Inter-County Ginnings

Federal Quarantine as well as the State Quarantines for the pink bollworm of cotton in the states of Arizona, New Mexico, Oklahoma and Texas authorizes the inter and intra-state movement of seed cotton only from lightly infested areas into (1) contiguous regulated counties in which similar conditions of infestation exist; (2) to designated gins (operating under Dealer-Carrier Permit) located in free areas but immediately adjacent to the regulated areas for ginning, for which no permits are required. Any other movement of seed cotton (including grabbotts or bollies) or parts of the cotton plant shall be made only under permit duly authorized by the appropriate quarantine officials.

For the guidance of growers and ginneries in the case of cotton produced in Northwest Texas, Eastern New Mexico and Southwestern Oklahoma, seed cotton will be allowed inter-county movement for ginning in the grouping of counties indicated below:

Group 1 Oklahoma counties
Group 2: Texas counties of Gray Wheeler, Donley, Colingsworth, Hall, Childress

Group 3: Hardeman, Wilbarger, Wichita, Motley, Cottle, Foard, King, Knox, Baylor, Stonewall, Haskell, Throckmorton, Shackelford and Callahan.

Group 4: Scurry, Fisher, Jones, Nolan, Taylor, Brown, Coleman and San Saba.

Group 5: Quay, Curry and Roosevelt, New Mexico, and Bailey, Lamb, Hale, Floyd, Cochran, Hookley, Lubbock, Grosby, Dickens, Yoakum, Perry, Lynn, Garza, and Kent in Texas.

Group 6: Sterling, Coke, Runnels, Tom Green, Concho, Mason, Schieicher, Menard, McCulloch, Irion, Reagan

Group 7: Lea, New Mexico, Gaines, Dawson, Borden, Andrews, Martin, Howard, Mitchell, Ector, Midland and Glasscock in Texas.

Seed cotton produced in Group 1 may move into Groups 2 to 7 inclusive for ginning; seed cotton produced in Group 2 may move into Groups 3 to 7 inclusive for ginning; seed cotton produced in Group 3 may move into Groups 4 to 7 inclusive for ginning; seed cotton produced in Group 4 may move into Groups 5 to 7 inclusive for ginning; seed cotton produced in Group 5 may move into Groups 6 and 7 for ginning; seed cotton produced in Group 6 may move into Group 7 for ginning; seed cotton produced in Group 7 must remain in Group 7.

This statement shall be construed by ginneries to be an amendment to their Dealer-Carrier Permits which amendment shall authorize acceptance of seed cotton only in a manner outlined above. In other words, ginneries in Hardeman County which is in Group 3 must not accept seed cotton from Lubbock County which is in Group 5. This modification of Dealer-Carrier Permit issued ginneries is not to be construed as prohibiting such ginneries from accepting seed cotton produced within or contiguous to their ginning territory. In other words, there will be border-line cases where seed cotton has normally been moving across these group lines as now designated. It is essential, however, that long distance movements of seed cotton for ginning be discontinued and ginneries will be held strictly accountable and will be expected to refuse to gin cotton produced a long dis-

Supt. Davis Explains Why Pupils Must Be In School

Every child in the State who is six years and not more than sixteen years of age shall be required to attend the public school in the district of which it may be transferred as provided by law, for a period of not less than one hundred and twenty days. Any child not so exempt may be excused for temporary absence due to personal sickness, sickness or death in the family, quarantine, severe storm which has destroyed bridges and made the regular means of travel dangerous, or for unusual cause acceptable to the teacher, principal or superintendent of the school in which said child is enrolled; provided that the excuses are in writing and signed by the parent or guardian of said child. Any case so excused may be investigated by the truancy officer discharging the duties of said attendance officer for the school from which said child is so excused.

Supt. A. L. Davis states that parents who have children that have not enrolled in school shall have them enrolled at once and they will be forced to attend school one hundred and twenty days. This will be enforced by a truancy officer employed by the Hedley School Board of Education. As provided by law a parent can be assessed a fine of \$5.00 for first warning, \$10.00 for second, \$20.00 for third, and if this fails, a child can then be sent to a reform school.

Ex-Donley Resident Heads Colf at Huntsville, Arkansas

The largest crowd in the history of Huntsville, Arkansas, gathered there on Thursday, Nov. 10, to celebrate the opening of the first hard surfaced road in Madison county. Among the speakers was the governor of Arkansas, Sid McMath.

Of interest to citizens of Donley county is the fact that a native of this section, F. C. Howard, is president of the Huntsville Chamber of Commerce and officially opened the day's program. Mr. Howard is the son of the late M. T. "Dock" Howard of Clarendon and Mrs. Ella Howard, and is a brother of A. W. Howard of Memphis. He is also a cousin of the Informer family.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strains on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Volunteers are mighty important to the U. S. Savings Bonds Program. During the fall when farmers are bringing in their harvests, an outstanding group of U. S. Savings Bonds volunteers will be traveling the country telling people about Bonds. These volunteers are the cartoonists who draw your favorite comic strips and they will put on a show in connection with a Treasury Department sponsored art exhibit, "25,000 Years of Comics," in several American cities. They are freely giving of their time and effort to continue telling their readers that U. S. Savings Bonds are the safest and best investment in the world.

Household Hints

Temporary Adhesive
For a temporary adhesive—or to mend something that will just be kept around and never used or put in hot water—try transparent nail polish. It works on dishes as well as glassware.

Separating Stuck Glasses
To separate two glasses which are stuck together, dip the outside glass in warm—not hot—water, and at the same time put cold—not iced—water into the inside glass.

Dusting Fryables
For dusting fryables, pancake flour gives a better flavor than ordinary flour. The handy way to do the dusting is to put the paper in a large paper bag along with the pieces of meat, fish or fowl to be coated, then shake up the works.

Prevent Cracking
To prevent the glaze on chinaware from cracking, don't pile freshly washed cups on top of each other. Spread them out and give them plenty of time to cool before they are put away.

WEEKLY NEWS ANALYSIS

Harvest This Year Second Largest In U.S. History, Government Says; Reds Purge Czech Property-Owners

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

HARVEST: Second Largest

America's horn of plenty continued to go all out in its production of food for the world. Latest crop summary of the U.S. department of agriculture showed that good harvest weather would assure the nation of its second largest volume of crops in history, topped only by the record-breaking haul of 1948.

EQUALLY important was the fact that a record supply of corn was on tap for producing meat, dairy and poultry products.

The month of September brought conditions sufficiently favorable to boost total production prospects 1 per cent, despite a slight decline in the corn estimate. Total crop volume was indicated at 131 per cent of the 1923-1932 base level, second only to last year's 137 per cent.

However, present indications are that this may be the last year for some time that crop production reaches such astronomical heights. As surpluses were mounting almost alarmingly, the government was preparing to take action to reduce output next year.

There was every likelihood that market quotas would be slapped on some of the basic crops which have been overflowing into storage in recent years.

THIS YEAR'S huge output is the result of fairly large production of most individual crops, rather than record-breaking yields of just a few.

Nearly 128 million tons of livestock-feed grains are being produced this year, including a corn crop of about 3.47 billion bushels. Last year's corn crop of 3.65 billion bushels set an all-time record.

The 35.5 billion tons of food grains now estimated, though exceeded in each of the past three seasons, is greater than in any earlier year. Included in this figure is a bumper wheat crop of 1.12 billion bushels, virtually all of which has been harvested.

CONGRESS: Half a Loaf

The first session of the 81st congress headed toward an October adjournment with less than half of President Truman's program written into law.

THE PRESIDENT could count 15 major accomplishments, by his reckoning, at least, on the part of the congress he helped ride into office last November.

Left as unfinished business for the 1950 congressional campaign, however, were a number of highly controversial proposals among the 22 requests that Mr. Truman had laid before the present session without getting final action.

Chief among these is the Taft-Hartley act repeal, which was turned down in both houses during this session. The President undoubtedly will revive the issue in January, and the outcome this time may depend upon how some special elections this year to fill senate and house vacancies turn out.

SOME OF THE other requests which Mr. Truman is almost sure to re-introduce early next year will be for a system of compulsory health insurance, civil rights legislation, standby price-wage controls and the passage of "Point 4" legislation to guarantee U.S. support in developing backward areas of the world.

PAY BOOST: For Cabinet

There was good news for cabinet members, who have been plugging along at the same old salary ever since 1925.

A joint senate-house conference managed to arrive at an agreement to boost cabinet members' salaries from \$15,000 to \$22,500 a year.

THE CONGRESSIONAL group also approved pay raises for some 200 other top-drawer federal officials—at a cost of \$1,087,000 annually.

In addition to raising cabinet salaries, the pay bill will: GRANT Undersecretary of Defense Steve Early \$20,000 a year instead of \$14,500, and the armed-forces secretaries \$18,000 a year instead of \$14,000.

Most of the undersecretaries of the various departments will go up from \$10,330 to \$17,500. J. Edgar Hoover who, as head of the FBI, now receives \$14,000 will get a raise to \$18,000.

Story of \$200-Bills Trips Up Gambler

It was not the first case where a gambler with big money had been an individual who had been caught with \$200 bills.

Witness

Admiral Arthur W. Radford took the stand before the house armed services committee to testify that current defense plans and military setup relegate the navy to a role "useless and inadequate" in the event of an atomic war.

CZECH PURGE: Slow Terror

Slow terror, the kind that eventually is born in persons living under any totalitarian government, was seeping through Communist Czechoslovakia.

Cause of it was a Red purge, aimed primarily at supposed bourgeois elements, but leaving no man—be he a Communist party member or not—free from the fear that he may become a victim sooner or later.

UNCONFIRMED reports of the total seized or marked for arrest in the Communist police roundups ranged between 30,000 and 40,000. No information was being given, either as to causes, results or any other details of the widespread arrests.

The pattern of the purge was clear. Landlords, architects, confectioners and other small shopkeepers were being picked up and their business confiscated. In some cases, their apartments were seized and families dispossessed.

In the main, it was a drive against Czechoslovakia's proprietary classes, theoretically the mortal enemies of Marxist communism.

HOWEVER, the prosecution of the property owners was accompanied throughout Bohemia and Moravia by purges of government employees, the clergy, army and even the Communist ranks. Charges, where there were any, ranged from high treason and sympathy with Titoism or "western imperialism" to simple denunciations by snoots who had overheard suspicious bits of conversation.

Possible hint as to the reason behind the purge was the report that the government is having trouble not only in its campaign to control the Roman Catholic church, but also its efforts to prod higher production out of the workers.

CHINESE REDS: Win Diplomats

Was it a case of rats deserting a sinking ship?

That might have been a plausible construction of the move as Chinese diplomatic staff members in Paris deserted to the Communist regime at Peking and called on Chinese diplomats throughout the world to follow their example.

GEORGE MONG, counselor of the Paris embassy, made the announcement. He reported that 11 diplomats, eight from the embassy and three from the consulate had walked out on Chiang Kai-shek and the Nationalist government at Canton.

The development posed a problem for the French foreign ministry's Asiatic affairs section. They were particularly concerned by the threat of a rebel sit-in at the embassy. However, the issue was resolved when the French moved firmly to back up the Nationalists and struck the dissident Chinese envoys off its diplomatic list.

THE FRENCH difficulty was clear. While Paris still recognized the Nationalist government, it was becoming increasingly apparent that the western powers eventually may recognize the Communist regime of Mao Tze-tung. Already there have been conversations on that subject.

FIRST AID to the AILING HOUSE

by Roger C. Whitman

QUESTION: Our drains are stopped up very often in spite of the fact that we have had the pipes cleared by a tree-rooter machine. I am of the opinion that it is a clogged vent and not tree roots in the pipes. Can you give me any advice?

ANSWER: It is possible that the pitch of the horizontal soil pipe is insufficient, so that grease and other sediment matter congeals and closes up the line and retards the flow of waste matter to the sewer. Re-laying of the pipe is one solution, if that is the case. I doubt if a clogged vent would cause the condition. The other solution to such a problem is to install a grease trap in the line from the kitchen sink and clean it out periodically.

SERVING the Gulf South

... through our payment of TAXES

A public school education for our boys and girls is one of the great benefits of the American way of life. The cost of that education, as everybody knows, is defrayed through the payment of millions of dollars of taxes by individuals and businesses.

Last year our Company paid out more money in taxes than the gross amount we received for the natural gas we sold to all our 288,000 residential customers. Much of that tax money went to support your schools, your highways, your courts and other essential functions of local government. This is another example of the way the American Business System works to bring better living to your community.
