## Housing Loans

Applications for insured housing loans are now being accepted from families in all income groups, Donley County Supervisor Claude Moore of the Farmers Home Administration said today.

Until recently funds were available for families with low and moderate incomes.

Mr Moore said home financing for families of above moderate income can be resumed by the agency under a new allocation of lending authority granted by President Johnson. A Presidential order March 17 authorized the agency to insure \$25 million more in housing loans to families of the upper income group between now and June 30.

Action on new applications from persons in the above moderate income group had been at a virtual standstill since November. The agency had taken all applications

it could meet under the previous \$25 million allocation of loan authority for the current fiscal year.

## Greenbelt Dam

Clifford Johnson, local director, attended the meeting of the Greenbelt Water Authority at Childress last Thursday night. He and Johnny Conatser, local Greenbelt employee, visited the dam lake area and filter plant Friday.

The dam is now 98% complete, the water gauge near the dam showed the water depth to be 26 feet, 6 inches, and the filter plant will be ready for test runs by June 1st.

The bed of Salt Fork is braided sand and quite firm, a marked contrast to the Canadian River. The quality of the water is good. The new lake should be very productive and the fishing excellent.

Recently 150 000 northern pike were turned loose in the lake. They are supposed to weigh four pounds within a year and ten pounds the second year. The next shipment of fish from the Texas Parks and Wildlife Commission is supposed to be large-mouth black bass to arrive in May.
