 Nagging Backache**

When kidney function slows down, many
 folks complain of nagging backache, loss of
 pep and energy, headaches and dizziness.
 Don't suffer longer with these discomforts
 if reduced kidney function is getting you
 down—due to such common causes as stress
 and strain, over-exertion or exposure to
 cold. Minor bladder irritations due to cold,
 dampness or wrong diet may cause getting
 up nights or frequent passages.
 Don't neglect your kidneys if these condi-
 tions bother you. Try Doan's Pills—a mild
 diuretic. Used successfully by millions for
 over 50 years. While often otherwise caused,
 it's amazing how many times Doan's give
 happy relief from these discomforts—help
 the 15 miles of kidney tubes and filters
 flush out waste. Get Doan's Pills today!
