Grim-faced, Russian Foreign Minister Molotov (at left) and aides ascend main staircase of Luxembourg palace for sessions of Paris peace parley.

PEACE PARLEY: **Open Discussion**

Smaller nations won the right to discuss any question pertaining to the peace treaty drafts for Ger-many's former European satellites at the Paris peace conference in a

The Russian action followed Greece's demand that the conference be allowed to consider any item which relates to a just and durable peace. After hearing Yugo-slavia and the Ukraine of the Soviet bloc attack the proposal, Russian Foreign Minister Molotov advanced his compromise. By offer-ing the opportunity for thoroughly discussing the treaty drafts, his plan would permit the molding of

sound peace, he said. While moving for free discussion of the treaty drafts, Russia continued to insist upon a two-thirds vote for the adoption of any recommendations for changing or alter-ing the terms drawn up by the Big Four. Backed by the U.S. on the two-thirds rule, Molotov pointed out that such a majority vote was in effect both at Versailles after World War I and at the United Nations conference in San Francisco.

KKK:

Ku Klux Klan activities in seven states were reported under investi-

gation by the justice department as the government sought to prevent widespread ou tbreaks occasioned by Negro voting in southern primaries, dislocations of pop ulations resulting war and from the

Up to a postwar production record of 312,576 units in July, output of cars and trucks threatened to take another slide this month as strikes at supplier plants cut down the flow of essential materials to booming assembly lines.

Because a walkout of 80 tool and die workers at the Dura division of the Detroit Harves-ter company in Toledo, Ohio, affected shipments of door handles and interior hardware, Studebaker was compelled to lay off 4,000 employees and Hudson 12,000.

Meanwhile, Ford announced that inless labor differences were resolved in plants of seven critical suppliers, it would be forced to reduce operations. Strikes were tying up production of ball bearings, interior hardware, truck wheel rims, bolts and clutch disc assemblies and covers.

In calling for a settlement of the disputes in supplier plants to assure continued high auto and truck output, Henry Ford II took a crack at Walter Reuther, CIO-United Automobile chieftain, who had asked for an industry - wide union-mahage-ment conference to increase production. The answer for higher output lies in uninterrupted activity, he said.

THE HEDLEY INFORMER

WAR PROFITS:

Garssons Kick Denying the war department's charge that it made excessive profits on war contracts, Erie Basin Metal Products, Inc., asked the U. S. tax court to bar the government's efforts to obtain a refund of \$358, 874.58 for the fiscal year ending November 30, 1943.

The company was an important unit in the Garsson munitions empire under scrutiny of the senate investigating committee headed by Senator Mead (Dem., N. Y.). Representative May (Dem., Ky.) was charged with having exerted his influence with the war department for awarding the combine war contracts and high army officers in Washington, D. C., were shown to have frolicked at the Garssons' expense and pushed their interests.

Erie Basin asked the tax court to overrule government refusals to consider certain rentals, salaries, maintenance expenses and depreciation charges as legitimate penses. Further, it asserted that the U. S. failed to consider such factors as efficiency, reasonable-ness of costs and its contribution to the war effort in charging it with excess profits.

RED CROSS: Continue Work

German war prisoners stood to benefit as the International Red Cross committee, meeting in Geneva, Switzerland, authorized the collection of \$3,750,000 from affiliated societies and governments for relief work up to 1950.

Humanitarian in its motives and recognizing no distinction in race, color or creed, the IRCC record of achievement during the war was especially noteworthy. The IRCC revealed that its activities included maintenance of a 27 million card index for 15 million prisoners of war; 900,000 inquiries to regiments regarding missing soldiers; visits by 420 IRCC delegates to POW camps in 56 countries to check on conditions, and safe delivery of 107 million letters or postal packages.

Of the \$11,250,000 the IRCC received during six years, the Swiss government and its private citizens contributed nearly \$5,000,000. France was next in line with \$980, 000, followed by Great Britain with \$720,000, the U. S. with \$650,000 and Germany with \$500,000.

HUNGARY: Riding High

Uncontrollable inflation hit Hun-gary much as it hit Germany after World War I, leaving a stricken populace with bushel-baskets full of money virtually worthless in buying power.

As postwar production and distribution collapsed in the face of demand, the government

Heralded by At torney General Tom Clark's statement in Philadelphia, Pa., that "we must rid ourselves of such

things as organized bigotry," the government investigation reached into New York, Michigan, Tennessee, Florida, California, Mississippi and Georgia for federal violations. While the inquiry was concentrat-ed in the seven states, the department revealed that it had received

complaints from all other parts of the country against Klan activities. Complainants included individuals, labor unions and civil

rights societies, it was said. PALESTINE:

Plan Partition

Unless substantial American financial aid, estimated at 300 million dollars, is forthcoming, British officials declared that they may have to reconsider an Anglo-American plan for partitioning Palestine into four spheres to solve the complex Jewish resettlement problem.

Of the 300 million dollars, it was reported, some 250 million would be advanced to the Arabs for self-liquidating projects, if they could not secure a loan from the international bank set up at Bretton Woods. At the same time, another 50 million dollars would be granted outright to the Arabs for economic develop-

ment While the cost of Jewish resettlement was estimated at 280 million dollars, it was said that Jewish agencies and individuals would put up 260 million dollars, with the remaining 20 million drawn from Germany in reparations for Nazi confiscations.

FARM PRICES:

At Top Sharp increases in prices re-ceived by farmers for cotton, grains, meat animals, poultry and eggs and dairy products during the month ended July 15 raised the general, level of prices received 26 points over the preceding month to 244 per cent of its 1909-14 mark. This increase was the largest ever recorded for any single month and raised the index nine points above any previous month in the 37 years

General Motors, Chrysler, Hudon, Packard and Nash echoed Ford's stand in rejecting Reuther's bid for an industry-wide conference. Of all the producers, only Stude-baker, Willys-Overland and Kaiser-Frazer accepted the UAW invitation. The threatened drop in production came as manufacturers boost ed their August goals to 453,148 units. With July output showing a big jump over previous months, the half-year total for 1946 aggregated 1,292,214 cars and trucks, of which 862,628 were passenger autos.

FURLOUGH PAY:

In Bonds

G.I.s entitled to pay for unused furloughs will receive their money in bonds if the amount exceeds \$50 under a bill approved by congress.

Disbursements in securities was decided upon after the administration warned that payment in cash would have an inflationary effect.

To be issued in amounts of \$25, the bonds will not be redeemed before five years, though they can be applied against U. S. government life insurance or national service life insurance before that time. In cases where excess sums do not total \$25, payment will be made in cash

Under terms of the bill, G.I.s are to be credited with leave time at the rate of 2½ days per month between September 8, 1939, and August 31, 1946, with payment for

the unused portions. In addition, a buck private would be entitled to a subsistence allowance of 70 cents a day and a staff sergeant to his own subsistence allowance plus \$1.25 for dependents.

In the Atomic World

Atomic energy, when harnessed for peacetime purposes, may be employed in accomplishing such bizarre tasks as irrigating the Sahara and melt-ing the ice cap on Greenland, according to Harry A. Winne, noted electrical engineer.

Despite his fanciful predic-tions, however, Winne said atomic energy will not replace, but rather supplement, other sources of energy.

Street car fares went up 2,100 times in inflation-ridden Hungary.

meet the need for additional money for the soaring price level.

Whereas a clerk or typist earned about 425 pengoes (\$85) monthly before inflation, he got 32,000,000 by March. Street car fares went up 210,000 times and flour 2,200,000 times.

Five pengoes were worth a dollar before inflation, but by May, one billion were valued at only 10 cents. As a last resort, the Hungarian government decided to retire the pengo by this month and replace it with a new currency unit, the florint.

OPA: Farmers to Pay More

Farm machinery prices were scheduled to rise as the revised OPA took steps to comply with the compromise bill designed to assure dealers of adequate profit margins.

Heeding the congressional provision for restoring dealers' peacetime profit margins, OPA granted a 6 per cent boost in retail ceilings for farm machinery. Previously OPA had compelled dealers to absorb part of higher manufacturers' prices on the grounds that large volume and less selling effort would afford sufficient return.

Higher fertilizer prices also appeared in the offing as OPA granted producers of ammonium sulphate a 10 per cent rise in ceilings and permitted importers of Chilean nitrate of soda and nitrate of soda-potash an increase of \$5.50 a ton in their

THE HEDLEY INFORMER FRIDAY. AUG. 16, 1946

Ask ten women why they put up fruits, vegetables, jams, preserves, etc., and you may get ten different answers but they all add up to economy and flavor.

At present, high living costs are forcing many persons, particularly members of the so-called white-collar class, to accept merchandise of inferior quality or do without, but almost everybody can have vegetables of superior quality and flavor for there can always be gardens, and fortun-

ately, glass jars for home canning down. There must be room for waare pre-war quality at pre-war ter to circulate between the pieces prices. Canned foods should be seasoned,

flavored, or sweetened to suit the taste of one's family. If you like corn and beans, corn and tomatoes, tomatoes and okra, cooked together, can them together - but keep in mind that a mixture must be processed the time needed for the vegetable requiring th longest time.

Own a Canning Book

"But," warns Gladys Kimbrough, Home Service Director for Ball Brothers Company, manufacturer of home canning jars, "whatever you do by way of seasoning, be sure to follow the rules when canning. Every homemaker should own a good canning and preserving book.' Buy whatever new jars, caps, lids, and rubbers needed. Use regular home canning jars and beware of any which haven't the name of a reliable manufacturer on them. Examine every jar, cap. and lid before it is used and use according to the manufacturer's instructions. Be sure pressure cooker and water bath canners are in perfect order. Use strictly fresh produce and use it the day it is mature enough to cook for immediate serving. Discard tough, withered, rusty, wormy vegetables. Wash all produce before breaking or cutting and wash only enough for one canner load at a time.

Don't Lose Time

Waste no time between steps in gathering, sorting, washing, preparng, and canning, Cover prepared vegetables with

poiling water and boil five minutes may have developed. vegetables, for example won't be there to destroy if fresh (some beets and sweet potatoes, require produce has been carefully washed, longer). Pour hot vegetables inte clean hot jars. Don't cram them prepared, packed, and properly processe

and there should be from 1/2 to 1 inch space between the vegetables and the top of the jar. Cover vegetables, after placing in jars, with water in which they were boiled or use fresh boiling water. Use clean salt, add it before or after the jars are filled, or leave it

out. It is put in for seasoning only. If air bubbles form, run a knife down between side of jar and food. Put the jars in a hot canner as soon as they are filled. Letting them stand around on the kitchen table invites spoilage. Process all vegetables except to-

matoes, which are really a fruit. in a steam pressure cooker for the time given in the recipe you are following. We recommend the use of a pressure cooker because, when in good working order and used according to instructions, it is by far the quickest and best way to can all low-acid vegetables such as beans, beets, peas, corn, etc. Boiling for a long time in a water-bath canner is the next best way and is the one commonly used in the North Central and Eastern states. Waterbath processed vegetables (does not mean tomatoes-they are acid and should be done in water bath) should never under any circumstances be tasted until after they have been boiled 15 minutes. The same is true of those processed in a steam pressure cooker when there is the slightest question as to whether the cooker was in good operating condition or was operated cor-rectly. The purpose of boil-before-tasting is to destroy any toxin which

Unreported incidents in Hollywood, eye-witnessed by my bureau of information, which never sleeps, never drinks, seldom eats: Betty Grable said she would not accompany Harry James east on his sixweek tour. Almost as soon as he got off the train, she got on a plane -for New York. . . Before John Perona flew to Paris, Mary Pickford gave him a solid gold St. Anthony's medal. . . . Bill Cagney begged Howard Hughes to take him up on that test flight and was turned down. . . A movie company is paying \$2,000 to advertise its pic-ture-to-be, "The Egg and I," on an ostrich egg which is being hatched at a farm which raises the big birds in Pasadena. Thousands visit there daily. The deal is that as each party goes through, the mother ostrich is to be shooed off her future offspring, so that gawkers can read the copy. Thre are seven words painted on the egg, which figures out at a rate of \$275.75 per word.

The following acknowledgment is being received by those who order from a large Manhattan auto agency: "We are enclosing herewith accepted copy of your order, subject to further delays due to conditions beyond our control. Delivery ould be expected from 18 to 25 months.'

Department of internal revenue has had an agent in Hollywood checking into the extraordinary number of refunds claimed and gotten by high-salaried movie people. By virtue of an ancient law, the government pays 6 per cent in-terest on sums paid and held, until refunded. There is virtually no such thing these days as a 6 per cent investment, but anyone who wants to miscount or forget to enter a just and provable claim for allowance can draw 6 per cent on such a sum, plus retrieving it in full. During 1945. the United States paid out \$17,000,000 of such interest. In 1944, the amount was \$23,000,000. This

year, the interest will be only about \$4,000,000, as the government is "hep" and rushing the kickbacks. Most of this, of course, is legiti-

tions. Most canning budgets will permit putting up some relishes because as a general rule, they do not require too much in the way of sweetening. If these recipes prove too gen-

erous in quantity, cut them in halves or quarters and follow instructions. I'm including old favorites in pickles and relishes which I'm sure will add much to your personal eating pleasure during the winter. It's easy to make pickles because they have enough vinegar and spices so that you will not have to worry too much about spoilage.

Now, let's get the jars ready and make plans for canning on the next fairly cool day that comes along. I know you'll want a good supply of these two favorite pickles for next

Howard Hughes, the incredibly rugged individualist, despite his excruciating physical agony and his multifarious mental misgivings, has refused to take one sedative. . . Even the mildest sleeping-aids and pain-relievers, given patients who stub a toe, he has stubbornly turned down. . . . In fact, he refused to eat or drink, fearing some palliative may have been slipped in. . . . He has lived entirely on orange juice since his injuries, and demands that it be squeezed in his presence, from the fruit, uncut until he sees it halved. . . . Physicians say they never heard of such a case. . . . But who ever heard of a Howard Hughes before?

Father Andrew Cervini, Jesuit missionary, who lost his left foot while a prisoner in a Jap camp, has just finished a book of his experiences. . . The publishers weighed several titles. . . . Then Jim Harkins came up with, "How about 'One Foot in Heaven?'"
