HEDLEY, DONLEY COUNTY, TEXAS, FRIDAY, MAR. 28, 1947

Cs. on Report

Census report shows that 6858 bales of cotton were ginned in Donley county from the crop of 1946 prior to March 1st as compared with 8414 bales for the crop of 1945.

Card of Thanks

Words not express our thankfulness and appreciation for the many cards, letters flowers and deeds of kindness to us while Mr. Todd was in the hospital at Amarillo and since coming home. Especially do we want to thank the Lions Club for the use of a wheelchair. May God richly bless all of you.

Yard Contest

The Woman's Culture Club is sponsoring a yard contest, offering \$5 for the best yard and \$5 for the best back yard. Anyone can enter. Entry fee will be \$1 for front yard, which can be paid to any member of the club. Entry fee must be paid by May 1st. The yards will be judged in September.

Lions Club News

Twenty-two Hedleyans attended the Lions Club Charter Night at Quail Monday night, and enjoyed talks by District Governor Frank Jordan of Brownfield and other notables.

Get-Together Rally

The get together rally and program at the school last Thursday was well attended. The program, which came from Amarillo was enjoyed and something over \$700.00 was raised on the down payment of the new school bus. The school board wishes to thank the people for the splendid way they responded.

Mister X

Jo, I see you had a good time Friday night. Better than I expected.

Well Lowell, you don't have to go so far after her since she moved into town do you?

Sarah, what all did he say when you called him Saturday night? Or should I say what all didn't he say?

Anita, did Melvin ever decide to go home Thursday night, or did you have to go by yourself?

Erma, I was really surprised when I heard about Thursday night? That two-timing will really get you into trouble if you are not careful.

Bobbie you seemed pretty blue over the week end. What was the matter? Lonesome for Clarendon, huh?

Betty M., who did I see you with Sunday? I'll have to admit he had a snazzy car!

Sue, did Faye upset your apple cart Friday night? Accidentally or on purpose?

Why do all of the girls have a crush on Sidney Harp since the play Friday night? I think he is pretty snazzy myself. Something very unusual you know.

Let C. E. Johnson, manager of the Hedley Telephone Co., write your fire and hail insurance.

HOUSEHOLD MEMOS

'All Out For Christ'

In our "all out for Christ" movement in Hedley are we ready for and do we deserve the spiritual showers of blessings that we expect God to give us in the revivals of our churches? We are praying for successful revivals in April, but are you and I as Christians and church members ready in our own hearts and lives to truly expect these great spiritual showers. We must try to lead the lost of our town to accept Jesus as their Savior. But we cannot lead until first we have followed. In other words unless we first follow Jesus examples and commandments of life, then we cannot expect to lead a lost soul to God. We must go "all out for Christ" if others would see Jesus in us. We cannot go only half way. God is one who will not accept just half. He must have all our lives or else we are not of God at all. We are either loving God and hating the bad things of the world or we are loving being worldly and the love of God is not in us.

Do you and I glorify Christ in our lives with reverent conduct at all times? We can glorify Christ in worshipful singing. Do we glorify Christ in reading of the scripture and with prayers? Are we glorifying Christ by spiritually giving and do you and I work hard to glorify Christ by telling the lost about our Savior? If we don't do these things and more we are not ready for the showers of blessings.

The adults of our town have the responsibility of creating worshipful attitude among our young people and children. We are responsible for how they live. They look to us for their pattern and guide. Are you and I living just as we want our children to live? We are responsible for their precious lives and souls. And we are responsible to God for all the lost around us. Let us each pray that we may be ready for a great revival that will lift up our little town to new and greater heights and better ideals with God as a firm foundation. Let us all strive to glorify God during this Easter season for loving us so much that His Son, Jesus, was crucified on the cross to save you and I from sin and from an eternal hell. Let us so truly consecrate our lives to God that we shall surely receive the "shower of blessings."

A revival will begin March 30 at the Methodist Church. The public is invited to attend.

Enlistments Needed For Medical Corps

Prior to 1914 tetanus (lock jaw) killed between 80 and 90 percent of all its victims. In World War I Army Medical Doctors and American techniques reduced this mortality to less than 10 percent, while in World War II tetanus inoculations practically ended this danger for American soldiers.

Today the New Regular Army Medical Corps is experimenting with cancer and a definite cure for this dreaded disease. The Medical Department pioneered the use of sulfa, penicillin, streptomycin and the treatment of burns and skin diseases often fatal in years past. The medical corps is open to all men between the ages of 17 to 35 who enlist in New Regular Army for three years.

For additional information about the Medical Department of the New Regular Army, contact M-Sgt. G. W. Parrott Legion Hall, Clarendon, Texas.

Uncle Sam Says

Have you stopped to consider that save-as-you-go is as important to you as the pay-as-you-go plan, which millions of my nieces and nephews are rediscovering this month as their best friend in meeting income obligations? When you are signed up on the payroll savings plan we have arranged with your bank for regular monthly purchases of U. S. Savings Bonds, you're on an automatic, easy save-as-you-go plan which will enable you to meet future personal and family obligations for a business of your own, pay for a new home, travel or education for your children. As a good American, you are paying your income tax bill to your Uncle Sam to help pay for the war. As a good American, you also have the opportunity to turn the tables on your Uncle Sam by investing in U. S. Savings Bonds regularly. Your Uncle Sam will give you \$4 for every \$3 in ten years. U. S. Treasury Dept.

Notice

Washington, March 28—The Office of Price Administration announced today that spare stamp 11 in ration books will be good on April 1 for 10 pounds of sugar.

Stamp No. 53, now good for 5 pounds of sugar, expires May 31.

OPA said that barring unusual circumstances, it will be able to make another 10 pound stamp valid on July 1.

The OPA intends to allot pounds of sugar to housewives this year.

Stamp No. 11 will be valid until Sept. 30. It will cover regular home use and home canning needs.

The Senate Banking Committee, however, has approved transferring sugar controls to Agriculture Department.

That Nagging Backache

May Warn of Disordered Kidney Action

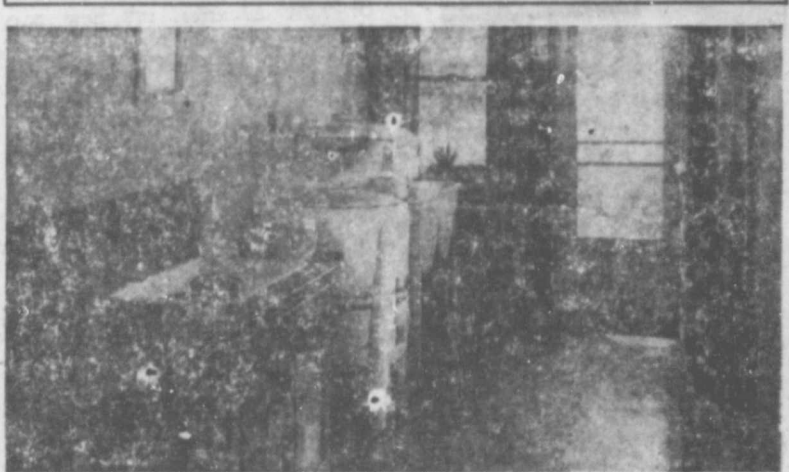

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fall to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Utility Room Is Work Saver for Homemaker

This corridor-type utility room fits perfectly into a long narrow space off the kitchen. Work counter and sink can be used for processing garden produce. Clothes may be carried a few steps from the washer to outdoor line.

Hardest room in the house is a first-floor utility room, according to the Rural Home Editor of nationally-circulated Capper's Farmer. It is especially important for the farm woman who has carried baskets of wet clothes upstairs to hang out on the line.

"People planning new houses often automatically include such a room," she writes in the magazine read by 1,300,000 farm families. "Some are finding it possible to remodel a kitchen into 2 rooms—a smaller kitchen and a utility room. The room usually has an outdoor opening so it may be entered before going into the kitchen.

"Equipped with running water, a sink or lavatory, storage cupboards, several electric outlets for washer, home freezer and other equipment, this room near the kitchen can be used in countless ways. With a sink, a hot plate and counter, all the preparations for home canning can be done there. Garden produce that is to be frozen may be carried right to the spot for processing and packaging.

"Besides placing the washer and tubs where they are easily accessible to the yard, you can have the iron and board and ironer there."

Apple Tree Versus Wheel Field

If you ever visit Jeb Crowell's farm, he'll take you right out on that back porch of his and show you his apple tree.

"There," says Jeb, "is nature's noblest creation—fifty years, and 'bearin' still the finest cider apples in the county!"

But last fall, when a group of us was there, Lad Denny points across the river to his grain fields and says: "There's an even finer sight! Acres and acres of golden grain you can make dozens of appetizing things with—including wholesome, sparkling beer."

Both of them got so eloquent on the subject, that the rest of us worked quite a thirst; so Jeb goes to the icebox for beer and when the refreshments come, Lad chooses cider, and Jeb takes the beer!

From where I sit, that's the answer to most disputes. You can talk all you want, but when it comes to eating and drinking, there's just no argument.

...THEY NEVER SLEEP!

Their fingers are on the pulse of the steel arteries that throb with natural gas—bound for many Texas cities and towns. Before them lies a continuous record of gas pressures in all United Gas pipe lines over the area—taken at frequent intervals around the clock!

These are United Gas dispatchers, who guide the opening and closing of valves at wells and in pipe lines miles away, using telephone and radio to maintain constant pressure at the gas burners in your home or industry. This is representative

of the manpower and investment necessary to safeguard natural gas service—one of the important factors in Texas' growth and economy.

United Gas is composed of thousands of such skilled workmen—men and women doing the multitude of jobs necessary to give VALUE to natural gas—Texas' great natural resource. Without the investment in money, without the experienced and trained manpower, natural gas would be of no practical value to anyone.

Korea a House Divided Between U. S. and Russia

By **BAUKHAGE**
News Analyst and Commentator.

WNU Service, 1616 Eye Street, N. W., Washington, D. C.

WASHINGTON. — A couple of months ago I wrote a piece about Korea for this column.

It was largely a factual report and when I wrote it I realized how little I, and perhaps some of you, know about Korea. I have been realizing that for many years but not too many. I think that the first time Korea meant anything more to me than a smear on the map was when I was quartered with a young fellow in a barrack in France in World War I. He talked in his sleep. That was bad enough, but I couldn't understand what he said. So I asked him. He said:

"My father was a missionary in Korea. I was born there. When I have a nightmare I talk Korean."

But what shocked my New England soul was some of the letters on the "other side":

From a teacher of "long and varied experience":

"The most important teachers in the world are the mothers and fathers, who are now earning wages less than the teachers in a great many cases. Lack of adequate pay for them is the greatest cause of education failure—and failure it is—because it does not aid properly those who need it most."

From a California teacher who is "almost in despair over the situation":

"The school cannot substitute for the home; it can only supplement it. You can't teach children who have had no home training; you can't even teach those who have if your whole time and strength are consumed by those who haven't. Most parents will pay whatever they have to pay for a parking station for their children and will ask no further questions. More and more of the parking attendants are unwilling to deal with such children at any price."

From a Pennsylvania mother:

"If monetary remuneration were the only consideration for our services in this life—would there be nurses, doctors, welfare workers and ministers? Yet they abound in love and kindness and tolerance."

From a Virginia man:

"There is an adage to the effect, 'You get just about what you pay for.' The point is, when the school teacher does his job as well as the street cleaner or garbage collector, he will be paid accordingly; but as long as the educators are content to have the street cleaners do their job better, the educators should not complain that the street cleaner is better paid."

whatever else they didn't teach. Later, I studied abroad and didn't change my mind.

Then I joined the army and discovered from my buddies (I got five francs for writing letters for them), that parts of America I hadn't grown up in were as illiterate as parts of Europe which I'd held my nose going through, and that some of Europe was more literate than the United States, although at our worst we had a better school for the poor man, proportionately, than Great Britain.

Years passed and finally I began hearing complaints about our schools—including the high-literacy areas. I realized what teachers were being paid compared to dog catchers and garbage collectors and bartenders (not as much). I mentioned it on the radio. Most people complimented my stand for higher remuneration for education. (Of course we couldn't expect to pay as much as we pay for liquor to redder our noses or the women pay for cosmetics to redden their lips).

But what shocked my New England soul was some of the letters on the "other side":

From a Virginia man:

"There is an adage to the effect, 'You get just about what you pay for.' The point is, when the school teacher does his job as well as the street cleaner or garbage collector, he will be paid accordingly; but as long as the educators are content to have the street cleaners do their job better, the educators should not complain that the street cleaner is better paid."

Gets Wasps Straight

Sixteen-year-old David Shaptrilo of Washington, D. C., one of 40 finalists in the sixth annual Westinghouse science talent search, cleared up an entomological "triangle" by mating "Mrs." Wasp with her proper spouse. The books had been wronging this couple for years. David's own collection of wasps runs into the thousands. He captures most of them in Rock Creek park and seldom gets stung.

Make Your Easter Dinner Springlike!

(See recipe below.)

Easter Favorite

According to the calendar, Easter comes after spring officially begins, but we have always rather looked to this special holiday as a start of the spring season. Is it any wonder then, that we try to make the dinner menu for this day especially springlike?

Traditionally we like to serve ham or lamb for Easter, but this is really up to you and your family as far as taste and budget is concerned. Whatever you plan to serve, garnish it properly and make the platter look as pretty as a picture.

A roast loin of pork does very well with a border of alternate browned potatoes and spiced crabapples. If you are serving ham, use the same garnish. But with lamb you might do well to substitute minted and spiced pears or pineapple for the garnish. In either case, the fruit serves as a delightful relish.

***Roast Loin of Pork. (Serves 6)**
5 pounds loin of pork
1 1/2 tablespoons salt
Pepper

Have loin of pork prepared at the market. Rub salt and pepper into the meat. Place in rack in an open pan and roast in a 350-degree or moderate oven allowing 30 minutes to the pound.

Roast Leg of Lamb.
Wipe meat with a damp cloth, place on a rack in an open pan. Rub meat with a clove of garlic and salt mixed with a few grains of ginger, pepper and paprika. Add to meat in pan.

1/4 cup butter
1 sliced onion
1 bay leaf
Juice of 1/4 lemon

Add about 1 cup of water to the seasonings and roast in a moderate (350-degree) oven 25 minutes to the pound. Baste frequently with sauce and drippings in pan. One-half hour before serving, meat, pour excess fat from pan and baste thoroughly with the following sauce. Strain before serving.

Sauce for Lamb.
2 tablespoons butter
Juice of lemon
1 cup catsup
Worcestershire to taste
2 tablespoons vinegar

Melt butter in skillet, add remaining ingredients, blend and pour over meat.

***Easter Bunny Salad. (Serves 4)**
1 envelope plain, unflavored gelatin
1/4 cup cold water
1 1/4 cups hot pear juice
1/4 cup grapefruit juice
1 tablespoon lemon juice
1/4 teaspoon salt
Green coloring
1/2 cup cottage cheese
1/4 cup diced celery

4 pear halves
8 whole blanched toasted almonds
Chopped almonds
2 packages cream cheese or 1/2 pound cottage cheese
1 small jar pimiento cheese
Soften gelatin in cold water. Dissolve in hot pear juice. Add grape-

Ways to Make Hot Breads Delectable

Hot breads, whether they are biscuits or muffins, require a light hand in the mixing. Don't worry if the ingredients are not as smoothly blended as a cake batter. They shouldn't be for best results.

A toothpick test, made by inserting the toothpick, is fine for testing doneness. No dough should adhere to the toothpick when it is drawn.

fruit juice, lemon juice, salt and green coloring. Chill until mixture begins to thicken but still pours. Add cottage cheese and beat with rotary egg beater. Add celery. Pour into rectangular individual molds or large rectangular mold (cut in smaller molds for number of servings) which have been rinsed out in cold water. For each salad, place one pear half, cut side down on gelatin mold. At small end of pear place a ball of cream or cottage cheese about the size of a walnut to represent head of bunny. At large end of pear place a small ball of cheese for the tail. Place whole almonds on small balls of cheese for ears, using chooped nut pieces for eyes and nose. Use 2 sprigs parsley for whiskers. Garnish plate with small scrubbed carrots or carrots shaped from pimiento cheese with a sprig of parsley for top.

Quick Cinnamon Rolls.
2 cups sifted flour
3 teaspoons baking powder
1 teaspoon salt
4 tablespoons shortening
1/2 cup milk
2 eggs, beaten
1/4 cup raisins

Sift dry ingredients together. Cut in shortening. Mix milk with eggs and work into dry mixture with raisins. Roll dough 1/4-inch thick then sprinkle with sugar and cinnamon. Roll as for jelly roll. Cut into 1/2-inch slices and place in greased muffin tins. Bake in a hot (450-degree) oven for 12 to 15 minutes. Serve hot.

***Snow Cake. (Sugarless)**
1/2 cup shortening
2 teaspoons grated orange rind
1 cup light corn syrup
2 1/4 cups sifted cake flour
2 1/4 teaspoons baking powder
1/4 teaspoon salt
2 eggs
1/2 cup milk
1 1/2 teaspoons vanilla

Blend shortening and orange rind; add corn syrup gradually, beating well after each addition. Add 1/4 of the dry ingredients which have been sifted together. Add eggs, one at a time, beating well after each addition. Add remaining flour alternately with milk and vanilla. Mix thoroughly. Pour batter into two greased 8 or 9-inch pans. Bake in a moderate (350-degree) oven for 25 to 30 minutes. While still warm, spread chocolate crunch between layers and over top.

***Chocolate Crunch.**
7 ounce package chocolate chips
1 cup oven popped rice cereal
Melt chocolate bits over hot water. Add cereal. Stir until well coated.

Released by Western Newspaper Union.

Glorify the muffin by occasionally adding dates, raisins, nuts, grated orange rind, etc., to them before baking.

If muffins or biscuits bake a little ahead of dinner, loosen them from the pan and set in a warm place. Never let them sit as they are, or they will steam and become soggy. The same goes for breads and rolls.

Grated cheese sprinkled on top of rolls gives a beautiful flavor.

Button-Back Two-Piecer

YOU'LL want to include this pretty button-back two-piece frock in summer sewing plans. It's young and gay with brightly lined ric rac for trimming.

Pattern No. 8135 comes in sizes 12, 13, 14, 16 and 18. Size 12, 3 1/2 yards of 35 or 39-inch; 2 1/2 yards ric rac.

AROUND THE HOUSE

Keep an old tooth brush in your sewing box. The next time you have to rip out seams with a razor blade, use the tooth brush to brush off little threads along seams.

Good knives are a housewife's helpers, so you'll want to take good care of yours. Keep them away from the stove, because heat destroys the temper of steel. If this happens the blade cannot be kept sharp.

Slip a convenient-sized oiled bag into your purse just before you go out to buy fish. Have the fish dealer slip the fish into the bag before wrapping it. On the way home no fish odors will escape the package, and there'll be less chance of liquid leaking on your clothes.

To send coins through mail, cut a square from the corner of an envelope. Slip coin in square and turn back the opening to hold it in place.

Coat the inside of lids on many tard or horseradish jars with a thin layer of paraffin and they'll not turn green.

To send coins through mail, cut a square from the corner of an envelope. Slip coin in square and turn back the opening to hold it in place.

Pull your card tables, folding chairs and games out of cupboards or sliding racks built into waste space under the stairs.

Glue pieces of felt on the bottom of your vases and they will remain the surfaces of the tables at which they are placed.

If you will place citrus fruits in be used in salad in hot water for a few minutes before peeling, the outer skin will come off easily.

Race Horses Seriously Affected by Seasickness

Horses are so affected by seasickness that many thoroughbreds, after a rough sea voyage, have been unfit to race for as long as six months, says Collier's.

To avoid this hazard, a plane was used recently to transport six race horses from Limerick, Ireland, to Los Angeles, the first cargo of its kind ever flown across the Atlantic.
