VOL. 36

HEDLEY, DONLEY COUNTY, TEXAS, FRIDAY, JULY 19, 1946

NO. 36

Baseball

Last Sunday the Hedley boys defeated the Clarendon second string here by the score of 17 to 6. Everett, Owens and Hill divided the work on the mound for Hedley and each did good pitching. Clarendon also used three pitchers Crawford, Sloan and Eddings. It was a good game until the 7th inning when the Hedley boys batted around. The boys are trying to get a strong team to play them here next Sunday.

Lions Club News

Next week is 100% meeting. Lions International stresses this meeting as the big meeting of the year, honoring the new president and wants a 100% attendance or as near as possible. Let's all make an effort to get out and pledge our support to the new president; then promptly forget it, I guess.

R. E. Drennan, Dean of Clarendon Junior College, installed the new officers and directors of the club at last week's meeting. Lions Leon Reeves and Earl Tollett were appointed to have charge of the program for the next meeting. A directors meeting is called for this week.

Revival Meeting

A revival meeting will begin Friday, July 26, at the McKnight Church of Christ. R. L. Lovelady of Bellevue will conduct both preaching and song services.

There will be a singing class every afternoon at 2 o'clock, and preaching each night. Everybody is cordially invited to attend.

Guests in the Dr. J. C. Coffey home last Thursday were his sister Mrs. W. J. Ledbetter of Paducah and his niece and her husband Mr. and Mrs. Walter Holland of McKinney.

Mr. and Mrs. Carroll Deahl, Mrs. Ray Moxeman and son David and Mrs. R. E. Mann visited the Carl Gerlach family at Seagraves Monday. Carolyn Gerlach returned home with them for a visit.

Ira McLaughlin visited here from Kansas this week.

Gene Moss of the Stamps-Baxter quartet of Dallas is visiting home folks for a few days.

R. L. Jernigan Dies

R. L. Jernigan of Iowa Park and formerly of Hedley, passed away July 11.

His family moved to Hedley in 1927 from East Texas. They lived around Hedley until 1941 when he and his wife moved to Iowa Park, where she preceded him in death in 1944. He has been in failing health since January.

He is survived by 13 children, Frank, Hugo, Okla.; George, Niles, Mich.; Luke, Kerrville, Texas; Arthur, Amistad, N. Mex.; Mark, Albuquerque, N. Mex.; Walter, Tucumcari, N. Mex.; Roy, Deming, N. M.; Ish Jernigan, Watsonville, Calif.; Ethel Jernigan, Iowa Park; Mrs. Fred Cottrell, Anadarko, Okla.; Mrs. Clyde Hail, Mrs. Nelson Johnson, Iowa Park; Mrs. Robert Hartness, Albuquerque, N. M.; 27 grandchildren, 1 brother, Luke Jernigan, Christiania, Tenn.; 2 sisters, Mrs. Zorea Mexick Christiania, Tenn. and Mrs. Bettie Todd, Pittsburg, Penn.

He was a good father and friend to all who knew him.

To The Voters of Donley County

I am earnestly soliciting your vote and influence for the office of Sheriff, Tax Assessor-Collector. I feel that with my experience as a peace officer I am qualified to fill this office. I have been constable 5½ years and served as deputy constable 2 years. I served as a private in the infantry in World War I.

Our present sheriff is asking for his 4th term. Through your consideration, if you find that I am qualified, will you give a man that has served you on the battle front a chance to serve you as your sheriff. Go to the poles on July 27 and vote as you please for whom you please—but vote.

Colie Huffman

To World War 2 Veterans

There has been some confusion as to the rights to vote in the election this year. For your information, if you are 21 years old or over and have been discharged not more than 18 months prior to July 27, 1946, you are entitled to a free vote. Just go to the poles on election day and vote. The judges of the election have the right to question your qualification to their satisfaction.

Revival Meeting

A revival meeting will begin Aug. 2 at the Church of Christ and will run through Sunday, Aug. 11. Frank Smith of Houston will do the preaching, and there will be both morning and evening services.

Everybody is cordially invited to come out and hear him.

Notice

Increased labor cost forces us to raise the minimum price on washing from 45¢ to 50¢.

Your Help Is Needed

A family of nine who recently lost all their clothing and household goods in a fire, are badly in need of help.

Please look over your home and see what you can spare to help this family. Leave your contributions at the Variety Store or call Mrs. Clyde Bridges, and it will be very much appreciated.

Cherry-Edens

Miss Bonnie Edens and Glyn-don Cherry, were united in marriage last Thursday, July 11, by Martin O. A. Hartenberger in the Trinity Lutheran Church in Amarillo.

The bride is the daughter of Mr. and Mrs. Jack Edens of Hedley. She graduated from Hedley High School with the class of 1946, and has been employed in Amarillo. She attended school at Giles before moving to Hedley.

The groom is the son of Mr. and Mrs. T. J. Cherry, and is also a graduate of Hedley High School, receiving his diploma in 1942. He spent 4½ years in the U. S. Navy, about 2½ years of which was in the battle zone. He was discharged Nov. 27, 1945, at San Pedro, Calif. He is now employed with the Santa Fe R. R. at Amarillo.

The couple are at home for the present at the Eakens Hotel, 6th and Pierce, Amarillo.

Mrs. Mack Noland and children of Summerfield are visiting in the W. C. Plunk home.

John and Roy Hunter of Canyon are visiting their grandparents, Dr. and Mrs. J. C. Coffey.

R. S. Lowe Dies

Funeral services for R. S. Lowe, who passed away last Wednesday after a long illness, were held Thursday from the Womack Funeral Home here by Rev. H. T. Harris. Burial was in Rowe cemetery with Womack Funeral Home in charge.

Pallbearers were W. T. Floyd, R. O. Proffitt, Raymond Everett, A. G. Davis, Ross Adamson and Bert Usrey.

Ruben Stewart Lowe was born Oct. 3, 1885, in Shelby county, Mo. He had been a resident of Hedley for 15 years.

He is survived by his wife, Mrs. R. S. Lowe of Hedley; four children, Dorothy Lowe and Marie Lowe of Houston, Reginald Lowe of Hedley and Mrs. George Proffitt of Memphis; two granddaughters, Jeannine Lowe and Joan Proffitt; and one brother, Milton Lowe of Galveston.

Methodists and the McMurry Pledges

On Monday night July 22 O. W. Carter, District Superintendent, Abilene, will speak at the Methodist Church here on the movement to aid McMurry. We have a great college on the way to becoming greater if we fulfill our pledges. We lack \$125.00 having our pledges paid. Some who made pledges moved away, so the rest of us will have to do more. Some who are in our church made no pledges. There should help what they can. Let's not let the young people at McMurry down.

On the afternoon preceding that night, committees in four sections of the town will canvas for donations, then after dinner reports will be made. Let's all do our best.

WEEKLY NEWS ANALYSIS

New Republic Born on July 4 as Philippines Are Freed; OPA and Atomic Bomb Are Still Debated

Released by Western Newspaper Union. EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

BOMB RESULT... Pictured is the heavy cruiser USS Pensacola with her superstructure damaged by the atomic bomb in Bikini lagoon.

WARSHIPS:

Safe From Atom?

Ships cannot be built with steel thick enough to protect their crews from the terrific lethal radiation of a close atomic explosion, Col. Stafford Warren, Bikini safety officer, has declared after an inspection.

Some of the 73 target vessels remained dangerously radioactive even a week after the atomic bomb, he declared, after the ball-of-fire blast sank five, heavily damaged nine and affected 59 warships. Radiation released by the bomb was "terrific," Colonel Warren told newsmen.

Colonel Warren believes that if the target fleet had been manned, the blast would have rendered it helpless, since "many not killed by the blast would have been unable to carry on their duties because of illness from radiation," quoting Captain George Lyon also of the safety staff.

OPA ENDS:

Lid Is Off

When President Truman vetoed the OPA extension bill, declaring it was not a true "price-control" measure, the house of representatives passed a resolution extending OPA for a 20-day period. Then the senate balked. Result: No OPA.

The reaction was immediate in cattle, hogs, grain and dairy products. Prime cattle shot up to \$22 a hundred pounds on the Chicago market for an all-time high within hours. Two-dollar wheat was seen for the first time since 1925. Milk went up about 2 cents a quart. Women in Washington, D. C., reported butter at 94 cents a pound.

Many merchants all over the United States, however, pledged a hold-the-line policy. In a few cases, prices were lowered to "start healthy competition." But generally prices began moving up, despite President Truman's appeal to hold down inflation until a new price control bill could be passed by the congress.

In view of the situation, Senate Majority Leader Barkley warned that two or three weeks probably would be required to get even a temporary continuation resolution through the senate. The 20-day extension passed by the house will have passed before then. The majority leader told President Truman the senate would attempt to work out a permanent law instead of a temporary makeshift.

ATOM BOMB:

Results Are Argued

The wrath of the atomic bomb was unloosed, but goats kept on eating, palm trees waved their fronds, and birds still flew over Bikini lagoon. To many eye-witnesses the pyrotechnic display was colorful and gorgeous, to others the whole show was a dud. Arguments have already started and will continue for weeks and months, or even years. Is atomic energy so frightful as we supposed? Is the modern battle-wagon still mistress of the seas?

But five ships were sunk, 6 were wrecked, 25 were badly damaged, and possibly all the rest of 73 in the naval fleet bear scars. However, not a capital ship was sunk by the atomic blast, although havoc wrought by the bomb's might was evident on every hand. Fires raged aboard at least eight of the vessels, including one ship two miles from the target center.

Vice Adm. William H. P.

FREIGHT RATES:

Up in Some States

Several Middle West states regulatory commissions have approved new freight rate increases on interstate commerce similar to the general boost authorized by the interstate commerce commission.

Kansas and Missouri have placed in effect temporary increases, the same as authorized by the ICC. Nebraska granted increases except on sugar beets, beet sugar, final molasses and wet beet pulp.

Blandy, task force commander, says there is no reason to believe the day of the carrier and destroyer is done. So the navy isn't convinced that the atomic bomb has put it out of business.

PEACE:

Parley July 29

Vyacheslav M. Molotov, the Soviet foreign minister, finally agreed to a general peace conference, being privately persuaded by Secretary of State Byrnes to stop postponing the actual date. A general peace conference of 21 nations will be held in Paris beginning July 29.

Delegates of the invited powers will assemble in Paris to make peace as they made war. They will sit throughout the month of August to perfect the peace treaties with Italy, Hungary, Romania, Bulgaria and Finland—all former Axis satellites.

STRIKES:

If Prices Rise

Even if inflation comes, workers must eat. That is the gist of labor unions' comment. "Employers failed to keep their word, and so did the government. We are no longer bound to keep our word not to strike."

Blaming the house and senate for not holding the line on prices, many labor leaders have indicated that if prices go up—and prices are going up—then demands for increases in wages will come. And if those demands aren't met there will be strikes.

HOBBS' BILL:

Restricts Labor

Although he signed the Hobbs bill, which applies heavy federal antitrust penalties to labor unions, President Truman attempted to safeguard legitimate rights of organized labor by a simultaneous message to congress limiting the impact of the law.

The message stated that the President signed the act only on the understanding, asserted by Attorney General Clark, that the law would not molest "the great legislative safeguards which the congress has established for the protection of labor in the exercise of its fundamental rights."

FOURTH OF JULY:

New Republic Born

A crowd of 100,000 packed the greensward of the historic Luneta in Manila on July 4 and faced the grandstand where 3,000 special guests and notables had gathered. Gen. Douglas MacArthur was there; so was Paul V. McNutt, now U. S. ambassador to a new republic.

The occasion was the birth of a new republic, when the Philippine Islands, a territory of the United States, became the Republic of the Philippines. The first president of the new nation is Manuel Roxas, who paid a tribute to the United States.

"We are no longer protected by the mantle of American sovereignty," Roxas warned. "No longer can we look to America to shield us from our follies and excesses."

But in Washington, President Truman said: "The United States stands ready to assist the Philippines in every way possible during the years to come." The Stars and Stripes, which have flown for nearly half a century over the Pacific island group, was hauled down. The silver-starred flag of the Republic of the Philippines was run up as church bells rang out. A new nation was born on July 4, 1946.

INDIAN FORTS

Throughout the Great Plains region and the western part of the United States are several old frontier posts, or forts, which were built from 50 to 100 years ago during Indian insurrections.

Gen. Dwight D. Eisenhower has decided to abandon some of these old forts because there's no longer any danger of Indian attacks.

\$2.50 CURE:

Hyperthyroidism

It used to cost \$150 for a surgical operation to cure hyperthyroidism, but there is now a cure costing only \$2.50, contained in a drink of water. That is what Dr. Earle M. Chapman of the Massachusetts General Hospital, Boston, told the American Medical association meeting in San Francisco recently.

The curative agent is a tiny pinch of radio-iodine, one of the atomic medicines. It is not new, having been used experimentally for years. But the new thing about it is that it has been accepted by doctors of medicine in place of the more expensive and more serious surgical process. Atomic ovens can produce the cyclotron product inexpensively and it should become plentiful shortly, said Dr. Chapman.

TAX RISE:

If Prices Soar

In Washington, John W. Snyder, secretary of the treasury, told a news conference that an increase in tax rates may be asked by the administration next year if there is sharp inflation in prices following the ending of OPA. The additional tax would be levied on individuals and corporations when congress meets after the first of next year. Mr. Snyder gave flat assurance, however, that the administration would propose no new tax levies during 1946.

The U. S. treasury, Mr. Snyder stated, had over 14 billion dollars cash balance, but has temporarily halted its program of retiring the public debt through cash redemption of maturing securities. To redeem these securities now would add to buying pressure. The treasury has taken this step, it was learned, as an anti-inflationary step.

Mr. Snyder clung to his promise, given upon taking office a few weeks ago, that he would "try hard" to balance the 1947 budget. But he added that "we're going to have pretty tough sledding" to achieve the goal because there have been "elements injected into the picture we weren't looking for."

SCRAP PLANES:

Sell for Less

Airplanes cost a lot of money when they are new, but when the government sells the scrap price is down. For \$3,900,000,000 worth of scrap war planes the government received apparent high bids totaling \$6,582,156, or some three billion dollars less than cost.

Sale of these scrap planes will virtually clean out such government aircraft, except for another 15 million to 18 million pounds of aluminum scrap now in Hawaii to be sold in August.

The surplus bombers, fighters and other tactical ships sold for scrap are located at five air fields in the United States. The fields will be leased to buyers for \$1 per year while scrapping operations are in progress.

HOMES:

406,000 Started

Wilson W. Wyatt, national housing expediter, is confident that the 1946 goal of 1,200,000 housing unit will be met. He has also reported that 406,000 dwelling units have been started so far this year, this figure representing approximately 34 per cent of the goal.

The housing expediter, in his first report to the nation on the housing program, said that "prices for new homes and rentals are still too high to fit the purses of many veterans." He called for the erection of more rental housing and promised that all construction will be carefully inspected to insure both good quality and fair prices.

He strongly implied that unless price controls are restored the veteran, more than anyone else, will be the victim of the housing situation.

CONGRESS:

Tribute to FDR

The late Pres. Franklin D. Roosevelt was brave, steadfast and a man who "saw the facts and faced them," said John G. Winant, former ambassador to Great Britain, who spoke at the solemn service on July 1 when President Truman and members of the congress paid tribute to the departed leader's memory.

Mrs. Eleanor Roosevelt, FDR's widow, attired severely in black, sat directly behind Mr. Truman. With her were Joseph Daniels, secretary of the navy in World War I, her son and his wife, Mr. and Mrs. Elliott Roosevelt.

Winant concluded his tribute with these words: "God give us heart and will to take this nation forward as he meant to take it to a new, more daring future, a new world of peace."

SENATORS:

Higher Paid

A year ago members of the house of representatives voted themselves a \$2,500 annual expense account. At that time the senators refused to give themselves a similar expense account. But they changed their minds about it and recently voted themselves similar auxiliary funds.

Members of both houses of congress get a salary of \$10,000 a year plus secretarial help.

HOUSEHOLD HINTS

In making coffee, tea or chocolate to be served iced, double the strength to allow for the ice used in cooling.

After flowering plants have faded and been removed from piazza boxes, fill boxes with small growing evergreens or pine boughs.

When unmolding gelatin desserts dip mold into bowl of warm water deep enough so that it comes up to rim of mold. This must be done quickly as gelatin is likely to liquefy.

Place the screen door hook on the door casing instead of on the screen and it won't hop in the way.

Try using a potato masher to cream butter and sugar for a cake. The wooden kind is especially good for this purpose.

Electricity Works for Peanuts!

And if you aren't up on today's expressive slang, "peanuts" means a very small amount of money. Like your electric bill. It really is "peanuts," isn't it—compared to most other items in your family budget?

While the cost of most things climbed through the years—the price of electric service kept right on going down. Even in wartime, when practically all prices popped up, electricity actually became a few "peanuts" cheaper.

As a matter of fact, the average American family gets twice as much electricity for its money today as it did 15 years ago!

All of this goes to prove an important point. Sound business management—and experienced employees—together have given the American people dependable, low-priced electric service—the best and most in the world! You'll enjoy that service even more in the electric years ahead.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wise when these signs appear. **Doan's Pills**, Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

"... not LOST, Mom!
I came in here to COOL OFF"

Air-conditioned stores get the business—and wise business men have their stores GAS-CONDITIONED. Modern natural gas air-conditioning installations maintain constant temperatures regardless of the season, provide ideal working conditions—never too hot, never too cold. Smaller units will soon be available for the average home... at a price you can afford to pay! They're low in cost, economical to operate, and as dependable as the system that stands back of them. We who live in the Gulf South enjoy rich advantages over residents of other areas... advantages of comfort, convenience and economy... because we have dependable natural gas service. In 315 Gulf South communities, the facilities of the United Gas Pipe Line Company assure that dependability. They link your gas burners with 6,000 miles of main pipe lines, connect them with more than 1,000 producing gas wells in hundreds of fields. That's dependability—unequalled anywhere in the country.

When Your Back Hurts—

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling, sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

ENDLESS ARGUMENTS RAGE

World Awaits Second Test of Atomic Bomb

By **WALTER A. SHEAD**
WNU Correspondent.

ABOARD USS APPALACHIAN OPERATIONS CROSSROADS.—Second or Baker test of the atomic bomb in Bikini lagoon, now tentatively set for July 25, will be like dynamiting fish in a pond.

Lacking will be the glamour of the army air force and precision bombing as the whole thing will be a navy show. The bomb will be submerged some 75 feet beneath the surface in about 30 fathoms of water, 180 feet, and detonated in the midst of the target fleet, which is being regrouped to meet new conditions of the test.

This second test also will lack the drama of the bomb burst and the atomic cloud, which is characteristic of atomic bombs exploded in air. What is likely to happen is that the intense heat will generate steam in the water and the terrific force will expend a part of its energy in a waterspout with a cloud of steam and vapor shooting into the air. Intent of this test is to measure force of atomic energy upon the hull structure of naval ships spaced at various distances from the center of the explosion.

Subs to Submerge.

There will not be the visible damage which was inflicted wholly upon the topsides or superstructures as in the first blast. Since there is to be no ship placed directly above the point of blast, the prediction is being made freely that no capital ships will be sunk, although lighter craft may be capsized. Another feature of the second blast is the placing of submerged submarines in the target fleet, and it will be interesting to note the effect of the bomb force upon the steel hulls of these vessels beneath the water.

Naval scientists predict that force of the underwater blast will create waves of sufficient height, possibly 10 or more feet which will sweep over low-lying Bikini Island, although this was also forecast in the first blast and did not materialize.

Meantime, endless arguments proceed as to the degree of damage to the ships, the location of the bomb burst, whether the drop from the plane was a "near miss," probable loss of life had the ships been manned with full complement, and comparative efficiency of this first Bikini bomb as compared to the bombs at Alamogordo, Hiroshima and Nagasaki.

Precision Bombing.

When it is considered that this bomb was dropped from a height of something like six miles and hit within a 1,000-yard circle, this reporter would consider that pretty good precision bombing.

Adm. T. A. Solberg of the bureau of ships, however, declared that insofar as he could judge, every ship damaged by the bomb, with the exception of the Independence, could be put into fighting shape within two or three months.

For the Independence, battered and ripped apart by explosions of her own torpedoes, her ammunition and aviation gasoline and burning for almost two days, it would take

about nine months to put her in shape.

Also all ships damaged, with the single exception of the Independence, towed away and anchored far out in the lagoon, likely could have pulled away under their own steam, had they been manned with crews.

Study Effects.

In the meantime, Bikini lagoon has been turned into a vast laboratory of science, chief interest being the effect of the bomb and its subsequent radiological rays upon the live animals placed aboard the ships at various locations likely to be occupied by the men aboard. Amazingly, only about 10 per cent of the animals were killed by the force of the blast. Some are burned and sick and others may become ill from effects of radioactivity. As a matter of fact, a few already have been destroyed by medical doctors, who are studying this phase of atomic energy in an effort to determine how this radioactivity can be used in medicine in treatment of disease.

Persons or animals which receive these powerful rays into their systems are variously affected and the boarding teams upon these ships are preceded by a trained man carrying a "Geiger counter," a small box-like apparatus which registers radioactivity by a ticking noise.

Arkansas May Be Second Target Ship

Target ship, or vessel nearest center of the blast, for the second atomic bomb test may be the over-age battleship Arkansas, it has been indicated by reliable sources although no definite announcement has been made by Adm. W. H. P. Blandy, commander of operations crossroads and the joint task force.

The carrier Saratoga was first slated to be second target ship. An interesting sidelight on fate of the Saratoga, which suffered only negligible damage in the first test, is that her commander, Capt. Donald MacMahon, knowing that she was slated for the second target ship made a wager with a friend in Washington, before bringing the ship to Bikini, that he would take her back to the East coast under her own power. It looks now that he has better than a 50-50 chance of winning his bet.

Rocket Ascended Over 44 Miles, Above Stratosphere

In the United States, the first man-made object to pass beyond the stratosphere was a rocket fired secretly at White Sands, New Mexico, on October 25, 1945, says Colliers. Developed by the GALCIT organization of the California Institute of Technology, this rocket, the starting weight of which was 680 pounds, was propelled by liquid fuel to a height of 235,000 feet, or over 44 miles, according to the radar equipment that measured its flight.

Get New Tire Protection at One-half Price at Firestone

SUMMER months can be dangerous months if your tires are not in first class condition.

The heat from hot pavements puts a terrific strain on all tires. Those with thin treads or weak spots are almost certain to fail.

You can eliminate this hazard and get new tire protection at half price by having your tires repaired and recapped at your Firestone Dealer Store or Firestone Store.

Firestone Factory-Method recapping gives you exactly the same tread—made of the same materials—that you get on a brand new Firestone De Luxe Champion tire, or a Firestone Transport Truck tire. Firestone, and Firestone only, recaps your old tires with a new tire tread.

Firestone Factory-Method recapping is done by highly trained craftsmen exclusively—their workmanship is guaranteed.

Your Tractor Tires, Regardless of Make, Will Give Up To 16% More Drawbar Pull When Retreaded With The Famous Firestone Ground Grip Tread.
