Baseball News

The Hedley Lions wound up the baseball season with a win over Groom at Groom last Sunday by the score of 19 to 13. The game was played in a wind that made pop flies go for home runs but the locals played good ball and came out on the winning side. Bobby Everett went the route on the mound for Hedley and the locals sluggers treated three Groom pitchers with an equal amount of discourtesy to their pitching offerings. Most of the boys will be back again next year and they are going to be mighty hard to handle.

Boy Scouts

Twelve boys were present at this week's Boy Scout meeting. All of them passed their tests in the Scout oath and laws. Other things studied were the origin of the United States Flag and the significance of the Scout badge.

Next Monday night's meeting will begin at 7:30 p. m. at the Legion Hall and will last until 9 or 9:15. Knot tying will be the subject of study.

Lions Club News

Next Thursday night is Ladies night. The meeting will be at the school house at 8 p. m. A zone meeting is called for the clubs of this zone just preceding the Ladies night banquet. So there will be guests from the other clubs of this zone at our meeting. The cost will be \$1.00 per plate for each Lion and his guests. The meal will be served by the Home Ec Girls and all profits from the banquet will go to this organization. Program chairman Carrol Deahl promises us a good program.

At last week's directors meeting it was voted to sponsor a Boy Scout Troop, a basketball team, and to join the Fire Boys in helping clean and mark off parking places on main street.

Methodist Church

The Second Quarterly Conference will be conducted at the Methodist Church by the District Supt. Rev. W. E. Hamilton of Clarendon, at 7:30 p. m. Tuesday Sept. 28th. The public is invited to this meeting. Bro. Hamilton will conduct the business session after religious services are concluded.

The Junior Class of the Children's Division of the Methodist Church were treated to an outing Friday night by Mrs. W. P. Doherty and Mrs. Frank Story. Twelve of the boys and girls enjoyed a ride to the roadside park of town in the pickup. After much searching for wood, weiners and marshmallows were roasted, and the feast enjoyed by the light of a brilliant moon. The girls and boys enjoyed themselves to the highest degree as did the Pastor, who was honor guest.

The
Wise Old
Owl

I guess you are wondering where I was last week. Well, due to the bright nights I wasn't able to see so very well, but am ready to spell all the gossip this week.

Attention: Lillian Sanders has been trying to think of a way to get rid of her competition. Doris E., she's rather large, you had better leave J. H. alone.

Earline, it seems as though you have been making quite a few trips to Memphis. Could it be your guy has come back?

Mary Opal were you at the ball game Wednesday night. Joe Neal, did you see her?

Theresa, we don't see you around much lately. Has your flame gone out or is it just burning low? Does he know about these ball trips.

Anita, you seem to be doing ok. Maybe Babe should be gone on ball trips every Sunday.

Jimmy, you haven't completely given up the little dark headed Junior girl even though she does have a steady boyfriend going to C.J.C.

Dorothy E. is it true you have hooked you a man. What about this Pete?

Billy Dean, why were you so interested in the Wilson ranch the other night? Have you staked a claim over there.

He had flown his private plane from his home at Edinburg to visit his parents at Bowie, and he and his father had flown to Slidell their old home, to visit friends. To Clean Main Street

All the stores on Main Street will be closed Friday morning from 8 a. m. to 10 a. m. Led by the Lions Club and the Fire Boys they will proceed to clean and mark off for parking the busing block of Hedley.

This is a mighty good move local merchants. It will not only give more parking space but help the looks of Main Street. Hedley should be congratulated on the public spirit and civic pride of its merchants. That is the way to make a good town.

So when the fire whistle blows at 8 a. m. Friday morning grab your shovel, broom, hoe, rake, paint brush and get busy and can get this job over pretty quick and make Hedley look a lot better.

A plus in any bus!

When you switch to Conoco Nth Motor Oil and an OIL-PLATED engine, you get these triple advantages . . .

(1) Extra protection from power-clogging sludge and carbon due to wear; (2) extra protection from metal-eating combustion acids; (3) extra protection from destructive "dry" friction starts.

Because Conoco Nth Motor Oil (Patented) fastens an extra film of lubricant so closely to metal surfaces that working parts are actually OIL-PLATED! This extra film stays up on cylinder walls . . . won't all drain down, even overnight.

For plus performance . . . full-time protection . . . more miles per quart . . .

LITTLE ILLS MAKE BIG BILLS!

True, that "little illness" you've been mentioning in an offhand way, may not seem to amount to much—just a few faint symptoms. But, neglected, these "little ills" can lead to big bills for doctors, medicines, etc; not to mention needless suffering and loss of precious time. Consult a Doctor now—you'll save by it in the end. And, of course, we hope you'll bring his prescription to us for careful compounding.

DURHAM PHARMACY

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. Do kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be sagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, stony or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Nicest Compliment I've Had

One of the nicest comments I've received about this column was from an editor in the Middle West I called on. And while I don't like to give myself orchids, I think it illustrates a point.

"Joe," he said, "it so happens I don't agree with everything you say, but I always like to run your column. Because it gets down to earth and talks about the right to disagree. And it only asks for tolerance towards the other person's point of view."

He went on to explain, by way

of illustration, that he never happened to have a taste for al or beer. But that when I spoke of the right to enjoy a moderate beverage like beer, well, he was right there with me!

And from where I sit, that's the important thing: not whether you share another person's tastes or point of view—but whether you recognize his right to exercise a free choice in a free land.

MADE BY THE MAKERS OF FAMOUS PYREX WARE!

**EVER SEE AN ICE STORM
Inside A PIPE LINE?**

High pressure natural gas pipe lines may be subject to miniature ice storms when outside temperatures drop to 40 or 50 degrees. If permitted to continue, the ice would ultimately choke off the flow of gas through the line. That's because particles of water mixed with certain petroleum vapors in high pressure pipe lines will freeze at temperatures far above the normal freezing point of 32 degrees. Nearly all natural gas contains moisture as it leaves the well, so it is necessary to install such facilities as heaters, separators and dehydrators to remove the liquids and vapors before the gas is placed in pipe lines for movement to market. This is one of many functions of the United Gas organization—all of which have the ultimate purpose of assuring a dependable supply of natural gas for our customers.

A heater must be installed at each high pressure well to prevent freezing of moisture contained in the gas.

The wet gas passes into a separator where it expands and drops its free liquids.

Water vapors are removed in a dehydrator, which contains materials that soak up the vapors like a sponge.

Nourishing Boxed Lunches Are Hard to Resist (See recipes below)

Lunch Box Magic

WHILE THE YOUNGSTERS struggle with readin', writin' and 'rithmetic, mother frequently has her problems with the lunch boxes which she must fix for the family that totes its own.

The lunch box preparation is a steady grind now that school has started, and it's a wonder that more women don't go into the doldrums about it more often. You have to supply nourishment plus food appeal to bring the family happy with their meals out of a box, so here are ideas aplenty.

If you have several lunches to prepare, have jars of filling ready. All lunch box equipment can be kept handy on a tray so that you don't have to scurry around for waxed paper or a knife while you try making sandwiches in the midst of breakfast preparation.

Leave butter or spread out the night before so that you can smooth it on immediately. Fruits can be washed, puddings made in advance, and relishes such as carrot and cucumber sticks and pickles can be wrapped in waxed paper ready to tuck in the box in the morning.

LYNN CHAMBERS' MENU

- Baked Lamb Loaf
- Broiled Peach Halves with Mint Jelly
- Baked Potatoes
- Spinach with Cheese Sauce
- Onipneal Bread or Muffins
- Baked Apples Beverage

Blend ingredients together thoroughly and store until ready for use

- Liver Spread
- 1/2 pound calves' liver
- 1 1/2 teaspoons salt
- 2 cups boiling water
- 8 slices cooked bacon
- 1/4 cup saored cream or salad dressing
- 2 tablespoons prepared mustard
- 2 tablespoons minced onion
- Dash of pepper

Simmer liver in salt and water until tender. Cool and put through fine blade on food chopper. Run bacon through chopper. Mix all ingredients, place in jars and chill until used.

HERE ARE OTHER well-liked fillings:

- Frizzled dried beef browned with onion in the skillet, then mixed with cream cheese.
- Peanut butter mixed with orange marmalade.
- Sliced cooked beef roast with chili butter, made by mixing softened butter with chili sauce to taste.
- Chopped ham mixed with mayonnaise and shredded pineapple, drained.
- Grated American cheese mixed with grated raw carrots, grated raw onion and mayonnaise.

USE THESE TRICKS for the lunch box when appetites fail, when there's an exam or some special event.

- Meat Pastries (Makes 4)**
- 1 cup pastry mix
- 1 cup ground leftover meat
- 1/4 cup tomato soup

Roll out pastry one-eighth inch thick. Cut into four squares. Place a mound of cooked meat on each square. Top with one tablespoon of tomato sauce. Fold pastry squares and pinch edges together. Bake in a hot (400 degree) oven about 20 minutes or until browned. These can be baked if you are making a hot bread in the morning. They are good even when cold and take the place of sandwiches.

- Lunch Box Eggs**
- 2 hard-cooked eggs
- 1 1/4 inch slice liver sausage
- 1 ounce cream cheese
- 1 tablespoon milk
- 1 teaspoon prepared mustard

Remove shells from eggs and cut in half lengthwise. Remove yolks and mash. Mash liver sausage, blend with cream cheese and milk and egg yolks. Add mustard and blend thoroughly. Refill whites and press eggs together.

Here are other sweets for packed lunches: gingerbread topped with lemon powdered sugar frosting; individual upside down cake made in a custard cup and left in the cup, maple sugar candy, popcorn balls, cookies or puddings.

Cream cheese mixed with pineapple or orange marmalade, spread on toast, is good when broiled until bubbly.

Canned or cooked tongue, sliced thin, can be spread with pickle relish and toasted.

Salmon and tuna fish salad mixtures make excellent toasted sandwiches. Season the fish salad with horseradish, mayonnaise and salt.

Paint Failures
Paint technologists estimate that uncontrolled moisture accounts for over 90 per cent of so-called paint failures. Such damage to paint is not due to failure of the paint to give any service which might properly be expected of it, but is due to excessive concentration of water. Conditions responsible for undue concentration of moisture may often be remedied by structural repairs and alterations. Sources of moisture include excessive humidification, leaks in roofs, down spouts and gutters, and stormy joined window head and siding butts.
