## "Tembo" Scheduled As Midnight Show

Howard Hawkes, world famous big game hunter in an unusual way will star in a technicolor jungle adventure at the Hedley Theatre this Saturday night for the regular midnight show. Deviating from the ghost and adventure series, this picture portrays wild animal hunting deep in Africa. Packed with adventure, scenery and color, "Temby" becomes one of the screens most fascinating thrillers because of the weapons used in hunting. Hawkes only form of defense and offense is a bow and arrow. Several movie shorts have been made displaying his skill with this medieval weapon but this is his first full length adventure picture.

Hollywood cameramen are still breathing hard as a result of the forced close up shots they had to make when Hawkes allowed man eating leopards come charging within six feet of the lens. Studio guards armed with high powered rifles were ordered not to fire unless Hawkes missed. He didn't. The picture will play Saturday midnight only in Hedley.

## 'Snow White' Coming

The long awaited re-issue of Walt Disney's immortal "Snow White and the Seven Dwarfs" will play in Hedley at the Theatre September 4th and 5th. The full length cartoon version of the famous fairy tale was originally released in 1937 and played to over 40,000,000 movie fans.

**A Challenge to Students of H. H. S.**

Swiftly our school days are going by; we are approaching the goal. It will soon be time to leave our Alma Mater and enter new fields in this world of struggle. It is going to be difficult to say farewell to you who have helped us and whom we love. We can hardly believe that in two or three years we are going to leave our friends and our teachers here at H.H.S. to seek our fortunes elsewhere. Many adventures, experiences opportunities, and achievements await us.

We as students are urged to follow the leadership of our faculty through this next year as we are approaching our goal and completing our training. Then college awaits us. There are several essentials for college success. One of them is leadership. Leadership has been defined to me as a quality of personality which causes others to believe with you, think with you, work with you and enjoy life.

Now is the time for us students to start preparing for college before we graduate from HHS.

In college we may find the opportunity that will be helpful in assuring our future success, or on the other hand we may wait our time there. "Climb through the rugged rocks," at the end we will find success.

Students, let us keep marching forward faithfully and honestly in our studies to reach the goal where we now are. Be loyal and true!

It is with much pride and satisfaction that we look back over the years here at H.H.S. Although there are many worthwhile things we have not yet done we feel we are definitely headed in the right direction. We are not merely preparing for life, we are living it. Time should not be spent, but should be invested. This investment in useful pursuits will yield great returns.

Our school and teachers are en-

trusting us with a great responsibility; they are depending upon us with our knowledge and ability to keep America great.

We are now training for a profession, whether it be a business, or simply to lead a quiet and productive life at home. H.H.S. is a place we will always remember as our home. Let us make it a happy home this coming year.

This is a challenge from me to those who have dropped out of school and to those who will return again. I would like for each student of H.H.S. to have a challenge just as I have had, and so I am passing my words on to you. Let us be cooperative, friendly, and make H.H.S. shine bright through another school year.

We are thinking with deepest gratitude or the patience, encouragement, and enthusiasm that our superintendent, principal, teachers, will show in leading us throughout this school year.

It was Longfellow who said: "Where a noble deed is wrought, When'er is spoken a noble thought Our hearts in glad surprise To higher levels rise."

A H.H.S. Student

**What sign were you born under?**

It makes a difference, some folks say! But *whatever* your sign — one thing you probably have in common with most Americans is that either *directly* or *indirectly* you're an owner of one of America's electric light and power companies like the West Texas Utilities Company.

It's like this: about *three million* people from all walks of life — teachers, housewives, doctors, mechanics, farmers — put their savings into companies like the West Texas Utilities. They're *direct* owners.

Another *seventy-five* million people, through their life insurance policies and savings bank accounts, are *indirect* owners. For their banks invest a substantial part of their premiums and savings in the securities of the nation's electric companies.

So, you see, these companies, like the West Texas Utilities, that serve nearly everybody are *owned* by nearly everybody!

**Kidney Slow-Down May Bring Restless Nights**

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!
