Last Sunday was the boys off day. However even after sporting Ch... 6 runs in the first inning and playing most of the afternoon the boys still had a chance until Bill Mooring grounded out with two men on in the last half of the 9th. The score was 12 to 10 in favor of Childress.

Will do ironing and finishing work in my home.

The Wise Old Owl

Rita, better quit refusing that man of yours so much as he might not like it. Say, just checking up a little just where was he last Sunday night after church.

Mary Opal, you seemed quite pleased with your date Friday night. Aren't you afraid that a certain Haskle F. wouldn't approve?

Question: Just where have all those watermelons been coming from the last 2 weeks. Answer: Could be Mr. Blankenship's watermelon patch.

Sara, now this college is starting you can settle down to the old routine again.

Say, I guess I'm losing out but just what did happen August 29? Anita, you and Rita know anything about this?

Wanda Lee, is it true that a certain little blond Junior is cutting in on the prospects you had at the picnic Tuesday night?

Dorothy, what was he so mad about Sunday night? He wasn't jealous was he?

Gib, what was she mad about Friday night? It seems as though some others have been wondering too.

American Legion

Next Tuesday night is regular Legion meeting. New officers will be installed at a later call meeting as the State convention will be going on at the time of this month's meeting.

Woman's Culture Club

The Woman's Culture Club met in the home of Mrs. Charles Rains September 1 for their first meeting. There were 18 members and guests present. After a delicious buffet supper of baked ham, creamed asparagus, buttered carrots, potato salad, hot rolls, iced tea, ice cream and cookies were served, the house was called to order and an enjoyable program was given with Mrs. Robert Lester leader. The speech given by our new president, Mrs. Frank Murray was enjoyed by all.

The next meeting will be in the home of Mrs. Robert Lester.

Uncle Sam Says

The first observance of Labor Day in the United States was held in New York City in 1882 by the American Federation of Labor. In 1948, some 60 millions of our wage earners will join in the 66th annual celebration of that day. Congratulations are in order. Millions of you workers are now guarding against any future emergencies by allotting a portion of your weekly wages to the purchase of U.S. Savings Bonds through the Payroll Savings Plan. You like it because it is automatic, it is sure. If not enrolled you can sign up today where you work for the Payroll Savings Plan, or, if self-employed, see your banker and ask to be enrolled for the Bonds-a-Month Plan to purchase U.S. Savings Bonds. An allotment of \$3.75 a week will bring you \$2165.45 in just ten years.

Uncle Sam Says

How time flies! That's a common expression you've used repeatedly. Keep it in mind when you think about your future and what you can do to make your future secure? There's no trick to security. Just enroll today in the payroll savings plan where you work. Every pay day from now on you'll be setting aside, in United States Savings Bonds, money that actually grows. In 10 short years you'll be getting back \$100 for every \$75 you've wisely setting aside today.

WEEKLY NEWS ANALYSIS

U. S.-Russia Events Reach Climax; Moscow Parley Continues Uneasily; Soviets Sever Consular Relations

By Bill Schoentgen, WNU Staff Writer

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

THE AX WAS THERE

RUSSIANS: Climactic

Virtually every avenue of public thought in the U. S. was teeming with Russians, shadows of Russians and a few Red convertibles. There was a feeling, however, that the international commotion had reached its climax and was ready to start subsiding, partly because public interest, flagellated in a state of high excitement, couldn't stand the stress and strain of it all much longer.

Nevertheless, events having to do with Russia remained for the time being, at least, reasonably climactic: The Moscow talks were ready either to pay off or break down; Russia had broken off consular relations with the U. S.; Mrs. Oksana Kasenkina, the widow-jumping Russian schoolteacher, had told the story of how she had been strong-armed.

Moscow
In the Kremlin, where the three western ambassadors were trying to pound out some kind of tentative basis for negotiations with the Soviet Union, the Russians were playing their familiar game of hit-and-run.

U. S. Ambassador Walter Bedell Smith, British Representative Frank Roberts and French Ambassador Yves Chateignau had been dragging through a series of meetings with the implacable V. M. Molotov, Soviet foreign minister. Molotov, as usual, was hard, tough, adamant in his adherence to current Soviet policy on the Berlin and German problems. No progress was made; the three western representatives were dispirited, although they kept to their chore. The word was whispered about that this conference might break up in total failure.

Then came a break, or so it appeared. Premier Stalin would meet again with the three envoys. In the ensuing discussions with Stalin hopes again were raised that the western powers might succeed in at least partially lifting the Berlin blockade and perhaps effect an area of agreement that could be used for a subsequent top-level meeting to iron out some of the major East-West differences.

But there were some who still could see the ax on the peace table. Somehow, there was a familiar pattern behind these negotiations that went something like this: After Molotov had subjected his fellow conferees to hour after hour of his case-hardened refusals to come to terms, attempting by those tactics to wear his diplomatic opponents down, the scene was set for Stalin's return.

Stalin came on with his air of geniality and good will, apparently not only willing but eager to reach common ground. His attitude was so manifestly different from Molotov's that hopes again soared. There was the danger. Lulled into optimism, the western envoys might be trapped into making concessions that should not be made. This same kind of Molotov-to-Stalin play had worked before.

Hit the Road
Jacob H. Lomakin, Soviet consul general in New York, had conducted himself improperly and discredibly in the affair of the Russian schoolteacher, Mrs. Oksana Kasenkina.

Watch That Credit

Prospective home buyers who might plunge beyond their means simply because down payments are lower under the new housing law have been warned by government housing experts to avoid that trap. "Our only worry," one expert said, "is that the lower down payments will encourage people to buy homes they cannot afford. When you reduce the down payment, the monthly payments are more."

To keep your car going great... make a date to OIL-PLATE with Conoco N Motor Oil! A special, added ingredient in N oil (Patented) fastens extra lubricant magnet-like to your engine's working parts. So strongly is this extra film attached to cylinder walls, it won't all drain down, even overnight!

From where I sit... by Joe Marsh

One Great American Trait

I always think it does a newspaper editor good to get out from behind his desk and see how folks in other parts of America look, and think, and act.

And that's what I've been doing these past weeks, touring the country from Michigan to Texas, California to Maine. It's a mighty encouraging experience. Not only because of the different points of view you run into—but because of the tolerance which reconciles those different points of view.

I mean the tolerance of a Penn-

sylvania farmer for the habits of his city cousin; the tolerance of folks who vote one way towards those who vote another; the tolerance of those who prefer spring water towards those who enjoy a moderate beverage like beer.

From where I sit, it's that great American trait of tolerance—respect for individual tastes and liberties—that makes this country strong. Let's never lose it!

PRACTICAL CONSERVATION
MEANS *More Gas* FOR YOU..

Yes, scientific methods of conservation applied to each new well mean more gas for your home, store or factory. Methods developed over the years for proper drilling and production assure land and royalty owners maximum recovery of gas or oil... assure consumers maximum volume of products for their use.

Practical conservation of mineral resources guides the operations of the United Gas organization. It is one of many functions of United Gas... all of which have the ultimate purpose of assuring a continued dependable supply of natural gas for our customers.

UNITED GAS ...
Serving the *Gulf South*

When producing sand has been reached, the drill stem is retracted with casing lowered to the bottom of the hole and cemented into place. Small holes are shot or blown through the casing with a perforating "gun."

Small diameter tubing is lowered to the bottom of the hole and the heavy "rod" which is present all through the drilling operation is displaced with water to allow the well to come in.

Gas or oil enters the perforations at the bottom of the tubing and flows to the collection of valves at the head of the well called a Christmas tree. Here a man has complete control of the volume of gas or oil that flows from the well.

The juice of a lemon in a glass of water, when taken first thing on arising, is all that most people need to insure prompt, normal elimination. No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you!

Generations of Americans have taken lemons for health—and generations of doctors have recommended them. They are rich in vitamin C, supply valuable amounts of B₁ and P. They alkalize, aid digestion.

Not too sharp or sour, lemon in water has a refreshing tang—clears the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days.

Careful Planning Urged To Make Light Meals Nutritious and Balanced

ARE THE LIGHT MEALS you serve always nutritious? Or are they just something you throw together for the sake of giving calories to your family, even though the foods are not particularly abundant in health-giving elements such as protein, vitamins and minerals?

You're guaranteed to feel better, work better and, yes, even play better if you're getting the right kind of food. Nutritious meals, no matter whether they are small or large, are bound to pay off big dividends. Just how, you ask? Well, for one thing, you won't get tired so quickly, and there will be sparkle in your

Serve a salad for lunch and get your nutrients the easy way. Muffins or sandwiches with milk or a nourishing beverage help give a well balanced meal.

eyes and smiles and a general glow of health about you. Your scratches and cuts, for example, will heal more readily if you're getting vitamin C in ample quantities.

That dragged out feeling may come from lack of the B complex vitamins which guard general well being, or it may come from lack of iron in the blood which helps carry oxygen we breathe to all parts of the body.

If you're troubled with night blindness, poor appetite, and get colds and infections readily, you're apt to be getting less than your share of vitamin A.

When teeth are in poor condition it would be wise to check on your calcium, phosphorus and vitamins C and D. Any one or all of these may be responsible.

Dinners are apt to be rather well balanced to give the essential food elements, but frequently the cause of many ills is the lack of good lighter meals such as lunches or suppers. Some people skip lunch, others nibble at little or nothing, while some eat something that satisfies hunger without regard to satisfying bodily needs.

Keep your refrigerator well stocked with fruits and vegetables, so that you always can toss a salad together. Serve this with sandwiches if you're hungry or gingerbread if you want a kind of bread and dessert together. Add to this a nourishing beverage and you'll have a lunch that satisfies hunger as well as dietary needs. Doesn't take much longer to fix than a snack!

Soups and juices are good to have on hand because they satisfy vitamin and mineral requirements. Plan, however, to serve a salad with them or a nourishing milk drink or dessert.

CHOOSE FROM AMONG these recipes for those light lunches or suppers. Foods contained in them are vitamin and mineral conscious, but still will be found to be very appetizing and refreshing.

LYNN SAYS:
Give Old Foods New Flavor Tricks

Meat loaf will take on an inviting flavor if you fold in one-half cup of grated parmesan cheese into the mixture before baking it. Chopped ham is delicious to add to your favorite plain or cheese soufflé, fondue, omelet or scrambled eggs.

Pork sausage will have a special appeal when you prepare with macaroni and a chili-flavored tomato sauce.

2. Egg salad with finely chopped pickle and celery with enough salad dressing to moisten.

A simple but easy dessert for one of those light lunches includes tall glasses of milk with a very dark and delicious gingerbread. Serving gingerbread is an easy way to work iron into the diet by means of the molasses.

3. Mashed liver sausage mixed with finely chopped, hard-cooked eggs, moistened with cream and seasoned with salt and pepper.

4. Peanut butter mixed with crumbled, cooked bacon or shredded carrots, or honey or chow chow.

5. Ground leftover meat mixed with ground raw carrot, moistened with mayonnaise and seasoned with salt, pepper and onion juice.
