Tommy Tucker Enters Race

TOMMY TUCKER

In announcing my candidacy for County Commissioner, Precinct 1, subject to the Democratic Party, I am 30 years old and married to the former Dorothy Konezak and have 4 children. I have lived in Callahan County all my life, have worked hard and believe that a County Commissioner has the responsibility and obligation to work hard, not for any particular group, but for each citizen and all the areas of the precinct, as well as the entire county. I think it is his obligation to work to improve the county road system by economical methods and by co-operating with the other commissioners and Texas Highway Department in developing a useful farm to market road system.

As a county administrator, clear thinking and sound judgment should be used in handling all county business. I am a former employee and City Councilman for the City of Clyde and fell this experience will be of help to me in performing the duties of County Commissioner.

If elected, I promise to devote my full time representing each citizen of the precinct and the entire county to the best of my ability.

Sincerely,
Tommy Tucker.

"3.76 in '76" State Agriculture Program to Increase Cash Receipts

BAIRD - Cash income to farmers and ranchers in Callahan County should be more than \$5,500,000 by the end of 1976, according to Greg Gerngross, county agricultural agent.

This will be an increase of more than \$1,000,000 from the 1968-69 figures, with beef cattle contributing a large part to the gain. The projections are based on studies of the Texas Agricultural Extension Service and are part of the "3.76 in '76" program, a state-wide project to increase Texas agricultural cash receipts by more than \$1 billion.

Total cash receipts from all agricultural enterprises in Callahan County are presently about \$5,000,000, says Gerngross. The most important ones

are beef cattle, small grain and peanuts. They are expected to account for about 70 percent of the projected 1976 totals.

The county will be aided in its production efforts by the Rolling Plains Economic Program.

These projections are based on estimates from the County Program Building Committee after separate predictions were made by Extension economists. The figures were published for each county, Extension district and economic area in Texas.

"Callahan County producers will have access to production information and techniques that can help spell success for the Texas goal of \$3.76 billion in 1976," says Gerngross.

PROCLAMATION "3.76 In '76 Week"

WHEREAS, the Texas agricultural industry, in all of its phases, continues to be our most important industry, and

WHEREAS, agriculture continues to have great growth potential in our county with the rewards from such growth accruing to the benefit of all citizens, and

WHEREAS, there is an urgent need for an active crusade to increase the public's knowledge, acceptance, and appreciation for the highly significant contribution which agriculture makes to the economy of our county and to the level of living enjoyed by its citizens, and

WHEREAS, it is recognized that all citizens of this county have a vital stake and a legitimate self-interest in the general well-being of the farmers and ranchers who provide the great abundance and variety of food and fiber of highest quality which we all enjoy, and

WHEREAS, "3.76 in '76" is a well-conceived program designed by the Texas Agricultural Extension Service, with the endorsement and active support of agricultural agencies, organizations, and individual leaders, to help the agricultural industry achieve its full potential through an intensification of efforts by producers, agri-businesses, and professional agriculturists to bring about an increase in income to Texas farmers and ranchers of \$1 billion by the end of crop year 1976, and

WHEREAS, \$610 million of the \$1 billion goal has been achieved through the 1971 agricultural season, and WHEREAS, the achievement of an increase of \$1,200,000 in agricultural income by the end of crop year 1976 will improve the net profit and competitive position of Callahan County farmers and ranchers and make highly significant contributions to the future economy of the county.

NOW THEREFORE, I, A. E. Dyer, Jr., County Judge of Callahan County, Texas do proclaim the week of January 17-23, 1972 as "3.76 in '76 Week" in Callahan County and call upon all citizens to join in this observance and to dedicate their efforts to the achievement of its stated objectives.

Dated this 4th day of January A. D. 1972.

Signed A. E. Dyer, Jr.,
County Judge, Callahan County

Gas Drying

Electric Drying

Either we're four times cheaper, or they're four times more expensive.

Gas drying is not only easier on your pocketbook, it also makes life a whole lot easier.

For one thing, gas drying practically eliminates the need for ironing. The new gas dryers are so gentle that clothes come

out almost wrinkle-free. Clothes are tumbled dry, then cooled, and gently fluffed. Automatically, Pleats stay pleated. Creases stay creased.

All this for a cost of about a penny a load. (Or \$2.00 a ton.)

Take a look at the new gas dryers at your gas appliance dealer. Then do something nice for yourself.

And your pocketbook.

PRIDE RETURNS TO THE BAIRD BEARS

By GARY GOBLE

Gary Goble's Story Published in 'Texas Coach'

BAIRD — This newspaper takes pride in publishing the following article, which was published in the January issue of Texas Coach, and written by Baird's own Gary Goble, entitled "Pride Returns To The Baird Bears."

Gary is the son of Mr. and Mrs. Fred Goble and a senior student at Baird High School. He is quarterback and tri-captain for the outstanding 1971 Bears, earning four letters for his grid efforts and also participating in basketball, golf and track.

He is currently vice-president of the Beta Club and Senior class favorite. A participant in the UIL sponsored slide rule and number sense competition, Gary has reached the regional level in each.

The story composed by Gary is as follows:

A few years ago Baird High School football team had a reputation. The Bears, once the pride of Baird, Texas, had lost 31 games in a row. After finally winning a game, the Bears lost another 18 in succession. With a won-lost record of 1-49, it's no wonder that the Bears were famous.

Baird's losing streak affected not only the school, but the whole town as well. I played on the last two losing teams, and can remember what losing did to the town. We had a few loyal supporters, mostly parents, who didn't miss a game. But as a whole the people of Baird stayed away from the Bears' Den on Friday night. On a cold night there might just be enough spectators to fill a school bus. But we couldn't really gripe about lack of support, because nobody wants to go out and see a team lose week after week.

The most distressing thing about the losing streak was the way it demoralized our student body, not to mention what it did to our players. At the beginning of each year most of the kids were optimistic, but after a couple of games everyone knew it was going to be another long season. The little bit of spirit the school had soon faded.

Most of our players wanted to win, but there were a few who just didn't care enough to put out the extra effort. After a couple of defeats, the team and school spirit just seemed to go dead. The rest of the season was a long, long nightmare. We couldn't wait for it to end.

At the beginning of the 1970 season something happened to the Bears. Coach Bo Wilson came from Houston to Baird and installed the Houston Veer-T offense. Coach Wilson stressed pride, discipline and lots of hard work in our football program. And the results soon showed up. We surprised everyone in town with our first two scrimmages, battling Clyde and Wall to ties, but the whole area was shocked when we won our first three games of the season.

The entire atmosphere at school changed. The student body was proud of our team. For the first time in several years the people of Baird came to see the Bears play and for the first time in a long, long time the Bears were enjoying it. Football was beginning to mean something to us. We were finally meeting our challenges instead of going around them. The responsibilities and pressures we faced grew greater each week. All the town was proud that we won our first three games, but many believed the Bears would fold sooner or later. We did lose a few games that year but we'd always come back the next week with our heads up and our pride intact. And usually we came back with a win.

We finished the 1970 season with a 6-4 record and established a new school scoring record of 271 points. Our season was not great by some standards, but in Baird it was a tremendous comeback toward winning ways.

Last fall everyone in town was ready for the 1971 football season to get started. All over Baird people would ask and en-

courage us about our team. Nearly everyone was optimistic about the Bears' chances in District 7A, but some people just refused to believe that the Bears were really back.

Being winners meant a lot to us, and we were determined to prove to those that the 1970 season was no fluke. We had been looking forward to football a long time. Most of us stayed in shape over the summer on our own and we were ready to begin.

We started out by romping over our five non-conference foes. Nobody was about to take the Bears lightly in District 7A play. While we prepared for the District race, the spirit of the school and town reached a new high. The pep squad and cheerleaders were busy making posters and banners all the time and our pep rallies grew louder each week. Everyone in town was really getting involved. Our players were getting involved, too. We won our first three district games, and for the first time in our lives we were undefeated after eight starts and playing for a championship.

We faced the powerful Albany Lions, defending league champs, who were also 8-0. Eyes of the entire area were focused on this game. The spirit of the school reached an all-time high. There were signs all over the school. Every classroom was covered with red and white banners. Up and down the hall were all sorts of posters and streamers to boost the Bears. The whole town went wild for this game. On Main Street, local businessmen had signs such as "This Is Bear Country" in early every window. The student body and the people of Baird were giving 100 percent in the Bear's effort to conquer the mighty Lions.

I guess everyone on the team had been looking to the Albany game even before the season started, but no one dreamed it would have this much impact on the town. The crowd at the Bears' Den that Friday night was probably the largest in the history of the school. Extra bleachers had been moved in earlier that week, but it was even hard to find a place to stand. The stadium was packed an hour before game time. It was one of the greatest thrills

in my life just to take the field that night.

Although the game statistics were about even, the Lions took advantage of our mistakes, and it cost us the District crown. The final score was 14-6. This loss seemed to hurt more than all of those 0-10 seasons combined. There were many tears shed in the Bear's dressing room that night, but we didn't lose our pride. We came back the next week to defeat Aspermont and finish the season with a 9-1 record. We broke the year-old-scoring record with 326 points. Although we lost the big game, our fans still thought that we were "Number 1." Right now there's not a person in town who is ashamed to hold

his head high and say "I'm from Baird!"

Playing football has been a great experience for me. I have learned a lot more than just football under Coach Wilson. He has shown us that a lot can be accomplished with hard work, desire and discipline. He has stressed the importance of Christianity in sports. The lessons we have learned under Coach Wilson apply not only to football but to our lives as well. Many of my life's greatest thrills and biggest disappointments have come in football. The only regret is that I can't start over and play high school football for the Baird Bears again.

We would like to express our heartfelt thanks to all of the wonderful people who helped to make this Christmas season so enjoyable for our residents. May the New Year bring you the very best of everything.

Baird C of C Manager Reports On Year's Activities To Membership

May we briefly call your attention to some of the activities of your Chamber of Commerce in 1971, along with Continuing Community problems that in our own opinion should call for renewed effort on the part of every citizen to make some or all our community needs your challenge in the years ahead.

Your Chamber of Commerce has had more requests for family housing than any previous year. Having more than one hundred calls, letters and personal visits to our office for houses, apartments along with several requests for mobile home sites. Most of the requests were for rentals with a number wishing to purchase. We referred purchase requests to Real Estate people and individuals who had advertised for sale. Your Chamber office can only assist in getting interested parties in touch. We are most anxious to be of service to our own people and those wishing to come into our City and wish to thank everyone for their assistance in making this service possible and we know it has been most helpful in many instances. We think you will agree this is an important day to day function your chamber of commerce fulfills.

We have expended much time and effort in correspondence, telephone calls and personal calls in a continuing effort to improve medical services for our community. We wish to extend our thanks and appreciation to our hospital, City and County officials and many individuals for their effort.

Your Chamber of Commerce has continued their cooperation with the City Land Company of Baird (north village addition) in their progress to make available business and residential locations for expansion. They are now securing utilities and HA approval in the hopes some activity may be started early in the new year. In our opinion, this is most important for the future of Baird.

We have continued efforts on FM road improvement and even though some improvement on the Clyde Lake road is under consideration, we were disappointed more mileage is not un-

der consideration immediately. We must and will continue our efforts on the north end of the proposed 13 miles of improvement.

Some progress was made on paving and most certainly this work should and must be continued more aggressively. Your chamber of commerce worked with our City and property owners on the paving completed.

We have continued our cooperation with all in furnishing information on hunting leases in Callahan County, and through our office have answered many requests by mail, telephone and office visits. This is an important phase of economic help and assistance to the land owner as well as the business sector locally and county-wide.

We have forwarded information requested by both business firms and individuals regarding our City and have contacted personally, by telephone and mail a number to attempt to interest them in moving to our community. We shall continue efforts to bring business, payroll and people in Baird.

One of the most successful Dinner meetings ever was held in March, and the 1972 Dinner meeting has been set for Friday, March 31, with Mr. Reagan Brown of Texas A&M University as guest speaker.

Your Chamber of Commerce has continued cooperation with our FFA and 4-H boys and girls.

We have worked closely with our RCA and Junior Rodeos. Both bring many people into our community.

Your Chamber of Commerce, through the Board of Directors, is the sponsor of the Community building, to be constructed by the Baird Housing Authority, which construction should begin in early spring. This building is designed for many and varied uses and we feel it will be a great community asset.

We have continually worked with our merchants and professional people on any matter beneficial to improve services to our shopping public. This was demonstrated with thirty business firms and individuals cooperating in the past holiday

season. We must continue to cooperate with our schools in their efforts to offer our children the opportunity to receive every educational advantage possible. Our efforts are always designed to accomplish the things best for the total community.

Looking into the future, your manager suggests serious consideration of several problems that in my opinion, must be solved if we wish to move forward.

Number One is family housing which we must have if we take advantage of any area expansion, and from 1971 experience, this opportunity is at hand. We must make a strong effort to interest developers and/or builders to start speculative construction, which we feel would sell immediately. This will encourage other building. Some contact has been on the construction of a small apartment complex for rentals and this is also most urgent and important. Serious consideration should also be given to lots or areas with utilities available for mobile home locations, as this is rapidly becoming a must in any growing community. I some accomplish-

ment is not made, we will be seriously handicapped in bringing new people into Baird.

Other community needs as street improvement, updating of homes and buildings. Clearing of dilapidated buildings and cleaning up vacant and abandoned lots. This should be a vital part of making our City most attractive to those seeking new locations.

Your chamber of commerce should and must be of greater service to the total community in every phase of activity and this means maximum participation of everyone.

We gratefully acknowledge the cooperation and assistance of our City and County officials along with many Clubs and organizations. We would suggest stronger support for our County Library and Museum by everyone as they are of great importance to our community life.

We offer sincere appreciation for your cooperation and support and urge your expression of ideas, and invite every citizen to dedicate themselves to the future well-being of our community.

Respectfully submitted,
Claud Holley, Manager.
