficiency of the bomb. There are several aboard the ship who saw the Nagasaki bomb drop and the drop at Los Alamos, N. M. They declared this bomb appeared to be smaller, judging from the flash and the atomic cloud which in the case of Nagasaki stared to a height of about 55,000 feet.

There is no doubt that the force of this terrible energy is like nothing ever known on earth before but the distances out here are so great that the energy was dispersed and dissipated over a vast area. For instance, at Nagasaki the area of total bomb damage was in six square miles, or an area of about a mile and a half radius while the distance of the Nevada from the shore of Bikini lagoon was about three miles. And the lagoon itself is 10 miles across and 25 miles long. It must also be remembered that as this story is written for transmission in time to get it to you there has been no actual assessment of the real damage. There may be more as we enter the lagoon and can visually assay the damage.

Precision Marked Operations Crossroads

By PAUL FELTUS

When "Dave's Dream" took to the dawn sky on Kwajalein Atoll, the long-planned and vast machinery of the Army Air Forces role in Operations Crossroads began to move with the precision of a great war mission.

The operation had been planned, but this time there was a new thrill of anticipation for they were dealing with the force of atomic energy.

The schedule for every one of the hundreds of planes and ships had been timed to the second. Everybody knew just what to do as the command plane headed for the target area of Bikini lagoon.

The vast network of communications was set in motion. The weather man had said, "This is the day," and General Ramey had said, "Let's Go." Then the planes began to roll.

NEED CRAFT PATTERNS Luxurious Mat in Cable Stitch

7274

IT'S EASY to do cable stitch. Why not make this rug—so luxurious yet inexpensive. Use it either in the bedroom or the bathroom.

ASK ME ANOTHER? A General Quiz

- The Questions
1. Canada is made up of how many provinces and territories?
 2. The Rock of Gibraltar, symbolic of strength, is composed of what?
 3. Calenda was the name given by the Romans to what?
 4. What was the original name given the department of state?
 5. The testimony of what animal is accepted in a court of law as evidence?
 6. Does the ostrich put its head in the sand to hide?
 7. What is the bird referred to in William Cutler Bryant's poem that ends: "Robert of Lincoln, come back again; chee, chee, chee"?
 8. Bullets fired to the right of a swiftly moving plane have a tendency to drop. Those fired to the left to rise. Why?

- The Answers
1. Nine provinces and two territories.
 2. Soft limestone.
 3. The first day of the month.
 4. The department of foreign affairs.
 5. The bloodhound.
 6. No. It grabs for worms and other food.
 7. Bobolink.
 8. The bullets spin clockwise and friction from the right-angle wind exerts force at the top of the bullets fired to the right and on the bottom of bullets fired to the left.

VERONICA LAKE speaking: Co-Starring in "SO PROUDLY WE HAIL," a Paramount Picture.

A dentist's dentifrice—Calox was created by a dentist for persons who want utmost brilliance consistent with utmost gentleness.

1. Scrupulous cleansing. Your teeth have a notably clean feel after using Calox.
2. Calox gently cleans away surface stains, lessens mucin plaque.
3. Made by McKesson & Robbins, Bridgeport, Conn.—a laboratory with over 100 years' experience in making fine drugs.

Use rug cotton or old stockings for this durable knitted rug. Pattern 7274 has directions for it and for a matching seat-cover.
