Lions Club News

Next week is regular meeting night. The time is 7:30 and the place is the school lunch room. Come out for a good program and a good dinner.

Work on the Lion Hall is coming along slow but sure. If you want to burry up the work come down and pitch in.

W. S. C. S.

The ladies of the W. S. C. S. met at the Methodist Church on March 4th. After the opening song Mrs. C. L. Johnson gave a report on her trip to the annual Conference at Pampa. This was very impressive to all. Later a box was packed to send to Japan.

Delicious refreshments were served to ten members. The meeting adjourned after the closing prayer by Miss Alma Hall.

Birthday Party

Mrs. Vergil McPherson entertained Saturday afternoon, April 2nd, with a party honoring her daughter Carolyn Sue on her tenth birthday.

A number of amusing games were played. Then the high light of the party for the honoree was opening of the many pretty gifts and beautiful cake.

Refreshments of angel food cake, ice cream and punch were served to Billy Wiggins, Rodney Hargrove, Bobby Beach, Troy Snodgrass, Bud and Charlene Johnson, Jane Mosley, Ruby Harris, Barbara Johnson, Nancy Hunsucker, Betty Stout, Beth Edens, LuAnne Davis, Virginia, Edith and Ann Ruth Messer, Waunita and Glenda Anderson, and Carolyn Sue and Kathleen McPherson.
Glenda Hansard, Benny Les ey, Jessie Lynn Stanley from Amarillo and Winfred Gene McCracken from Childress sent gifts.

Brief visitors in Hedley Sunday were Mr. and Mrs. Harrison Cope and David Stotts of Dalhart.

Mrs. Laura Cawthon of Epps, La. is visiting relatives and friends here.

For Sale—1935 V-8, cheap. See Don Yates.

Curtain Fund

The Senior Class of 1949 would like to set a precedent of leaving something behind to our school that would benefit those that follow.

We are sponsoring a "Stunt Night" Tuesday, May 3. All 12 grades in school will be on the program with a stunt. Admission will be 20¢ for children and 35¢ for adults. There will be a box supper half way of the stage program.

A new curtain for the high school stage will cost about \$500 and we realize that this amount can not be raised at this program. We are soliciting contributions from everyone who wishes to give. Each donation will be made directly to the Curtain Fund at the Security State Bank.

Each week all donations will be published so that you may keep up with it. We are not asking you to buy a chance on something just giving you a part in our school.

F. W. McFarland

T. O. McFarland received a telegram Thursday morning that his brother, F. W. McFarland, had passed away Wednesday at Flint. He was nearly 71 years of age and was a retired rural mail carrier. He had been in poor health for several years.

Funeral services will be held Friday afternoon at Flint, with burial in the cemetery there.

Baseball News

The Hedley High School Owls will play the Wheeler high school baseball team here Tuesday evening at 7 p. m. This is the first home game for the Owls and they are going to try for another victory. Last week with Robby Baker on the mound they defeated Keltos there by the score of 5 to 1.

The rain prevented last Sunday's workout, but the Lions plan to play a practice game with Goldston here next Sunday afternoon. Sunday, the 17th, they will play an exhibition game with Groom here and go to Groom the following Sunday. The league opening game will be here with McLean, Sunday, May 1st.

Manager Reid and Coach Perry Seage are well satisfied with what few workouts the boys have been able to get in. It looks like they are going to win a lot of games this year.

They plan to get up a large section of the fence this week and have the park completed by the opening game and probably be ready for the school teams opening game next Tuesday, April 12th with Wheeler here.

Miss Frances Bray, daughter of Mr. and Mrs. W. B. Bray of Dumas, became the bride of Granville L. Ivey, son of Mr. and Mrs. W. H. Ivey of Hedley in a double ring ceremony March 26 at the home of Rev Sam Hanson, Baptist minister at Dalhart.

The bride was dressed in powder blue crepe with black accessories and a corsage of pink carnations. June Vandiver, her bridal attendant, wore a navy blue crepe dress with black accessories. The best man was William G. Ivey, brother of the bridegroom.

Mr. Ivey attended school at Hedley and Quail, graduating from Quail high school in 1942. He was in service 3 years and 2 months with the U. S. Navy in the Pacific. He is now employed at the Cactus plant at Dumas.

Attractive Bird House is Easy to Construct

IF YOU want to turn your spare time into a useful and productive hobby, make up this attractive birdhouse. You'll have fun building it and be agreeably surprised to see what a professional looking job you can do using only hand tools.

Since each component part of the house is represented full size on the printed paper pattern, all the mystery usually associated with woodwork is dispelled. Merely cut each piece of wood according to the size and size of the pattern, then fasten the parts together in exact position indicated.

WEEKLY NEWS ANALYSIS Truman Ignores Program Setback, Insists Congress Is Cooperating; Approval Seen for Vets' Pension

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

PRESIDENCY: 'Say It Isn't So'

Was President Truman emulating the ostrich with the old "head in the sand" technique, or was he naive enough to believe what he was saying?

This seemed a fair question when Mr. Truman, despite multiple setbacks in congress for his legislative program, declared he and the congress were cooperating and that only "troublemakers" talked of bad feelings between them.

MR. TRUMAN had suffered three major setbacks in attempting to have his campaign pledges enacted into law. He had been blocked on rent controls, appointment of Mon C. Waigren as a key figure in the national defense setup, and civil rights proposals.

But, the President shook off these reverses by ignoring them in a speech to the United States conference of mayors in Washington.

Instead, he told the mayors: "Of course I differ with the congress on some points and where these differences are important I shall continue to urge the course I think is right."

"BUT, BASICALLY, the congress and the President are working together and will continue to work together for the good of the whole country. We are going to agree on a lot more things than we disagree on."

Many observers took the view that the President's remarks indicated adoption of new strategy in dealing with congress—that an attitude of "soft words" might be held more advisable than angry denunciations of the lawmakers.

PENSIONS: Who Pays?

It was beginning to appear that a veteran's pension bill in some form would be enacted by the 81st congress. Prodded by Rep. John Rankin (D., Miss.), of the house veteran's affairs committee, the measure under consideration would give veterans of World Wars I and II automatic pensions of \$90 a month at age 65. Budget bureau experts contend this would cost the nation upwards of 125 billion dollars over the next 50 years.

WHO WOULD PAY the cost of the pensions? American taxpayers, of course, and among these would be all the veterans who might some day receive the bonus. As one young war veteran put it, "By the time I reached 65, I would have gone broke trying to pay taxes to grant me a pension."

That's the viewpoint of some veterans. There are many others who honestly feel they are entitled to a pension and would readily accept an "installment" tax payment period between their present age and age 65 in order to get the pension.

SOME OPPONENTS of the pension measure favored restricting pensions only to veterans of World War I, but it was obvious no such proposal as this would be enacted. There were too many World War II veterans who would oppose that simply on the principle of discrimination, no matter how they might feel basically about the pension proposal.

On the first test of the measure, it was almost lost, but swift parliamentary maneuvering saved it from being returned to committee where it might have died a natural death.

DRIFT: Easing Off

Military draft eligibles could relax — Maj. Gen. John E. Dahlquist, army personnel chief, said no more men will be inducted into the army before July, 1950; and that's when the present peacetime draft act expires.

SO, IT SEEMED that the peacetime draft was virtually over, except for the possibility of enactment of a new act or extension by congress of the present law.

However, the national defense establishment hastened to state that General Dahlquist was giving only his opinion — that no draft policy has been laid down, and that no one knows what the future holds.

IT WAS REGARDED as significant that there have been no inductions under the present law since the end of January because voluntary enlistments have filled quotas, and army officials have said that budget reductions forced them to cut their proposed strength.

INSIDE 'SHORT' STORY

'Boss' Censored President's Swim Photos

Whatever else the incident of the censorship of pictures showing Harry S. Truman swimming in Florida may have done, it put him solid with most American males whose choice of pastime is so frequently influenced by the distaff side at home.

For, at least, the secret of the confiscated photographs was out — and the gentleman who broke

Explains Pact

Dean Acheson, secretary of state, explains north Atlantic pact at special press conference at the state department.

PACT: Reds Burn

The Kremlin and its satellites were literally burned up over the north Atlantic treaty alliance.

To the Russians the pact was a "deceptive instrument of war aimed against them."

THE CONTROLLED Russian press and radio joined in the clamor, branding the pact as the work of war-mongers trying to wreck the United Nations.

The general theme was that the alliance was the "main weapon of the aggressive policy of the ruling circles of the United States, Britain and France.

The Russian stew was understandable. By this diplomatic coup western powers had managed to abate somewhat the legend of Soviet invincibility among the smaller countries and at the same time to serve notice on the Russians that any further violence or aggression within the pact area would mean war.

THE TERMS OF the pact do not actually say that: but they say something which is the same. That is that pact nations shall construe an attack on any member as an attack upon them all, and even the dumbest Muscovite could understand what that meant.

The treaty, however, was not without its cries at home. John Foster Dulles, slated to be secretary of state had Dewey nabbed the presidency, was anything but enthusiastic about the alliance. In fact, Dulles observations on the subject were such as to raise the ire of Dean Acheson, secretary of state, who charged that Dulles was put out because he, Dulles, couldn't get over Dewey's defeat and how he might have been secretary of state himself but for that.

RENT CURBS: Outlook Dim

Overriding administration recommendations, the senate voted to let town and city governments abolish rent controls in their areas—if the state governors approve.

THERE WERE MANY who would discern instantly the political implication inherent in such a move. In states where governors are permitted under law to succeed themselves—and even in states which do not permit this—governors are usually concerned with re-election or with naming their successors. Abolition of rent control power could be used as a potent weapon with which to beat recalcitrant voters into line.

As anyone familiar with legislative processes knows, organizations are always the most powerful and effective lobbyists. Landlords have a national organization which already has been vociferously vocal at Washington. There has been no organization of renters and tenants, not even at the state or county level. Those who are heard in law-making assemblies are those who are organized and who know how to obtain hearings. And these organizations usually manage to do rather well for themselves.

IN WHATEVER FORM the bill finally emerges from the senate, it must go to a conference committee in order to iron out differences between house and senate versions.

States righters would herald the local option features of the control bill with elation and landlord groups would find it easier to attempt legislative pressure in their own back yards.

MEMORY: Ours Is Short

To many who had experienced the horrors of war and who had met German foemen in battle, American policy in Germany was almost maddening. Official approval of selection of a group of ex-Nazis to manage the Ruhr—Germany's greatest war-making potential—was bringing cries of protest from all over the nation.

The grasp of the ex-Hitlerites was reaching farther and farther into Germany's vital affairs and the optimism of the group that their desires would be fulfilled was significant.

Latest manifestation of the trend was a statement by Hans Thomsen, who was the Nazis' last charge d'affaires in Washington, that he and other veteran Hitler diplomats expected to resume their careers in the "new Germany."

There was no lack of cockiness in Thomsen's stand. Said he: "The new German government cannot get along without the old Wilhelmstrasse men—who know their business." He is now in the banking business in Hamburg.

The old pattern was becoming increasingly clear. Smart diplomats, seeking a rampart against communism, were using this same objective to re-create Germany as a European power—a buffer against the Reds.

SWALLOWS: Unfailing Legend

The old, old legend was unfailing. Always the swallows had come back to Capistrano, and this time they came again.

THE LEGEND was fulfilled to the day. Through the long, lazy centuries that the birds have always been coming back to San Juan Capistrano, their return has always been on the same day each year—St. Joseph's day.

And this year there was no deviation. On St. Joseph's day the birds came sweeping back at dawn to fly into their homes under the eaves of the historic old mission.

"They do not come in huge swarms as some reports have it," an old padre said. "Instead they arrive in small contingents, 50 to 75 at a time."

Father Hutchinson, pastor, said that the birds usually leave in July after their young can fly. They travel to nearby canyons to feed where insects are plentiful, he indicated.

BOGEY MAN: Solons Defiant

Figuratively thumping its collective nose at the "big man" the United States senate by a vote of 50 to 41 confirmed the appointment of Dr. James Boyd as director of the federal bureau of mines.

THE "BIG MAN" was John L. Lewis, leader of the United Mine Workers of America, and he wanted no part of Dr. Boyd in the federal mine regulation setup.

The senate action came while Lewis had the pressure on. Lewis' miners were in the second week of a 14-day shutdown ordered by Lewis who termed the stoppage a "memorial" to miners killed and injured last year.

Chief speculation concerned the import of the senate action. Did it mean that government, finally, was ready to clamp down on the dictatorial Lewis and abolish his power as a continuing threat to American industry?

It could mean that, if Lewis' mine stoppage resulted in a reversal of labor sentiment among some members of congress and a really "get-tough" labor law were to be enacted.

What Next?

Coal operators and coal consumers were wondering what would be the next move in John L. Lewis' campaign strategy. Lewis, above, had called the miners out in a two-week stoppage which he described as a "memorial" to miners killed and hurt in 1948.

Burglar Irked

In Champaign, Ill., Carl Fletcher, 23, was so irked at finding nothing worth stealing after housebreaking that he called police and reported his own burglary.

Fletcher broke into a filling station, then telephoned the sheriff and police to "come get" him. He waited for them and unlocked the door to let them in. "I just got mad," he said, "at finding nothing worth taking."

DDT Increases Yield Of Clover Seed

William Meinholz of Dane county, Wisconsin, increased his yield of Ladino seed by one-third when he dusted it with 40 pounds of 5 per cent DDT per acre. Meinholz reports dusting gave better results than spraying (one pound DDT in 100 gallons of water per acre) while Henry Perry, Jefferson county, reported an increased seed yield of 76 per cent in red clover with the use of the spray.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not get as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Household Hints

Keep electric mixers, toasters, automatic juicers, etc., in a handy ready-to-use place. Don't hide them on the bottom shelf.

Rinse tea towels after each dishwashing "detail"; then they won't pile up and present such a large item on wash day.

When washing chenille or sandwick bedspreads, hang spread over line right side in so that the tufts rub against one another in drying — fluffing themselves as they dry.

When one pound of brick butter is cut and wrapped in four lengthwise parts, each part equals one-half cup; one inch of each part equals two tablespoons.

Lace frills can be dry cleaned at home with corn starch. Place lace on a clean, dry turkish towel and dust with a liberal amount of dry corn starch. Work corn starch gently through lace several times, then shake lace to remove starch; lace will be clean and fresh looking.

A perforated cap on a cork which will fit into any soft drink bottle makes an ideal device for sprinkling clothes.

A very thin starch (one tablespoon to each quart of water) will bring back that "new, pretty look" to your favorite rayon blouse.

New Test to Keep Farmers on Toes

A new test for detecting weevil infestation in grain has been developed by J. C. Frankenfeld, USDA entomologist at Manhattan, Kansas, who discovered that small red dots appeared where weevils had laid eggs in the kernels if grain samples were soaked in a dye containing acid fushin; the dots do not appear on grain which is free from infestation. Using this new method, all grain brought for milling purposes can be tested for weevil infestation on-the-spot, and docked in price accordingly — likewise, the wise farmer will make sure his grain is safe.

Kidneys Must Work Well—

For You To Feel Well
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.
If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.
Burning, stinging or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling.
Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

These are the homes

These are the people

THESE are the people who own your electric light and power company. Chances are you are one of this group, too.

They represent a cross-section of America—housewives, doctors, teachers—industrial workers, craftsmen, farmers—mechanics and milkmen. Yes, people from all walks of life have put their savings into companies like ours. They're direct owners.

But there are countless indirect owners, too—many who don't know they have a stake in the electric industry. They're people with life insurance policies and savings accounts. When banks and insurance companies accept your money, they must invest it wisely and productively. And because business-managed electric companies have a long record of successful service, much of that money is invested in utility securities.

So, you see, the electric industry is owned by the people it serves.

Would License Owners Instead of the Dogs

Licensing of dog-owners instead of dogs as a means of eliminating many so-called dog problems is urged by Harry Miller, Director, Gaines Dog Research Center, New York City.

The average pet is pretty much what its owner makes him, Mr. Miller says. Therefore, licensing the dog-owner would place responsibility where it properly belongs. Prior to licensing, the dog-owner would be qualified as to his ability to provide the dog with a good home, as well as the exercise, training, etc., the dog requires. Only through some such new system of licensing can most of the present-day dog difficulties be done away with, and more useful happier lives for pets assured, he says.

The Gaines Dog Research Center reports a growing sentiment in many sections of the country for use of present dog license fees in a manner directly beneficial to the dog. Considerable resentment is being expressed in some communities against the practice of using dog tax funds for building and maintenance of highways and other general non-dog purposes never anticipated by those who put dog licenses on the statute books, it is stated.

Aims for "Every Dog a Gentleman"

Life with Pido should yield added joys for many thousands of dog-owners as the result of publication by the Gaines Dog Research Center, 230 Park Avenue, New York 17, N. Y., of a free booklet called "Every Dog a Gentleman."

The booklet, issued as part of the "canine courtesy" movement fostered by the Center, essentially is a national directory of classes and clubs offering dog obedience training. It is intended primarily for those dog-owners who for any reason require help in the training of their pet. The list covers 143 clubs and classes in 123 communities in 31 states, and in each case gives the name and address of the person to be contacted. For dog-owners who live in communities where there is no active training group, or who prefer to do their own training, the Center has a list of recommended books on dog training which is also available without cost.

In a foreword to "Every Dog a Gentleman," Harry Miller, director of the Center, attempts to clear up some common misunderstandings about dog obedience training. "The belief that discipline is punishment and may break a dog's spirit is a mistaken one," he states. "Most dogs actually enjoy their training sessions and take pride in going through the lessons they have learned. The impression that obedience work is a 'bag of tricks' is also wrong. Obedience training makes it possible for the owner to control his dog at all times, but it does not make a dog a circus performer. Nor is it necessary for the owner to have any special talent or genius in order to teach a dog the rudiments of good conduct. Patience and commonsense are required on the part of the owner, but under the direction of an experienced trainer in charge of a class, the correct methods are simple to learn and can be easily adapted to suit the individual dog."

DAVIS HOTEL DALLAS, TEXAS

Things About New York

The most orb-filling view in The Big Town is the Empire State bldg. It is built to accommodate 25,000 tenants. (More than the population of many communities.) . . . Most tourists go right to its top—originally constructed as a mooring mast for passing dirigibles. It is never used as such. It is the coldest spot in town . . . Though Times Square (42nd Street and Broadway) is in the heart of the City of Skyscrapers there isn't one skyscraper there . . . The Times edifice and the Paramount bldg., are pygmies compared to those in lower Manhattan—the nearest tall building uptown—the Chrysler bldg.—several blocks east.

There are enough regular theatregoers in the Metropolitan area to keep a show (that attracts good notices) running for 40 weeks . . . Approximately 30,000 of them go to see all the shows religiously . . . The best photos of Broadway are usually taken on drizzly nights. The glow-by-glow description afforded by the rain's reflections heightens The Big Stem's dazzle . . . New Yorkers spend about \$500,000 a year on phone calls just to find out what time it is.

Those impressive police wagons which race to emergency calls cost more than \$21,000 each. They are crowded with gim-cracks and doodads to aid citizens in distress . . . We have more than 100 well-equipped hospitals, too. And that's not enough . . . The most turbulent hospital is The Harlem, where six ambulances are kept busy in New York's jungles. There at so many "cuttings," a reporter was told not to phone them in. It isn't news, any more.

Our town has 120 pawn shops. In case you're broke . . . There are 35 restaurants in the block between 6th and 7th Avenues on 49th Street. They range from a walk-up India dinery to a massive chop-house operated by Eisenhower's one-time mess Sgt. . . . "Sloppy Looey's" is in the heart of the Fish Market on South St. It is said to be one of the finest seafood spots on seven continents . . . We have one restaurant on the lower East Side (been in business 30 years) which serves only one meal a week—Sunday dinner . . . Local hotels list as their worst offenders—college girls in groups. When they check out—their rooms resemble the aftermath of a cyclone.

That gallery of paintings on Lindy's righthand wall is valued at \$25,000. Before he purchases them he always consults his personal art connoisseur, Ernest Roehle, one of his writers.

There is a ritzy candy store on upper 5th Avenue, which retails its bonbons at only \$80 per box. (The cost of the fancy box is the reason) . . . Toy shops on the same avenue have "toys" that cost you more than the real thing from which they were copied into playthings . . . Contrary to public opinion, unhappy love affairs account for the fewest number of suicides in Our Burg. The reason you think so is that they make the most dramatic headlines . . . The N. Y. Times has the largest city-room—one block long—from 43rd to 44th. It is so big editors summon reporters v i a microphones.

Another ruling in Our Village demands that cab-drivers must get out and inspect the cab to see if the fare left anything—and if so—to report it to the nearest precinct house . . . The oldest apartment house is on the north corner at 72nd and Central Park West.

Across the way is the Majestic Apartments (once a hotel), where O. O. McIntyre, the columnist, started his colyum. He was the press agent there—and sent his colyum to papers around the land free—just to get the hotel name in print . . . One swank apartment house at 87th near Madison has more maintenance men than tenants.

If you want to wear your shoes out, you can find quarters in Our Town for as low as \$7 per month . . . But if you want a suite at the Waldorf-Astoria (in the Towers there) it'll cost yez only \$28,000 . . . Most New Yorkers dial the wrong number (about 4 million wrong ones yearly) before 10 ayem. When they are still sleepy, apparently . . . Some sections of the town still have the Gay 90's flavor . . . On West Street—near the Hudson River—there are horse-troughs on every block. We have about 17,000 nags, even with all those motor trucks . . . It is possible to walk from 34th to 42nd Street without traveling on the streets. Via connecting subway underpass . . . Ice Cream, Cake Make Acceptable Desserts For Nearly Every Meal

THERE'S NOTHING FANCY about ice cream and cake, but they make a wonderful dessert for any occasion, plain or fancy. Then, too, there are few who can resist turning down a heaping bowl of creamy ice cream and a slice of feather-like cake, so you have no worry about pleasing family or guests.

For youngsters who have difficulty getting their daily quota of milk and other dairy foods, ice cream is the perfect answer. The same is true, too, of adults who cannot drink their pint of milk.

Ice cream is a highly nutritious dairy food that furnishes energy as well as minerals such as calcium and phosphorus. It also gives significant amounts of vitamins A and B2 and quality protein, all of which are needed for proper growth, strong muscles, bones and teeth.

You don't need to do anything special to make a festive dessert out of ice cream. Simply pile it in a glass bowl for easy serving

A large serving bowl of ice cream surrounded with luscious fudge cup cakes topped with swirls of chocolate frosting and pecan halves make a gala dessert for a festive occasion. Pass this with assorted sauces or jams and jellies for sundaes.

and to get the full benefit of its luscious appearance. Around the bowl you may have bought or homemade cupcakes or several bowls of assorted jellies, jams or sauces for make-your-own sundaes.

HERE ARE SOME delicious cupcakes which you may want to serve:

- Fudge Cupcakes (Makes 12 cakes)**
- 2 squares unsweetened chocolate
 - 1/4 cup sugar
 - 2 tablespoons milk
 - 1 teaspoon vanilla
 - 1/4 cup butter
 - 1/2 cup sugar
 - 1 egg
 - 1 1/2 cups sifted cake flour
 - 1 1/2 teaspoon baking powder
 - 1/4 teaspoon baking soda
 - 1/4 teaspoon salt

Melt chocolate over hot water, add one-fourth cup sugar and two tablespoons milk; stir until very smooth. Add vanilla and remove from heat.

Work butter and sugar to a soft cream, add egg and beat hard until blended. Stir in milk, then the flour mixed and sifted with the other dry ingredients. When mixed, stir in chocolate mixture and pour into buttered cupcake pans. Bake in a moderate (375°) oven for about 25 minutes. Cool and cover tops with:

- Annie-Raisin Sauce (For Ice Cream)**
- 2 cups sweetened, strained apple sauce
 - 1/2 teaspoon cinnamon
 - 1/2 cup seedless raisins
 - 1 tablespoon orange marmalade
- Mix apple sauce with all other ingredients and heat slowly to the boiling point. Simmer 10 minutes over a slow fire or until raisins are plump. Cool before serving.
- Coffee Cream Sauce (For Ice Cream)**
- 1 cup light brown sugar
 - 1 tablespoon instant powdered coffee

LYNN SAYS: Make the Most Of your Meats

When you roast beef or lamb, cut small slits in the fat of the slivers of garlic. This adds a lot of flavor to the meat that many like. Remove garlic before serving. Honey mixed with orange juice and grated orange rind may be poured over the scored fat of ham for interesting flavor.

Sautéed mushrooms may be added to beef gravy to provide interesting flavor.

- LYNN CHAMBER'S MENU**
- Baked Fish Fillets, Tomato Sauce
 - Duttered Asparagus
 - Baked Potatoes
 - Cole Slaw-Pineapple Salad
 - *Fudge Cupcakes with Ice Cream
 - Beverage
 - *Recipe Given

- 1/4 teaspoon salt
 - 2 tablespoons butter
 - 1 teaspoon cornstarch
 - 1/2 cup coffee cream
- Mix sugar with cornstarch, coffee and salt. Add butter and cream and stir over a slow fire until boiling. Boil for one minute, remove from fire and cool slightly. Add one teaspoon vanilla. Serve cold.

Another delicious way to serve ice cream and cake is to arrange two slices of spice cake for a serving. Place a portion of ice cream in the center and top with fruit sauce, an apple-raisin sauce, as given below, or crushed pineapple, pineapple and ginger or mince-meat sauce.

- Chocolate Frosting**
- 2 squares unsweetened chocolate, melted
 - 2 tablespoons hot milk
 - 1 1/2 cups sifted confectioners' sugar (about)
 - 1 teaspoon vanilla
 - pecan nut meats

Melt chocolate over hot water, add hot milk, sugar and vanilla to make a thick frosting. Beat vigorously to make it creamy and more sugar, if necessary, to make frosting spread easily, without running.

Coffee flavon goes beautifully with vanilla ice cream. If you like a sauce, here's just the one:

HERE ARE SOME excellent uses for leftover cake that are served with ice cream. A bit of dressing makes them glamorous desserts.

- Quick Alaskas (Serves 6)**
- 6 leftover cup cakes
 - 3 egg whites
 - 6 tablespoons granulated sugar
 - 1 teaspoon lemon juice
 - 1 quart vanilla ice cream
- Cut the centers from the cakes, leaving a wide center to hold the ice cream. Save the cake centers for another dessert. Beat the egg whites until stiff enough to hold peaks. Fold in sugar, one table-

spoon at a time, then lemon juice. Just before serving, place the cakes on a bread board, fill centers with ice cream and cover the ice cream and all the outside of the cake with a thick layer of meringue. Bake in a moderate (375°) oven for five minutes and serve immediately.

- Ice Cream Trifle**
- 3 cups crumbled spice, pound or sponge cake
 - 1 cup orange juice
 - 1 cup chilled pineapple juice
 - Ice cream
 - 1/2 cup chopped nuts

Place cake crumbs in a large serving bowl and pour mixed fruit juices over them. Let stand for at least one-half hour. Fill bowl with small scoops of ice cream, then sprinkle with chopped nuts.

Leftover beef, like lamb may be curried and served on hot, fluffy rice.

If hamburgers tend to look skimpy, place a thick slice of cheese on them before broiling.

Add drained horseradish to medium white sauce if you want to bring out delicious beef flavor in a boiled cut of the meat.

Mincéd scallions and parsley may be added to melted butter to bring out the full flavor of chicken, steaks or chops, which have broiled.

Plenty of Room For a Subdivision

Conceivably, a man could build a house and have his bedroom in New Mexico, his bathroom in Arizona, his kitchen in Colorado, and his living room in Utah.

The only drawback to such a plan is the fact that this would-be site—the common meeting point of Utah, Colorado, Arizona, and New Mexico—is quite inaccessible to the ordinary traveler since it is deep in Indian territory, miles from human inhabitants, and used for winter grazing land.

Surveyed by a surveyor named E. N. Darling in 1868, the four-state boundary is at the intersection of the 37th parallel of north latitude and the 109th meridian of west longitude.

FIRST AID to the AILING HOUSE

by Roger C. Whitman

Question: My new plastic table cloth has made the ends of a breakfast table sticky. How can this be removed from a varnished birch finish and not ruin the finish?

Answer: Try wiping the sticky places very lightly with benzine, being careful not to press hard on the finish. Be careful of fire, and close the door leading to the kitchen. If the table is in the kitchen, do not work there. If the benzine dulls the finish, apply a thin coat of paste wax, let it dry and then polish with a soft cloth.

Question: Can anything be done to stop the radio interference caused by our oil furnace? Some say to ground the furnace. Our furnace is on the main floor as we have no basement.

Answer: Radio interference from oil burners, motors and other electrical equipment can be eliminated, but this calls for the service of an expert electrician or radio serviceman. The manufacturer of your oil burner might be able to take care of the nuisance.
