**RESEEDING DAM....**Employees of the Bachmayer Company, which has been contracted to reseed grass on the Bovina Dam, in the top photo, are shown blowing prairie hay mulch on the dam as part of the

reseeding operation. Eleven different kinds of grass have been planted on the Bovina Dam as part of the reseeding operation to protect it from erosion. (SCS Photos)

## Bovina Dam Site Has Been Reseeded

The reseeding of grass on the Bovina Dam was completed last week with eleven different grasses being planted. The dam is part of the Running Water Draw Watershed project.

The revegetation consisted of plowing, fertilizing, mulching with prairie hay, seeding of grass, and cultipacking.

Of the eleven different grasses, five are native to Parmer County, five are special strains of grasses developed at the SCS Plant Material Center at Knox City, and one of the grasses came from Arizona where it is known to grow in ten inch rainfall areas.

The SCS is hoping with the variety

of grasses and seeding method used, they can get a good stand of grass on the dam to protect it from erosion.

## Letters To Editor

Mrs. Vernon Estes  
 Box 388  
 Bovina, Texas

Dear Mrs. Estes:

Thank you for your very kind note, and I want you to know how much I appreciated you and your fellow WIFE members being in Washington when you were.

Your visit was timed perfectly to assist in efforts to prevent amendments to the farm bill which would have lowered support levels. I know that the efforts made to educate other members of the Senate on farmers' needs had a very positive impact on the outcome of the vote, which as you recall was very close.

Thank you again, and please let me know when I can be of assistance.

Very truly yours,  
 John Tower

Mr. and Mrs. Vernon Estes  
 Box 388  
 Bovina, Texas 79009

Dear Friends:

I wanted you to have the attached copy of the Jack Anderson column which appeared in the WASHINGTON POST this past Monday relating to your farming operations in Parmer County. I was very pleased to see this article as it illustrates very well the dilemma which confronts so many farmers in West Texas.

This is another example of the good job you did in telling the story of agriculture while you were in Washington recently.

Let me hear from you at any time. All good wishes.

Sincerely,  
 George Mahon

blouses and big straw hats, boarded a Braniff plane, bound for Washington.

On Sunday morning there was a devotional held in the hall of the motel. We were seated on the floor. Forty-one went on a nine-hour bus tour to see some of the interesting and historical sights of the big city. Two of our group who went to church saw President Carter and family at a distance. Ellen and her daughter from Spearman visited relatives on that day.

Monday and Tuesday were busy days for everyone. There were interviews with Jack Hightower, John Tower, George Mahon, John C. White and Carol Foreman. On Tuesday, we split into groups of four and walked up and down halls in the government buildings, distributing papers containing statistics and facts about area farms. They were prepared by some of the members of WIFE groups. Our last interview was with Lynn Dapp, agricultural assistant to the president.

The group was warmly received in most instances. We do hope that the things that were said and done will have a lasting impression and that the farm bill will give us all a living wage.

It was a weary but happy group that arrived in Amarillo on Wednesday, May 25. I believe the straw hats made an impression on a lot of people. It was a rewarding trip.

## State Rep.

### To Be In

### Farwell

State Comptroller Bob Bullock announced he is sending a representative from his Amarillo Field Office to Farwell on Wednesday, June 22, to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Jerrell Thaxton will meet with local taxpayers at the County Court House in Parmer County from 10 a.m. until 2 p.m.

"If Parmer County merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing tax forms, Mr. Thaxton will be there to assist them," Bullock said.

"We're trying to cut the red tape in this office and we believe these face-to-face sessions with taxpayers help do just that," Bullock added. Bullock reminded those taxpayers who are unable to meet with his representative on June 22, that they can still get their questions answered quickly by calling his toll-free information number in Austin. That number is 1-800-252-5555.

The Amarillo Field Office headed by Claudia Stravato, serves the 26 counties of the Texas Panhandle.

## USDA Offers Film On "Prime Farmland"

"Prime Farmland" is the topic of a new slide show prepared by the USDA Soil Conservation Service.

Herb Evans, district conservationist for SCS at Friona, said the 11-minute presentation explores the loss of the nation's best farmland and the possible consequence of the loss.

About three million acres of rural land each year are shifted from agriculture to other uses—such as housing developments, ponds and lakes, highways, shopping centers

and parking lots. Many of these acres were among our most productive in terms of food and fiber. But once they are sealed over by homes and asphalt, they are lost to agriculture forever.

The "Prime Farmland" slide show reports on steps taken by several state and local governments to protect this valuable land. It also tells about SCS's prime farmland inventory now underway throughout the country.

In addition to its importance to farmers and ranchers, the show will be of interest to civic and service clubs, conservation and environmental groups, state and local governing bodies and schools.

To get the show scheduled, interested parties can contact Soil Conservation Service, Friona.

"The Soil Conservation Service is interested in the conservation of all over natural resources," Herb Evans, District Conservationist of the SCS office said. "In our everyday work we deal with problems farmers have in conserving their soil, water and plants."

"What a lot of people don't realize, we are also interested in the conservation of our urban or residential areas, too."

"If you live in town and are having a problem conserving your soil or any other natural resources, you can contact the SCS office in Friona, and we'll be glad to assist you," Evans stated.

## Women's Softball Team Is Excelling

Fourteen teams played in Polly Byers Invitational Tournament last Saturday and Sunday in Clovis, with Big Nick's Machinery of Bovina winning three out of five games, its second defeat coming at the hands of Santa Fe, 20-2, on Sunday.

Big Nick's played four games Saturday, defeating Al's Plumbing, 15-7; Tews, 16-5; Tonettes, 15-14; and losing to Mayfield, 6-0, on Saturday night.

Sunday's loss to Santa Fe eliminated Big Nick's from the tourney, although its 3-2 record enabled it to carry home a handsome trophy for a third-place finish.

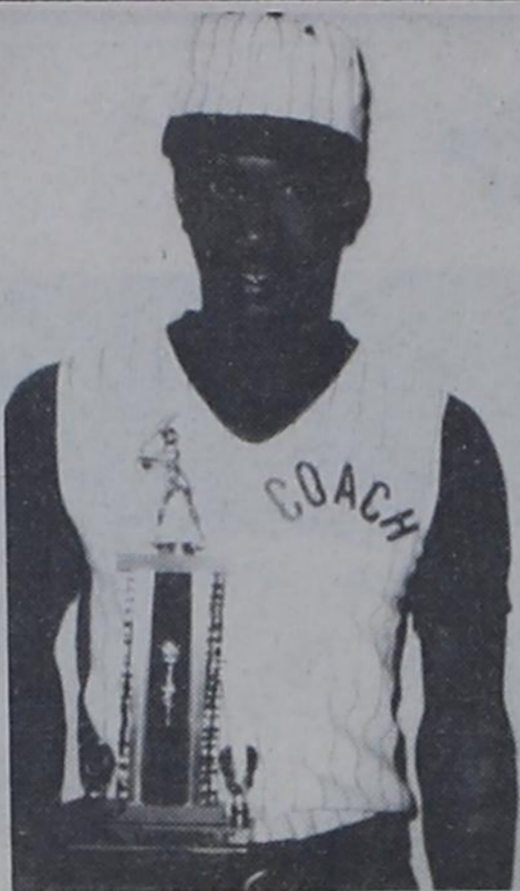

The team sports a 6-0 record for regular season play.

Bovina's Pat Shepherd, the team's shortstop, was voted the tournament's Most Valuable Player.

John Ransom coaches Big Nick's Machinery and assistant coaches are James Shepherd and Chester Byrd.

Coach Ransom stated: "This team started playing in Women's League last year, with all players from Bovina. This year all the players didn't play with us. We have five players from Clovis; Lora Byrd, Susie Colling, Carolon Ransom, Wanda Mills and Delories Ransom. We have two new players that live here, Lisa Shepherd and Connie Shelby.

"The rest are Betty Shepherd, Pat

Shepherd, Effie Shepherd, Charlene Shepherd, Belinda Shepherd, Jeanette Ashley and Mary Ransom.

"We would like to thank Big Nick very much because he helped us get started and still helps us when we need assistance. We are also thankful for two good assistant coaches, James Shepherd and Chester Byrd. We hope to play in some other tournaments and win. We also play in Clovis every Monday night with the first game starting at 6:30 p.m., New Mexico Time.

Ellison, Albert Rushing, Tommy Clements, Craig Capps.

Table-Greg McClaran, Tad Mayfield; prayers-T. Hancock, Ben Finch; announcements-L. Widner; nursery-Alan Noyes; prayer (offering)-Craig Capps.

Remember Sisters Jefferson and Macon in your prayers. Also, Linda Henry is in the Muleshoe Hospital. Scotty Johnston, who is now at home after a stay in the Clovis Hospital.

Our Vacation Bible School is now history. Only eternity will tell how much good was done. We want to express our appreciation to all of the teachers who worked so hard, to brethren who helped with the transportation, and those who worked in the kitchen and to Ola Lee for her help in bringing refreshments each day. Brother Jon Lin Riddle, Kathryn Gromowsky and Virginia Rhodes deserve a special pat on the back for the yeoman service rendered. We appreciate everything that was done to make the V.B.S. the success it was.

We received another letter from the church in Klamath Falls,

Oregon, expressing their appreciation for the effort put forth by this congregation to help them in the recent gospel meeting. I have never met with a more dedicated and determined group of Christians. The spiritual condition of the church was very evident there. They still need some support for the local preacher. Brother Jim Marshall is a very deserving and sound gospel preacher.

**FIRST BAPTIST CHURCH**

Wednesday night Bible Study continues from the Book of John, taught by the pastor.

**Ben McCain Earns WTSU Scholarship**

The speech and theatre department, West Texas State University, has announced the 1977-78 recipients of the 14 departmental scholarships which are given each year.

According to Dr. Ray E. Ewing, head of the speech department, the scholarships are awarded by a selected committee and are based on grades and activities in speech, theatre and mass communications. Dr. Ewing also said that this year's scholarship selection was especially hard because there were 45 applicants.

The scholarships are funded by the Friends of Fine Arts and range from \$180 to \$200 each year.

Among the students who will receive scholarships for next year is Ben McCain, Bovina senior. He is the son of Mr. and Mrs. Leslie McCain.

**WIFE Meeting Set**  
 The regular monthly meeting of the WIFE group will be held in the community room of the First State Bank of Bovina at 8 p.m. on Monday, May 20.

"You sure they won't pounce on me and try to make me an instant Christian?"

**THE MEASURE OF OUR INFLUENCE**

Paul said in the Roman epistle, "NONE OF US LIVES TO HIMSELF, AND NONE OF US DIES TO HIMSELF." (Rom. 14:7)

Samuel Johnson once said, "Neither our virtues nor our voices are our own. Because of other's response to them we cannot keep them to ourselves."

Every person leaves his tracks. As the tiniest hair leaves its shadow, the very smallest of acts become examples of some kind.

The story is told of a lady visiting New York City some years ago and saw on the street a ragged, cold, hungry and dirty little girl, gazing wistfully at some of the cakes in a window. She stopped and took her into the store and bought her the cake she wanted. She then took her to another place and bought her a sweater and other articles of comfort. The grateful little girl looked the lady full in the face and, with artless simplicity, said: "Lady, are you God's wife?"

It has been said that the work of an unknown good man is like a river that runs underground. It can't be seen-but it makes the earth rich and green above.

The influence for good we exert, gives somebody, somewhere, a little more courage--a little more hope--a little more faith--that "God is in heaven"...even if all's not right with the world.

**HOW POWERFUL IS OUR INFLUENCE!** Only eternity will reveal it in how many souls I have affected in my lifetime. Our influence is showing. What is the measure of it for Christ?

**FACTS By John Ricci**

More necessary than any tractor, more important than the best fertilizer, more critical than the highest developed hybrid, needed more than the most modern technology... in fact, as important as the land itself is the endangered resource called incentive. Whenever this resource is plentiful, production increases, technology continues to improve and consumers benefit by having more and better food and fiber. When incentive is reduced, production lags, fewer risks are taken and scarcity could easily become a threat. There has almost always been a good supply of incentive for the American agricultural producer. Hopefully all of us will do our part to make sure this most important of resources continues to be abundantly available.
