THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA.

WEDNESDAY, NOV. 5, 1958

BOVINA, TEXAS

VOLUME 4, NUMBER 20

## The Blunt Edge

By LELAND BOYD

Hard luck Dave Wines is in a bad way. Wines lost his glasses one night last week and can't find them unless he has his glasses to look for them.

Well, anyway he lost his glasses and is very anxious to find them in the interest of better vision. He called this writer Saturday night of last week and solicited help in finding them by publicity.

The location he thinks they were lost is the gas tanks of Charles Oil Co. on the farm road north of town. He says he had them in his shirt pocket, or laid them down on the fender of a truck.

He left the storage tanks for home, and upon arriving was unable to locate them. He says he'll give a reward to the finder.

A small boy really embarrassed his mother on a visit to the hospital recently. I would call names, but in the interest of longer life will only relate the occasion.

The mother was at the hospital on a maternal visit. The doctor finished his checks then turned to the five year old boy and asked, "Is your mother pregnant?"

"No," was the emphatic reply. "My mother is a Baptist."

Grady Sorley isn't too happy with a picture that appeared in the Bovina Blade two weeks ago. The picture was taken at Sorley's farm showing a huge drove of ducks perched on Sorley's lake.

"You had that picture showing all those ducks, and the other morning there were enough duck hunters around the lake to shoot them all," Sorley explained. "I didn't intend any damage with the picture, but I still didn't show the lake most loaded with ducks. I guess I'll save that one for personal uses when and if I ever get off duck hunting."

Last week's homecoming football game was a real heart-breaker. It seems that homecomings are made to see the home team get beat, because Bovina spoiled one team's homecoming match this year. The team was Cooper.

However, the sickest people in the county were the fans of the Farwell Steers, who went into mourning because Friona Chiefs staggered the Farwell team 15-12 the same night that Bovina met with Lazbuddie with unhappy results.

What made Farwell's plight worse than the local team's was the fact that it was the first loss of the season for the Steers. We around Bovina should be almost accustomed to any outcome, whether it is a win, draw or loss.

The Mustangs will be playing their last game of the season this Friday night. We sort of hesitate, but are hoping to see the last one turn out better than the most of this season's games.

We'll take a shot at it on the score guessing and, even though we don't claim to be a semblance of expert at it. Bovina 15, Vega 18.

I don't know whether anything will happen new in the way of vegetable marketing in Bovina for another year, but a man getting signed up for city utilities the other day indicated that he was looking for a town to locate a vegetable shed in, but still hasn't decided where to put it. He checked the city water supply, and of course, there is plenty.

He asked that his name or the company's not be mentioned. He doesn't offer a contract sort of deal on vegetables. He said his company just let the farmer grow them, and at the right time would bid on the vegetables in the field.

That's just the opposite of the way the vegetables were handled this year.

I don't know which would be the better of the two deals.

One thing that was proven, this year is that Bovina farmers and fine Parmer County land can produce a variety of vegetables. Another thing

W. H. ALDERSON

## PARMER PIONEER, W. H. ALDERSON DIES TUESDAY

Final rites for William Henry Alderson of the Rhea community will be conducted from the Methodist Church in Bovina at 3 p. m. today (Thursday) with the pastor, Rev. Davis Egan, officiating. Uncle Billy, as Mr. Alderson was known, died at the Parmer County Community Hospital at 6 a. m. Tuesday.

He was born at Eldorado, Ark., January 17, 1871, and moved to the Rhea community from Oklahoma about 50 years ago. He was a farmer and rancher until ill health forced him to retire.

Survivors, other than his wife, are a brother, Walter Alderson of Eldorado, and a sister, Jessie Anglin of Junction City, Arkansas.

Honorary pallbearers will be A. D. Smith, Henry Reynolds, J. H. Floyd, Homer Martin, A. O. Drake, and Herman Schueler. Active pallbearers are to be C. L. Calaway, Robert Schueler, Melvin Sachs, Willie Williams, Edward Spring, and Frank Spring. Burial will be in the Bovina Cemetery under the direction of Claborn Funeral Home of Friona.

## Write-ins Stir Commis' Race

Write-in votes in the commissioner's race of Precinct 2 stirred considerable interest in an otherwise dull election.

The Tuesday general election pitted some state Demo candidates against republicans, but write-in votes in the local race pitted Charlie Jefferson against his opponent of the Demo primary, C. L. Calaway.

Calaway received 84 votes, with 43 being from the Rhea voting precinct out of 47 votes, and 41 votes in Bovina.

However, the total was not enough to upset the nominee of the demo party, Jefferson. Jefferson's total was 221.

Other write-ins from the Bo-

vinas polls were two votes for A. D. Smith for County Judge. Smith was defeated by Loyde Brewer in the primary election earlier.

Bovina's total vote in the election was 261, with 255 of them being counted for Gov. Price Daniel.

The high turnout of voters will allot 18 delegates to the Bovina precinct for the next demo convention year, an increase of four delegates from last year.

Coach Bobby Wills' charges have been sharpening up all this week in preparation for the game, after being handed a bitter defeat last week against the Lazbuddie Longhorns.

Mr. Alderson was another of Parmer County's pioneers of whom it could be said: "Parmer County came to him," instead of "He came to Parmer County."

He was a contemporary of the late Pres Abbott, who died last year.

During his life in the county, Mr. Alderson saw the changing of the county from a sparsely settled area to a booming farming area. As a rancher, he saw the cattle industry at its peak and saw the cattle industry decline in importance to the county's livelihood.

## Scotty Levins Fighting Meningitis

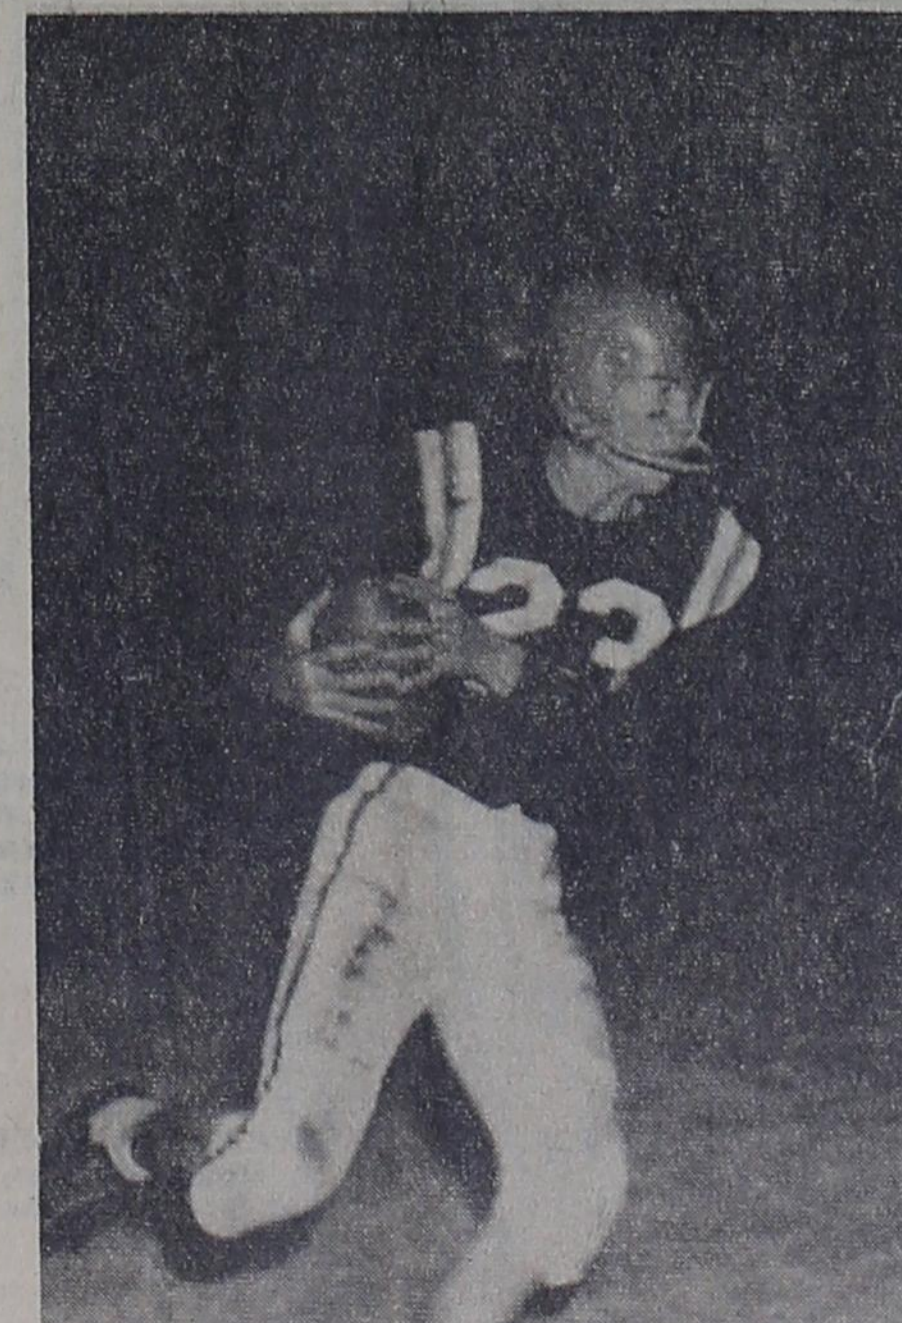

Scotty Levins, four year old, is fighting an attack of meningitis at Clovis Memorial Hospital, with a lesser degree of the dread disease.

His mother described his condition as "good as can be expected" Wednesday morning

after the youngster had been in the hospital since Monday morning.

She says that doctors report that the form of meningitis that attacked Scotty was less serious than other forms, and that treatment with antibiotics is generally successful.

The doctor told her that the illness might take as long as three weeks before it could be pronounced cured.

JENNINGS AGAIN--Lanky Darrel Jennings of Lazbuddie made Friday night's game miserable for the Mustangs. Here he comes around right end for 20 yards.

## Victim of Knife At Bovina Okay

A schoolboy scuffle Tuesday at noon with switchblade knives ended with a Bovina High School senior in the hospital recovering from a knife wound that pierced his liver.

Garland Dalton was the victim of the stabbing. He is in Parmer County Community Hospital reported in satisfactory condition.

The knifing is described as "accidental."

Superintendent Warren Morton says the accident happened during a scuffle between Dalton and Joe Jones, an eighth grader.

Dalton and Jones both had knives, Morton says, and were in a restroom. Playful like, they wielded their knives, and Dalton was cut in the antics.

He went home after he was stabbed, after telling Jones to keep it quiet.

However, he was almost overcome during the walk home, and was taken to the hospital, Morton says.

After examination and treatment, doctors operated for three and one-half hours to repair damage to his liver.

"The boys had no malicious intent but were only playing as boys will," Morton says.

However, he says that school officials are to begin more strict enforcement of a knife carrying rule. It is illegal to carry knives, but difficult to control if the students conceal them.

Deputy Henry Minter was summoned to the school for investigation, and collected the knife used in the stabbing; that had a blade approximately four inches long.

Dalton is a new student at the school, and son of Mrs. M. L. Jones Jr. Joe Jones is son of Mr. and Mrs. J. T. Jones. The boys are cousins.

## Fillies Win Again

The Fillies won again. Amherst was their opponent during the second game of the season, and as was the story of the first game against Amherst, the Fillies topped the scoreboard with 51 points to Amherst's 32.

Playing with starting forward Nancy Cumpston out of the action with a sprained ankle, the Fillies' lineup was filled out with three well qualified forwards--including Joy Redden, Arlene Clayton and Mildred Young.

Janice Richards was high scorer with 22 points. Also in the scoring was Joan Kay Ezell, 14; Redden, 6; Clayton, 5; and Young, 4.

The "B" team Fillies snapped a victory from their Amherst opponents 26-17 in their game. They had been loser in the first tilt against the Amherst Bulldogs 17-16. Penny Lloyd was high scorer in the "B" game with 8 points.

WILLIE

Take advantage of this good weather--looks like a change for the worse this weekend. --WILLIE

## Lazbuddie's Jennings, Passes Spoil Mustangs' Homecoming

A long, lanky tailback, Darrel Jennings, passed and engineered the Lazbuddie Longhorns to a 40-12 upset victory over the Bovina Mustangs Friday night in Bovina.

Creating havoc with the Mustangs was Jennings' passes, runs and play calling that hit the spot for plenty of yardage on most occasions.

Also figuring in on the up-

set were "hard luck" Mustang fumbles. Lazbuddie capitalized on three fumbles and captured touchdowns on just a few plays thereafter.

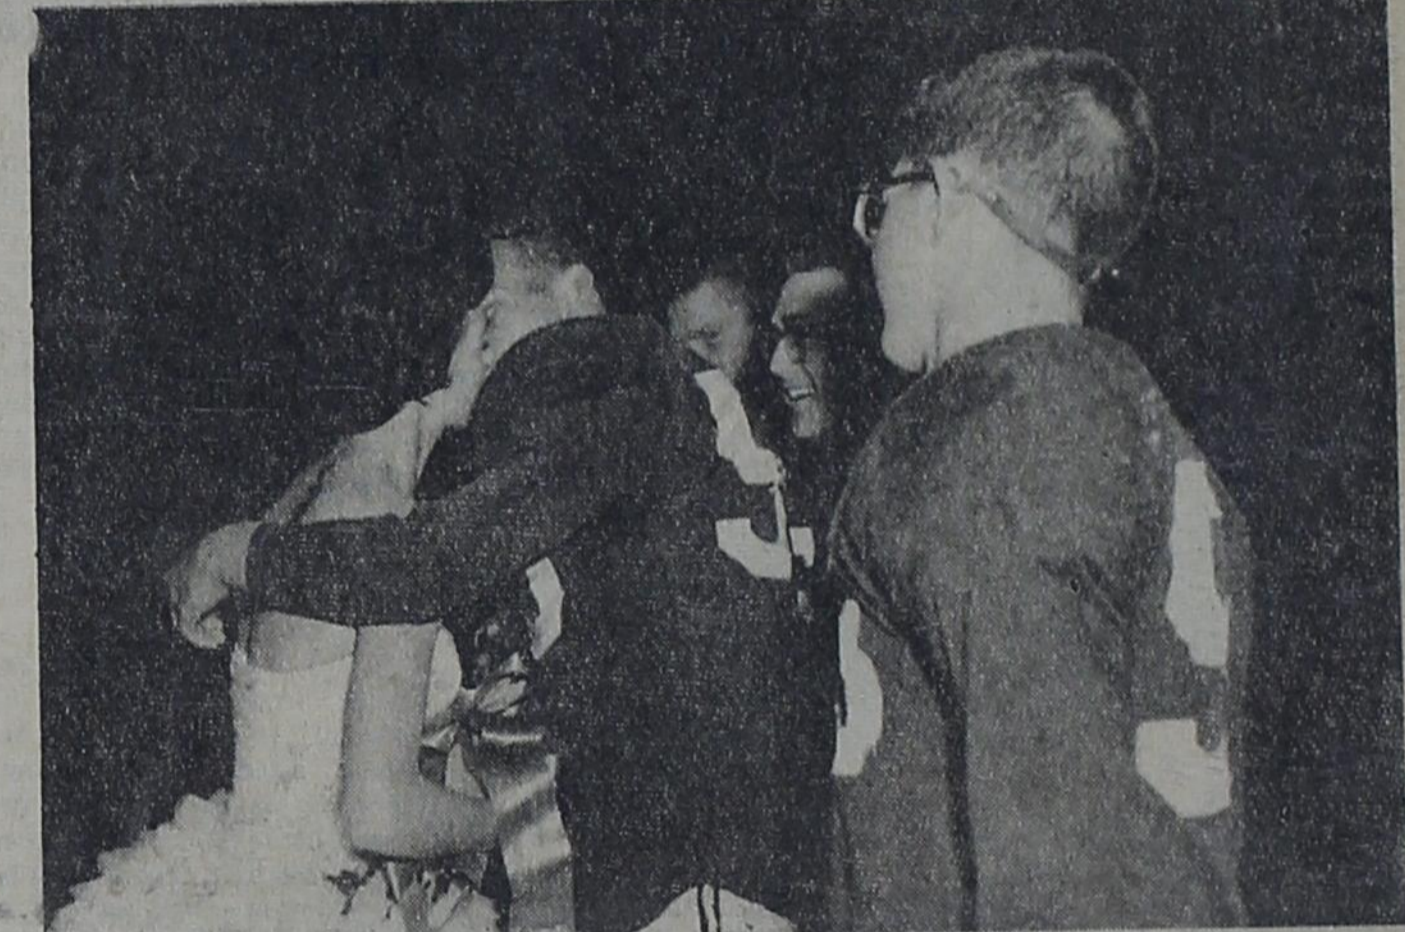

One of the fumbles set up Lazbuddie's first touchdown. Jennings punted from the Mustang 46 yard line, and Bovina safety man Ramey Brandon was unable to control the ball. Doyle Watkins picked up the fumbled ball and crossed the goal line for six points.

Questionable was the validity of the first touchdown. It was ruled an official touchdown, of course, but whether a defensive team can play a fumbled ball that hit the ground was the point that had Bovina fans puzzled. Nevertheless, the touchdown would not subtract enough from the Longhorn column to change the story of the game.

Jennings scored the second Lazbuddie touchdown on a one yard hop after the Longhorns moved to the one-yard marker on a couple of passes--Jennings to Watkins for 12, Jennings to R. Bradshaw for 25--spliced to-

LOADS OF KIDS AFTER BAGS OF TREATS--This trailer of "spooks" made the rounds in Bovina Friday, Halloween, escorted by PTA. The trailer was furnished by Leon Grissom.

HOMECOMING QUEEN GETS BUSS--Traditional with homecomings, the team captains kiss the queen. Here Joan Kay Ezell goes through the ordeal with footballers Billy Burnam, James Lawlis and Kent Glasscock. Don Bandy, not pictured, was named football hero for the home-

gether with short runs. James Lawlis took the ensuing kickoff on Bovina's 25 yard line, and plowed, dodged, and ran to the nine yard line on the opposite end of the field.

Billy Burnam then scored Bovina's first TD on an end run from the nine. Bovina was unable to score the point after.

Lazbuddie increased the lead to 18-6 after capturing one of the Mustang's fumbles. A 51 yard drive for the TD included runs by Jennings totaling 25 yards and a pass for 26 yards.

Still missing the points after, Lazbuddie finished the first half scoring on Jennings' run for their third touchdown.

Soon after the half, Jennings threw to L. Bradshaw for another counter, and ran for two points after. Lazbuddie 26, Bovina 6.

The Mustangs summoned an offensive drive and totaled 75 yards in nine plays to bring the Bovina score to 12. Lawlis accounted for most of the gains, and likewise accounted for the second Bovina touchdown on a 19 yard run. Burnam chipped in 13 yards on the march, with Lawlis furnishing the remainder.

Briggs, Lazbuddie wingback scored next for the Longhorn on an end run for two yards. Jennings tossed to Briggs for the points after. Lazbuddie 34, Bovina 12.

The scoring of the ball game ended with a counter from Jennings to Bradshaw that covered 16 yards.

Game at a Glance

BOVINA	LAZBUDDIE
7	First Downs 17
139	Yards Rushing 142
37	Yards Passing 136

### Church Party is Held Friday

Members of the Bovina Pentecostal Holiness Church gathered Friday evening for a Halloween social. The place of the party was the basement of the church and games were played. The little children were also taken on a round of "trick or treating" over town.

Against a gayly decorated room, games and visiting was followed by refreshments of hot dogs, cake, coffee, tea, and cookies. The women of the church had decorated the room in traditional Halloween style, with jack-o-lanterns, witches and a skeleton. Many of the guests arrived in Halloween costumes.

Among those attending were Rev. and Mrs. S. W. Blake and children, Mr. and Mrs. John Crim, Mr. and Mrs. John Norman Crim and son, Mr. and Mrs. Olan Kersey and sons, Mr. and Mrs. A. R. McCutchan, Mrs. Florene Curry, Mrs. Minnie McCutchan, Mr. and Mrs. Winn Henley and Mrs. Jack Stanberry and children. Also, Kenneth and Carolyn Webb and Keith, E. L. and Calvin McCutchan.

**CROP CAMPAIGNERS**--This group of CROP fund collectors reported good reception to their drive Thursday night of last week. Left to right are Barbara Rea, Carol Jean Hastings, Nita Beth Estes, Marilyn Brandon, Janice Richards, Joy Redden, Patsy Richards and Virginia Rea.

### CROP Campaign Is Termed Success

Approximately \$154 was raised Thursday evening of last week for the Christian Rural Overseas Program. The money was raised through a house to house canvass in Bovina, by members of the Methodist Youth Fellowship. The amount is the same as was raised last year.

Six teams of young people from the Methodist Church divided the city into districts and each team called from house to house. Following the canvass, the young people were served hot chocolate and spudnuts at the church fellowship hall.

Mr. and Mrs. Dean Hastings, sponsors of the MYF, and Gene

Rea, superintendent of the Youth Department of the Methodist Church want to express their appreciation for the cooperation of the people in the drive. Money obtained from the campaign will be sent to the national headquarters of CROP and will be used to distribute food-stuffs to needy children throughout the world.

Young people taking part were Joan Kay Ezell, Nita Beth Estes, Roger Ezell, Don Caldwell, Janice Richards, Harriette Lou Charles, Verna Marie Estes, Joy Redden, Patsy Richards, Carole Jean Hastings, Virginia and Barbara Rea, Dixi Hartzog and Gary Stevenson. Assisting the adults at the church was Rev. Davis Edens, pastor of the Methodist Church.

### CONGRATULATIONS

Mr. and Mrs. Wayne McCutchan of Pierre, S. D. became the parents of a son, Ronnie Wayne recently. The little boy was born in a Pierre hospital October 24 and weighed almost seven pounds. Paternal grandparents are Mr. and Mrs. A. R. McCutchan of Bovina and maternal grandparents are Mr. and Mrs. Fred Roberts, of Pierre and former residents of Bovina. Mrs. McCutchan is the former Beverly McCutchan.

### CAFETERIA MENU

The following is the menu for the week of Monday, November 3 through Friday, November 7, as planned by Mrs. Gene Ezell, head of the cafeteria department of Bovina Public Schools.

This menu is subject to revision. Monday, November 3: Macaroni and cheese, green beans, tossed salad with French dressing, rolls, butter, chocolate pudding and milk.

Tuesday, November 4--Hot dogs on buns with chili, onions; potato chips, sliced tomatoes and lettuce, jiffy cobbler and milk.

Wednesday, November 5--roast beef with potatoes and carrots; lime jello salad, rolls, butter, fresh apples and milk.

Thursday, November 6--tamalies with cheese, red beans, cabbage slaw, corn-bread, butter, sliced peaches and milk.

Friday, November 7--Spanish rice, baked potatoes, frozen green lima beans, pickled beets, rolls, butter, fresh grapes and milk.

### Karen Beauchamp Chokes

Karen Beauchamp, nine year old daughter of Mr. and Mrs. Thomas Beauchamp narrowly escaped with her life Sunday, following a severe choking spell. The little girl got a piece of roast beef lodged in her throat and was rushed to Parmer

County Community Hospital in Friona by her parents.

Mrs. Beauchamp reported Sunday evening that the meat was dislodged just before they got to the hospital, but that Karen was still a very sick little girl.

### FROM OKLAHOMA

Guests in the home of Rev. and Mrs. S. W. Blake and children recently were his niece and family, Mr. and Mrs. Wayne White of Healdton, Okla. The guests arrived Friday, October 17 and returned to their home the following Tuesday.

### HERMAN TRITSCH ENTERS ARMY

Herman Tritsch, son of Mr. and Mrs. W. A. (Bill) Tritsch, was inducted into the army last week. He was sent to Fort Carson, Colorado, where his mother expects that he will receive his basic training.

### CANDY SALES ARE UNDER WAY

Rev. S. W. Blake, pastor of the Bovina Pentecostal Holiness Church, reported the end of last week that the young people of his church are selling candy as a money-raising campaign. The sales have been under way for about two weeks, he reports and it is expected they will continue through the Christmas season. Money derived from the sales will be used to place storm windows in the church.

### Date Is Set For Junior Play

The date for the annual Junior Class play has been tentatively set for Friday evening, November 14. Due to conflicting schedules, the date is not certain, but a spokesman for the class feels that it will be held at that time.

The play, a three-act comedy titled "Men Are Like Streetcars" will be presented by the members of the class in the high school auditorium, starting at 8 p.m. The plot centers around Maudie Mason, as portrayed by Claude O'Hair. A more or less "typical" teenager, Maudie has convinced herself that she can solve almost anyone's problems; be they of the love or financial angle. The plot thickens as she entangles first her sister Sylvia's love affair with her father's business prospects and she really gets herself and everyone else out on a limb when she earns the ire of other adults. Harsh feelings among the characters promise many laughs for the audience.

For the first time in recent years, reserve seats will be offered. According to Lexie Stevenson, secretary of the class, the first six rows of the auditorium will be roped off and no one will be seated in them. However, from the sixth row back for about 200 seats, reserved seats will be sold. In this way, Miss Stevenson points out, those taking reserved seats will be assured of an excellent vantage point from which to view the play.

Advanced ticket sale will begin this weekend and members of the class will contact many people in town for the sale. Anyone not contacted and wishing to purchase tickets in advance may call Miss Stevenson at ADams 8-4141. Reserved seats will be 85¢ in advance; or 90¢ at the door. Regular seats will be 65¢ in advance or 75¢ at the door. Grade school aged children will be admitted for 35¢, either at the door or in advance. High School students will be con-

sidered adults.

There are 17 characters in the play, including Maudie, as played by Miss O'Hair; Mr. Mason, Sid Killough; Mrs. Mason, Lexie Stevenson; Sylvia, Jackie Davies and girlfriends of Maudie, Alix, Joy, Julie and Lysbeth, as played by Barbara Rea, Harriette Lou Charles, Sue Estes and Jo Carol Wiley.

Virginia Embree will play the part of Margaret, a maid; Jerry Barron will portray Maudie's "part time steady," Davy and Roy Charles Dodson will play Jerry, an ambitious "older-young man" who's main interest at first is joining the business. Chuck Stoner will be Ted Felton, son of a banker and Mix Gilreath will play Chi, a buddy of Davy's. Irate mothers of the girlfriends are to be played by Lena Steel, Verna Marie Estes and Charlotte Morris.

Members of the class who will assist with the presentation "behind the scenes" are Carolyn Crump, Joy Redden, Arnold Kreigel, John Lorenz, Doyle Wassom, Celia Berry and Carole Hammonds.

Sponsors of the class are Mrs. Jimmie Ware and Mrs. Loucile Foster.

Money derived from the ticket sales will be used for the annual Junior-Senior banquet next spring.

### Litscher Baby Is Baptised

Colette Ann Litscher, month old daughter of Mr. and Mrs. Bill Litscher, was baptised Thursday afternoon of last week in St. Anne's Catholic Church of Hereford.

God parents were Mrs. Marjorie Sewick and Jiles Litscher, both of Milwaukee, Wisc. In their absence, Lou Marot of Bovina, uncle of the little girl and Mrs. Henry Nelson, of Milwaukee, great-grandmother of Colette, were proxy God parents.

### Study of Cultures Is Continued

A continuation of the study "Understanding other Cultures" was held Tuesday afternoon at a joint meeting of the Methodist Woman's Fellowship and the Marzie Lynn Circle. The meeting was held in the parlor of the church and Mrs. Leon Ware was in charge of the lesson.

Mrs. L. M. Grissom gave the devotional, titled "The Trial of Saul and Stephen." The scriptural reading was taken from the book of Acts. Mrs. Wilbur Charles, Mrs. George Turner, Mrs. R. G. Barron, Mrs. Henry Ivy and Mrs. Warren Morton also took part on the program. Mrs. Charles, Mrs. Turner and Mrs. Barron participated in a panel discussion and the others gave short talks on the program subject.

Others present were Mrs. Billie Sudderth, Mrs. Jimmie Clements, Mrs. C. F. Hastings, Mrs. Alton Wylie, Mrs. G. A. Bandy, Mrs. O. H. Jones, and Mrs. E. M. Ware.

While some men battle their way to the top, others bottle their way to the bottom.

# 1958 Harvest Biggest Ever

Well over \$13 million will be added to the gross receipts of Parmer County area farmers this fall, as they wind up history's most fruitful grain sorghum harvest.

The total production will be somewhere in the neighborhood of 15,000,000 bushels. The exact amount will never be pinpointed, but several barometers furnish the basis for very good estimates.

The most important one is the annual elevator-by-elevator contact made by Farm and Home reporters, who call on all warehousemen and ask them to supply information that will enable a total to be run.

This year resulted in extra work for the seekers of information. They found that it was necessary to cover a lot more ground. Elevators have sprung up in the communities of Hub and Pleasant Hill this year. Last year an elevator

## THE HIGH PLAINS FARM AND HOME

was built at Rhea. There are now 18 elevators. Contacted were the following:

BOVINA -- Macon Elevator, Sherley Grain Company, S. E. Cone Grain & Seed, Bovina Wheat Growers.

FRIONA -- Friona Wheat Growers, Continental Grain.

TEXICO-FARWELL -- Worley Grain, Sherley-Anderson-Pitman, Golden West Seed Company, Lone Star Elevator.

PLEASANT HILL -- Worley Grain.

BLACK -- Prewett Grain, Black Grain, Tri-County Elevator.

HUB -- Hub Grain Company.

RHEA -- Rhea Grain & Fertilizer.

LARIAT -- Sherley-Anderson, Lariat Elevator.

Together, these commercial elevators make Parmer County a behemoth in the grain storage business. There are over 23,000,000 bushels of storage available--very probably more than any other producing county can boast for its country elevator capacity.

As of Tuesday, 12,915,000 bushels of grain sorghum had rolled across the scales of these area elevators. Their 1958 receipts should go well over 13,000,000 bushels by time the harvest is completed and all grain has come in from the farms.

Meanwhile, grain that is being stored permanently on the farms or which moves directly into market must be accounted for. That should be enough justification for the 15-million-bushel production figure that Farm and Home is publishing this week.

Although the price for Parmer County's biggest crop remains at a relatively low ebb, a surprising percent of the crop has been going straight to market this year, instead of into the government loan program (from which it seldom emerges).

Prentice Mills, ASC office manager, reports, "There is considerably more selling than in the past." He believes that about 20 percent of the county-wide crop has been moving immediately to market.

The support price this year is \$1.75 per bushel. Charges for storage and handling are now yielding the farmer a net of \$1.62 in the loan. Those figures are down about three cents from 1957.

Total loans made at elevators, plus grain placed in the loan but stored on the farm will not be known until sometime after the first of the year. Many farmers defer completing loan papers until then for income tax purposes.

J. P. Macon, Macon Elevator, says that Dean McCallum made 7,700 pounds per acre on 30 acres of broadcast-sowed milo north of town.

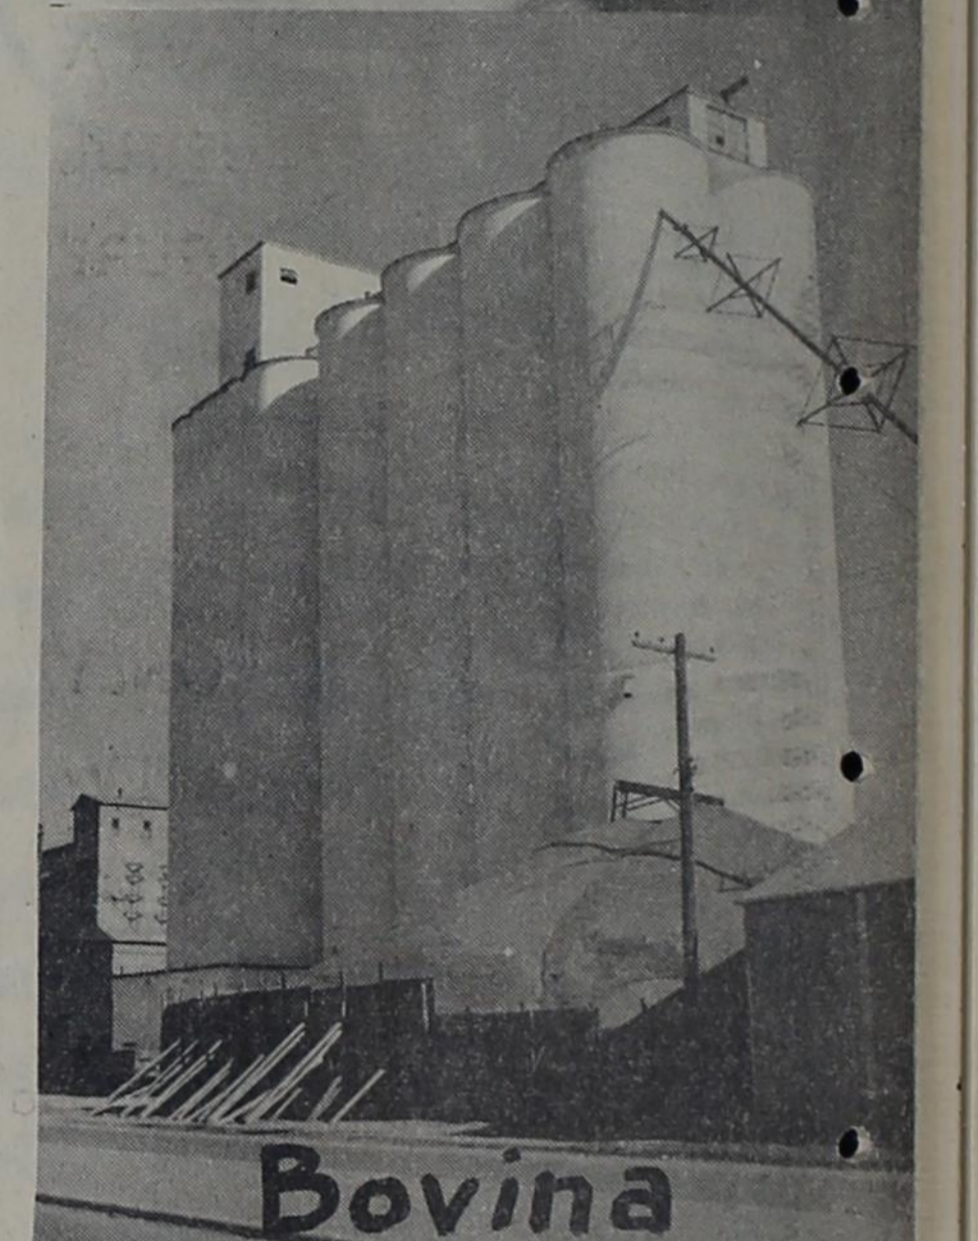

Joe Pinner, customer of Bovina Wheat Growers, averaged almost 5,000 pounds this year, reports Wilburn McLean, manager.

The 1958 harvest is about like last year in the Black area, says Pete Braxton, manager of Tri-County Elevator. The irrigated average is from 4,000 to 4,500 pounds. Harvest will wind up this week.

Preach Cranfill, manager of Continental, says that Walter Reithmeyer averaged 5,400 pounds on 300 acres. He farms the Ed Boggess place. "Looks like this year was best average acre yield I can remember," says Cranfill.

"Good run. Good and better than last year's crop. Quite a few have brought in averages over 5,000 pounds on large acreages," says D. C. McWhorter, manager of Black Grain. Some of them are Ivan Adkins, Clyde Hays, Jerry Bell, Sam Bailey--all farmed over 400 acres each.

Unusually good harvest marked by good weather on the

Bovina

whole, says Loyd Prewett of Prewett Grain. Better yielding, mostly hybrid varieties planted, Albert Roland averaged 8,315 bushels on 6 1/2 acres west of Friona.

BLIND TO OUR OWN The faults of others appear so glaring that most people entirely overlook the glare of their own.

DRILLING BJ PUMPS Parmer County Pump Company Friona

THE PARMER COUNTY IMPLEMENT CO. NEWS Friona, Texas Wednesday, November 5, 1958

The hospital auxiliary had two sewing bees lately. One was at the home of Mrs. A. W. Anthony Sr., and the other at the J. T. Gee home. Several sterilizing wraps, two as big as wagon sheets, were made and a bolt of toweling was cut and hemmed for the operating room.

PCICN Pick the tractor-trailer and box to fit your hauling needs. IH trailers and boxes can take care of any farm hauling job you may have. Ask about prices.

PCICN The frail old lady fell down stairs and broke a leg. The doctors put it in a cast and warned her not to walk up or down stairs. After several months of slow healing, the doctor took off the cast. "May I climb the stairs now?" asked the old lady. "Yes!" replied the doctor. "Goodie!" she chortled. "I'm sick and tired of climbing up and down the drain pipe."

PCICN It's those really tough jobs that make you glad your loader is a Farmhand. Come in and let us tell you about the easier way to do tough farm jobs--with a Farmhand.

PCICN Mrs. Bessie Holt flattered us by saying most folks read our Parmer County Implement Company news, so we want to do something for her. Mrs. Holt has a number of crocheted pieces she would like to sell including a small tablecloth, some dollies, and chair sets. Mrs. Holt will also do crochet work to order. Her telephone number is 5921 in Friona. PCICN

When your tractor is slow and you are in a big hurry, better get an overhaul job. For more power and less expense call 2091, and make a date with Ben Woody who can make your tractor run like new.

PCICN Company at our house Sunday was our uncle Tracy Campbell and his wife from Lamesa. Uncle Tracy is always doubly welcome because he brings us samples of his work--he is a speciality baker and one of his very special jobs is peanut brittle, which is a favorite food at our house.

PCICN Need an oil filter, an intake cap, governor spring, radiator cap, muffler, generator belt, or clutch facing for your tractor? Then call 2091--the Parmer County Implement Company has the most complete stock of parts on the Golden Spread?

PCICN The older we grow the more we believe: There are times when a clear conscience is nothing more than a poor memory.

PCICN Running your car with old, dirty spark plugs is like working on a bread and water diet--it can be done.

PCICN It is with mixed emotions--sad boys and happy mother--that we report the death of Floyd, our alligator. We aren't sure, but we think the cold weather was too much for him and our mother insisted that he live in the garage.

PCICN The sure STOP to control your stock is the International

electric fence. For any fencing job, temporary or permanent, you'll save money and really hold your stock with an International fence. Barbed wire and labor on one half mile of fence will be about \$243,000, the electric fence, including fencer, is only \$69.10. Let us show you the improved International weed chopper electric fence before you invest in any kind of fence.

PCICN A note from Dr. and Mrs. H. H. Cooke of San Jose, Calif., says they left San Francisco on October 7 for a round the world cruise. Their children, Alona and Harrell, are with them but they expect to put them in school for several months in Switzerland. Dr. Cooke was associated with the Parmer County Community Hospital several years before moving to California.

PCICN Three new families are making Friona their home. The John Paynes, Midland, the Morris Pates from Midland, and Bud Williamson from Muleshoe. John, Morris and Bud are new employees at the Parmer County Implement Company. We invite you to come in and meet them. They want to make friends in Friona. Their aim is to help us serve you better.

PCICN Let us show you how you can save more corn with McCormick pickers or corn units that convert your Harvester-Thresher to a picker sheller. Whatever your needs in harvesting machines, see McCormick first.

Jimmie Lou Wainscott

### RIGHT TRIM ADDS "STYLE FLARE"

The right kind and amount of trimming adds interest and individuality to a costume. Too much can be distracting and confusing, according to extension clothing specialists.

The secret of effectiveness in trimming lies in discriminating use. Self covered buttons and belts, or those that blend with the garment, can be used without danger of a spotty or overdecorated effect. Self trim of this type becomes part

of the design of the garment and gives more leeway in choosing other accessories.

If you plan for contrasting trim, study your figure carefully to determine where to place the emphasis. In other words, "accentuate the positive." Make certain the trim is appropriate to the garment and the occasion for which it will be worn.

Shop for ideas that are different. Study garments displayed in exclusive dress shops and adapt ideas to your own purse and personality.

A final word. When in doubt, leave that extra trim off. It's better to use too little than too much.

### AFTER SCHOOL SNACKS SHOULD BE NUTRITIOUS

Most school children are hungry when they get home from school. Well planned between meal snacks help complete the daily needs for food. Soft drinks, candy and other sweets cannot fill this need, remind extension foods and nutrition specialists.

The wise mother provides various kinds of fruit and vegetable juices, milk, fresh fruits, sandwich spreads, carrot sticks and celery curls for hungry youngsters. These are easy to prepare, appetizing and nutritious.

Some tasty snacks suggested

by the specialists include: Cheese and olive sandwiches and milk.

An apple and a glass of milk. Orange juice and carrot or celery sticks.

Tomato juice and assorted crackers. Peanut butter and raisin sandwich, grapefruit and pineapple juice.

Banana, lemon drop cookies and milk.

Snacks will not spoil the child's appetite for a good evening meal, if they are eaten immediately after school or mid-afternoon, and if servings are kept moderate.

### Lazbuddie Senior Club News

At a recent meeting of Lazbuddie Senior 4-H Club in the Lazbuddie High School building, President Harrol Redwine was in charge. Pledge was led by pledge leader Carrol Redwine. Minutes were read by Eugene Houston.

Carrol Redwine and Calvin Mason gave a report on the Lazbuddie School Fair.

Stephen Young was elected delegate to the council. Joe Jones gave a report on the last council meeting. Stephen Young and Carrol Redwine were elected to go to a recreation school.

## Long Staple Pays Off

Almost all of the Parmer County area farmers are pleased with their cotton this year, but one farmer should be especially happy. He is Bob Hart of Farwell.

Hart, who farms the San Aldridge place north and east of Farwell, has 38 acres of Acala long-staple cotton this year. Picking started last week and reports coming from the gin where the cotton was taken are little short of phenomenal.

The first picking yielded 47 bales, of which 43 were middling 1 5/32", with a price of \$38.64 per hundred. Two bales were 1 3/16" strict low middling worth \$34.70. The others were strict low middling 1 1/8" and middling 1 3/16" bringing \$37.79 and \$39.25, respectively.

Woodrow Fleming of the gin says, "I've been in the cotton business since 1938 and it's the best list of cotton I've ever seen."

A machine picker (not stripper) was brought in from the Texas Lower Rio Grande Valley for harvesting. Another picking is due soon.

Long staple cotton didn't do so well on the High Plains last year but it is paying off well, apparently, for Hart in 1958.

## THE PARMER FARMER

By W. H. Graham Jr.

By the time this issue is in the mails, the 1958 grain sorghum harvest will be history. Cotton is rolling to the gins in a steady stream as the strippers make short work of the snow-flecked fields. The wheat harvest, of course, was finished long ago.

That means that the Parmer County area has about completed another farming cycle and, as always, the farmers will be anxiously peering into the future to see what may lie ahead.

Harvest time is traditionally a time of happiness for the High Plains farmer. Most are enjoying the fruits of a reasonably good season and are in fair or good spirits.

So, we don't want to put a damper on an otherwise pleasant scene, but as we contemplate what lies ahead for next year, there is cause for some serious thinking. For each of the three main commodities that the farmers of our area produce, there are great problems of supplies, markets, and prices, none of which—at the present time at least—seem to be going in the farmer's favor.

Overproduction of wheat has been much greater this year than had been anticipated. That was primarily because of greatly improved weather conditions in the Great Plains states. This unusually large production is compounding a surplus condition that has been a problem in the nation for several years now.

Grain sorghum is also in abundant supply and, again, the 1958 production far exceeds what has been moving into market channels under normal conditions. There is also a large corn crop, which adds to sorghums problems. Cotton has its problems with an over all abundance (although some stocks are in short supply) and the government has initiated for the first time, a "split deal" to try to improve production and marketing.

All of these factors add up to one ominous note: apparently the low prices for the farm products which our farmers produce will continue through 1959. This outlook, painted against a background of increasing prices for almost everything which farmers must buy, is not a very cheering one.

There will be some irrigated farmers of the area who will

continue to do well in their operations through next year, but for those who have been having difficult times the past two or three years, the outlook is not much improved.

Alternatives are not very encouraging, either. The Parmer County area vegetable production, off to a brash and optimistic growth in the early part of this year, is closing out with very few farmers showing a gain for their efforts. The years are few and far between when all of four or five vegetable crops do poorly, but 1958 has been one of them.

Such unfortunate developments are not much stimulus to the highly specialized production of truck crops. In fact acreage may be curtailed in our area.

The Grain Sorghum Producers, our local commodity group, has just undertaken an effort to move sorghum directly into international trade. The measures they are taking are drastic, but the problem needs drastic action. The cotton industry is struggling with changes that will, it hopes, improve its plight.

These measures may or may not be effective and of benefit to the local farmers. Even if they are beneficial, their effect will probably not be immediate. Such changes take years to work out. Meanwhile, the farmers, who live from year to year, have current problems.

Each week, according to the National Safety Council, 81,000 persons are injured in home accidents—an average of an injury every eight seconds. More than four million persons are hurt in home accidents annually, and about 28,000 persons are killed.

Small grain producers lost an estimated \$15,471,000 due to plant diseases in 1958. Harlan Smith, extension plant pathologist, said rusts accounted for most of the losses but that blights and smuts also were of considerable importance. A combination of seed treatment and crop rotation can reduce these losses and small grain

varieties with resistance to the diseases should be planted in areas where adaptable.

Studies show that families can cut food expenses by producing more of their food needs at home. And, says Cecil Parker, extension farm management specialist, they may be better fed by doing it.

**SOIL CONSERVATION DISTRICT NEWS**

OUR SOIL ★ OUR STRENGTH

Wild life in Parmer county depends on soil, trees, grass and grain for its support. The same land that produces our food also supports the major part of our wildlife.

Looking at it from that stand point, the way the farms and ranches are managed have a major bearing on the quality of the wildlife. In other words if a farmer or rancher desires to have wildlife on his place he must manage the suitable areas with that in mind. The management of these wildlife areas will differ on each farm or ranch because each farm or ranch is a wildlife problem within itself. However, here are a few places that possibly could be turned into wildlife areas with proper management.

Odd areas such as narrow or sharp field corners that are not being cultivated make good wildlife areas.

Old gullies that are too deep

to stop by engineering means could be fenced off and left for wildlife cover. Its very likely that this will retard the erosion in the gully.

Waterways make very good wildlife areas in addition to transporting excess water without erosion.

Field windbreaks that were planted away from the farmstead for livestock protection are very good for wildlife. Rangeland that is properly used will afford adequate cover for some birds.

The natural lakes in this area are always good for waterfowl. Cover around lakes and ponds should be protected from grazing. This can be done by fencing the largest part of the lake or pond and still leave adequate space for cattle to water. Any of the natural lake grasses, weeds and waterlife in plays lakes furnish good food for waterfowl.

All wildlife areas must be protected from fire and grazing to afford adequate cover for wildlife.

The Soil Conservation Service will assist any farmer or rancher in establishing suitable wildlife areas if desired.

**NEWS FROM THE**

**FARM BUREAU**

By **RAYMOND EULER**

Monday, Tuesday and Wednesday of next week will be days of activity in Corpus Christi. Texas Farm Bureau will be in session for its 25th annual convention. Twelve hundred or more delegates from county Farm Bureaus over the state will convene to determine policies of the state organization for the year.

Decisions reached will, as they have for the past, determine the future of agricultural people in many fields. All of the decisions reached will not be right, but they will be the decisions of the majority of the voting membership of the organization.

**THE HAPPY HOMEMAKER**

By **JUNE FLOYD**

Now that frost has killed most of our outdoor flowers and plants, many of us will be trying to grow potted plants and making plans for early flowers next spring. This is the time to put out bulbs for tulips next spring. Somewhere we read that the best way to have a green thumb was to buy good bulbs or plants and follow instructions to the letter.

If you like flowering houseplants which can be transferred to the yard in the summer, try growing miniature roses. These plants need cool temperatures and over three hours sun daily, so should be placed in an east or west window that gets plenty of sunshine. To start them you

Legislative suggestions will be presented in the state legislature, and the majority of them will become law.

Other resolutions, national in scope, will be presented to delegates to the American convention in Boston in December. There, likewise, many of the decisions will be translated through legislative processes into national law.

Even though none of the decisions reached are likely to be exactly what any individual farmer might want, in detail, all of them will have been reached after discussion, debate, and vote. This is the true democratic operation of Farm Bureau. Leaders of the organization have no authority to change any of these decisions during the year, but must uphold them until the membership has, next year, gone through the same process of local, county, state and national discussion and decision by majority vote.

Business sessions have, in the past, begun on Tuesday morning, after open sessions of resolutions. Due to the increase in interest and the number of resolutions that must be acted upon, caucuses will begin on Monday morning and business will be conducted throughout the three day convention.

Farmers will be glad to know that the railroads have a man who is interested in helping all he can with the eradication of noxious weeds by treating them on the RR right of ways. He is C. W. Guthridge of the engineering department. He asks that any farmer who knows of bindweed on the RR right of way adjoining his land report it to the county agent or to the Farm Bureau office.

Consider this: "A poor man that oppresseth the poor is like a sweeping rain which leaveth no food." Prov. 28:3

buy dormant plants in the winter and pot them in a clay pot on a mixture of soil that includes pebbles to assure drainage and humidity. Water every day or two, feed every three weeks, then during the summer sink pots in the yard of flower garden.

Another favorite in the flowering plants is a geranium. There are many kinds of geraniums and the novel kinds are fun to grow. They also need sunny, but cool, windows. Rosebud geraniums are very pretty and do well in moist soil with fast drainage. They need good light without too much sunshine.

The most important things that a grower should learn about houseplants are, where to put them, what kind of soil to use, what kind of pot is most suitable, the proper amount of water to use, what the humidity should be, the right kind of fertilizer, and how to control insects.

Growing plants, like any kind of pet are sure to present some problems along with the pleasure you receive from them. One of the biggest questions a grower has to answer is, "What do you do with plants when you are away from home?" The best answer to that question would be, "Exchange baby sitting with plants with a neighbor or friend who pursues the same hobby."

Since that solution isn't always workable, here are a few others that will help keep your plants alive until you return. Small pots can be placed on top of jars that have been filled with water. Then insert a wick in the hole in the bottom of the pot and let the other end go down into the water in the jar.

The bathtub can serve as a big pot plant tray. Elevate pots on porous bricks which sit in shallow water. Bricks act as wicks and provide moisture and humidity. Room should be light and sunny, of course.

Outdoors, pots may be placed

north of house or under trees or shrubs, out of the wind. If sunk in moist vermiculite, sphagnum, or peat moss, they'll need watering only once a week by a neighbor.

The suggested amount of time for "ripening" fruit cakes is four to six weeks, so it isn't too early to be making plans for Christmas fruit cakes or for actually baking Thanksgiving cakes. It is best not to freeze the cakes until after the cakes have properly "aged."

Some things to remember when preparing fruit cakes are: To prepare the baking pan, grease the bottom generously before lining with two or three thicknesses of waxed or brown paper. Let the paper extend at least one inch above the top of the pan and grease top layer lightly.

For glazing the cakes, let them cool thoroughly then brush generously with hot light corn syrup and decorate with fruits and nuts. Cakes may be frosted with butter-powdered sugar frosting, if you desire.

When the cakes are ready for storing, wrap them tightly in Saran Wrap, then in aluminum foil. Do not freeze until after they have been properly aged.

Our favorite fruit cake is spicy, dark, and moist for good keeping. It is Black Beauty Fruit Cake.

- 1 cup seedless raisins
- 1 cup currants
- 3/4 cup chopped pitted dates
- 3/4 cup citron
- 3/4 cup chopped candied lemon or orange peel
- 1 1/2 cups walnuts or pecans
- 1 1/2 cups sifted all purpose flour
- 1/2 teaspoon baking powder
- 1/2 teaspoon soda
- 1/4 teaspoon salt
- 1/2 teaspoon each cinnamon, allspice, and nutmeg
- 1/4 teaspoon cloves
- 1/2 cup soft shortening

- 1/2 cup firmly packed brown sugar
- 2 eggs
- 1 cup dark molasses
- 1/4 cup grape juice or coffee
- Combine fruits and nuts in large bowl. Coat with 1/2 cup of the sifted flour. Sift remaining 1 cup flour with baking powder, salt, soda, and spices. Cream shortening. Gradually add sugar, beating until fluffy. Add eggs, one at a time beating 1 1/2 minutes after each addition. Combine molasses and grape juice or coffee.
- Add alternately with dry ingredients to creamed mixture. Fold in floured fruits and nuts. Spread evenly in prepared 9-inch square pan. Bake 40 to 45 minutes. Cover the cake with one thickness of brown paper after about the first 20 minutes of baking, or whenever the top reaches the degree of brownness you want.

One homemaker expressed the lack of storage space in her new home this way. "Our two car garage is simply not big enough. After all the bikes, tools, tires, trunks, boxes, etc. are stored, there's no room for the cars."

Storage space for the above-mentioned items, which are part of every family's possessions, should be planned in new homes and provided in some way, if possible, in older ones.

**The Story of Willie Wiredhand, AN EXPERT GINNER FROM "WAY BACK"**

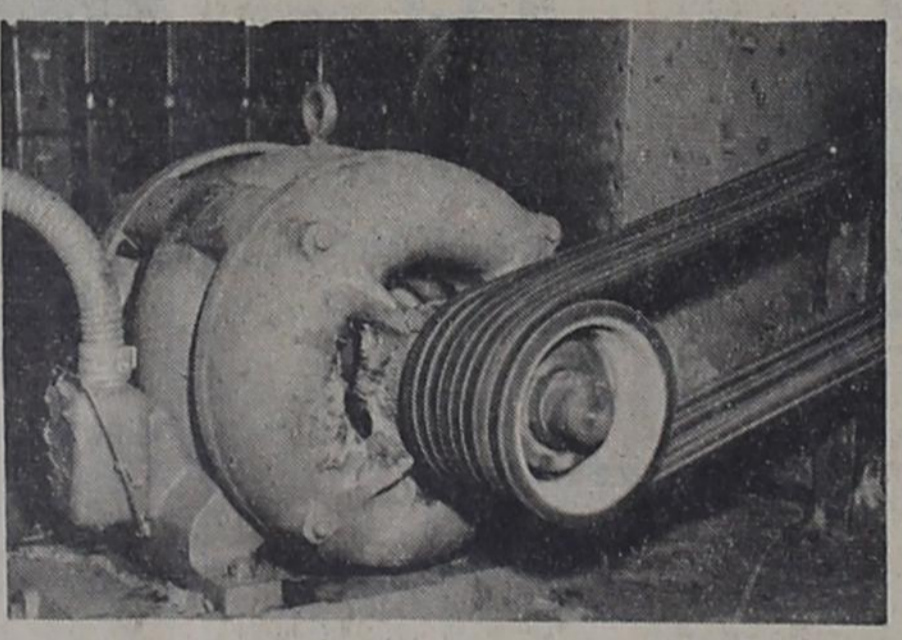

Willie Wiredhand, the mighty midget of Deaf Smith County Electric Cooperative, finds himself particularly busy about this time every year. Willie furnishes power for wheels of many gins over the High Plains, and four of them in Parmer County.

Like any of the jobs that Willie undertakes, he does his chores at cotton gins economically and efficiently.

Picture Number One shows the huge task that Willie has to do. Lots of days he has to turn the machinery while about 175 bales of cotton are ginned, and he often must work at night, too.

Picture Number Two demonstrates what small packages that Willie comes in to do such a tremendous task. As many as 13 electric motors are found at Willie's gins, with some of them being 200 horsepower and others in smaller sizes--to do the job efficiently and economically.

Willie Wiredhand is nappy to be employed at the following gins in Parmer Co.

- Fleming & Son Gin**
- West Hub Gin**
- Tri County Gin -Summerfield**
- Plains Farmers Gin -Friona**

**Willie Wiredhand is the symbol of your electric cooperative at work, for better farm living, better farm working, for economical power.**

**CLOTHING COLLECTORS**--W. Wayne Stevens and a crew of helpers pack clothing destined for overseas needy Thursday night of last week. Besides Stevens those pictured are (l to r) Mrs. Jimmie Ware, Mrs. Leon Ware, Mrs. Jimmie Clements and Miss Lola Grissom.  
**TRICK OR TREAT**--Mrs. Boye Taylor hands out treats to a host of Halloweeners Friday night of last week. The group was escorted by the PTA.

**Clothing Drive Is Successful**

"Exceptionally successful" was the term used Monday morning by W. Wayne Stevens about the results of the recent United Clothing Appeal that was sponsored in Bovina by the local Methodist Church.

A total of 653 pounds of usable old clothing was shipped to the clearing houses at St. Louis, Mo., Friday of last week. The clothes were donated by the people of the Bovina area during the two week campaign. Assisting in the clothing drive were members of the Pack 40 Cub Scouts, as well as members of the church and others cooperating people of Bovina.

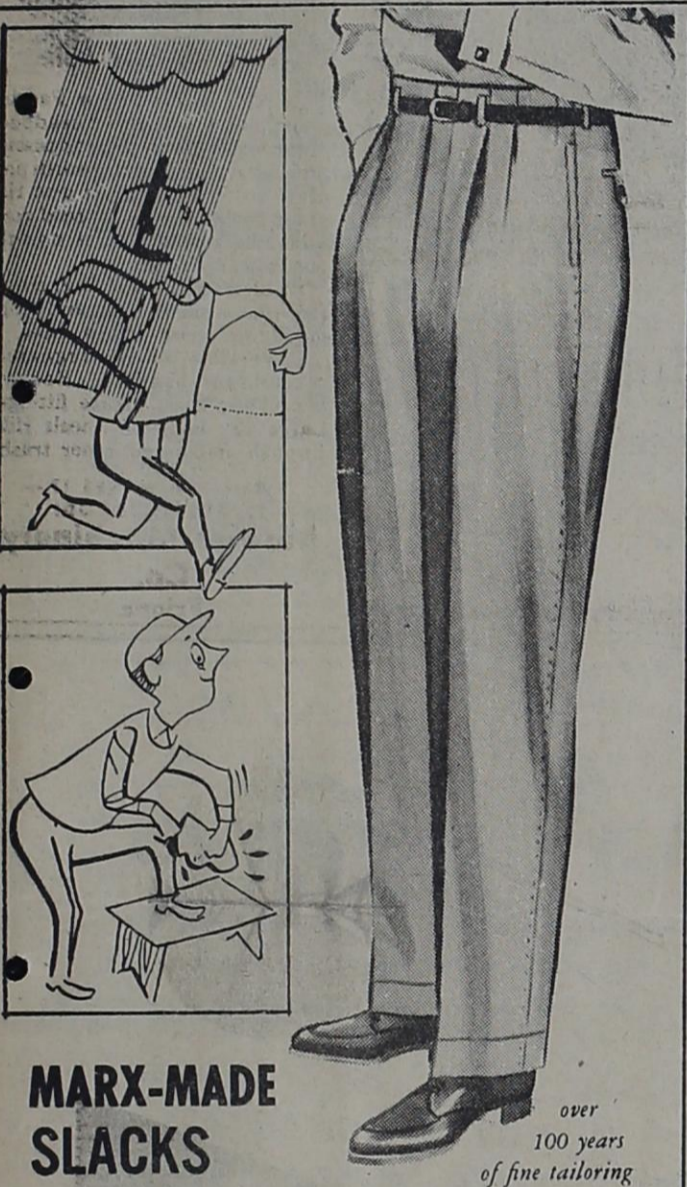

Stevens reported that he "felt sure that Bovina sent more clothing than most cities of comparable size and even out-rated a number of much larger cities." He wishes to express the appreciation of those working on the drive for the contributions and cooperation which they received.

The drive was sponsored by the Commission on Christian Social Relations of the local Methodist Church. Stevens was chairman of the commission and those assisting him were Joan Kay Ezell, Joe Bell, Mrs. Leon Ware and Leon Grissom. The packing of the clothes was done Thursday evening, in the fellowship hall of the church, with members of the Friendship Church School Class doing the work. Mrs. Ware was again in charge of the work and co-chairman of the sorting and packing was Mrs. Jimmie Clements.

This was the first year that the United Clothing Appeal has been made in Bovina. Stevens reports that the community will take part in the drive whenever it is offered.

**MARILYN KRIEGEL HAS SURGERY**

Marilyn Kriegel, seven year old daughter of Mr. and Mrs. Walter Kriegel, underwent heart surgery in a Lubbock hospital Tuesday of last week. The little girl is reported to be doing well as can be expected and her parents hope that she will be released by the latter part of this week.

**MARX-MADE SLACKS**

in exciting spot-resistant silicone finish flannels that hold their crease (even in the rain)

Webster's Dictionary has a word for these superbly fitting, beautifully styled slacks... SENSATIONAL!! Wear 'em in the rain and watch how the drops slide off. Spill on 'em and see how the spots wipe off. And their well-tailored crease stays put for a long, long time.

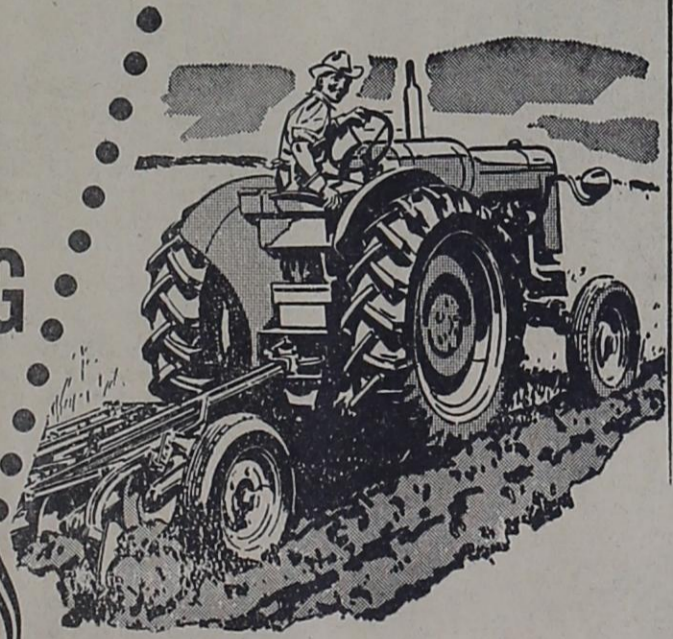

A wide choice of patterns and colors. **\$7.95**

Ketch-all Kcorner

By Sally Whitesides

All unknowing, Mrs. George Turner and I all but caused a minor disaster Saturday at noon. She had called me, at home, to give a report of a party held earlier in the week and, when we were through with that, we skipped from one subject to another, both of us thoroughly enjoying our visit. It was only after we had hung up that another call came through--and Johnnie Jones sounded pretty frantic when I answered.

Johnnie and her family, of Amarillo, were spending the day with her mother, Mrs. Stacy Queen here and they all had run over to Texico to visit other relatives for awhile. It wasn't until they were on the outskirts of Texico that they remembered that they had left the coffee pot gently perking on the stove here in Bovina. A hurried call to me, as a next-door neighbor, was the best remedy to hand; but I complicated things by keeping the line busy. It took them at least ten minutes to place the call and by the time Johnnie told me the trouble, we were all sure it would be too late.

Wasn't though. By the time I got over and turned off the fire, there was about a half cup of coffee--if it can be called that after almost an hour of steady brewing--left in the pot. Whatever it should be called, it certainly looked and smelled potent enough.

As always, I had a field day Friday evening when the little "trick or treaters" came around to call. I think I enjoy their coming each year as much as they enjoy making the rounds. Tiny, the Whitesides' mouse-hound, with her devotion to all children, was also in her element. There were a couple that started her, though; one being a miniature monster with long, red horns. Wasn't his costume that really bothered Tiny--it was the combination of it with the noise and abrupt movement towards her that he made. At any rate, Tiny all but stripped her gears beating a hasty retreat.

The only trouble with the evening, according to the pint-sized "grinning" Tiny, was that, although lots of candy and cookies were handed out, she got very few of the offerings. Incidentally, she is one of those animals that scorns lowly things like meat, gravy, biscuits and dog food.

For her, fresh peaches, just as they fall from the tree; tiny pear tomatoes, chili--good and hot--and of course candy and anything chocolate is right down her menu alley. Another tidbit she learned to appreciate as a gourmet's delight was oysters, straight from the can. Very few come her way, but she always hopes.

Lois McCutchan has "joined the club," so to speak, of Proud Grandmas. Lois and Archie's son, Wayne, and his wife, Beverly presented them with a grandson a couple of weeks ago in South Dakota. Of course Lois and Archie were up there for the event and, incidentally, for a pheasant hunt. According to Archie, his luck ran pretty high--he got a grandson and his

limit of birds, all on one trip. Granted that such an occurrence is rare. One thing for sure--it's my guess that the road between Bovina and Pierre, S. D. will be kept well traveled, at least, for a little while.

The proud grandma, by the way, reports that Wayne, Beverly and of course, the new addition may come down to Bovina for a couple of days, the latter part of this week. Am sure their friends will want to see them while they are here.

"Them's that are left are suffering" can be said about a number of Deer-fevered men in and around Bovina. Quite a few have already made trips to Colorado for deer hunting, with pretty poor luck, over all, I hear and there are others who will leave by tomorrow for New Mexico for the annual outing. Still others are "on the fence" so to speak, about whether they are going to be able to sneak away from work for a couple of days of tramping the hills. Bill's in the last category, but he is being fitted for a new red shirt--just in case.

Almost every person on North Street, Bovina, was carrying a box or can of candy with them Friday. They had purchased their candies from the Young People's Division of the local Pentecostal Holiness Church. The young people are selling the candy to raise money to purchase storm windows for the church and their campaign will run through the Christmas season.

If you are in the mood for good candy or maybe want to give some as a gift, contact one of these young people. They have an array of candies that will make your mouth water, and, while you are at it, your purchase will help a worthy cause.

Ever make a cream fruit pie? The following recipe is one given me by Bill's sister who, as a minister's wife, has oodles of company. She reports that it is not only good, but quick and easy to make.

Prepare an unbaked pie shell and set aside. Mix in a small bowl, 3/4 cups sugar, 3 tablespoons of flour and a pinch of salt. Pour this dry mixture into the pastry shell and add 1 cup thin cream (or milk) and blend together with fingers. Add about a pint of sweetened fruit of any kind and bake slowly until thickened.

Orlean says that any fruit may be used, but her favorite is using strawberries; taking them slightly thawed from the freezer container and mixing with the sugar-cream ingredients.

For those nasty little grease stains that invariably appear on wall paper, there is a simple remedy. Just "squirt" a small amount of good lighter fluid onto each spot and allow to evaporate. It may take several applications, but most of the grease will disappear. Mrs. Stacy Queen offered this suggestion some time ago and it really works. And, best of all, the fluid leaves no circles of its own.

Bill brought in the first 1959 calendars the first of this week. If you are one of those gardeners who plants with the signs, get one of the big calendars from Sherley Grain, it is loaded with all sorts of interesting information.

THE DAILY GRIND  
Necessity may be the mother of invention at times, but it is just the mother of hard work to most of us.
