1967 Cotton, Feed Grain and Wheat Signup

Sign-up for the 1967 cotton, feed grain wheat programs will begin Feb 6, 1967, and continue through March 3. This means that sign-up period will last only four weeks. Notices of yield, payment rates, bases, allotments, and conserving bases will be mailed to you in January.

Cotton Transfers

Applications will be accepted through Jan 3, 1967 to sell or lease 1967 cotton acreage.

New Growers Cotton Allotment

Jan. 17, 1967 is the final date for applying for a 'new Grower's' cotton allotment. Neither the operator nor the owner of the farm covered by the application can own or operate any other farm in the United States for which a cotton allotment is established for the current year. Land must be suitable for production of cotton, and the operator must expect more than 50% of his income from agricultural commodities excluding cotton production from the farm.

Cotton Report

With harvesting fast coming to a close, Golden Spread cotton classed during the week continued to reflect lower quality, reported USDA's Consumer and Marketing Service in Memphis, Texas.

For the week ending Wednesday, Dec 21, 14,500 samples were classed for a seasonal total of 103,000. Last season as of the same date, 102,000 samples had been classed. The big difference in the two seasons is that last year at this time we had classed slightly over 50 percent of total classed for the season compared with 54 percent classed to date of the expected 1966 crop.

IT PAYS TO BE SHIFTY-EYED

When you are driving, don't stare at a fixed point on the roadway ahead. Keep the eyes shifty to get the full picture of what is ahead—traffic signs, signals, other vehicles, pedestrians, intersections, curves, hills or any other hazard—and to avoid drowsiness.

Housing Credit

The U S Department of Agriculture's Farmers Home Administration is better equipped to handle the housing credit needs of low and moderate income Donley County families as a result of legislation recently signed into law, according to Claude Moore, Farmers Home Administration county supervisor

Moore said the Demonstration Cities and Metropolitan Development Act, signed last month by President Johnson, makes it possible for a broader range of Donley County families to qualify for housing credit under expanded housing loan authorities of the Farmers Home Administration.

The new legislation, Moore continued, makes more mortgage credit available to low and moderate income families in Donley County by increasing the level of activity of the agency's rural housing loan program.

A WINNING PAIR

4-H DAIRY SHOW

THE 4-H girl or boy who holds the ribbon or receives a trophy for a dairy animal at the fair has put in hundreds of hours caring for the animal. They usually start with a calf from the farm herd or a calf they have purchased with money earned from 4-H projects.

A visit to the 4-H division of the fair and a talk with the 4-H'ers will reveal that they have not only worked hard to make the main event, but have learned a lot in the process. Preparing an animal for the show ring, they say, takes a lot of skill, time and patience.

The 4-H dairy project also is the training ground for cattle judges. Club members making

the judging team travel to county and state fairs and to the large regional and national shows as well.

Their achievements do not go unrecognized. This year nearly two thirds of all the counties in the U.S. are expected to name some 6,000 medal winners, says the National 4-H Service Committee. The medals, plus state and national awards will be provided for the 10th straight year by the Oliver Corporation, sponsor of the national 4-H Dairy program.

All winners are chosen by the Cooperative Extension Service which supervises 4-H work.
