**PAUL HARVEY** calls Uncle Sam an "Indian Giver." Harvey points out that although the average American is earning \$15 a week more than a year ago, the money won't buy any more.

And what is worse, the increase has forced the wage-earners into a higher tax bracket, and they end up with less spending money than they had prior to the raise.

Apparently, the only answer in trying to get ahead of the system lies in getting a government job.

Today, there are over 15 million people working for Uncle Sam. This is double the figure of 20 years ago. So lucrative are some federal jobs that there are 76 applicants for every opening.

White-collar government employees recently received a seven per cent increase in pay that brings the average federal employee up to \$17,350 per year.

The increase is on top of fringe benefits such as vacations (up to 26 working days), retirement (50 per cent of top salary at 55, after 30 years), automatic cost-of-living boosts and three times more sick leave than private workers receive.

In addition, promotions are automatic in the federal ranks. The longer an employee works, the more he earns, thanks to a three per cent raise every year or two. This year's seven per cent raise was extra.

And, in most cases, the job belongs to the federal employee as long as he wants it, no matter how much they goof off. And, no matter how many of us think they're not worth what we pay them, it's almost impossible to get fired from the government.

A study disclosed that since 1976, federal workers have received 12 pay raises, for salary increases of 94.8 per cent.

This might be one reason the rest of us are having trouble making ends meet.

**WE WERE VISITING** with a friend this week, and in the course of the conversation we decided that Americans are fast losing out on the concept of majority rule.

Think about it a little while and see if you don't agree.

Americans by and large, we are virtually sure, do not go along with the liberal concepts promoted by that wing of the ERA movement. Yet, at the recent IWY national convention, as it happened at the state meeting, those radicals were able to pass their proposals.

The majority of the people are against welfare abuse, plus the expensive network of bureaucrats and other employees that welfare helps to employ. Yet, we see little being done to reform the welfare situation, although this was one of Carter's campaign promises.

We would bet that if a vote were taken, you'd find that an overwhelming number of Americans are against the Panama Canal giveaway treaty, soon to be debated by Congress. But this is another of the areas that our government seems determined to cram down the throats of the "average" citizen.

Do you still believe in majority rule? If you do, and if this system is to survive, then perhaps you had better stay in contact with your elected representatives, writing or contacting them often, to let them know how you stand on certain issues. Otherwise, we may find ourselves completely ruled before long by the not-so-silent minority.

**THE TREASURY DEPARTMENT** issues around 787 million checks each year. It also is nice and legal and keeps all its cancelled checks for the required seven years.

Each year, some 787 million old checks are taken out of file and 787 million new ones put in. What happens to the seven-year-old cancelled checks? Glad you asked.

We have just learned that they are recycled into toilet paper (among other things). Treasury officials say the cancelled checks produce 54 million rolls of toilet paper a year, which are used in the 10,000 federal buildings around the U.S.

**NEW WITH CITY....** Clayton Williamson, left, is Bovina's new City Manager, and Jerry Atchley, right is the new City Marshal.

Williamson is a native of Louisiana. Atchley comes here from Friona, where he served on the police force.

## New City Manager Begins Duties Here

A new city manager assumed his official duties in Bovina on Nov. 21. Clayton Williamson, 25, is a native of Shreveport, La., and graduated from North Caddo High School, Vivian, La., in 1970. Going on to higher education, he received a B.A. in political science from Louisiana State University in 1975.

Completing all degree requirements on Aug. 10, 1977, Williamson will receive his masters degree in public administration in December from North Texas State University at Denton.

Short courses he has undertaken include Army Reserve Non-Commissioned Officers Academy; National Oceanic and Atmospheric Administration Skywarn Seminar; Defensive Driving Course and was an instructor-participant at an Animal Control Seminar at Texas A&M.

Williamson's last position was as administrative assistant in the City of Garland. He has had varied experience in community improvements, community relations, inter-governmental relations, finance, management and personnel.

He and Cynthia (Cindy) Marie Tucker were married July 21, 1973.

Commenting on Bovina, the city manager said: "I have lived in small communities and enjoy this type of living. I see my job, at least part of it, as trying to solve problems for the residents of Bovina. I cannot promise that I will always be able to

do this, but I want the local people to know that, if they will come to me, I certainly will try to help them."

## Atchley New City Marshal

Jerry Atchley, 43, began his duties as Bovina's city marshal on Nov. 1.

He is a 1968 graduate of the Police Academy, Amarillo College, and was vice president of his graduating class.

Atchley began his law enforcement career in Erick, Okla. He served as chief of police in Shamrock for two years and for the last five years he had been a member of the Friona Police Department.

The marshal and his wife, Gloria, reside at 506 Halsell and are members of the First Baptist Church of Bovina.

They are the parents of two daughters, Kathy Williams and Ruth Green, both of Amarillo, and have one grandson, Brandon Parker Williams, age four.

"We like Bovina and its friendly people. We look forward to a pleasant relationship and mutual cooperation," the marshal said.

## No Changes In Top Positions In Race

There appears to be a lesson somewhere in the happenings of the past two weeks in the Bovina Business Football Contest: Pile up those points in the first 10 weeks because schoolboy playoffs and traditional college rivalries in the last three weeks will take their toll.

Childress shattered Littlefield's Cinderella year with a devastating 41-7 victory that left the Wildcats and some prognosticators in shock.

An injury to Brad Beck early in the game, plus balanced and flawless football by Brownwood, spelled doom for Perryton as the Lions whipped the Rangers, 35-7.

On paper, Petersburg appeared to be stronger than Sunray, but an extremely solid defense, combined with the "big play," lifted the Bobcats past the Buffaloes, 16-6.

The college scene provided four upsets for our participants.

A 38-yard field goal with two seconds left in the contest gave Southern Cal a 29-27 victory over UCLA, knocked the Bruins out of the Rose Bowl, put the Trojans in the Bluebonnet Bowl and a majority of the contest players lost a point.

Army beat Navy for the first time in five years, 17-14; Georgia Tech upset Georgia, 16-7, and Penn State held on for a 15-13 triumph over Pittsburgh.

While the victory was no surprise, WTSU won the Missouri Valley Conference championship against Southern Illinois, 28-9. The Buffs compiled five victories and a tie after an 0-4 start.

Although the pro games were well played, the results were about what was expected and entrants had little difficulty with the choices.

Carl Rea is this week's first place winner and picks up the \$7.50 award.

While losing a point, Jeanne Kerby is the sole occupant of third place, holding 119 points. At 118 and fourth is Billy Whitecotton, who lost no ground.

In the fifth spot are Dixie Carson, Mike Grissom, Manuel Hernandez Jr. and Emmett Tabor. With 117 points, Mrs. Carson and Tabor lost a point, while Grissom and Hernandez picked up one.

Sharing sixth place with 115 are Leon Grissom, Jacque Nabers, Pat Read and George Villarreal. Grissom dropped two; Mrs. Nabers three; Mrs. Read two and Villarreal advanced one point.

Join us this week for the last contest of the season. The game provides fun and something to talk about, while there is always the chance for one of the three weekly prizes of \$7.50, \$5 and \$3.

Rea came up with 12 points, his wrong guesses being Pittsburgh over Penn State and Baltimore over Denver.

Four predictors, with 11 right, were involved in a tie-breaker tussle for second and third places. Donna Malcom of Tulia takes the \$5 second prize with a prediction of 32-20, two off the score. Kyle Harris of Lubbock gets the \$3 third place money on 28-17 (9). Donna Grissom thought it would be 14-28 (28) and Earl Whitten preferred 14-18 (22).

Allen D. Cumpton remains the leader, as he has been for the past six consecutive weeks. Of those within 7 points of Cumpton's pace-setting 122, Donna Grissom and Donna Malcom gained two and Joel Nelson remained even. All three are in second place with 120.

## Firemen Fight Four Fires In Five Days

The Bovina Volunteer Fire Department fought four fires in a two-day period during the first half of Thanksgiving week. On Monday, Nov. 21, at 1:15 p.m., the department responded to two calls. The first call was to a cotton trailer fire behind the Parmer County Cattle Company.

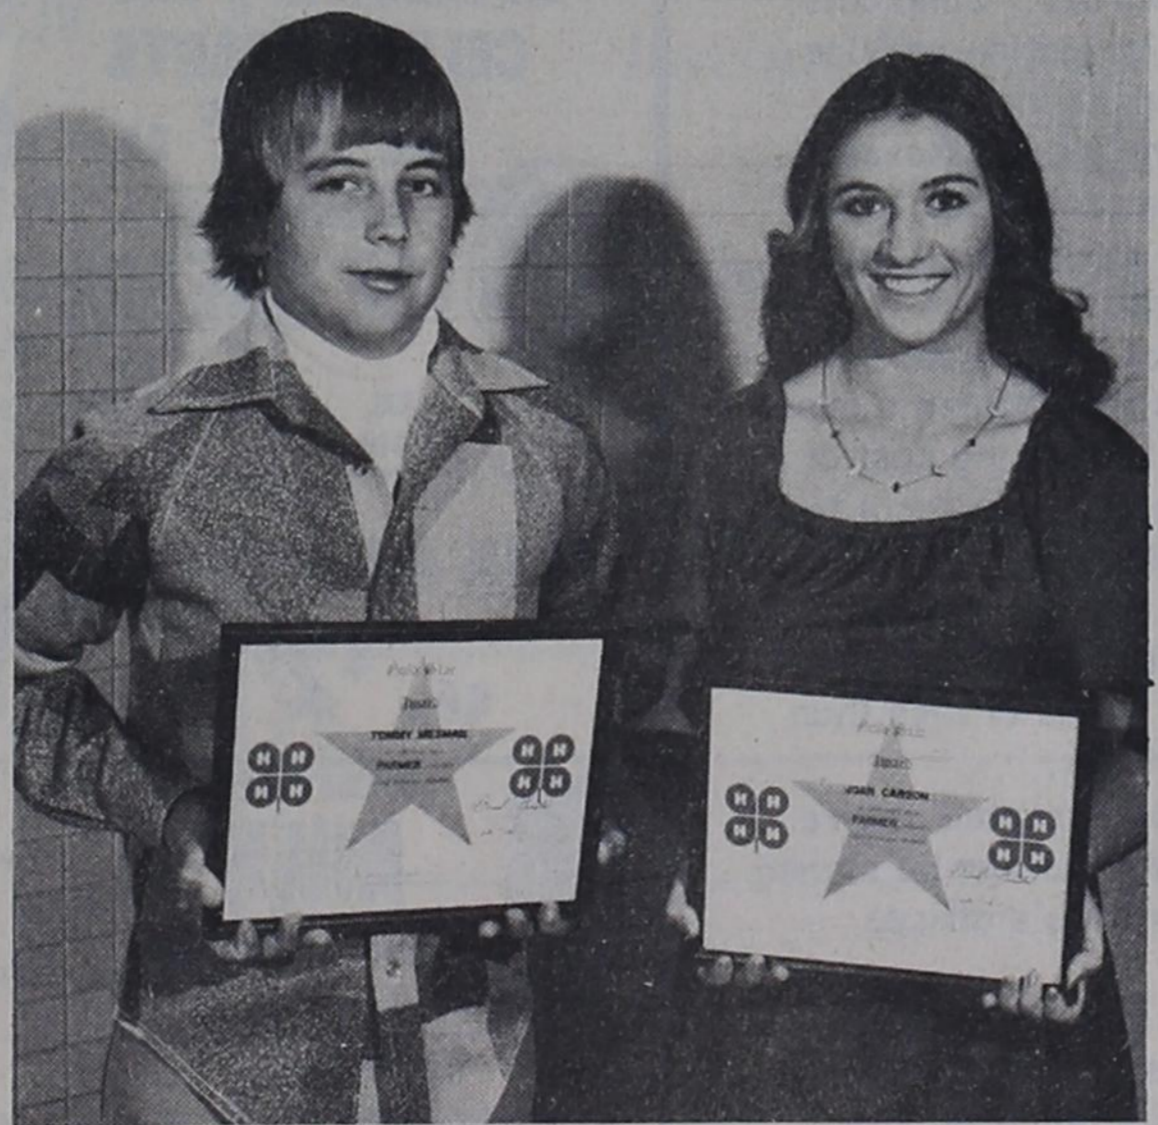

A cotton trailer, owned by A.L. Hartzog, was completely destroyed along with approximately two bales of hay. The fire took two hours to contain, with nine men and three pieces of equipment involved.

At 4:30 that afternoon, eight firemen and four pieces of

equipment answered a fire near Riverside Chemical on the west side of Bovina. A truck loaded with cotton burs owned by Jay Shepherd had caught fire and overturned. The fire was quickly extinguished with only minimal damage to the truck.

On Tuesday, Nov. 22, the department answered two calls. At 4 p.m., six firemen and two pieces of equipment responded to a grassfire on the right-of-way of State Highway 86 and quickly extinguished it. At 7 p.m. a grass fire occurred at the city landfill. It took 12 firemen utilizing four pieces of equipment an hour to control the blaze.

The City of Bovina wishes to remind you that this is the time of year most fires occur and to be especially careful at this time.

**AWARD WINNERS....**Joan Carson of Bovina and Tommy Mesman of Farwell were among the 40 outstanding 4-H members saluted in Lubbock last Monday night at the

annual 4-H Gold Star banquet. They received their county's highest 4-H award, the Gold Star award, during the banquet at Lubbock's Coronado High School.

## Temper Costs Resident

Florancio Cuellar, 28, of Bovina was arrested late Saturday afternoon on a charge of criminal mischief.

According to Bovina City Marshal Jerry Atchley, the marshal heard a vehicle squealing tires in front of his home on Avenue D at 5:20 p.m. The marshal observed a light blue pickup, occupied by a man and a woman, hit a light pole at Avenue D and Halsell.

As the marshal approached the vehicle, the driver, Cuellar, backed the pickup and hit the pole again.

Marshal Atchley, assisted by Deputy Sheriff Henry Minter,

arrested Cuellar on a charge of criminal mischief.

He appeared before Parmer County Judge Paul Fortenberry on Monday, pleaded guilty and was fined \$50 plus \$54 court costs. In addition, Cuellar was required to make restitution to Southwestern Public Service in the amount of \$150 for damage to the pole.

According to Marshal Atchley, the incident apparently stemmed from an argument between Cuellar and his wife, who was the other occupant of the pickup at the time of his arrest.

## Health Van Visits City

A 45-foot medical van, owned by Farmland and equipped with the latest medical equipment available, will be at Bovina's City Park Wednesday through Friday of this week to carry out what a spokesman referred to as a "Co-Op Health Testing Program."

The vans, of which this is just one, make the rounds of areas where co-ops are located and use the co-op's mailing list to contact members and their families.

Larry Webb, manager of Bovina Wheat Growers, wants to emphasize this service is also available to all who want it and there is no requirement that they be members.

The spokesman noted that the testing program is inexpensive and consists of such examinations as an EKG; blood pressure; pulmonary lung functions involving lung capacity and elasticity; chest x-ray; facial x-ray; hearing and vision; complete blood workup, including "S.M.A.C.-22," a test which breaks down the blood 22 times.

He said, further, this is a non-profit effort, the testing takes approximately 45 minutes, and will be by appointment only.

Manning the van will be x-ray technicians, a registered nurse and three laboratory technicians.

To get a further explanation of the program and to make an appointment, call 272-5536.

They were among 20,000 persons from 15 states attending the convention.

## CONVERSION OF ELECTRIC SERVICE CONTRACTS WILL BE ACCEPTED FOR IRRIGATION SERVICE UP THROUGH 15HP BY DEAF SMITH ELECTRIC COOPERATIVE

Effective Monday, December 5, 1977, Deaf Smith Electric Cooperative, Inc., will again accept contracts for electric service to irrigation systems now powered by other fuel sources. Contracts will be accepted for irrigation service requiring up to and including 15HP. Irrigation conversion contracts exceeding 15HP cannot be accepted due to the Cooperative's power supplier's summer peak loading problems.

The Board of Directors of Deaf Smith Electric understands the problems associated with the ever increasing cost of production experienced by our local farmers, and believe this decision to serve the small inefficient gas well should benefit the local economy and our consumers during these times of less than ideal economic conditions.

No contracts will be accepted before December 5, and contracts can be signed at the electric cooperative's offices in Hereford, Texas.

The length of time conversion contracts will be accepted is dependent on the number of requests and how it relates to the Cooperative's anticipated 1978 summer peaking situation.

For further information, please call Deaf Smith REC, 364-1166.

Mr. and Mrs. C.R. Elliott

## Longtime Bovina Residents Slate 60th Anniversary

Mr. and Mrs. Charles R. Elliott will observe their 60th wedding anniversary on Saturday, Dec. 10.

The Elliotts' three children, seven grandchildren and two great-grandchildren honored the couple with a dinner held in the Holiday Inn, Clovis, on Thanksgiving Day.

Present for the festivities, in addition to the Elliotts, were Lorn Elliott, Denver; Bass Elliott, Lubbock; Inell Salzman, Vicki and Jeff Salzman, Albuquerque; Mrs. Tommy Little and Jerrod Little, Muleshoe; Larry Elliott, Denver; Mr. and Mrs. Gene Hopkins and Justin Hopkins, Lubbock.

The Elliotts came to Bovina in 1928 and Elliott established a hardware and butane business, installing the first butane stove in the Bovina area.

He organized the first bank in the

city and served as its first president until a heart condition forced him to retire.

The couple has a copy of the original article concerning their wedding on that long-ago day in 1917. It is quoted in full, but the name of the newspaper in which it appears is not known.

LINDSAY

Lindsay's Zimmatic Crop Lease is a revolutionary leasing program. If you don't take a long, hard look at it, you'll be shortchanging yourself. The Zimmatic Crop Lease is unique in the industry. When you study this offer you'll see that Lindsay is ready to go the distance with you and share some of the same risks you face every year.

Consider the features of the Zimmatic Crop Lease. First of all, if corn prices plunge, so does your lease payment. But also consider the low security deposit [lowest in the industry] and the fact that it's a 12-year lease [longest in the industry]...both features improve your cash flow each year of the lease. Your Zimmatic is out there raising your first year's crop before your first payment is due. And you'll be getting an annual interest payment on your security deposit to use as you wish.

Whether you raise corn, alfalfa, wheat, sugar beets, potatoes, soybeans or whatever, the Zimmatic Crop Lease can work for you. Although the lease payment is based on the changing price of corn, Lindsay designed the program considering that over the long-term other crop prices generally fluctuate with corn.

Come in and see us soon. When we put a pencil to this program, you'll see that no other center pivot irrigation company has a finance program that can compete with the Zimmatic Crop Lease.

"No thanks — he likes his copy of the old 1937 budget much better!"

## "Abhor That Which Is Evil" (Romans 12:9)

We must not allow ourselves to become hardened to the awfulness, ugliness, and deadliness of sin! It has become so common in our society and in our lives that there is the danger we will stop being horrified or shocked at sin and just take it for granted.

Just as we become "used to the dark" as our eyes gradually adjust to a dimmed room, our conscience and "spiritual eyes" can become so accustomed to immorality and other kinds of sin that we are no longer even upset by it.

Pornography, cursing, immodest dress, drunkenness, dishonesty, cruelty, stealing, marital infidelity and homosexuality. All of these things and many more (Gal. 5:19-21; Rom. 1:28-32) must remain offensive to Christians. We must not allow ourselves to become so accustomed to them that they no longer "bother" us. Why? Because they are sin and they are deadly! These things not only ruin our lives here, but they "kill" us spiritually and cut us off from God. (See Col. 2:13).

We must not ignore, excuse, or take lightly sin. It is the most horrible thing in the world!

**FACTS**  
By John Ricci

The "soil conditioner" people are at work again this year claiming new miracle products that will "activate" your soil and revitalize it to produce yields you wouldn't believe. Since the "miracle products" aren't classified as fertilizers, they don't have to be registered, although some states have passed laws requiring some verification of the claims being made. One new product offered was studied by the University of Arkansas and no significant difference found between treated and untreated soil.  
Don't get taken in when the promoters tell you, "we don't know why it works, but it works." Buy your fertilizer from a reliable dealer, and pay attention to what your college agronomic researchers, USDA and reliable companies are saying. Being safe, in this case, is better than being sorry.

# Fillies Fall To Lazbuddie, 61-57

Bovina's Fillies varsity and JV split a pair of games with Lazbuddie here last Tuesday. The locals won the junior varsity game, 36-20, but lost to the varsity Longhornettes, 61-57.

The varsity game was a close one from start to finish, with the Fillies suffering their second loss of the season against a single win.

Bovina came out on top, 18-16 at the end of the first quarter, and the teams swapped baskets to begin the second period. Baskets by Belinda Shelby and Elyse Moody gave the Fillies a four-point lead, 27-23 with 2:04 left in the first half, but Lazbuddie tied it back up.

Miss Shelby gave Bovina a 28-27 lead with a free throw, but Lazbuddie outscored the hosts, 8-2 in the final 1:45 of the half to take a 35-30 lead at the intermission.

The Fillies worked to trim the lead, and finally went back in front toward the last of the third quarter, which ended with Bovina back up, 52-49. But Lazbuddie was not to be denied, and came out with a 61-57 win. Lazbuddie scored 17 of their points on free throws, to only five by the Fillies.

Miss Shelby had a great night for Bovina with 31 points.

Kathy Williams led the Fillies' JV with 11 points. Bovina had a 9-0 lead after one quarter, and were never in trouble.

## Longhorns Topple Mustangs, 42-30

The Mustang varsity boys were defeated 42-30 by the Lazbuddie Longhorns last Tuesday night in Bovina. It was the third loss of the young season for the Ponies.

Mustang's pre-district schedule is tough and should season them into real competitors when district play arrives.

## Mustang JV Takes Overtime Victory

The Bovina Mustang JV gained a heart-stopping 35-34 overtime win against Lazbuddie's JV last Tuesday night at home.

The JV displayed a fine defensive effort throughout the game, although not many points were scored for either team. The Longhorns were ahead by two points

going into the final minute of the fourth quarter, but Mustang Ricky Mayfield stole the ball from a Longhorn defender in the last seconds, dribbled down court and tied the score 32-32 as time ran out.

In overtime, the Mustangs quickly gained the lead with a free throw by Shepard followed by a quick two points by Mayfield. From then on the Mustangs used up as much of the clock as possible. The Longhorns showed they don't give up easily, however, by sinking a shot just as the buzzer sounded. The extra two points were not enough to win and Bovina won the game, 35-34.

# Here's An Indisputable Fact About NUCLEAR POWER PLANTS

**Nuclear Plants Set New Energy Record**

A significant milestone in the history of man's use of energy was passed this year: electricity generated by nuclear power plants in America surpassed that generated by hydroelectric plants.

The Federal Power Commission reports that nuclear plants accounted for 12 percent of all the electricity produced in the United States in the first six months of 1977. The nuclear total was 123.8 million megawatt hours (A megawatt is 1 million watts).

This exceeded hydro-generation, which totaled nearly 110.4 million megawatt hours, or 10.7 percent of the nation's electrical output.

Nuclear power is now challenging natural gas (13.2 percent) for third place fuel in electricity generation, behind oil (17.8 percent) and coal (46.1 percent).

It would indeed seem that nuclear power is vital in meeting our energy needs.
