

# The Hedley Informer

VOL. 39

HEDLEY, DONLEY COUNTY, TEXAS, FRIDAY, JUNE 7, 1949

NO. 32

## Lions Club News

At next week's meeting the Lions will elect officers and directors for the new year. Those elected will take office the first meeting in July.

Directors meeting will be held this week. The meeting time for all meetings is 8 p. m.

Let's not forget the Lions annual picnic that will be held at the Memphis City Park Thursday June 30th. Bring a full basket and come early.

There will be working at the Lions Den Friday, Monday, Tuesday and Wednesday nights to get the hall ready for the next meeting, June 23. All members come, those who can't come, send a hand.

## That's Right!

I will move dead horses or cows free of charge. Just call me, line 32, 4 rings; fast service, usually from one to two hours.

Thanks,  
W. P. (Red) Doherty

## O. E. S. Tea

Mesdames Barney Johnson and Malcolm Glass, retiring Worthy Matron and Associate Matron of the Hedley Chapter O. E. S., were hostesses to the members of the order, honoring the officers of the past year, at a formal tea in the home of Mrs. Johnson, Friday evening, June 3.

The guests were met at the door by Mrs. Johnson and directed to the register, which was presided over by Marjorie Kent. After registering the guests were led into the dining room where tea was served by Mrs. Glass, assisted by Mesdames Story and Simmons.

The attractive tea table was laid with a lace cloth and centered with a beautiful crystal punch bowl around which were laid lovely spring flowers, tall tapers were burning on each side. Star shaped ice in the colors of the five points of the order added to the attractiveness of the table. Spring flowers in pastel colors throughout the house lent an added note of cheer and color to the occasion.

During the tea hour appropriate recorded music was rendered by Barbara Johnson.

The members later went to the Star Hall for a regular meeting of Chapter. After an impressive memorial service in honor of the deceased member of the Chapter of the year was held, the officers for the ensuing year were installed. Mr. and Mrs. Carl Morris were installed as Worthy Matron and Worthy Patron. At the conclusion Mrs. Simmons presented the retiring matron with a pin in appreciation for her year of service to the Chapter. A social hour again was enjoyed by all present.

## Observes Birthday

Mrs. Gertrude Adamson celebrated her eighty-second birthday June 12th.

The lace covered table was decorated with a vase of pink roses and red carnations at each end. In the center was the lovely birthday cake that was beautifully decorated with simulated pink rose buds and resplendent with 82 candles. As friends gathered around the table the candies were lit by Mrs. J. C. Coffee and Mrs. S. G. Adamson. Miss Jessie Davis assisted the honoree in blowing out the candles.

Mrs. Adamson received many lovely gifts and cards and well wishes from her friends.

Ice cream and angel food cake was served to the following guests and the honoree: Rev. and Mrs. Frank Story, Dr. and Mrs. J. C. Coffee, Mr. and Mrs. Frank Kendall, Mr. and Mrs. M. W. Mosley, Mr. and Mrs. Malcolm Glass, Miss Jessie Davis, Mrs. J. B. Masterson, Mrs. Dock Ivey, Miss Gene Ivey, Miss Mickie Wynn, Mr. and Mrs. S. G. Adamson and grandson, David Hubbard, Mr. and Mrs. L. P. Trimble and Mrs. Jessie Kyser.

Sending gifts were Miss Myrtle Reeves, Mrs. W. E. Reeves, Mr. and Mrs. Leon Reeves and Mrs. Meador.

Wendell Armstrong Jr. of Gainesville is visiting his grandparents, Mr. and Mrs. J. E. Blankenship.

Cecil Key of Amarillo was a Hedley visitor Friday.

## Recommendations for Home Canning for 1949

### Methods to Use in Canning:

1. Pre-treatment of food: In the pre-treatment of food before processing the raw pack and steam method is recommended as in general, retaining flavor, texture and quality to a greater extent than the precook method.

### 2. Processing:

a. Pressure Canner Method: The steam pressure canner, correctly used, is recommended for processing all low-acid vegetables and for such products as meat, poultry and fish. (Pressure saucepans of adequate size and provided with an indicator or control operating accurately at 10 pounds pressure may be used for canning small amounts of food. Recommended procedures for pint jars are to follow in a later issue of this column.)

b. Boiling Water-Bath Method: This method is recommended for home canning of tomatoes, tomato juice, kraut, rhubarb, fruits and fruit juices. It is not recommended for vegetables other than tomatoes, nor for meat, fish and poultry products because of danger of spoilage and possible food poisoning. Shortening the specified time of boiling and letting the product remain in the water-bath until cool is not a safe practice, unless research has been done to establish safe procedures.

c. Steam-Bath Method: In the steam bath method jars may or may not be partly immersed in water, but the uncovered portions must be surrounded by flowing steam. A steam bath canner, properly used, may serve the same purpose as the water bath canner, but the processing time should be increased by one fourth since the temperature attained is usually slightly less than that attained by the boiling water bath method. Pressure canner with petcock open during entire time, electric roasters, deep well cookers or any suitable container with a snug fitting lid, may be used for the steam bath (time tables for the steam bath method will follow in a later issue of this column.)

d. Open Kettle Method: In the open kettle method the food is completely cooked in an ordinary kettle, then packed into hot sterilized containers and sealed immediately. This method is used for such products as relishes, preserves, jams and jellies. It is not recommended for tomatoes, fruits, low-acid vegetables, or such products as meat, poultry or fish.

### Methods to Avoid:

1. Oven canning method: Warning should be given against oven canning because of danger from jar explosions and danger of under-processing due to the slow rate of heat transfer from air and uneven heat distribution in the oven.

2. Intermittent sterilization method: Intermittent sterilization is disapproved because investigation has shown it to be unsafe.

3. Use of canning powders and compounds: Canning compounds and powders should not be used in place of sterilization by heat, since such compounds either are not efficient preservatives or are injurious to health.

4. Acidification of low-acid vegetables: Adding acid to vegetables and processing by the boiling water bath method is not recom-

## Mrs. H. M. Vinson

Funeral services for Mrs. H. M. Vinson, who passed away Monday in Amarillo, were held Wednesday from the Methodist Church here by Rev. Frank Story, assisted by Rev. W. E. Bond. Burial was in Rowe cemetery with Marcum-Vandeventer Funeral Home in charge.

Pallbearers included Hobart Moffitt, Barney Johnson, Bill Johnson, Alva Simmons, Olon Plunk and G. L. Leeper.

Mrs. Vinson was born Jan. 28, 1872, in Limestone county, Texas being over 77 years of age at the time of her death. She is survived by one son, M. L. Baker of Hedley, 5 grandchildren and 11 great-grandchildren, three sisters, Mrs. J. P. Walling of Thornton, Mrs. J. K. Barnhart of Mart, and Mrs. C. L. Carter of San Angelo.

## Methodist Church

The date for the Summer Revival at the Methodist Church is July 17 through 31. Evangelist J. E. Cochran of Shawnee, Oklahoma will do the preaching and the singer will be announced at a later date.

The pastor also reports that Chaplain Rex Kendall will preach at the morning hour, June 19. The District setup meeting will be a picnic affair at Lake McClellan June 20. The Sub-District meeting of the Methodist Youth Fellowship will be another picnic meeting at the Memphis park June 21. Intermediate Camp will be June 27 through July 1.

## American Legion

The meeting of Zone 6 of the American Legion will be held at the local Legion Hall Monday night. The business meeting will begin at near 8 o'clock as possible followed by a buffet supper and dance at 10 o'clock. The dance will be open to the general public. An orchestra from Childress will play for the dance.

## Birthday Party

Jack Donald Doherty was honored with a party last Wednesday in the home of his parents, Mr. and Mrs. W. P. Doherty, the occasion being his sixth birthday. Several games were enjoyed, and favors of little cars were given to the guests.

After the many nice gifts were admired, refreshments of sandwiches, cake and soda pop were served to Johnny, Carolyn and Kenny Waddell, Thava Nell, Linda and Sharon Davis, Keith and Frieda Jo Dishman, Sue Wilson, David Moreman, Don Cox, Jonnie and Pat Leggitt.

Unable to attend but sending gifts were Jimmy Roberts, Susan Cox, Aubrey Lee Cherry, Jimmy Boliver, Mrs. Pickett and Mrs. Kirkpatrick of Borger.

Jiggs Mosley and family of Borger spent the week end in the M. W. Mosley home. His son, Leonard who has been visiting here returned home with them.

recommended for home use because of the impossibility of controlling the acidity.

(The third contribution of this series will appear next week.)  
Mrs. Edna Lee Brown

## Vacation Bible School

The Vacation Bible School at the First Baptist church is progressing nicely and much interest is being shown. The school, which has an enrollment of 110, has had an average attendance of 90 the first three days this week. Classes are being conducted from 8:30 to 11:00 each morning, and will close with the Friday morning session.

The commencement will be held Sunday morning at 11:00 o'clock, at which time the public is invited to attend.

## Supply Pastor

The Methodist churches of Jelia Lake and Quail have been fortunate in securing the services of Rev. James Allan Troke of Colorado Springs as a supply pastor. Rev. Troke is a Sunday school specialist, and a former Chautauqua lecturer, and has conducted meetings at many points in the north and east, as well as giving numerous talks to service and professional clubs.

## Shower

Mr. and Mrs. J. H. Painter were honored with a shower Friday night in the home of Mrs. Leon Reeves. Hostesses were Mesdames Leon Reeves, Ray Moreman, Odell Meador and C. Johnson and Miss Myrtle Reeves.

Misses Mary Alice Hunsucker, Ray Moreman, Carolyn Reeves, Pat Usrey and Anita Bain furnished music for the occasion. The sunflower theme was carried out with garden baskets of gifts covered with sunflowers, and presented to the bride and groom to the accompaniment of "Sunflower from the Sunflower State." The honorees received a very large number of lovely and useful gifts.

Gold cake and punch were served to those present.

## F. H. A. News

All F. H. A. girls, mothers and friends are welcome to see Miss Gladys Wright show the two pictures on Freezing Foods on the evening of June 21 or 23 at the Hedley High School gym. Miss Wright is Home Economist of Greenbelt Electric Co-op, Wellington, Texas. Mrs. Edna Lee Brown urges all to attend the showing of the pictures and give Miss Wright a big crowd. Mrs. Brown will be back in town for the meeting, Homemaking girls.

Hedley Homemaking Dept.  
Mrs. Edna Lee Brown

## Wesleyan Guild

The Wesleyan Guild will meet Monday night at 8:00 o'clock at the home of Mrs. Ray Moreman. Mrs. Earl Hill of Memphis district secretary, will be on the program, and we urge all members and prospective members to be present.

Charles Lee Brown, son of Mrs. Edna Lee Brown, had his tonsils and adenoids removed Tuesday morning by Dr. Howard Puckett, and is reported doing nicely following the operation. He is at present with his mother at 801 Russell St. in Amarillo, recuperating from his operation.

## Baseball News

The Lions will go to McLean next Sunday starting off the second half of the regular league season. First half left Hedley game out of first place with 5 wins against 2 losses.

Last Sunday was not Hedley's day to win it seems. They started off with a one run lead, but pitchers Bobby Everett and Brick Stone were unable to hold the Panhandle sluggers, and three Panhandle pitchers kept our boys under control. Panhandle made 8 runs, got 10 hits and three errors; the locals made 6 runs, had 8 hits and errors.

After next week's game the Lions will play at home until July 17th. They have been winning away from home and losing at home. They plan to break the home park jinx here Sunday week when they play Goldston. Monday night the Lions go to Dumas to play their strong semi-pro team.

Tuesday night the Lions defeated Turkey there by the score of 8 to 1.

### League Standing

	Won	Lost	Games Behind

## WOMAN'S WORLD Modernizing Kitchen for Beauty, Efficiency, Also Reduces Work

By Erta Haley

**IF YOU'RE** Mrs. Average Homemaker, you walk more than 3,000 miles each year in your kitchen alone, say domestic science experts. That's equal to a cross-country hike from New York to California, so it's no wonder many of you are interested in saving steps. However, an efficient kitchen that saves steps is not the only reason you may want to change the kitchen. Perhaps, like many homemakers, you want more storage and more pleasing working conditions. Color as well as beauty and effective design have been added to our new kitchens. When carefully planned and executed, they can be as lovely to look at as the most beautiful living or dining room. And what a joy to cook meals in!

**Add Colors to Kitchen When Decorating**  
 There was a time when kitchens were white with just a small splash of color. They may still be carried out in white because, naturally appliances and cabinets are white, but that's more reason than ever to add colors where you can. What about using a deep pink or a lovely coral or strawberry color on the walls, and spiking this with some delicate greens? The greens can be used in some simple, solid colored curtains or rough-textured cotton drapes appropriate for the kitchen.

**Powdered blue is also a very restful color for the kitchen.** This may be used with yellow or orange if you want a warmer combination. **Plan Working Areas For Kitchen**  
 To get the most good out of your kitchen, plan to have plenty of table space for working areas. These should be planned so there is a working area on either side of the sink, on one side of the refrigerator, and on both sides of the range.

Then when you cook, wash dishes or mix foods, you may choose your working area at the range, refrigerator or sink, whichever you are utilizing. Space such as this may be obtained from cabinets with good working areas. Above each working area you may plan to have cabinets, each containing the utensils or supplies needed for your work.

**Select Streamlined Kitchen Cabinets**  
 One of the latest innovations for the kitchen is a streamlined version of the kitchen cabinet. Recognizing the utility value of this traditional kitchen furnishing, today's designers have brushed away attic dust and given this unit a smooth fit for the most modern of homes.

Designed as a complete unit with shelf space, vertical and below-counter storage space as well as

for efficiency and beauty.

**Be Smart!**  
 Small and very youthful hats of pique, easily highlighted further with bow scarves and handbags of the same lovely white, will be highly favored. They will be as fresh and crisp with mid-summer chambrays and prints as they are with suits and coats. The teen-age seamstress can turn out any of a half dozen charming styles with the aid of almost any pattern, cut of pique or the new, embossed type pique cotton that is even never looking.

It's much easier to get at cleaning if supplies are kept conveniently on a storage wall in the kitchen. The shelves and cabinets for these may be more narrow than for other kitchen items. On the top shelves, place soaps and detergents, polishes, cleaning cloths, etc. On the long vertical cabinet walls below the shelves, hang brushes, brooms and vacuum cleaner attachments. Have a place for everything and return each item to its place.

### New Kitchen Cabinet

This modern version of the old-fashioned kitchen cabinet is designed with an eye toward kitchen beauty as well as high utility value. It holds supplies both on the shelves as well as pots and pans in the cabinets below the large, pull-out table top which can be used as a preparation center.

table-top working area, the modernized version of the kitchen cabinet can be made into a supply and food preparation center for any phase of kitchen operations. The cabinet is ideally suited, for example, as a center for all pre-oven operations. Equipped with overhanging and base cupboards and a large pull-out table top working area, the cabinet keeps all necessary baking materials, including pots and pans, within arm's reach.

In the overhanging shelf area of this type of cabinet, you may store spices, dried fruits, confectioners' sugar, vanilla and other ingredients. Frequently, a built-in flour container and sifter is included as part of the cabinet itself.

Ample below-counter space accommodates mixing bowls, double boilers, measuring cups, pie and cake pans. Baking ingredients and utensils can be brought together on the table-top working area with plenty of space left over for the electric mixer and even a colorful canister set.

The porcelain enamel surface of the cabinet can be used for kneading and rolling dough without pastry board or cloth. The surface will be easy to clean and sanitary, too. Lemons, grapefruit and dried fruits can be diced directly on the porcelain enamel without danger of acid staining or scratching.

**Use Efficient Storage Plan in Wall Cupboards**  
 As every woman knows, you can't put things behind a closed door and just expect to get them out in apple-pie order. Why waste time hunting for utensils and supplies when you can plan an efficient storage system?

Use the higher shelves on wall cabinets for dishes and supplies which are not used too frequently. Keep those things, in constant use, on the lower shelves on wall cupboards.

**Storage Tricks Save Tempers**  
 Have you opened cupboards and discovered that cups and saucers were smashed or chipped somewhere along the line? Cups should go on hooks so they may be saved from pushing around by other dishes. Soup dishes with handles may be stored in the same way. A type of storage hook which locks like a clip after the handle is inserted guarantees against their falling.

Racks may also be used for many different types of plates to utilize space properly and thus prevent them from chipping, too. For large platters, trays and wooden bowls, don't be afraid to remove a shelf or two from a cabinet to give you vertical storage space for these pieces. If individual racks are not provided these may be built simply so that the platters are held easily in place.

Vertical storage space of this type is also excellent for pie tins, cookie sheets and other large utensils.

**Storage Wall Accommodates Cleaning Supplies**  
 It's much easier to get at cleaning if supplies are kept conveniently on a storage wall in the kitchen. The shelves and cabinets for these may be more narrow than for other kitchen items.

On the top shelves, place soaps and detergents, polishes, cleaning cloths, etc. On the long vertical cabinet walls below the shelves, hang brushes, brooms and vacuum cleaner attachments. Have a place for everything and return each item to its place.

### Start Making Your Stocks Of Jams, Jelly Goodies Early as Supply Fades

**MOST JAM** and jelly cupboards are a sad sight to behold about this time of year because long months of use have depleted them pretty thoroughly. Most homemakers will find it a joy to start stocking them now with bright, jewel-like glasses of delectable jellies.

Even for those of us who like a good store of jam and jelly, the job need not seem an unsurmountable task. Make small batches and you'll have better results in both flavor and color retention. Neither will you get tired that you never want to see another jelly glass again.

Organize your work properly by getting out jars or replacing them. Wash them in sudsy water; rinse carefully and they will be all ready to place in cold water and started to sterilizing before you get ready for the fruit and berries. Many women like to get the glass washing chore out of the way the day before, and this is an excellent idea.

Utensils for working as well as the paraffin and sugar may also be laid out the evening before jelly making day. Plan to make your batch first thing in the morning before the sun warms things up too much and makes you weary.

#### HERE'S AN EASY guide for a favorite rhubarb and strawberry jam:

**Rhubarb-Strawberry Jam (Makes 1 1/2 6-ounce glasses)**  
 4 cups prepared fruit  
 7 cups sugar  
 1/2 bottle fruit pectin  
 To prepare fruit: slice thin or chop, but do not peel, about one pound of rhubarb. Crush thoroughly about one quart fully ripe strawberries. Combine fruits and measure four cups into a large saucepan.

To make the jam: add sugar to fruit in saucepan and mix well. Place over high heat, bring to a full, rolling boil and boil hard one minute, stirring constantly. Remove from heat and at once stir in bottled fruit pectin. Then stir and skim by turns for five minutes to cool slightly, and to prevent floating fruit. Ladle quickly into glasses. Paraffin at once.

Currents are rich in their own pectin and may be combined with other fruits not as rich in the substance to make fine jelly.

**Cherries in Currant Jelly**  
 2 quarts currant jelly  
 8 pounds sugar  
 2 quarts pitted cherries  
 Wash, mash and cook slowly enough currants, with stems, to make two quarts of strained juice. Let currant juice come to a boil, then add sugar. Skim. Add cherries

and cook slowly and steadily for 10 to 15 minutes. Pour into jelly glasses, paraffin at once and set in a cool, dry place.

**LYNN SAYS:**  
**Jelly-Making Tips Will Help You**  
 Assemble your equipment for jelly and jam making ahead of time. You will need a large mixing bowl, colander, a 6-quart saucepan, a small saucepan for paraffin, standard measuring cups, jelly glasses with covers and a utility tray.

When melting paraffin for sealing jellies and jams, use a low flame or the wax will start to smoke.

To prevent excessive "weeping" on jellies and jams, leave a half inch of space at the top when filling the glass. Paraffin, cover tightly and store in a cool, dry place. Fruits and berries used for jams, jellies, preserves and conserves should not be allowed to stand in water as they become water-logged and will have to be cooked longer, to get rid of water. This results in flavor and color loss. Use a lipped saucepan for pouring paraffin to make this job easier.

Raspberries, either by themselves or in combination with other fruits make delightful jams or jellies. Prepare the jelly glasses by sterilization before starting the jam or jelly so they will be ready when the juice or fruit is to be prepared.

#### LYNN CHAMBERS' MENU

Potato Salad Fried Onions  
 Sliced Tomatoes and Cucumbers  
 Biscuits \*Red Raspberry Jam  
 Sliced Cantaloupe Beverage  
 \*Recipe Given

**Black Raspberry-Currant Jelly**  
 2 quarts black raspberries  
 3 cups water  
 1 quart currants  
 Sugar  
 Cook raspberries, currants and water for 20 minutes. Strain the juice and measure. Add an equal amount of sugar. Cook until a small amount of the juice dropped on a saucer jells. Ladle into jelly glasses and cover with paraffin at once.

Raspberries do not have much pectin and for this reason they need pectin added to make them into acceptable jam. Use them alone or combined with strawberries.

**\*Raspberry Jam (Makes 8 6-ounce glasses)**  
 4 1/2 cups prepared fruit  
 6 cups sugar  
 1 box powdered fruit pectin  
 To prepare fruit: crush thoroughly about two quarts fully ripe, red raspberries. If desired, sieve half of pulp to remove some of the seeds. Measure 4 1/2 cups into a large saucepan.

To make jam: measure sugar and set aside. Place saucepan holding the fruit over high heat. Add powdered fruit pectin and stir until mixture reaches a hard boil. Bring to a full, rolling boil and boil hard one minute, stirring constantly. Remove from heat. Skim, ladle quick into glasses. Paraffin at once.

**Cherry Preserves**  
 5 pounds cherries  
 5 pounds sugar  
 Wash, pick and stone cherries. Place in a preserving kettle, alternating layers of fruit and sugar. Let stand overnight. Bring slowly to a boil and then boil rapidly until thick and clear. Pour into sterilized glasses and seal at once with paraffin.

**Gooseberry Conserve**  
 3 pounds gooseberries  
 3 pounds sugar  
 1 pound seeded raisins  
 3 large oranges  
 Grate the rind of the oranges and extract the juice. Mix together the orange rind and juice, gooseberries, raisins and sugar. Cook slowly until thick. Pour into sterile jars and seal at once.

**Pineapple-Pear Preserves**  
 1 pound pears  
 1 No. 2 can sliced pineapple  
 1 1/2 cups sugar  
 3/4 cup boiling water  
 Dissolve sugar in water and let come to a boil. Cut pears in halves lengthwise, removing skin and cores. Cut pineapple into pieces and add both fruits to hot syrup. Cook until tender and clear. Seal in sterilized jars.

To prevent excessive "weeping" on jellies and jams, leave a half inch of space at the top when filling the glass. Paraffin, cover tightly and store in a cool, dry place. Fruits and berries used for jams, jellies, preserves and conserves should not be allowed to stand in water as they become water-logged and will have to be cooked longer, to get rid of water. This results in flavor and color loss. Use a lipped saucepan for pouring paraffin to make this job easier.

### Pretty Two-Piece Dress Will Delight Young Girl.

**To Delight the Girls**  
 THIS ADORABLE two-piece dress is sure to delight the young girls of the family. The flared jacket has a dainty contrasting top, the skirt is full cut and easy to sew.

### Children Will Adore This Sturdy Playhouse

IF YOU'VE made up your mind to build a playhouse (it happens to every father) give some thought to its use in later years. If you make it too small, your children will outgrow it. If you make it too large they won't feel it was built exclusively for their use. The playhouse illustrated is the happy medium—it measures 12 feet by 8 feet. It's a little house with possibilities for a long and useful life. It is one every child will never forget. The front can be left open to the floor, or storm windows may be used to close it in during bad weather. Later, as the child grows, it can be furnished as a clubhouse for the neighborhood youngsters.

Send 60c for Pattern No. 100 to EAST-BUILD PATTERN COMPANY, Dept. W, Pleasantville, N. Y.

### Softwood in Demand

Only half of the world's total forest area is made up of softwood and temperate hardwood forests, yet these forests supply 91 per cent of all the timber cut and used. Tropical hardwoods furnish the remaining 9 per cent.

### Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste  
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.  
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.  
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

**DOAN'S PILLS**

### THE PROOF OF THE PIE IS IN THE Heating

Modern bakeries and restaurants all over the Gulf South rely on natural gas to fuel their ovens. Natural gas provides clean heat which may be applied directly in such operations as baking, food dehydration, rice-drying and canning. Direct application means accurate control and maximum efficiency—which are two excellent reasons for using natural gas in all such processes. Delivery of low-cost natural gas to commercial and small industrial plants is one of many functions of the companies which make up the natural gas industry . . . all of which have the ultimate purpose of assuring a continued dependable supply of natural gas to their customers.

Natural gas provides instant heat, with no waiting for a "warm-up". It's clean, extremely flexible, perfectly controllable.

A turn of a valve provides all the fuel required to do the job. No need for costly storage facilities. It's always there, ready to serve.

Savings effected by natural gas consumers are important factors in a profitable operation.

## BEST AID to the AILING HOUSE

by Roger C. Whitman

**Making Curved Rafter**  
Question: Where can I obtain information on how to make curved rafters? How is this work done?

Answer: The National Lumber Manufacturers association, Washington, D.C., has several publications on the subject; some are free and others are available at 6c.

**Protecting Silver from Tarnish**  
Question: Is there any way to prevent silverware from tarnishing? Isn't there a preparation to apply on the silverware as a thin coating to prevent tarnish?

Answer: Dealers in jewelers' supplies usually sell a lacquer for this purpose, but firms of this kind are only found in large cities. If you cannot get it, a clear lacquer, sold at a well-stocked paint store, can be used instead. After polishing the silver, wipe it with benzine and then apply the lacquer.

## WEEKLY NEWS ANALYSIS

### Russians Urge West German State Be Wiped Out; Ask 4-Power Rule; Congress Curtails 'Must' Legislation

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

#### GERMANY:

##### A Sour Note

The Big Four conference in Paris was underway. For the first time in the cold war between East and West there was real hope that harmony would be forthcoming.

In fact, Secretary of State Dean Acheson had been warned by Senator Vandenberg, senate foreign affairs committee chairman, not to be too aggressive with the Russians, but rather to keep open, if possible, the door to lasting peace.

WITH the Russian blockade of Berlin lifted and the Soviets apparently ready to sing a new tune in world cooperation, the theme of the conference was to be harmony.

But the delegates hardly had time to warm the seats of their chairs before the Russians were at it again. Russian Foreign Minister Andrei Vishinsky blandly proposed that the council of foreign ministers wipe out the new west German state and return German affairs, including direction of the Ruhr, to a four-power control machinery. MANY had expected this course by the Soviets. They had predicted that lifting of the Berlin blockade was done to soften up the ministers for this very proposal. But it didn't work. All three western powers immediately rejected the proposition.

The Soviet foreign minister showed little tact. He led up to his proposal with a long tirade denouncing the U.S., Britain and France for what he termed "violations" of the Potsdam agreements.

SOVIET ideology could not tolerate a separate German state with autonomous powers and there was little question that the Kremlin would stand firm in this position. On the other hand there was no possibility that the western powers would recede from their intention to return government of Germany to the German people. Thus it would seem the impasse was clearly established.

For the U. S., Dean Acheson delivered himself of what might well be the decade's masterpiece of understatement when he called the Russian suggestions "disappointing."

But then he summed up the world's reaction when he added: "My hopes are distinctly chilled."

#### CONGRESS:

##### Let's Wait

A lot of "trouble for nothing" might be an apt phrase to describe all the national agitation against President Truman's health insurance and civil rights proposals—for his own leaders in congress erased the issues by taking both hotly-contested items of legislation off the "must" list.

ALSO slated for further delay was the administration's four-billion-dollar tax increase plan, the equally controversial Brannan farm program and the foreign-arms proposal.

This left only three measure bills for top priority action. They were:

1. Extension of the reciprocal trade program which has passed the house but is stalled in the senate.
2. Repeal of the Taft-Hartley labor act.
3. Ratification of the North Atlantic security treaty which requires only a two-thirds majority vote in the senate.

SENATE MAJORITY LEADER Scott Lucas indicated action might be sought before adjournment on minimum-wage boosts, the international wheat agreement, and a pay raise for top government executives and military personnel. Speculation was that decision to abandon for the time the compulsory health insurance program stemmed from mounting congressional clamor for sharp cuts in government spending, with the civil rights legislation delay believed motivated by fear of a southern filibuster. Congress wants to adjourn by August, and consideration of any of the "powder keg" legislation might make that impossible.

LUCAS said he thought President Truman was "definitely satisfied" with the progress being made.

That surprised some legislators, for unless congress repeals the Taft-Hartley law, the President will be unable to point to accomplishment of any of his campaign pledges when congress adjourns.

#### STAND-IN IN DOGHOUSE

### Goose on Loose Perturbs Gold Rush Fete

Genevieve the goose was on the loose and her successor was in the doghouse.

Genevieve the first was a plump young bird bought from a farmer to play the role of the goose that laid the golden egg for the Women's Medical college '49 Gold Rush fete in Philadelphia. An important role which the ladies were determined to see done right.

#### Potent Vote

POTENT VOTE... This lone woman voter, to whom a pair of shoes would be a Godsend, is shown as she cast her ballot in the elections held in the Russian zone of Germany. The Russians had hoped to make a big propaganda gun of the election—a gun that would be used in the "Big Four" conference beginning May 23. But the Soviets had to admit that one-third of the valid ballots cast voted against the all-Communist slate.

#### FORRESTAL:

##### "Better to Die..."

"Comfortless, nameless, hopeless, save in the dark prospect of the yawning grave... better to die, and sleep the never-waking sleep than linger on..."

With the import of these lines from Sophocles' "Ajax" so obviously goading his consciousness, James V. Forrestal, former U. S. defense secretary, plunged to his death from the 16th floor of national naval medical center in Washington.

FORRESTAL had been under treatment for "operational fatigue" since April 2. Attendant physicians said he had been considering suicide, that the nature of his malady indicated this mental condition as an inescapable adjunct to it. But they felt he was getting better; in fact they had hoped to release him from the hospital in 30 days.

As secretary of defense, Forrestal labored under a burden such as few national servants have carried. His was the job of directing the gigantic naval program during the war, as well as the almost hopeless task of attempting unification of the armed forces. The strain was great and a sympathetic people could understand why it might have broken a strong man.

President Truman took full cognizance of Forrestal's worth when he declared the former defense secretary was "as much a casualty of war as if he had died on the firing line."

BUT there was an added burden weighing on Forrestal. That was a burden of attack and vilification from two of the nation's top radio newscaster-columnists. After his shocking death, the press of the nation began to revalue the impact of its effect and that of the radio. Some nationally-syndicated observers charged that the attacks upon Forrestal via radio and in print had added to his load of desperation. They advanced the premise that unless some check was put upon this type of journalism, it might discourage many able men from entering government service.

There is possibly no agony of mankind comparable to that which must go on in the mind of the man about to take his own life. It is wholly foreign to the concept of the normal, every-day mind. Certainly it flies in the face of the very first natural law—self preservation. Weighing all this, it is difficult to understand how there could be anything but sympathy for Forrestal, and an honest effort to understand something of the torturous mental suffering which drove him to leap to his death.

#### CRIME:

##### Penalty Apropos

A Midland, Mich., judge sagely fitted the punishment to the crime in a case in municipal court. Two youths, 21 and 18, were brought in on a charge of crashing a wedding party and running away with the wedding cake. They said they did it on a dare.

After pondering a moment, the judge ordered the culprits to buy a wedding present and give it to the newlyweds.

## JOB OUTLOOK:

### Better for Grads

With starting salaries holding firm at last year's record high levels, signs of a last-minute pick-up in jobs for the mammoth 1949 class of college graduates were showing up, according to an annual employment survey by the family economics bureau of Northwestern National Life Insurance Company.

Although two-thirds of the 133 colleges and universities covered to date find their total employment calls all the way from slightly "disappointingly" below 1948, schools reporting in the final week of the survey have shown a much better ratio, the summary says. Approximately half of the late responses report their record of job offers to date as equal to or slightly above 1948 experience.

DARTMOUTH college's school of business administration observes, for example, "We were disturbed by the February-March slump, but the later pick-up has 'wiped out our losses.'" St. Louis university also reports that demand faded in February and March, but "as of the past six weeks it has begun to develop beautifully." University of Nebraska's college of business administration notes a stronger employment demand in the last ten days. But Duquesne university at Pittsburgh reports, "Calls in general are less than in 1948 except those for sales personnel which have increased."

Boston university says job offers are 7 per cent fewer than last year; Ohio State finds about the same number of employers represented on the campus this spring, but each firm taking fewer men. Yale university has recorded more employment calls than as of a year ago.

FIVE out of every six schools listed in the survey report starting salaries to be as high or higher than last year. Prevailing range of offers is from \$200 to \$275 per month for business administration and liberal arts seniors, and from \$225 to \$325 for engineering grads, with exceptional men getting still higher offers. Illinois Institute of Technology reports: "The class of 375 engineers graduating January 29, 1949, averaged \$280 per month for a basic 40-hour week; this is the highest average salary of any class in our history."

#### TOURISTS:

##### More Cultured

The American tourist these days was coming in for a new type of treatment from his overseas hosts. For instance, in Capetown, South Africa, according to merchants, the new tourist is not the "vulgar type which used to invade Europe in hordes, wearing horn-rimmed glasses and loud clothes."

"THIS new American is well bred, quiet, wealthy, but has the familiar souvenir mania," said one curio dealer. "One bought everything I showed him. 'Is it genuine Zulu?' he kept asking."

Then, the dealer added, "he took all my shields, assegais and beadwork. I had to call a ricksha to get the stuff down to the ship. And when he saw the ricksha, he wanted to buy that."

AMERICANS no doubt will palpitate with pride at this new evaluation of their cultural level by those abroad who profit most from tourist business—but most will console themselves with the fact that so long as he has any money, the American tourist will manage to get along quite well wherever he may be in Europe or elsewhere.

#### Victims

Mrs. Ralph J. Fugate holds Mark Richard, 7 weeks, at their Springfield home. Her husband has never seen his son because he is in Rutland, Vermont jail under an early 1800 law which demands payment of court judgment or paupers oath.

#### CRIME:

##### Penalty Apropos

A Midland, Mich., judge sagely fitted the punishment to the crime in a case in municipal court. Two youths, 21 and 18, were brought in on a charge of crashing a wedding party and running away with the wedding cake. They said they did it on a dare.

After pondering a moment, the judge ordered the culprits to buy a wedding present and give it to the newlyweds.
