#### **Baseball News**

## John E. Duckett

#### Last Sunday the Hedley boys lost a heartbreaker to the team By den company shop foreman and from Panhandle. It was especially a heart-breaker for Red Hill, Hedley pitcher who was very stingy with his base hits and runs. The score was one to nothing in favor of Panhandie, the only run of the game coming in the second inning. It was an unearned run by an error on Sims, second baseman, and two bases on hit by pitched balls. Wester of Pannandle was also very stingy with his basehits and runs, wife, Mrs. Donelia Duckett of Amgiving up only three hits and no runs. Red Hill gave up seven hits but four of them were very scratchy hits. Both pitchers showed perfect control in striking out eleven batters apiece. It was a well playthe best games ever played in the Caprock League or tuat will ever be played. Next Sunday the io- Fails, Ore., Mrs. Pearl Wallace of Clarendon, former Hedley residents tended the wedding of their grandcais will go to Washburn and do Spring Hill, La., and Mrs. Opal She wore a white sheer net gown daughter, Bettye Mosley, last Fribattle with them up there. Let s Darnell of Amarillo. have some backing to go along

with us.

## It's the best — Electric Cooking has advantages for all.

**FAST**...electric "speed-units" now cook faster than any other method. They bring food to cooking temperature with unbelievable speed, and cook it at just the right temperature for the most flavorsome and nutritious results.

**COOL...** the heat goes directly into the food and not into the air and kitchen. The days of hot, stuffy kitchens are over when you use flameless, clean electric cooking.

. DONLL

I, ILA.

**SIMPLE...** as turning on your kitchen light. A flick of the switch and you're ready to cook. Baking, broiling, roasting, surface, deep-well, and pressure cooking are all equally simple.

AUTOMATIC... you've got a thrill coming when you can take the afternoon off, and have your supper ready for serving when you return. Electric cooking's automatic timing will "chef" for you, turning your oven on and off at just the right time, while you are enjoying a game of Bridge or Canasta.

Better for your home

**CLEAN**... you have freedom from combustion. No smoke, soot, fumes, or odors can come out of an electric coil to make your kitchen walls dark and dingy. This clean. flameless heat helps keep pots and pans bright, too.

**CONVENIENT...** once you cook electrically, you'll wonder why you stayed so long with horse-and-buggy methods, as old-fashioned as flame lamps.

**MODERN**... electricity is as dependable a servant for cooking as it is for lighting your home. Yes, today, the modern way to cook is the "electric way."

LONG LIFE... your electric range is built to be a permanent part of your home. You have a right to expect—and you will get—many, many long years of cooking pleasure.

#### P. Better for your family

SAFE... no matches, no fire, no tumes to bring hazards into your kitchen. Since electric cooking is flameless, no oxygen is removed and the air is not over charged with nitrogen to sweat up the walls.

**HEALTHFUL**... less water is used when cooking electrically; foods cook in their own juices, retain garden-fresh flavor and food values which are so often lost and carried off with the fumes of combustion in other methods of cooking.

**ECONOMICAL...** there's no wasted heat with electricity. Faster than ever, electric cooking gets the job done quicker and low-cost electric cooking rates bring operating costs way down.

**MORE FREEDOM...** your electric range requires less attention from you in the kitchen; its automatic features free you to devote more time to your family, more time to the pleasures of life. Its gleaming porcelain is so easy to keep clean... you'll be out of your kitchen in a jiffy after mealtime.
