Finland As Stalin Calls for "Defense Pact"; Vandenberg Urges Speed on ERP

Released by WNU Feature
 (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

WHO'S NEXT?

Finland

Finland seemed to be resigned, saturated with the apathy that sometimes precedes extinction.

It was a state of mind that had grown out of a reported request by Josef Stalin of Russia that Finland join up with the chain of Soviet defense pacts that now stretches across Europe.

To the Finns that request was nothing less than a prelude to the same kind of political control Russia had just imposed on Czechoslovakia. They feared their parliamentary freedoms would go by the boards in such a turn of events. But after losing two wars with Russia in less than 10 years, the Finns were able to do little except resign themselves to the Soviet pattern of conquest.

Finland's President Juho Paasikivi was said to be in favor of signing a Finnish-Russian friendship treaty as suggested by Stalin.

His viewpoint, distinguished by realism if nothing else, was this: To turn down the Soviet bid would aggravate Russian-Finnish relations to a dangerous degree. To accept it would mean Finland might get as favorable conditions as possible toward keeping national independence.

At the same time there was concern whether Stalin's request was dictated exclusively by the wish to safeguard Soviet territory, particularly Leningrad, or whether he had something else up his sleeve. So far there were no actual demands of any kind, such as that the Red army be allowed to occupy Finland in the case of war or the threat of war.

On the global scale it seemed apparent that Moscow's overtures to Finland, coming as they did after the seizure of Czechoslovakia, were another part of the Soviet retaliation to the U. S.-sponsored Marshall plan in Europe. The Russians were drawing up the final lines for the conflict and at the same time consolidating their position in eastern Europe.

Aggression Charted

These are the battle lines for the "cold war" in which the two opposing forces are democracy and communism. The battlefield is Europe, map of which conveys that "this is where we came in" feeling. It is reminiscent of the Hitler drive to the East, except for the fact that this time it is a Russian expansion westward that is changing the color of the map.

MARSHALL PLAN: The Beacon

"This act may well become a welcome beacon in the world's dark night. But if that beacon is to be lighted at all, it had better be lighted before it is too late."

With that exhortation and many other clamoring brass alarms did Sen. Arthur Vandenberg (Rep., Mich.) attempt to spur the senate into swift action on the Marshall plan as it opened debate on the \$3-billion-dollar program to defeat communism in Europe.

The chairman of the senate foreign relations committee, one of the strongest backers of the Marshall plan, urged the senators to "light the beacon" of economic aid to Europe before "aggressive communism" begins knocking on the door of the New World.

"Help stop World War III before it starts," was the burden of Vandenberg's message.

Denouncing "treacherous Moscow propaganda that has 'charged us with iniquitous American imperialism,'" he emphasized that the 16 western European nations must be saved from economic chaos.

"This vast friendly segment of the earth must not collapse. The iron curtain must not come to the rims of the Atlantic by aggression or default."

But despite Vandenberg's hortatory, prospects of swift, full passage of the Marshall plan were by no means bright and shining. In this election year congressmen were being doggedly and ostentatiously conscious of how they spent taxpayers' and voters' money.

The house, meantime, was working on another version of a world aid plan, with the foreign affairs committee deciding to wrap foreign aid for Europe, China, Greece and Turkey into "a single package."

PROFITABLE: Steel

In response to a request by President Truman for a full investigation of steel price increases, federal trade commission and commerce department economists turned up with a story that was not destined to do the steel industry any good in the eyes of the price-whipped American public.

According to data assembled so far, the industry has been piling up profits at a rate unequalled in recent years, and in some cases, is running up net earnings almost double those of 1946.

The appraisal indicated that U. S. Steel, giant of the industry, was leading all companies with a net profit in 1947 of 126.7 million dollars—highest since 1929. Bethlehem Steel pushed up its net profit last year to 51 million dollars, about 10 million more than the previous year.

Other leading concerns either have doubled or more than doubled their 1946 profits.

Stimulus which got the steel profits investigation going was the recent \$5-a-ton increase in the price of semi-finished steel—actually the fifth in a series of price boosts. During the first seven weeks of 1948, steel companies have jumped the price of pipe, nails, wire and structural construction steel.

Economists tended to view the steel price hike with alarm because they feared it would offset completely any beneficial deflationary trend which the commodity market drop might have set in motion.

HOMELESS: DP Bill

Possibly in response to the growing humanitarian sentiment in the U. S. that something be done to relieve the plight of Europe's displaced persons, the senate judiciary committee approved a bill that would admit 100,000 DP's to the United States in the next two years.

The measure, now scheduled to be reported out to the senate for action, provides that homeless Europeans who are living in DP camps two and a half years after the end of the war will be admitted at the rate of 50,000 a year beginning next July 1 and ending June 30, 1950.

A three-member commission would be established to handle the program and to formulate regulations "for the purpose of obtaining the most general distribution and settlement of persons." At least 50 per cent of those admitted are to be employed in agriculture.

Sen Chapman Revercomb (Rep., W. Va.), chairman of the sub-committee that drafted the bill, said that this provision was intended to prevent the immigrants from settling in large groups in seaboard areas.

Those to be admitted would first be thoroughly investigated by a govern-

Fabric lamp shades remain fresh longer and require fewer washings if dusted occasionally with a clean, soft brush. Keep such a brush on hand specially for lamp shades.

When you wish to have an artistic-shaped flower bed — half moon, circular, or curves, lay the garden hose in the desired pattern and dig your flower garden on the inside of the hose.

Try tinting the starch for dark colored materials. Use bluing for navy blue or black garments and strong, clear tea for brown.

So your lap won't get wet when you're ironing damp clothes on your rotary ironer, buy an ironer that has a folding lapboard. This also helps to prevent damp clothes from being dropped on the floor.

How to Keep 'Em Down On the Farm

The other day Pete Swanson's nephew, Bud, allowed as how he was fed up with farm and country life, and was going to the city where there was a lot more opportunity and excitement. Some folks might have tried to stop him. But not Pete. He even advanced Bud carfare for the trip. ... Assured that when he'd had a good look around, he'd come back when he belonged. And what happened? After seven days of big town bustle and excitement, Bud was back behind the

wheel of a tractor, with color checks again. And he'd traded night life of the city for a glass of beer with Dad. From where I sit, that's how it goes. Try to prevent some one getting what he thinks he wants. But when he's had a good look around, he'll see the sensible thing—whether it's country life, or a temperate glass of beer!

HOW TEXAS INDUSTRIES PUT NATURE'S RESOURCES TO USE FOR THE BENEFIT OF MANKIND

EVEN Splinters ARE IMPORTANT...

Texas' lumber industry is important in many ways, to many people. Millions of cords of Texas lumber are going into the markets of the world... into housing, furniture and a host of other products that people want and need. Lumber is making jobs, paying wages and providing income to thousands of Texas people. But like other natural resources, lumber would be of little value unless it were put to use for the benefit of mankind.

Natural gas, too, would be worthless or wasted unless it were made available for use. Its importance as an efficient, low cost fuel is gained only after it is gathered, processed and transported to places where it is needed. This is the job being done by the United Gas companies. We regard it as *practical conservation*, for it stimulates industrial development, creates jobs and benefits every family in Texas.

LUMBER INDUSTRY

Basic products of lumber and timber in Texas in 1946 were valued at \$119,646,000. The more than 1,000 establishments in the industry employed 29,218 persons, paid salaries and wages of \$42,548,000. Free Enterprise help to build the success of this great industry in our state... Free Enterprise, which shares its benefits with all the people in Texas.

UNITED GAS Serving the Gulf South

HOUSEHOLD MEMOS by Lynn Chambers

Eggs a la Suisse Glamorizes an Old Standby
(See Recipes Below)

Perk Up the Menu

The final days of Lent will test your ingenuity as a cook. Meet the challenge in high style by adding today's cookery tricks to your recipe collection. Retain them, too, for use when depleted meat supplies necessitate your substituting some other main dish for an appetizing menu.

We're glamorizing vegetables, doing new things with eggs, perking up the menu with cheese and trying some new seasoning treatments with fish.

This will be a good time to see just what you can do with foods you usually take for granted, and your results will be happy ones if you add a dash of imagination to old favorites.

Heed the cooking of both eggs and cheese. Be gentle with them both, as high heat toughens the protein of eggs and makes cheese stringy.

Chinese Omelet.
(Serves 6)

- ½ cup uncooked rice
- 4 tablespoons butter
- 4 tablespoons flour
- 2 cups milk
- 3 eggs, separated
- ¼ teaspoon paprika
- 1¼ teaspoons salt
- ¾ teaspoon dry mustard
- 4 tablespoons grated cheese

Cook rice until tender. Rinse with hot and cold water. Make a sauce by melting butter, adding flour and stirring in the milk slowly. Cook until thickened. Beat egg yolks, add rice, sauce, seasonings and cheese. Fold in stiffly beaten egg whites. Pour into a greased, shallow casserole. Bake in a moderate (350 degree) oven for 35 minutes.

Eggs a la Suisse.
(Serves 2)

- 4 eggs
- 1 tablespoon fat for frying
- ½ cup light cream
- 2 tablespoons cracker or bread crumbs
- Salt, pepper, cayenne
- Buttered toast

Melt fat in pan. Add cream and heat to bubbling. Slip in eggs, one at a time; cook gently. When whites are almost firm, sprinkle crumbs over top and continue cooking to desired doneness. Transfer eggs to toast. Pour the pan cream over all. Season with salt, pepper and cayenne.

Fried Rice with Mushrooms.
(Serves 4)

- 3 tablespoons oil or fat
- 1 teaspoon salt
- Dash of pepper
- 2 eggs
- ½ pound mushrooms
- 2 tablespoons minced onion
- 4 cups cold, cooked rice
- 2 tablespoons soy sauce
- ¼ teaspoon sugar

Place oil or fat, salt, pepper and eggs into heavy skillet. Fry eggs until firm, then cut them in shreds. Slice and add mushrooms, then add onion and cook for five minutes, stirring constantly. Add rice and soy sauce mixed with sugar. Cook over a moderate flame, stirring occasionally until rice is hot. Serve immediately.

LYNN SAYS:
Do You Know These Facts About Cheese?

One ounce of cheese will give the same amount of calcium as one cup of milk.

Natural cheese is made by heating, pressing and curing the curd of milk. Processed cheese is natural cheese, shredded, blended and pasteurized.

Cheese goes well when spread on gingersnaps for snacks. Use cream variety.

LYNN CHAMBERS' MENU

- Tomato Juice
- *Spaghetti Deluxe
- Buttered Green Beans
- Waldorf Salad
- Beverage
- French Bread
- Lemon Cream Pie

*Recipe given.

Noodles Romanoff.
(Serves 4 to 6)

- 1 5- or 6-ounce package noodles
- 3 quarts boiling, salted water
- 1 cup cottage cheese
- 1 cup sour cream
- ¼ cup chopped onion
- 1 to 2 teaspoons Worcester sauce
- Dash of tobacco sauce
- ½ teaspoon salt

Cook noodles in boiling salted water until tender. Drain, then add remaining ingredients in order given. Place into a greased casserole, then sprinkle with ¼ cup sharp grated cheese if desired. Bake 40 minutes in a moderate oven.

***Spaghetti Deluxe.**
(Serves 8)

- 2 cups spaghetti
- 1 tablespoon butter
- 1 onion, finely chopped
- 1 green pepper, finely cut
- ¼ cup stuffed olives, sliced
- ¼ cup mushrooms
- 1 No. 1 can tomato soup
- 2 cups American cheese, grated

Cook spaghetti in boiling salted water until tender; drain. Melt butter in pan, add onion, pepper, olives, mushrooms and soup; heat. Add cheese and stir until melted. Pour over spaghetti. Bake in a buttered casserole in a moderate (350 degree) oven for 30 minutes.

If you want to serve vegetables as a main dinner dish, it would be a good idea to add a cream sauce, cheese or eggs to them in some form so there will be protein in the food.

This trick also will make them more substantial and satisfying as a main course.

Cauliflower Souffle.
(Serves 6)

- 3 tablespoons butter
- 3 tablespoons flour
- 1 cup milk
- ¼ teaspoon salt
- 3 egg yolks, beaten
- ½ cup American cheese, grated
- 1 cup cauliflower, cooked and coarsely chopped
- 3 egg whites

Make white sauce with butter, flour, milk and salt. Add egg yolks and cheese and stir until cheese is melted. Add cauliflower. Fold in beaten egg whites. Pour into buttered casserole. Sprinkle top with remaining cheese. Set in hot water. Bake in a moderate (350 degree) oven for 50 to 60 minutes.

Corn, Swiss Style.
(Serves 6)

- 3 cups kernel corn
- 2 tablespoons flour
- ¼ teaspoon salt
- ¼ teaspoon pepper
- ¼ teaspoon celery salt
- ¼ teaspoon onion, minced
- ½ cup milk
- ½ cup American cheese, grated

Combine all ingredients except cheese. Pour into buttered, shallow baking dish, sprinkling with the cheese. Bake in a moderate (350 degree) oven for 20 minutes.

A nice spread for toast includes strawberry jam and cream cheese. Make potatoes, cabbage and onions interesting by scalloping them with cheese.

For fruit salads, make cheese balls. For gelatin fruit salads, it's nice to mold the balls with the rest of the ingredients.

You can stuff prunes, dates, celery, tomatoes and green peppers with a combination of cream cheese or cottage

Probably the mass meeting in his life, was that called in 1843, to demand the repeal of the Union with his country and Great Britain.

It was attended by more than 1,000,000 people, a number equivalent, at that time, to one person in every family in Ireland.

BUSHMAN SAW
With Swedish Steel Blade

Beware Coughs from common colds that Hang On

Circulation relieves promptly because it goes right to the seat of the trouble to help loosen and expel germs from phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Cromulsion with the understanding you must like the way it quickly lays the cough or you are to have your money back.

CROMULSION
for Coughs, Chest Colds, Bronchitis

Thousands of progressive farmers know and appreciate the numerous uses of this all-purpose saw. Fine for cutting firewood, fence posts, tree trimming and general rough work. Razor sharp blade cuts smooth, high speed, stays sharp longer. 24, 30, 36, 42, 48 inch lengths.

"Insist on Bushman," nothing else counts.

How to help your sick child GET WELL FASTER

... as recommended in the interest of child welfare by
ROSE G. ANDERSON, Ph.D.
Director of The Psychological Service Center, New York

1. The after-effects of your child's illness are often more important than the illness itself. Pampering, caressing to whims, over-solicitude teaches a child to dominate through weakness. Such well-meant kindness may prolong his convalescence.

2. You'll be smart to help him amuse himself. Give him something which doesn't require an adult's constant attention. Give him your "Eveready" flashlight... or get him one of his own. If he tires of flashing the beam, or flicking out imaginary signals, then...

3. Show him how to cut designs or figures from stiff paper and how to throw their shadows on the ceiling or wall. Moving the figures will make them dance. Watch his pride in what he's done. Watch him get well faster because he's happier!

Proof!... in the laboratory... in your own flashlight...

"EVEREADY" BATTERIES OUTLAST ALL OTHER BRANDS!

Brighter light, longer life! That's what you want in a flashlight battery—and that's what you get with "Eveready" brand batteries. Laboratory tests prove it. And the best "laboratory" of all—your own flashlight—proves it! That's why "Eveready" batteries outlast all other brands—because they outlast all other brands!
