# 50,000 Miles - No Wear!

7. Driven 5 Years in 10 Weeks! For 70 days, six brand-new cars raced over the broiling Mexican-border desert at 60 m.p.h. . . . putting amazing new Conoco Super Motor Oil to one of the most punishing tests ever devised. After 50,000 miles of continuous driving, engines showed no wear of any consequence . . . in fact, an average of less than one one-thousandth of an inch on cylinders and crankshafts. Startling proof-factory finishing marks were still visible on piston rings!
