## Former Senator Karl L. Lovelady Announces For State Senate

### To The Voters of the 30th Senatorial District:

I take this means of announcing my candidacy for the office of State Senator of the 30th Senatorial District in the forthcoming Democratic Primary. I make this announcement after careful and considered appraisal of the voiced opinions of the many persons who have come to me and that I have gone to see, who have insisted that I make this race based on my past record in the State Senate of Texas to keep the state out of debt and to vote a vote for all the people and not a vote for the chosen few.

I base my candidacy on the following platform:

#### HONESTY AND INTEGRITY—

The past few years have brought dark clouds of dishonesty and corruption in our state department, and I for one, if elected your State Senator, propose to do my part to see that the people of Texas shall once again have confidence in our government.

#### FARMING—

I believe in a broader "Farm-to-Market" road program, by trying to get an additional \$50,000,000 per year to the amount now spent, for more farm roads.

I believe in a much broader rural electrification and rural telephone program so that every farmer will benefit.

I would like to see a state supported experimental farm, to be located in the heart of the vegetable growing district, for experimentation in the growing of vegetables.

I would support a program to conserve our surface water supply by the state expending money for the construction of dams on all rivers and draws where needed. (In doing this we would also have places for recreation right here in West Texas.)

I would amend the present employment law so that the TEXAS EMPLOYMENT COMMISSION would bring into any given area suitable labor to be used on the farm where said labor is not locally available at the time when this labor is most needed by the farmer.

I would vote for and support a strong seed regulation law in order to put this state on a par with other states in seed regulation. I will always oppose any legislation to unionize farm labor.

#### SCHOOLS—

A stronger emphasis on the teaching of the basic subjects of

reading, writing and arithmetic in the lower grades, and on mathematics and science in high school, so that we can better equip our students to preserve our leadership as a nation in the world.

Better pay for all school teachers, and more money for better school plants from the state. (I think teachers should receive salaries equal to other professions of similar education and training.)

I think we should have a state supported Junior College near the center of the district so that buses can run from the various towns carrying students to said college.

#### BUSINESS—

I would abolish the State Store Tax, State tax levied on stores that sell cigarettes and charge the collection of all taxes and cosmetics, etc., now collected by the merchant to that of the manufacturer who makes them. (In fact I think the merchant, farmer and all retail businesses should be taken out of the business of collecting taxes for either the state or the federal government.) It is about time the small business man got a break in this government of ours.

The present "Hot Check" law should be amended so that when any person gives or passes a check whether for cash, to pay a bill or to receive merchandise, he or she may be handled by the proper court if said check is not honored at the bank for payment.

Any person who makes a bill for groceries, clothing or drugs, same being necessities, the merchant should have stronger laws than we now have for the collection of said debts.

#### LOAN SHARKS—

I would vote and support a law to place all loan companies under the same regulations the the Banks

are now under.

#### CITIES AND TOWNS—

I believe that all cities and towns in the state should be given aid from the state, based on population for use in building streets, alleys and for the purchase of highway rights-of-way through their cities and towns. (As you know all this expense is now carried by the property tax payer who already has all the burden he can carry.)

#### PROFESSIONS—

I believe that the present laws regulating the illegal and unethical practice of law, medicine and healing arts should be strengthened so that the public may be better protected, and any professional person or so called professional person who, either in private, in public, or in print, willfully misleads the public to obtain a client or a patient should be prosecuted by law for so doing.

#### WELFARE—

I would give additional aid to all persons under the welfare program where need can be shown to exist. (Any increase in pension checks, etc., would help our economy because they spend their money on the necessities.)

#### OFFICIAL NOTICES AND CITATIONS—

I would vote for an amendment to the present law on official notices and publications to provide that all official notices and citations now posted at the court house door be published in a newspaper in the County so that the public will be properly informed, and that individual citizens affected will not be deprived of their just rights under our laws.

#### FREE PRESS—

Our laws should be amended so that all government records

and all government meetings shall be open to the press so that the people may be informed on all happenings and acts of the government of state, county and political subdivisions.

**TAXES—**

The State Comptroller has estimated that by January 1, 1959

the State shall be about \$100,000,000 in debt, thus the next session of the Legislature will be faced with the duty of getting the state out of the "red." I think that this can best be done by the abolishing of needless jobs and the elimination of duplicate functions of various state agencies,

none of which render any service to the tax payer. With times getting harder economy should start at Austin.

I would abolish the State Property taxes, as the property taxpayer now has too great a burden to carry in supporting our school, cities and county governments.

I am not supported by any clique or clan, nor am I fighting any group or individual in this campaign, but if elected your State Senator, I will be your State Senator in fact and in truth, and the fighting that I will do will be on the floor of the State Senate, fighting for your interest. I implore that each person reading this announcement check my past record in the legislative halls of Texas, and as a public spirited citizen in the community in which I reside.

I am outspoken in my beliefs and never ride the fence on any issue.

Trusting that you will take this announcement to your heart for the good and future prosperity of this district, and that we all go forward together with progress consistent with our times for the good of all of us.

SINCERELY,

**Methodist Church**

We will have Sunday School, but no church service, next Sunday morning. It is hoped that all who would ordinarily be in church will attend the school baccalaureate services. The M Y F and evening services will be at the usual times. Monday morning the pastor is to turn in the final reports for the conference year at Quanah.

Taking up from last week, officers for next year will include elected stewards: Henry Moore, W. D. Altman, T. J. Cherry, Fred Watt, Jr., J. P. Gilbreth, V. C. Waddell, Leon Doherty, and W. P. Doherty. These, along with the commission chairman, W S C S and M Y F presidents, trustees, church school superintendent, lay leader, district steward, lay delegate to annual conference, and other officers, now compose the official board. Among the special committees are: wills and legacies, Clifford Johnson and Carl Morris; parsonage, Mrs. Clifford Johnson, chairman, Mrs. W. P. Doherty, and Mrs. W. H. Jones. Trustees are W. H. Jones, Frank Kendall, and Walter Pierce. The commission on stewardship and finance operates under the direct supervision of the official board, and its members usually are all stewards. The other commissions report to the official board but are free to develop their own programs. Their chairmen, working with the pastor and lay leader, are expected to exercise a great deal of initiative in carrying out their work for the year. Some may wonder, what is the difference between an official board and a quarterly conference? In composition they are the same. Ordinarily the only difference is that local preachers and the communion steward are always a part of the latter, not necessarily of the former. In function, the official board operates continuously in administering

the policies which the quarterly conference develops no oftener than four times per year. In form the board meeting is usually quite informal, while in conference there are set questions and written answers. The elected chairman, other designated officers in point of priority, or the pastor, are authorized to conduct the official board meeting, while the district superintendent usually presides at a quarterly conference. By church law the presiding officer must be an elder, and the majority of pastors are. Methodist organizational forms are not based on theory, but are an outgrowth of experience over the past 220 years. They are modified by the General Conference almost every time it meets, which is in presidential election years

## Baseball Funds

The Hedley Lions started their season, last Sunday. The team has most of the needed equipment but money is needed to help pay for suits, and keep the team going. So far, financial contributions have been received from Security State Bank, Hedley Lumber Co., C. L. Taylor, Moffitt Hardware, Hedley Feed and Seed, H. H. Hall, Darnell Grocery, S. G. Adamson, Moreman Grocery and Locker, Johnson Dry Goods, Cherry Drug, Hedley Cafe, and Mobley Cleaners

Anyone who wishes to donate should leave contributions at the Security State Bank. This will certainly help us to have a well equipped team, and to repair our ball park.

Visiting in the R. E. Darnell home for Mothers Day were Mr. and Mrs. H. C. McMahon of Abernathy, Mrs. O. S. Knowles Sr., Sondra and Bobby, and Mrs. O. S. Knowles Jr. of Borger.

Mr. and Mrs. R. W. Alewine have gone to Thornton, Texas, and while there will attend graduation exercises at Baylor University, where their grandson, Gene Caldwell, is a graduate.

## Basketball News

The basketball boys girls enjoyed a picnic Friday evening at the city park in Childress. All had a big time eating the picnic lunch, then went to a movie afterward.

Hoover Harrison and family of Amarillo were Hedley visitors Sunday.

## Cotton Clinic

(Continued from last week)

The use of a gravity flow sprayer for insect control was explained and a model shown. It has a controlled flow, and a shield to protect the crop. It is expected, on the basis of tests already made, that the germination rate will be low this year. The use of hoe hands was demonstrated to be quite expensive in comparison with sprays, which are of equal cost and effectiveness with dusting. The use of the cooler yet dry portions of the day for both mechanical harvesting and defoliation was recommended. Fast stripping causes waste, and the use of two blowers on the elevator may save \$5 per bale.

A \$9 difference on one full bale was pointed out, and farmers are urged to quit irrigating by Aug. 25 as higher yields due to later watering are more than offset by increased costs and less maturing.
