## Swing of SOUTHWEST FARM MARKETS

Curtailed marketings of livestock reversed price trends at southwest markets during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Hogs recovered some of their recent losses in gains of mainly \$1 at Kansas City, Wichita, Oklahoma City and Denver. Texas markets advanced even more, and remained strong Monday. Most good and choice medium weight butchers ranged from \$26 to \$26.75 at most of the markets, but Denver paid as high as \$27.50.

Most cattle sold 50 cents to \$1.50 higher for the week and Monday's markets continued steady to strong. Stockers and feeders shared in the strength. Most good and choice stocker steer calves changed hands at \$22 to \$25 at Fort Worth, while choice light lots reached \$26 to \$27 at Oklahoma City. Wichita sent light stocker steers and yearlings back to the country at \$19 to \$24.

Kansas stocker steer calves made \$30 at Kansas City. Denver held choice stocker steer calves above \$30.

Prices of young chickens fell 3 to 6 cents a pound last week. Prices to Arkansas growers dropped to mostly 30 cents for 3 pound birds. Fort Worth and Dallas paid 30 to 35 cents, and New Orleans around 36. A few turkeys went to market at 35 to 40 cents for toms and 40 to 45 for turkey hens in North Texas. Chicken and eggs continued to bring firm to strong prices in the southwest.

## Lions Club News

The program furnished by the Girls Choral Club of Hedley High School was enjoyed by all present at last week's meeting. These girls are mighty good and we should give them all the encouragement we can.

This week is directors meeting at the bank and Lions D. H. Cox and Alva Simmons have charge of next week's program. The meeting time is 7:30 p. m.

## Basketball News

The Hedley Lions Basketball team defeated the Clarendon, Independent team at the local gym last Thursday night by the score of 29 to 20. The Clarendon team kept the locals mighty busy for over three quarters of the game and the Lions only won out in the last few minutes of the game. This makes three wins against no losses for the local boys.

## Notice to the Public

All persons residing within the city limits of the city of Hedley and owning dogs are hereby notified that they must pay license and secure tags for their dogs on or before Nov. 1st. All dogs running at large not having tags will be killed.

## Darnell Buys Grocery Cotton Report

R. E. Darnell has purchased the Stone Bros. Grocery and Market from Bill, James and Emory Stone, and will operate it under the name of Darnell Food and Market. He will continue to carry a full line of groceries and meats, and will buy eggs, poultry, hides, etc.

He invites all old customers, as well as new ones, to call on him.

## Mrs. Clock Honored

Mrs. Mattie Clock was honored October 14 in the home of Mrs. J. C. Coffee, the occasion being her 82nd birthday.

Floral arrangements of autumn flowers decorated the party suite. The large birthday cake centering the dining table was white angel food with pink letters and flowers, green leaves and pink holders and white candles.

Games and visiting were enjoyed throughout the afternoon and the honoree and guests enjoyed opening and inspecting the beautiful selection of gifts. Birthday cake and ice cream were served to 35 guests.

Those who were present or sent gifts were Mesdames L. D. Hickley, Tom Bain, Cal Watkins, J. S. Beach, John Tate, Ellen Holland, Ray Moreman, Ida Yates, T. B. Downing, A. M. Saunders, Roland W. T. Merrell, Tom Tate, Bob Lester and Jonnie Edd Hodges of Dalhart, the hostess and the honoree.

Now is the time check up on your insurance. At present prices nearly everyone is under insured. For all kinds of insurance see Clifford Johnson at the bank.

## Uncle Sam Says

Once again we salute our Newspaper boys, honoring their duty and enterprise. Nearly 500,000 of these boys are carrying on that sense of duty and responsibility which brings the papers to our doors every day in the year. These nephews of mine are training for success, and a part of that training is in thrift. Last year, newboys enrolled in Newspaper Thrift Clubs invested \$2,000,000 in U. S. Savings Bonds. These bonds will pay them \$4 for every \$3 invested ten years hence. Every bond is guaranteed the safe investment for evermore.

WEEKLY NEWS ANALYSIS

Security Council Gets Berlin Issue, Inconclusive Meeting Stalls Action; Russia Proposes Big Four Parley

By Bill Schoentgen, WNU Staff Writer.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

DEBATE:

Inconclusive

For better or for worse the U. N. security council had become wedded to the problem of what to do about Berlin, but there was no honeymoon.

Russia had boycotted the security council debate, and although Andrei Vishinsky, Soviet delegate, attended the first meeting in body he remained monotonously aloof from the proceedings in spirit.

THAT FIRST session was not only inconclusive but downright dull. No one would have thought that the 11 men mulling over this world crisis in the Chailottal palace in Paris were engaged in deliberations of so momentous a nature that they might turn the balance for peace or war in the world.

While Vishinsky sat dourly and silently—playing the part of the vicarious witness to the hit—the American and French delegates read polite tirades against the manners and morals of Soviet motives and politics.

WHEN THE TWO western speakers were done, Juan A. Bramuglia of Argentina, acting president of the council, was forced simply to drop the whole business, temporarily at least, with a hollow thud.

After the French delegate had completed his review, Bramuglia waited expectantly for a time, then observed mildly that since he didn't seem to have any more speakers on the list the meeting would be recessed.

It appeared probable that the delegates would take considerable time for studying the charges of the U. S., Great Britain and France against Russia before meeting again. There was a possibility, too, that the security council might delay further formal meditation on the off chance that Russia might lift the Berlin blockade and the Big Four foreign ministers might take up the entire German question.

BIG FOUR:

More Talks?

Russia, whether the Kremlin admitted it or not, was dissatisfied with the way its pet Berlin situation was being handled. The Soviets wanted it out of the hands of the U. N. and in the hands of the Big Four foreign ministers.

EVEN WHILE the United Nations was deciding to discuss the issue, Soviet Foreign Minister V. M. Molotov was sending a note to the U. S., Britain and France urging that the four foreign ministers meet to consider both the Berlin crisis and the problem of Germany as a whole.

It was a peculiar development, inasmuch as it set the western nations to wondering how the Soviets could justify such a conference in view of their flagrant defection in the long, futile and disillusioning Moscow talks which had ended recently.

Molotov's note, however, claimed that the U. N. security council did not have the authority to deal either with the Berlin crisis or the overall subject of Germany.

REVIEWING the six weeks of negotiations in Moscow, the note said that the talks did not break down over a Russian demand for control of all air traffic in and out of Berlin, as the allies had contended.

All that Russia wanted, said Molotov, was some control over air transport to prevent black market money deals.

U. S. Ambassador Bedell Smith had agreed with that condition, Molotov insisted, and quoted him as saying: "It is quite understandable the Soviet government wishes to have certain guarantees against utilization of air transport for illegal currency deals or black market operations. Satisfactory guarantees of such kind could easily be secured."

IF SMITH'S statement is correct, Molotov reasoned, then the Soviet Union believes it is possible an agreement may be reached between the four powers on "a mutually satisfactory basis."

Anyway, Molotov continued righteously, he couldn't see what all the fuss was about. He claimed there was no blockade of Berlin, adding that the "defensive, protective measure" did not threaten international peace and security.

One More Alliance

Sen. Chan Gurney (R., S. D.) chairman of the senate armed services committee, has proposed a formal military alliance that would pledge the U. S. to fight if the nations of western Europe were to be attacked by Russia.

He announced that he would ask the next congress to approve his proposed alliance and to back it up with a new lend-lease help rearm w

Ex 'Vice' Twice

Former Vice President John Garner and President Harry Truman, also a former vice president, staged a cheery reunion when Mr. Truman came to Uvalde, Tex., in the course of his pre-election campaign tour. The two are old buddies from way back, and the visit didn't hurt the President any politically, either, because Cactus Jack is a mighty popular man in Texas.

INFLATION:

What Price Bread?

Ever since the price of wheat declined under the impetus of this year's bumper crop a good many inflation-harried Americans have been asking when the price of bread was going to take a corresponding drop.

The answer is that it probably won't, and the reason is that although the price of wheat is down the cost of the other basic bread ingredients are not.

BAKING INDUSTRY leaders, in a considerable ferment over recent charges that bread prices are deliberately being kept aloft, have said—and with some justification—that the present costs of bakery goods reflect "a remarkable achievement in resisting inflationary pressures."

They base this contention on bureau of labor statistics figures which show, among other things, that the baker today is paying \$2.53 for the four major ingredients of bread that cost him \$1.00 in 1939.

THAT FIGURES out to an increase of 153 per cent in the cost of raw materials; yet the American housewife is paying on the average only about 63 per cent more for her bread than during the 1935-39 base period used by the bureau of labor statistics in computing its cost-of-living index.

Last November, BLS figures show, flour reached a record of 164 per cent over the base period, and in December wheat of the type used for bread flour hit a record high of 214 per cent over the base. And although flour and wheat prices have slid somewhat recently, the flour used in bread now on the grocers' shelves was purchased by the baker several weeks ago when prices were up.

OF THE FOUR major bread ingredients—flour, sugar, shortening and milk—only sugar now has a lower BLS index than bread.

And still another factor which has the bread-makers beside themselves singing in the wilderness is the mounting costs of other elements involved in producing the staff of life—such as labor, machinery, distribution and packaging.

Any way you slice it, it's still inflation.

ASSISTANCE:

For President

Former President Herbert Hoover, who knows whereof he speaks when he dwells on the rigors of being the nation's chief executive, has a campaign under way now to add more members to the U. S. cabinet who could act as "operating vice presidents" assisting the president.

HOOPER IS chairman of the non-political government reorganization commission which will recommend additional cabinet members to act in that capacity.

He did not specify how many will be urged beyond the present nine-man cabinet, but members of his commission said the figure under consideration was three.

"Every president has recommended additions to the cabinet," said Hoover. "There are nearly 80 independent agencies of the government running around loose in addition to the nine cabinet departments."

Members of the commission have revealed that among the additional cabinet departments that have been considered—but not decided upon—is a social security department, including public health, public works and education. They are separate bureaus now.

THE REORGANIZATION commission, which is working on all angles of government reorganization, was appointed under an act of the last congress. President Truman appointed a third of the commission and the senate and house each named a third.

China Can Be Stored In This Wall Cabinet

MANY folks have requested a wall cabinet that could be used to display their prized china, silverware and small bric-a-brac. The Dutch Colonial style illustrated above is the answer.

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up night, swelling, puffiness under the eyes—feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is what's needed. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

**Captain of Industry**

Meet Butch—Pres., Treas., and Field Force of the One Man Odd Jobs Co., Uninc. Take a good look at him—for Butch is America.

Butch wants a bicycle. Lots of lawn and lemonade and baby-sitting lie between Butch and that bike, but we're betting on the boy. He has energy, vision, and our national habit of working hard for what he wants. He's American business—in miniature.

There are many names for Butch's philosophy. You can call it Free Enterprise, Opportunity, Democracy, or Capitalism, if you want.

But, whatever the name, America owes it much. For our most valuable natural resource lies in the ambition and initiative of Americans like Butch.

As great publications have grown from the dreams of young men with old handpresses—and great industries from the products of grubby little cellar workshops—the electric industry had small beginnings, too. Like our own company, a few men with a vision strung the first small lines. People with faith risked their savings. Better and better service, at lower and lower cost, created more and more jobs—and carried the benefits of electric living to more and more people.

Free enterprise and hard work will bring Butch and his bike together. They are what built America and the American way of life, which is the highest standard of living in the world. No nation on earth has found a satisfactory substitute for that combination.

From where I sit... by Joe Marsh

**I'm Glad We're "Different!"**

There's a lot of difference of opinion in our county on the best kind of pasture. Some say alfalfa mixed with brome grass others say mixed with oats or barley. But all agree that a mixture's better than a single crop.

From where I sit, so long as we never become intolerant of one another's different tastes so long as we live together with our differences, and even supplement them the way brome grass does alfalfa, then we're a mighty good crop!

I sometimes think people are the same way - and the strength of America is its mixture of so many different strains some from one country, some from another right down to little differences: like folks who have a taste for beer and those who prefer cider.

So neighbor enjoy your cider while I enjoy my beer! Vote for your candidate I'll stand by mine! But never let our differences divide us!

**1 1/2 Billion Dollar Road Block!**

**RAILROADS MUST OPERATE** around the clock every day and night of the year.

Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employees.

They want 48 hours pay for 40 hours work—in itself a 20% wage increase.

They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.

On top of all this they want an additional increase of 25¢ an hour for every employee!

**You'd Pay the Bill!**

Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employes an annual raise which would average \$1500 per employe!

The total cost of this would be no less than 1 1/2 billion dollars per year, which is more than twice the expected net income of the railroads this year.

You'd pay the bill, because if these increased costs are forced on the railroads,

they must have still further rate and fare increases.

**Demands Unreasonable**

These employes have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of 48¢ an hour, the Conductors and Trainmen recently settled their wage request for an increase of 10¢ an hour.

**Railroads Run for Everybody—Not Employes Alone**

The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. *Everybody who enters railroad employment knows this.*

**Strike Threat**

On September 15, 1948, the leaders of these 16 unions began taking a strike vote. *But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!*

Household Hints

A child's sprinkling can is a good size for watering house plants.

Milk containers made of waxed cardboard make a handy receptacle for bread crumbs after they are washed and thoroughly dried.

When recipes call for "frying out" salt pork or other fat, cut it in small pieces and heat it slowly in a heavy frying pan until the fat is extracted.

When putting new elastic in a garment, pin the end of the new to the worn elastic. Then as the worn elastic pulls out, the new elastic will pull in.

Fill cream puff or éclair shells with ice cream and serve with a tutti-frutti sauce made from cherries, bananas, oranges and pineapple.

In the use of self-sealing lids for canning, the screw band must be screwed down tight before processing. By tight, it means with the full force of the hand.

Parsley is easiest cut with a scissors. Fold over several of the sprays of one stalk and hold between the thumb and other fingers of the left hand and cut fine with the scissors.

Teach Youngsters How To Enjoy Water First

You can't expect your youngster to enjoy swimming unless he learns to enjoy the water first.

Try not to let older children tease baby and frighten him when he is near the water. When he is about five years old, take him to a competent instructor who will teach him so that he will gain confidence as he progresses.

LEWISIAN: Anti-Truman

It was an accomplished fact that sooner or later John L. Lewis would have his say about the 1948 election, feeling as he obviously does that no political campaign would be complete without his having expressed an opinion on it.

At the United Mine Workers' 40th convention in Cincinnati the UMW chief shoved his foot in Mr. Truman's campaign machinery by turning a sour and sarcastic eye on the President's bid for re-election.

While the delegates cheered and applauded his criticisms, Lewis declared that:

"Harry Truman is totally unfit for the position. His principles are elastic. He is careless with the truth. He has no special knowledge of anything. He is a malignant, scheming sort of individual who is dangerous not only to the United Mine Workers but dangerous to the United States of America."

PROCEEDING oratorically in this vituperative vein, Lewis devoted 25 of the 50 minutes he took for his speech to derogating the President in general and specific terms.

He charged that Mr. Truman vetoed the Taft-Hartley labor law only "for the record of his campaign." He said the President prosecuted the mine workers and had them fined twice "because he was too cowardly to send me to jail."

"I WAS WISHING he would put me in jail," Lewis went on reminiscently, "which is what a white man would have done rather than rob you."

John L. Lewis was saving his opinions on Gov. Thomas E. Dewey, the Republican candidate, for a later phase of the UMW convention Lewis doesn't especially like Dewey, either.

Statesman

Cordell Hall, former secretary of state, observed his 77th birthday anniversary quietly at Bethesda naval hospital where he has been a patient for the last two years since his retirement from the high public office. Doctors told him he would be able to leave the hospital soon.

URANIUM: New Find

Practically nobody, except the people who look for it and work with it, knows much about uranium—the raw material of splitting atoms—but the world-wide search for that metal is constant, often frenetic and of insatiable importance.

CLAIMS THAT "another uranium deposit has been discovered" are becoming more and more frequent. And more often than not, the discovery flops completely. Or if it does turn out to be a possible source of supply the whole thing is immediately wrapped in atomic secrecy and the world hears nothing more about it.

The latest of these discoveries, announced recently by Columbia university, might turn out to be productive enough to be of vast significance to the world.

SCIENTISTS have unearthed a new, green mineral which was found clinging to mine walls in the Belgian Congo. It is a relative of the yellow carnotite, from which the U. S. gets its domestic uranium in the Rocky mountains. Carnotite is one of the two best sources of the atomic element, uranium.

Whether the green mineral is plentiful is not yet known. It now is being analyzed at Columbia university. Like the yellow carnotite, it contains about 60 per cent uranium.

If the new mineral proves a good uranium source, the discovery might be the most important of its kinds since the atomic bomb first burst upon the world. More than 100 minerals containing uranium are known, but the element has been too difficult to extract.

FOOD, COAL: Root of Evil

Two shortages, food and coal, are responsible for most of the discomfort and quite a few of the major troubles in the world, a report by the United Nations economic affairs department says.

Scarcity of basic foods and coal have lamed reconstruction efforts, provided an impetus to inflation and generally upset the world's economy by reducing human strength to work and produce.

To Relieve Your Cough, Mix This Recipe, at Home

You'll be surprised how quickly and easily you can relieve coughs due to colds, when you try this splendid recipe. It gives you about four times as much cough medicine for your money, and you'll find it truly wonderful. Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking needed—it's no trouble at all. (Or you can use corn syrup or liquid honey, instead of sugar syrup.) Then put 2 1/2 ounces of Pinex (obtained from any druggist) into a pint bottle, and fill up with your syrup. This makes a full pint of medicine that will please you by its quick action. It never spoils, and tastes fine.

This simple mixture takes right hold of a cough. For real results, you've never seen anything better. It loosens the phlegm, soothes the irritated membranes, and eases the soreness.

Pinex is a special compound of proven ingredients, in concentrated form, well-known for its quick action in coughs and bronchial irritations. Money refunded if it doesn't please you in every way.
