

# School Bond Election Carries; Vote Close

Voters turned out in record numbers in the school bond election here yesterday (Tuesday), to give the two-grade elementary school and cafeteria a slim nod of 222 for and 210 against. Turned down was a new football stadium and field house.

The football field improvements and stadium composed Proposal No. 2 and was defeated by a vote of 235-191. Proposal No. 3, for a new field house, received the disapproval of the voters again, this time 223 against, 194 for

Ballots counted, following the third construction bond election in Bovina Independent School District within the past 11 months, totaled 442. This was in comparison to 284 votes cast in December and 329 counted last April.

The new \$212,000 six-classroom elementary school, which will house the first and second grades and a cafeteria, will be constructed on land purchased last year by the school district on Ninth Street.

Designed by Architect Arnold Maeker of Lubbock, the

structure will consist of a central building containing the cafeteria, offices, library and lounge, with the hexagon-shaped classroom section attached at one corner. Other hexagon-shaped classroom sections may be added to other corners of the central building if the need arises and voters approve.

The third bond election was called in the Bovina Independent School District after a petition was presented the school board signed by 56 residents.

The first, which called for a \$600,000 construction program last April, was defeated almost two-to-one, 226-103.

In December the bond election was proposed in three issues and the same appeared on the ballots Tuesday. The first time voters voiced their opinions, the elementary school was defeated 155-125; the football field improvements and stadium 173-101, and the field house 174-104.

Bovina, Texas

VOL XI, NO. 32

### WHITTLIN'

By DOLPH MOTEN

Area farmers continued to show their superior abilities at sugar beet production during the past year.

J. B. Barrett, who farms southeast of town was the leading producer in this region with 42.81 tons per acre. That was the high among farmers who deliver to the dump here, too, of course.

Wendell and Keith Garner, Bovina farmers who deliver their beets to the Friona dump, were high producers among farmers there. Their average yield per acre was 34.44 tons per acre.

Those three were among the farmers cited at the annual convention of sugar beet growers in Hereford recently for producing more than 10,000 pounds of sugar per acre.

The ability of the farmers in this area and in all of Parmer County, for that matter, is chamber of commerce material in the first order. The success of farmers, from a production standpoint, is almost taken for granted here. "We're on top and that's the way it's supposed to be," seems to be the non-bragging attitude of the people. The achievements almost have a tendency to be overlooked because of the consistency.

This speaks well not only of our farmers, but of the land and water as well, of course. There's a direct relationship between the farmer's production each year and the quality of his land and the quantity of his water.

Once we overheard a conversation of two farmers who were talking about a third, it went like this:

No. 1: "I'll tell you how good a farmer he is..."  
No. 2: "Don't tell me; just tell me how much water he has and I'll tell you how good he is. It's as simple as that."

That illustration oversimplifies the matter, certainly, but there is some truth in it, needless to say.

"Read," encourages Methodist Minister J. B. Fowler, Jr. in a recent issue of The Messenger, publication of Bovina Methodist Church.

He points out that more material is available than ever before to read. "Still," he writes, "we remain basically an uninformed people."

Our North-of-town critic renewed his paper this week. He's been pretty rough on us during the past few weeks, but just before we gave up he paid another year's subscription. He said a recent issue of The Blade made a year's sub renewal look like a good investment. We accepted his money before he changed his mind.

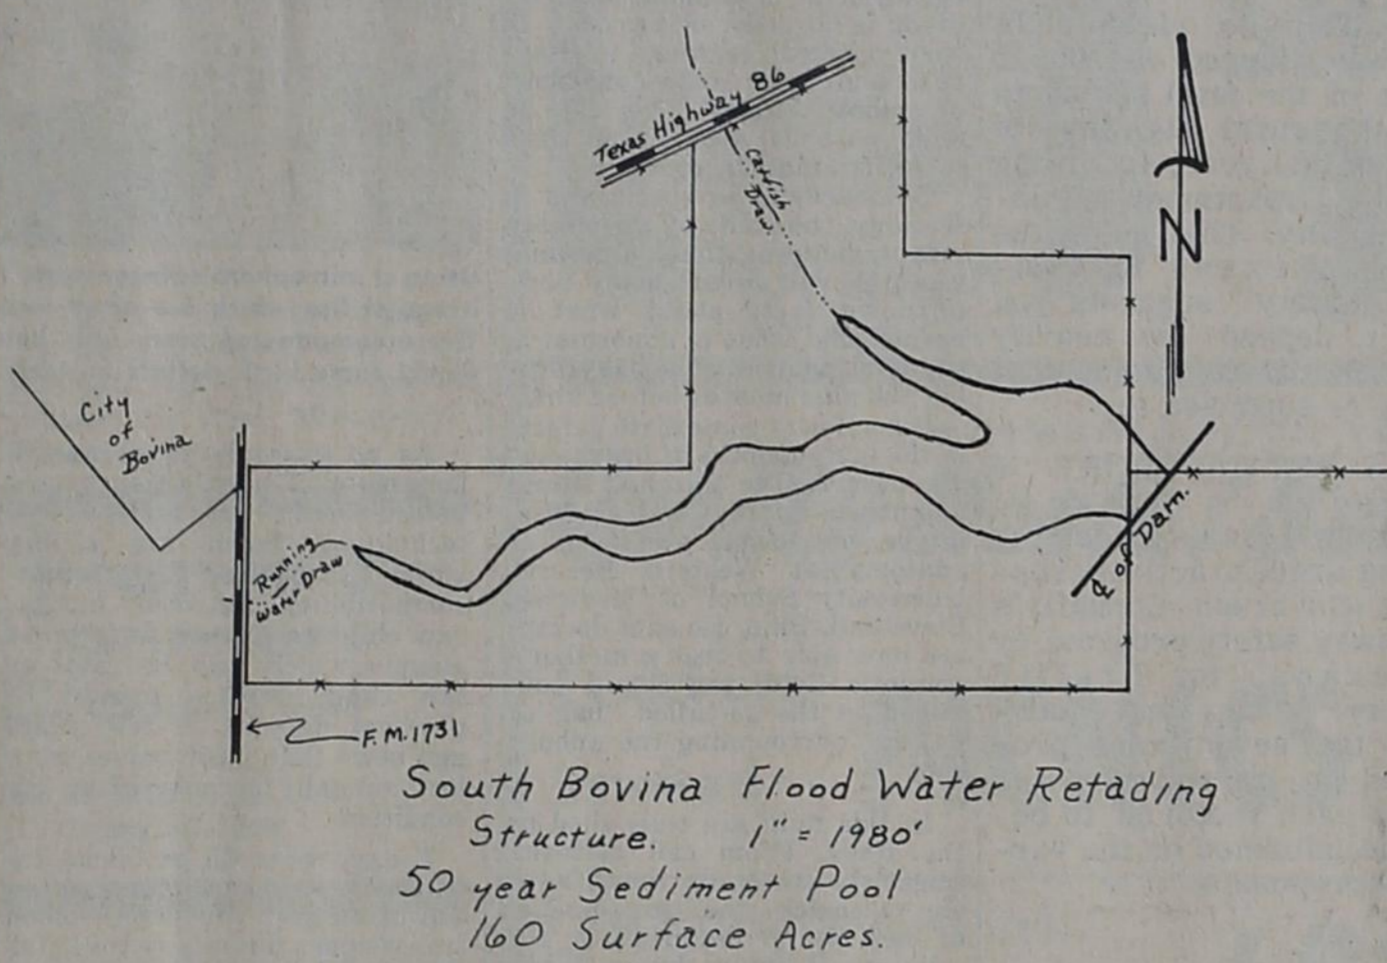

Compliments are always good, though often few and far between. They're still better when they're backed up by a check.

It's good to see residential construction underway again in Bovina. The Ralph Romings have a new home underway in Ridgelea Addition, the first building activity there since the tight money lull caused the drum of carpenters' hammers to be less consistent.

There's cautious optimism, we understand, that things are expected to pick up in the building business.

Actually, the "lull" here was short-lived anyway and possibly would have gone unnoticed except for the pessimism expressed in other areas which we thought might have been affecting this community, too.

The number of new brick homes south on the Oklahoma Lane Road indicate that 1966 was a good year in our area, no matter what the big boys say.

LOCATION OF DAM AND LAKE -- The proposed Soil Conservation Service dam will touch the boundaries of the George Trimble place in Running Water Draw. The damsite will be maintained by the Soil Conservation Service and is located two miles southeast of Bovina. When permission from the Texas Water commissioners is secured, the lake will cover approximately 160 surface acres and contain approximately 1,000 acre feet of water when full, according to Eddy T. Willmon, work unit conservationist.

### Makes Dam Possible --

## State Authorizes \$80,000 Farm Road Improvement

(EDITOR'S NOTE -- Information on the state highway commission's authorization of the \$80,000 expenditure for improvement of FM Road 1731, south of Bovina is based on a news story which appeared in The Amarillo Daily News with an Austin dateline in the February 1 issue. No direct report has been received by Parmer County officials from the highway commission concerning the allocation, DM)

Texas Highway Department authorized an \$80,000 project Tuesday of last week to raise the grade across Running Water Draw on Farm-to-Market Road 1731 about a mile south of Bovina, according to a news release from Austin.

The authorization came after

a delegation of Bovina citizens appeared before the Texas Highway Commission earlier in the day to ask for help in raising and widening the road to provide for a dam in the planning stages of the Soil Conservation Service, to be constructed on George Trimble land.

The project, according to the news release, will raise the grade from eight to 10 feet and thus eliminate water from covering the road after the lake is filled.

Survival of the dam project at the Bovina location depended on the decision of the Texas Highway Department, representatives from Bovina had earlier told the Blade. Had the commission refused its help, the dam would have gone to the east part of Parmer County or even further east on the draw.

Attending the conference in

Austin were Mayor Bedford Caldwell, Chamber of Commerce and Agriculture President Leon Grissom, Chamber manager Jim Ware, County Commissioner C. H. Jefferson, County Judge Loyde A. Brewer, and other county commissioners.

The Soil Conservation Service is planning a series of dams

### Medical Survey Passes --

## Sears Director Schedules Bovina Appearances Feb. 23

Sears Roebuck Foundation has notified the Bovina Woman's Study Club that Bovina "passed the medical survey" conducted here last fall.

The information was received by Mrs. Jesse Walling from Norman H. Davis of Chicago, director of the medical program for the Foundation.

His letter stated, "Your community has passed the medical

survey, the next step is to arrange a town meeting."

The meeting has been scheduled for 7:30 p.m., Thursday, Feb. 23, in the Bovina Schools. At that time Davis will appear before the Bovina people to explain the program and the problems of obtaining a doctor.

All interested parties will be urged to attend the meeting, in addition to representatives

from all civic organizations of the town.

Mrs. Walling said that Davis "will be here for the sole purpose of assisting the people of Bovina to help themselves in obtaining a medical center and doctor."

A project was started last year for a medical clinic in Bovina by the community. Bovina Woman's Study Club has spearheaded the project in fund raising events, and other organizations, the Jaycees, churches of the town, etc. have also added their support in sponsoring and aiding in various events.

At this time a total of \$5-625.22 has been raised through Christmas card projects, rummage sales, a womanless wedding, "Slumtown Symfunny"

program of Lamesa and other promotions and donations.

Organizations backing the project have been the Chamber of Commerce, Jaycees, Lions Club, American Legion, G.I. Forum, Bovina Roping Club and the Study Club.

If Bovina receives aid from

(Continued on Page 2)

### By Mail Ballot --

## Chamber of Commerce To Elect Directors

Mail ballots for naming five directors for the Bovina Chamber of Commerce and Agriculture are being prepared with a slate of nine men listed for the places.

Members of the Chamber will select five directors from the list, Jamie Clearman, Earl Whitten, Tom Bonds, Bedford Caldwell, Roy Allen, Owen Patton, Nick Trienen, Charles Corn, and S. A. Barbe.

Those whose terms expire this year are Edward Isaac, Tom Caldwell, A. M. Wilson, Jamie Clearman, who was named to replace the late Don Sides last August, and Jim Ware, who

is the new Chamber of Commerce manager.

The new directors will be chosen to serve for three years. Holdover directors with two years to serve are James Roach, Tom Beauchamp, Mrs. G. D. Anderson Jr. and Mrs. Bob Wilson. Those who will remain on the board for one

more year include C. E. Trimble, Wayne Spears, Leon Grissom, Otis Spears, Mrs. Bob Estes, and Kenneth Cary, who was named to fill the term vacated by Mutt Graham.

Following the election of the new directors, officers for the year beginning in April will be named by the board.

Current officers are Leon Grissom, president; C. E. Trimble, vice president; Jim Ware, treasurer; and Mrs. Bob Estes, corresponding secretary.

The Chamber of Commerce and Agriculture banquet will be held in March, following which the new officers will take over.

### FFA, 4-H Club --

## Bovina Livestock Show Wednesday

Bovina's FFA and 4-H Club Livestock Show will be held at the school barn Wednesday of next week according to John Paul Jones, vocational agriculture teacher, under sponsorship of Bovina Lions Club and Bovina Chamber of Commerce and Agriculture.

The annual event is held the day before the County Livestock Show in Friona, scheduled Feb. 16, 17 and 18.

In Bovina, Ronny Dennis, vocational agriculture teacher of Kress, will judge the steers and barrows. Darryl Dennis of Olton, Southdown breeder, will judge the sheep.

Entered in the Bovina show will be six classes of barrows, one class of gilts, two classes of lambs and two classes of steers.

Trophies, cash prizes and ribbons will be awarded the winners. Last year nearly \$400 was given FFA and 4-H members in the Bovina show.

At Friona lambs and barrows will be judged Thursday and Friday, Feb. 16 and 17, while the steers will be judged on Saturday, the day the sale is also set, Jones said.

FFA and 4-H boys planning to show their animals in the Bovina Livestock Show include the following by divisions:

**STEERS:** Gary Carson, Steve Pierson, Ronny Dyer, Eugene Bowman, Kelly Jamerson, Randall Barrett, Galen Carson.

**BARROWS:** Berkshires, Bobby Redden, Joe Meza, Mike McCallum;

Chester Whites, Curtis Drager, Kenny Stone, Billy Mays, Al Kerby, Larry Grissom, Larry Mitchell, Raymond Drager, Roy Lee Stowers, Joe Don Stevens.

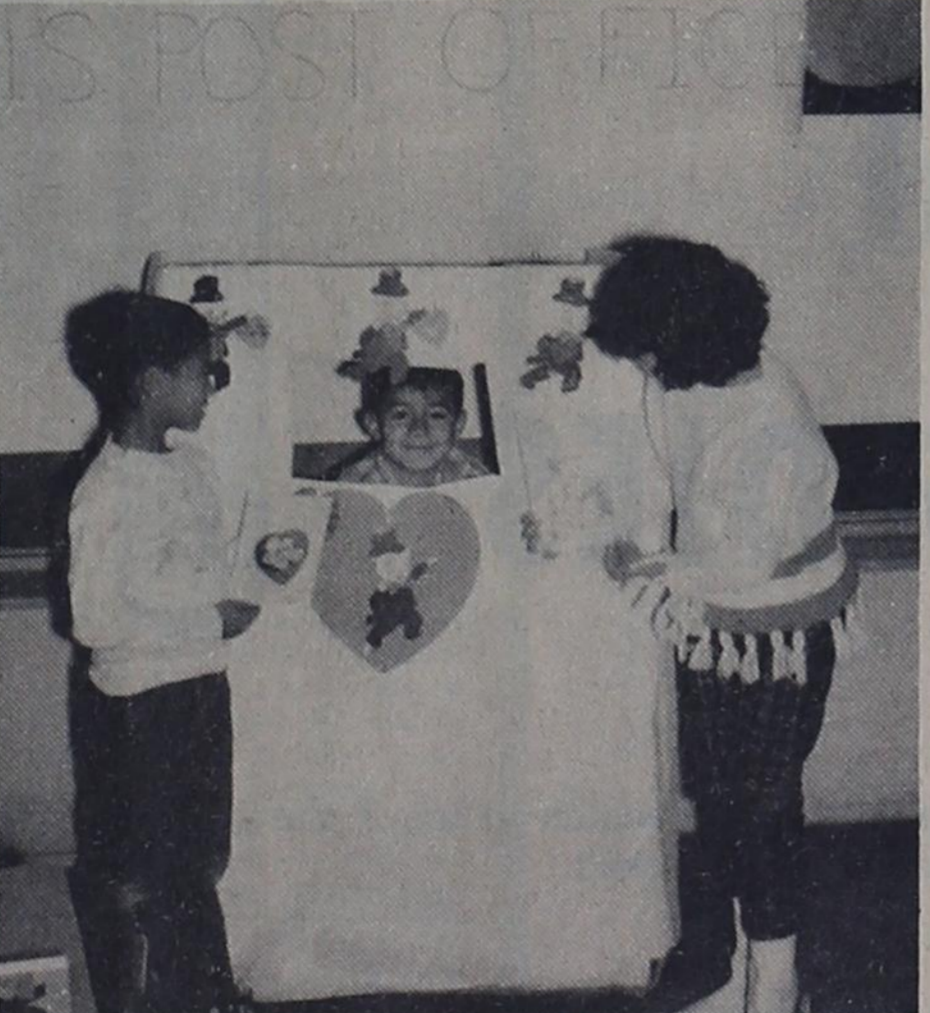

Durocs, Raymond Quintana, Rodney Murphy, Larry Mitchell, Carl Harris, Robert Fowler, Randy Hutto, Joe Don Stevens, Bruce Caldwell, Wesley Harris, Royce Lorenz, Steven Wiseman;

Hampshires, Kenny Stone, Larry Mitchell, Galen Hromas, Robert Fowler, Phil Sorley, Stephen Sherrill, Jackie Hall, Polands, Curtis Drager, Larry Grissom, Raymond Drager, Phil Sorley, Gaylon Beavers, Crosses, Raymond Quintana, Larry Mitchell, Mike McCallum.

**LAMBS:** Southdown, Daryl Kirkpatrick, Raymond Drager, Car-

rol Foster, Bennie McKay, Stuart McMeans, Other breeds, Ronny Dyer, Danny Stanberry, Johnnie Hugh Horn, Wayne Stone, Royce Grissom, Bennie McKay, Billy Kesler, Larry Hammonds.

**GILTS:** Billy Mays, Larry Grissom, Carroll Foster, Larry Mitchell, Ricky Kunselman, Terry Sherrill, Joe Don Stevens, Royce Grissom, Stephen Sherrill, Billy Kesler.

MAILING VALENTINES -- Students in the second grade room of Mrs. Iola Hise use their "post office" for sending Valentines to their friends. Buying stamps from acting postmaster, Tommy Serpa, are Ruben Serpa, left, and Diana Lumbreras. Children in the elementary grades will be entertained with Valentine parties Tuesday in their school rooms, all of which are being decorated in the Valentine theme.

### For Bovina Policy Holders --

## Insurance Key Rate Drop A Possibility

Steps have been taken and plans made for the key rate to be lowered for Bovina insurance, according to Jim Ware, local insurance agent.

He and Mayor Bedford Caldwell visited the State Board of Insurance while in Austin conferring with the Texas Highway Commission last week. They took with them the city files and found that insurance rates have not been changed for Bovina since 1963.

The State Board will send an inspector to Bovina, probably during the summer, and the result may be that insurance will get into a lower key rate here.

Attributing to the hopes of lower rates are the new water wells and storage system in Bovina, as well as the addition of another fire truck here.

The Bovina men also discussed specifically, things that can be done here to lower the rates

even further. For instance, a button can be placed in hotel here so that the fire alarm can be set off there when calls are made to the hotel, instead of the receiver having to go across the street to city hall to set off the alarm. This will save two cents on the rate, Ware said.

While in Austin the men also secured recommendations from the state for plumbing, electrical and building codes, which were brought back to Bovina for consideration.

1967 LICENSE PLATES ON SALE -- As usual, L. D. Dorsey of Bovina was the first Parmer County resident to purchase a vehicle license plate when they went on sale in Farwell Feb. 1. Dorsey shows the plate he bought for his pickup-truck from Hugh Moseley, tax assessor-collector. Waiting in line are Mr. and Mrs. C. D. Gustin of the Lazbuddie area. Plates must be on all vehicles by the deadline on April 1.

to control flood waters in the Plainview area. The Bovina dam will not only aid this situation, but will also provide water storage for the town as well as a recreational area.

The authorization of the \$80,000 clears the last major hurdle, locally, for construction of the dam which is estimated at \$250,000, when appropriated by the Federal Government.

The pipeline, crossing Running Water Draw, will have to be weighted, a spokesman said, to keep it from floating once the lake is filled with water. The pipeline is owned by Trans-Western Gas Co.

Giving the Bovina delegation a great deal of help in Austin conferring with the Texas Highway Commission were Senator Jack Hightower, Representative Bill Clayton, Representative Ralph Wayne from Plainview, and Chief Engineer of Soil Conservation Service, Phil Grazer.

The largest grape vine on record was one planted in 1842, at Carpinteria, California, which yielded over 10 tons of grapes in some years.

**Schedule Appearance --**

(Continued from Page 1)

the Sears Roebuck Foundation, which will help in obtaining a doctor for the town, the community itself will be required to provide a clinic building.

Various phases of the program will be discussed and explained at the community meeting and all people of the town are urged to make plans early to attend, Mrs. Walling said.

**WORST DAY ON RECORD**

On Saturday, December 18, 1965, there were 27 traffic accidents in which a total of 37 persons were killed. According to the files of the Texas Department of Public Safety, this was the worst day of the year. It was also the highest traffic death toll on record for a single day.

**STIFFER LICENSING**

"Texans for Traffic Safety" has announced its support of stricter driver licensing laws, including issuance of only provisional driving privileges to all persons under 21 years of age.

**Know The Truth**

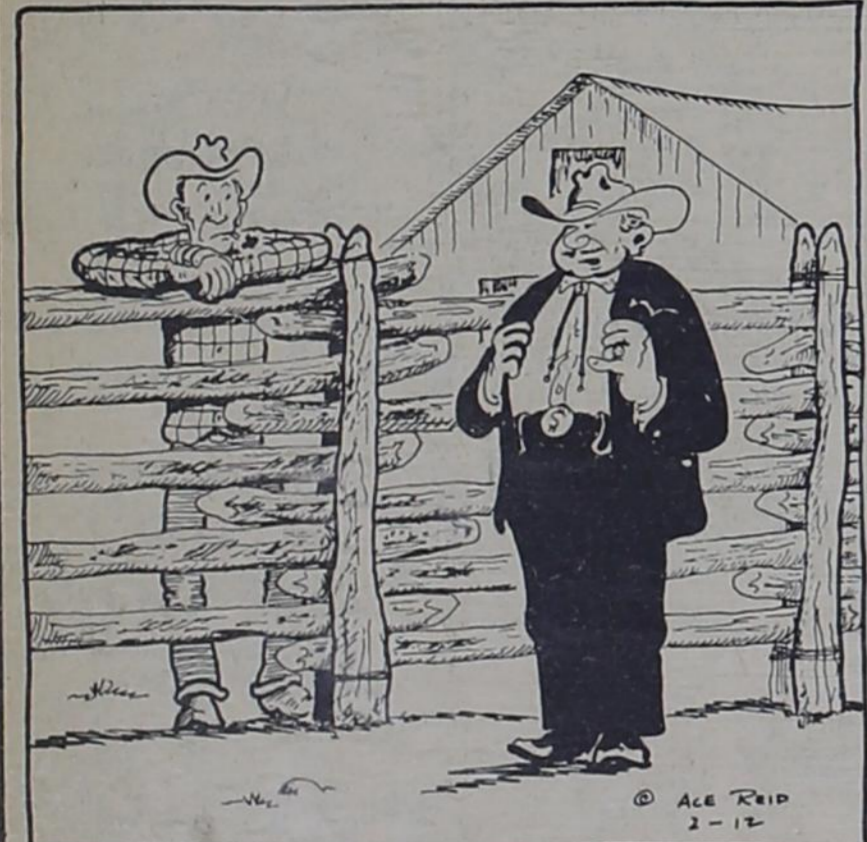

By Lavern Stewart

What is your life? Can you answer? Is it just a length of time, a mere existence? This is a Bible question, James 4:14, "Whereas ye know not what shall be on the morrow. For what is your life? It is even a vapour, that appeareth for a little time, and then vanisheth away." Life may be defined as the opposite of death; yet human life is surely more significant. Human life must be defined in terms of preparation and service, both to God and our fellows. Life is a gift from God because He created man and gave him the power to reproduce, Gen. 2:7, 1:28. Since God has given us life, then we will be held accountable to Him for the way we live it, Eccl. 12:13, "Let us hear the conclusion of the whole matter: Fear God, and keep His commandments; for this is the whole duty of man." In the next verse, the writer adds force to what he has already said about obeying God: note, "For God will bring every work into judgment, with every hidden thing, whether it be good, or whether it be evil." The New Testament also teaches that we will give account for the way we have used the precious gift from God, life, Revelations 20:12, 13, "And I saw the dead, the great and the small, standing before the throne; and books were opened; and another book was opened, which is the book of life; and the dead were judged out of the things which were written in the books, according to their works. And the sea gave up the dead that were in it; and death and hades gave up the dead that were in them; and they were judged every man according to their works." Life might be compared to a dressing room; just as one prepares in his room to go out to the day's activities, so one prepares in this life, his dressing room, for eternity.

**Reflections**  
From  
**The Blade**

Bovina's paving project that is being planned was the main topic of conversation between engineers and Bovina City Commission when it held a "busier than usual" session Monday night.

Members of Bovina Methodist Church discussed plans for building a new educational building at a meeting Monday night at the church.

Bovina has set a Parmer County record for money raised during a March of Dimes campaign. By collecting \$1056.45 during the month-long-just-completed 1957 drive, this community became the first in the county to reach the \$1000 figure.

Tom Hartwell was elected commander of Bovina American Legion Monday night and was installed with other new officers for 1957.

Clayton Sanders of Oklahoma Lane, who is Texas' and the nation's No. 1 sesame farmer, is going out for new production records when he plants his third big crop this spring. He is going to plant all of his 320-acre farm except 20 acres to the ancient oilseed, which became a new cash crop in Texas in 1953, and shoot for 1,500 pounds of clean seed per acre.

Miss Susan Levins of Texico, sister of Scott Levins of Bovina, appeared Sunday night on the Ted Mack Television show in New York City.

Three members of Bovina Order of Rainbow for Girls were installed Monday evening at a regular meeting, with Sue Estes, Worthy Advisor, in charge. Those installed were Janice Leake, Charlotte Hromas and Patsy Richards.

Only two winners were on hand for Saturday afternoon's Boost Bovina Drawing. Eula Newton was the \$5 winner and Mrs. Wilma Steelman was awarded the \$10 prize.

**SIX YEARS AGO**  
Feb. 8, 1961

Much of the \$2,000 worth of merchandise taken from Williams Mercantile in Bovina last Tuesday has been recovered by Parmer County Sheriff Chas. Lovelace following the arrest of four Clovis men.

Guest speaker at a general membership meeting of Bovina Chamber of Commerce and Agriculture Thursday night at 7:30 in school cafeteria will be Dan True, popular television weather reporter from Amarillo.

In two called sessions -- one Saturday and one Monday -- board of trustees of Bovina Schools decided to purchase two government surplus quonset-type buildings for school use, Superintendent Warren Morton announces.

Cynthia Patterson, daughter of Mr. and Mrs. Jack Patterson, is the 1961 Betty Crocker Homemaker of Tomorrow for Bovina High School.

Mrs. J. R. Caldwell hosted the Quilting Club Friday afternoon in her home. During a short business session the ladies decided to contribute to the cancer drive by auctioning a quilt at a ballgame between Lazbuddie and Bovina.

In 1960 estimated farm cash income for Texas farmers and ranchers amounted to \$2,209,219,000, down 3.2% from 1959. Income from livestock was up 2.7%, but this was not enough to offset the 7.6% decrease in income from all crops.

Gold Star Boy of the Parmer County 4-H clubs this year is Steven Young. He will receive the award Saturday night at Oklahoma Lane during the Parmer County 4-H achievement program.

Friendly Circle Sunday School Class of First Baptist Church was honored with a coffee Monday morning in the home of Mrs. Harold Hawkins.

**TEN YEARS AGO**  
Jan. 30, 1957

Jan. 31 marks the end of the month-long 1957 March of Dimes campaign. Aubra Ellison, community March of Dimes chairman for Bovina, says he is more than sure Bovina has done itself proud by reaching its quota of \$1000, and "then some."

Bovina Lions Club members and their wives heard a talk Thursday night by Don Stark, Lions Governor of District 2-T1, at the annual Ladies night banquet in Bovina School cafeteria. Mrs. G. E. Redwine became the first double winner in the history of Boost Bovina Drawings Saturday as her name was drawn from two "pots" of \$10 each.

Several families from here went to Lazbuddie Monday evening for the dedication ceremonies of the new auditorium of the Church of Christ. R. A. Hartsell, former minister of Bovina Church of Christ, was in charge of the ceremonies.

The City Commission purchased a new pickup last week from Farrell Motor Company in Bovina.

Bovina Volunteer Firemen studied the department's oxygen resuscitator at a regular meeting Monday night in the fire station. Otho Hammonds, fire chief, was in charge of the instruction.

A long drought was broken Monday at Lazbuddie. Bovina grade school boys won their first basketball game in three years! Bovina Jaycees voted at their regular weekly meeting to submit a bid on an army surplus spraying machine at Altus, Okla.

Bovina American Legion will have its first February meeting Monday night at 7:30 in the Legion Hall, R. T. Harbour, adjutant, says.

**SIX YEARS AGO**  
Feb. 1, 1961

Burglars made another of their periodic strikes in Bovina Monday night. Victim was Williams Mercantile Co. Merchandise worth more than \$2000 was stolen by the burglars, estimates W. E. Williams, owner of the business.

Bovina farmers occupied their customary high positions in agricultural production contests awards banquet at Lubbock last week. Don Murphy of Bovina walked away with top national honors of DeKalb's Selected 5-Acre yield Contest in grain sorghum. Murphy won the national grand championship with a yield in excess of 13,000 pounds per acre.

J. W. Wright, also of Bovina, won the 5-Acre selected corn growing contest for the state of Texas with a top yield of over 130 bushels of corn per acre.

Bovina Sugar Beet Growers Association, swinging into high gear after an organizational meeting Saturday night, will have its second meeting in six days this week.

Moisture content in last week's snow measured only about one-half inch, but it did serve as another boost to the 1961 wheat crop which was already off to a good start.

Rex Isham of Bovina received his advanced degree, master of science in physics, at mid-year graduation at Texas A&M College at College Station.

Bovina's Mustangs suffered a blemish on their otherwise perfect district record Thursday night at Lazbuddie as the Longhorns handed them a 12-point, 52-40 defeat.

Activities for Bovina's March of Dimes campaign continues to be scheduled, announces Charles Thompson, chairman of the drive here. Lady Armstrong will conduct her annual cake and coffee sale for benefit of MOD Saturday in Gaines Hardware Co.

**HIGH TEENAGE DEATH TOLL**

Almost one-fourth of all traffic fatalities in Texas in 1965 were youngsters under the age of 20, says "Texans for Traffic Safety". All motorists are urged to use extreme caution in operating a vehicle around children, or with a young passenger in the car.

**ATTITUDE IS IMPORTANT**

Attitude, rather than skill, can be the determining factor in avoiding an accident, says "Texans for Traffic Safety." The driver with the proper attitude may not be as skillful as another driver, but he will more than often avoid getting into an "accident situation."

**RIGHT OF WAY**

Failure to yield right of way figured in 10 percent of the fatal accidents on the rural highways of Texas last year, according to the Department of Public Safety. This being the case, "Texans for Traffic Safety" suggests you don't depend too heavily on other drivers doing what they're supposed to.

**SAFETY SUPPORT**

Each Texas resident is being urged to actively support Governor Connally's highway safety program by "Texans for Traffic Safety." The group endorses the seven-point program in its entirety, and asks each motorist to become informed on the various proposals.

**LAW ENFORCEMENT**

"The public gets what the public wants," says "Texans for Traffic Safety." The safety group reports that law enforcement in any area closely parallels the desires of society, and says "if you really want safety, work for safety."

**May Treat Birth Defects in Womb, March of Dimes Leaders Are Told**

Progress during 1966 in diagnosing and treating the medical problems of babies before they are even born raised doctors' hopes for the prevention of many birth defects in the future.

"The womb is not the safe, secure haven psychiatrists would have us believe," says Dr. Jerold Lucey, associate professor of pediatrics at the University of Vermont College of Medicine.

Dr. Lucey, in reporting research progress to a recent meeting of National Foundation-March of Dimes volunteer leaders in the fight against birth defects, said:

Using a microphoto enlargement, technicians point out chromosomal irregularities which are often associated with serious birth defects. The accompanying story tells how this procedure can be used to detect some birth defects in early months of pregnancy.

"Obviously, hazards exist within the womb—otherwise we would not have 250,000 babies born with birth defects each year in the United States.

"It is a myth that we cannot study babies still in the womb," he says. "It is possible—and indeed, is already being done in some medical centers—to diagnose and treat some conditions of unborn babies. This can be done without prohibitive risks to either mother or child."

Dr. Lucey, who specializes in fetology, the study of the unborn infant, believes that increasing research will reveal many new unknown facts about what is normal and what is abnormal in the environment of a baby during the nine months before birth.

Detection of some birth defects in the early months of pregnancy was described to March of Dimes volunteers by Dr. M. Neil Macintyre, associate professor of anatomy at Western Reserve University School of Medicine, Cleveland, Ohio. He said doctors are now able to test a mother's amniotic fluid, the liquid contained in the so-called "bag of waters" surrounding the unborn baby.

In this fluid are cells shed by the fetus. From cell cultures, scientists can study the infant's chromosomes—the tiny bundles of hereditary material in the cells of all living things. When abnormalities are detected in the chromosomes, diagnosis of certain defects such as mongolism is possible.

"However, this technique is not yet entirely safe and should be used only under special circumstances," Dr. Macintyre pointed out. Such a circumstance might be when a family history arouses suspicion of a hereditary condition.

As an example of successful treatment of a condition known before birth, Dr. Lucey cited techniques which are saving many "Rh babies." Rh blood incompatibility between mother and child can cause a form of anemia which may be fatal or can cause serious mental or physical defects. A few years ago more than 2,000 babies were lost annually because of an Rh condition.

Today, when Rh problems are detected before birth, doctors can often give life-saving blood transfusions directly to the fetus through the mother's abdomen. Dr. Lucey estimates that approximately 30 to 50 per cent of the infants who would have died because of this one condition can now be saved.

Physicians believe that the time will come when those practicing fetal medicine will be able to treat many other dangerous conditions. In the near future a doctor may, for example, give

an unborn baby digitalis to strengthen a weak heartbeat.

When it is discovered that an unborn baby has an infection, it may be possible to identify the cause and treat it. Fetologists are already seriously studying the potentials of fetal surgery whereby specialists operate directly on the unborn child to correct a serious condition, then return it to the womb to await natural birth. This has been done successfully with animals for several years.

In many ways, the problems of birth defects have been likened to the problems of penetrating outer space. What seemed "way out" 10 years ago now seems very possible within the next decade. Through research such as that supported by The National Foundation—March of Dimes, scientists feel it may be possible to solve many problems of birth defects which now strike one American baby in 16.

## Management

### School Ends

The sixth and final meeting of the 1967 Management School will be held Tuesday, Feb. 14, at 1:30 p.m. in the Hub Community Center.

Credit, a tool or trap, will be the subject discussed at the last meeting. Joe Jones of the Security State Bank in Farwell will discuss this subject. Jones will speak on "Credit" from the standpoint of kind, source and cost.

Ronny McNutt, Parmer County Agricultural Agent will serve as chairman for the meeting.

Hostesses for the last meeting will be the Lazbuddie Young Homemakers Club.

County Extension Agents, Cricket B. Taylor and Ronny McNutt, encourage everyone to attend the final Management School meeting.

## At Home In Parmer County

By CRICKET B. TAYLOR  
County HD Agent

February 15, 16 and 17 are dates for starting training for 4-H Adult Clothing Leaders. These meetings will be a workshop on "Cleaning & Care of the Sewing Machine." As a leader and teacher of young girls, not only will leaders teach her to use her sewing machine, but they will be helping her to develop skills that will give her pleasure all her life. Learning to use the sewing machine with ease, she will become more free to express her own creative ideas in making her clothes. The first pre-requisite to teaching is becoming familiar with the cleaning and care of the machine. After this, a series of lessons will be given on the use of the machine. These meetings are scheduled for March.

Some 4-H leaders want to start their clothing project work early and this seems to be a good idea too, -- waiting until schools are out create many conflicts such as Bible Schools, vacations and etc.

**THE AGING POPULATION**  
Much thought and study has been given in recent years on the process of aging. To the younger group this seems a very uninteresting and far-away subject. However, unless one plans to die young, they will reach that stage in the life cycle sooner or later.

Many counties now have a committee on aging whose purpose and function it is to study problems and help promote educational programs which will be of value or interest to older adults. A list of suggested program ideas and activities for County Committees on Aging, local committees and professional groups who are interested in promoting the welfare of senior citizens is available through your County Extension Office. The Home Demonstration Agent will be happy to assist and furnish you with ideas and programs, based on research of special needs in the problem solving process.

The program ideas are certainly not entirely for those 65 years and over because today's middle-aged citizen is tomorrow's senior citizen. Some of the programs are designed to prepare to be 65 and over. The

aging population is of major concern of Texas.

In the recent meeting of Parmer County Program Building Committee, the need for a county sub-committee for study of county needs on aging was suggested. More than 166 counties in Texas have begun to organize such a committee and 105 counties are fully organized. In Parmer County interest in this phase of our community development is needed.

**FINE FURNITURE**  
Do you know that authorities on fine antique furniture agree that it can be enhanced by periodic washing. The procedure involves application of warm soap or detergent suds with a sponge cloth or a soft brush -- if piece has a thick coating of grime or grime. Fine dust mixed with oils do build up, of course, as in dusting, always stroke cloth with wood grain, not crosswise circular motion.

## Sudderth At Oklahoma Tech

Ronnie Dwan Sudderth from Bovina is enrolled at Oklahoma State Tech, Okmulgee for the spring trimester.

Oklahoma State Tech is one of the few schools of its kind in the nation. It is devoted exclusively to the development of industrial technicians in a residential environment. The facilities with 96 buildings house six and one-half million dollars of modern instructional equipment. The 160-acre campus has a collegiate atmosphere in all phases of recreation and club activities.

Mrs. H. D. Bradshaw visited her brother, G. F. Hulsey, in Abilene this week end. He underwent lung surgery there Tuesday. Mrs. Bradshaw said that although he was still in intensive care, he was reported to be getting along fairly well.

"HemisFair 1968 is San Antonio's way of telling the world that progress is the wave of its future." These were the words of President Lyndon B. Johnson when he signed the proclamation inviting 114 nations to participate in the international exposition which will be held from April 6 through October 6, 1968.

### Great Lakes Missions Presented To WMCU

"Forest Trails to Urban Jungles" was the mission study book presented to members of

the WMCU of the First Baptist Church Tuesday of last week. This week the Keith Parks

### J. P. Macon At Mayo Bros.

J. P. Macon, accompanied by Mrs. Macon, flew to Mayo Brothers Clinic in Rochester, Minn., Thursday where he is expected to undergo surgery.

He had been hospitalized in Amarillo before going to Rochester.

Circled presented the Royal Service program to the organization. Mrs. Keith Garner, mission chairman, assisted by Mrs. J. B. Barrett and Mrs. James Clayton, presented the mission study to about 10 women. The study concerned Baptist work in the Great Lakes area of Michigan, Wisconsin, Ohio and Illinois.

A film was shown and other visual aids such as flip charts and signs were also used.

A covered dish luncheon was served during the all day meeting to about 16 persons, according to Mrs. Ovid Lawlis, president of the WMCU.

### Why Catholics Believe As They Do

People on the outside often wonder why Catholics keep "running" to church.

And many of them erroneously conclude that this devotion is prompted by fear rather than faith, and by a sense of obligation rather than a spirit of piety and zeal.

"Catholics," they have heard it said, "go to church because they are obliged to do so. The priests keep telling them it is a sin if they don't... that they risk eternal damnation if they don't obey the Church. Catholicism is a religion of fear."

It may be possible to "fool all of the people some of the time." But it is not unbelievable that literally billions of people could have been deceived over a period of nearly 2,000 years? Could Catholicism have held the loyalty of eminent philosophers, scientists and other intellectuals down through the centuries if all it offered was a doctrine of fear and superstition?

No, your Catholic neighbor does not go to Mass and Confession and participate in other religious devotions merely because of an obligation imposed by the Church. It is, he believes, an obligation imposed upon him by God; and it isn't fear, but the desire to serve God that prompts his religious life.

Religion to a Catholic is not merely a worthy and virtuous activity. It is an absolute duty. It is, we believe, the means provided by God for the fulfillment of the God-given purpose of our lives. It is the channel through which we acknowledge our utter dependence upon God, and by means of which we give expression to our love, faith and gratitude.

Catholics believe further that we must honor God in the way revealed through his true Son, Jesus

Christ, Who commanded that we

"...hear the Church." We believe that Christ established the Catholic Church and that it bears all the distinguishing marks which Christ said His Church would bear. We accept the teachings of the Catholic Church, therefore, because we believe that it is Christ's Church. It isn't fear or superstition that impels us to do this, but clear historical fact and our own reason and intelligence.

If you would like to know all about the basic Catholic beliefs... and the solid reasons behind them... write today for our free pamphlet. It will be sent upon your request and nobody will call on you. Nearly two million people have written in for pamphlets like this... and found enrichment for their spiritual lives. Write today for Pamphlet No. KC-10.

### Of Interest To THE WOMEN

### Karen Beauchamp Wins Award

Miss Karen Beauchamp, daughter of Mr. and Mrs. Thomas W. Beauchamp and a senior in Bovina High School, has been announced winner of the Daughters of the American Revolution Good Citizen Award from her school.

Coy Baines Chapter, Plainview. Good Citizens have been selected on the basis of their

KAREN BEAUCHAMP

This announcement has been made by Bovina High School Principal L. F. Jacobs, Mrs. Clayton Lewellen, Regent, and Mrs. W. A. Pinkerton, Good Citizen Chairman of the sponsoring D.A.R. Chapter, the Mary Mc-

dependability, service, leadership, and patriotism as evident through their work in school, community, and church.

Miss Beauchamp has a good grade average, scholastically through high school. She is vice-president of the National Honor Society and is a member of the Student Council. She is a member of Future Homemakers of America, has received chapter and junior degrees, and has held several offices. She belongs to the German Club, Pep Club, and the Band Council.

Miss Beauchamp is a member of the annual staff and is on the school paper staff. She was head twirler with the band and participated in the junior play. Miss Beauchamp is a member of the Methodist Church where she is a member of the choir and teaches in Vacation Bible School. In the Methodist Youth Fellowship she is president and has held various other offices. She is an active member of the Teenage Club and is current Lions Club Queen.

Miss Beauchamp plans to continue her education at Arlington State College, majoring in business administration.

### Scoopin' Around

By Pat Jacobs

Before this column appears on these pages of intellectualism and undying wisdom, dedicated to the task of rendering its readers to the level of stupidity on which its writers exist, several important events will have gone into the history of Bovina. These will be buried in the Blade's "morgue" and will be dug up again six or 10 years from now to help fill up a hole in page 2 "Reflections."

Will Rogers has so often been quoted as saying, "All I know is what I read in the paper." We echo his opinion since many insights into this community have come to us from prowling through the back issues of The Blade.

The main thing that impresses us is that back through the years Bovina people have always been behind any movement to improve its environment.

Monday night, Carl Harris and the high school student who has done so much to help him, accompanist Gina Clawson, went to Amarillo and auditioned for the Ted Mack Amateur Hour. It'll be some time before notices of acceptance will be sent out. The Bovina singer may not receive one -- but he did receive some valuable experience.

Carl, his mother, Gina, her mother and a couple of Carl Harris fan club members went along. No one was allowed to hear the audition, but Gina said Carl didn't make a bobble.

Carl was impressed with how well he was treated at KFDA-TV, which we understand, is not always the case at such auditions.

Have you ever broken down your salary into categories to find out just how it is spent? Neither have I. But, a friend did, cut out the dimes and nickles for Cokes and frivolities and saved 50 bucks in one month. Guess we just don't realize how much "chicken feed" slips through our fingers. Budgeting is an awfully dull word -- and a dull job, but my friend proved it worked at her house.

J. B. Fowler was telling us a true story the other day -- about a man who held membership in three churches. The man explained he belonged to the Church of Christ because he was afraid not to (it might be right), to the Methodist because it was the thing to do, and the Baptist because it was the one he liked.

Bro. Fowler was figuring out how the man managed to join three churches and decided the act wouldn't be extremely difficult. First of all, in his church, he always asks if a person comes by transfer of letter or another church, and secondly, if he wishes to be baptised.

If one chooses not to tell the complete truth, there would be no way of checking up on a person who says he does not come by letter or transfer. Churches haven't yet reached the point they have to keep a file, complete with fingerprints, in a central headquarters. Thank goodness.

Several of us, though, putting our heads together, thought maybe if going to one church did him some good, going to three might do him three times as much good. At least, it beats not going at all.

### B. McCain Enters Show

Benny McCain, 11-year-old son of Mr. and Mrs. Leslie McCain, has been invited to participate in a talent show in Abernathy Saturday of next week.

He has received area recognition for his singing ability and has participated in many events during the past year and a half.

### Johnston At LCC

A Bovina student, Loyd Olen Johnston, is enrolled for the spring semester at Lubbock Christian College and is now attending classes.

Johnston is the son of Mr. and Mrs. E.O. Johnston. He is a sophomore majoring in Bible. LCC is celebrating its 10th anniversary this year. All campus events will be directed toward highlighting this decade of development.

An evening college has been initiated this year allowing students to earn up to six hours of credit at night.

We Care About You About Your Clothes Dilger's CLEANERS

### Bookmobile Comin'

The Texas State Library High Plains Bookmobile will be in Bovina from 12 noon until 3:30 p.m. Thursday, according to Mrs. Lorene Sooter, librarian.

On that day it will also visit West Camp from 9:15 until 10:15 a.m. and Lariat from 10:30 until 11:30 a.m.

### German Club Raises \$186

A total of \$286 was counted following the German Club dinner served Sunday in the school cafeteria, according to Mrs. Ann Corn, sponsor.

Purpose of the dinner was to raise funds for the students to attend the annual state convention for German students to be held in San Marcos this year. Profits from the dinner amounted to about \$186, Mrs. Corn said, after about 250 persons were fed Sunday following church services.

However, this will not be quite enough to finance the trip and the club will possibly sponsor another fund-raising project before the convention.

The German Club will present a skit at the convention again this year. A name left from the past when it was announced recently was that of Felix Trevino, who will also participate in the play of "William Tell."

Last year, following the presentation of a play at the convention held at Texas Tech, the Bovina club received a great deal of praise for excellence.

### Community Conversation

Mrs. Pearl Moore accompanied her son and family, the Joe Moores of Lazbuddie, to visit relatives over the weekend in Childress.

### Program On European Tour To Be Presented

Woman's Society of Christian Service of Bovina Methodist Church will hear a program on last summer's European tour, on which three Parmer County young people travelled, when the group meets Tuesday.

The tour included members of Methodist Youth Fellowship who travelled to England, primarily, and visited the historic locations of John and Charles Wesley's ministries and lives. LaNelle Christian of Oklahoma Lane Methodist Church and two young people from Farwell will present the program, of which Mrs. Oakley Stevenson is leader.

A luncheon will be served at noon and the program will begin

at 1:30 p.m. in the Methodist Church. Hostesses are Mrs. I. W. Quickel and Mrs. Vernon Willard.

### Bookmobile Budget Set

The High Plains Library Bookmobile budget of \$13,649 has been approved for the year of 1967. The High Plains Library Bookmobile director met with Field Consultant, Mrs. Rosalyn Shamblin, from Texas State Library, Austin, Jan. 19.

The Bookmobile librarian is Mrs. Lorene Sooter and the Driver - Clerk is Mrs. Ruby Henderson. They ask readers to write them at their headquarters in Muleshoe if they need them to bring special books.

They will order books from the State Library for loan if they do not have the books on the bookmobile or at their headquarters in Muleshoe. Address letters to High Plains Library Bookmobile 113 East Ash St., Muleshoe, Texas 79347. If readers are going to Muleshoe they would be happy for them to stop at the Muleshoe Area Library and look over the collection of books the State has loaned the Bookmobile to be used.

Since the Librarian will be ordering books from the budget this year they want readers to feel free to suggest good books for the Library shelves. They have fiction and non-fiction books for the young and old alike. Visit the bookmobile the next time it is in the Bovina area and check out books and give suggestions.

Mrs. Leslie McCain's guests here last week to help celebrate her birthday were her sister-in-law, Mrs. Eldon Hill, and mother-in-law, Mrs. W.C. McCain, both of Littlefield. The ladies brought Rose her birthday cake and spent the day.

### Stage Band Entertains Study Club

Bovina High School Stage Band, under direction of Joe Wayne Harper, will present the program at the meeting Thursday afternoon for the Bovina Woman's Study Club.

Title of the program is "Challenges of Youth in Music." Parents of the stage band students are also invited to attend, according to Mrs. Jesse Walling.

Hostesses will be Mrs. Reagan Looney and Mrs. Buck Ellison.

### Mrs Stone Shower Held

Mrs. Jerry Don Stone was honored with a pink and blue shower Monday at the home of Mrs. Jerry Burnett.

About 19 persons attended the surprise event.

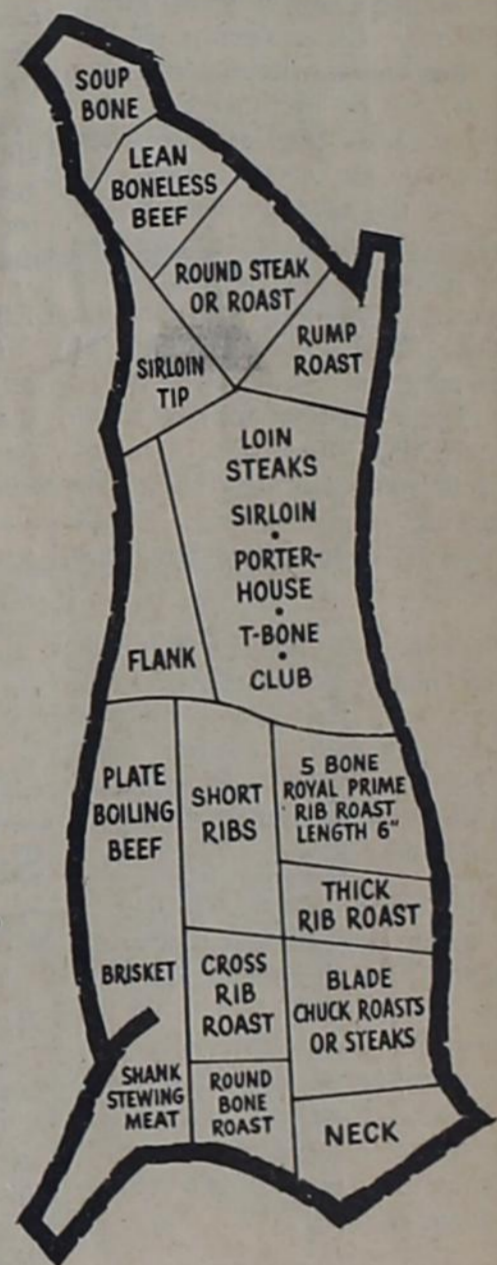

Coffee and cake were served by the hostesses, Mrs. Burnett, Mrs. Lewis Stone and Mrs. Ed Fletcher.

Church Chuckles by CARTWRIGHT

"I'll wait till your sermon on pledging and tithing has worn off. I don't want emotionalism affecting my giving!"

One time Jesus described himself by saying, "I am the light of the world."

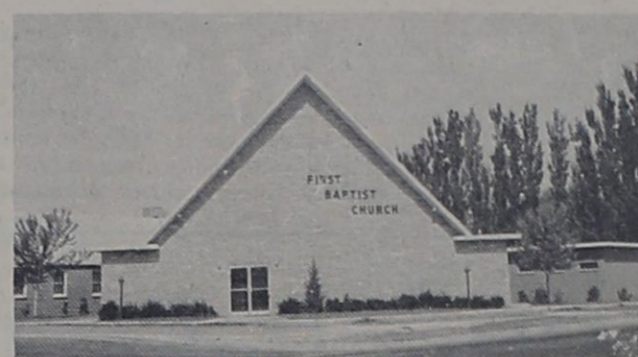

There can be no denying that the world needs light and lots of it. We need light in our international mess so that we can see more clearly all the involvements and possibly find a way through. We need light in light on the economic scene so that somehow unnecessary misery may be eliminated. We need light on our personal relationships that we might help rather than hurt those near us. And equally we need light in the dark places of our own lives that we might see the paths that we walk day by day.

Yes we need light in lots of places and Jesus said nearly two thousand years ago that He is that light. Why then do we still walk in darkness -- or to put it more bluntly why are our lives and our world still in such a mess? Could it be that Saint John answered that, "This is the judgment, that light has come into the world but men preferred darkness rather than light because their deeds were evil." Maybe we need light -- but don't want it.

But if some want the light may we suggest that you look to these churches for it is our constant intent that they be windows through which the light may shine into all the dark pathways.

Mr. and Mrs. Tom Hartwell

Chamber of Commerce and Agriculture --

# Wyatt To Speak At March Banquet

Rev. Kenneth Wyatt of Morton has been named speaker for the Chamber of Commerce and Agriculture banquet scheduled for March 16 in the school cafeteria.

Recognized as an entertaining speaker of the area, Rev. Wyatt spoke here last year for the Junior-Senior banquet. He has received such excellent reception in the area that he was invited back for the Chamber event.

well, A. M. Wilson, G. D. Anderson Jr., Bob Wilson and Bob Estes, Mrs. Estes and Leon Grissom are on the food committee.

The men members of the board are in charge of seating arrangements.

Tickets this year will be \$3 each. They may be purchased at the offices of Jim Ware, manager of the Chamber of Commerce, or Mrs. Bob Estes, corresponding secretary, or from any member of the board of directors.

For April Elections --

## City, School Filings Nil

No names have been filed for two elections set in April in Bovina.

At city hall, Mrs. Mary Ruth Martin, secretary, states that no names have been filed for councilmen. The terms of C. E. Trimble and Edward Isaac expire this year. Holdovers are Mayor Bedford Caldwell and Councilmen Charles Corn,

Owen Patton and Billie Suddarth.

Deadline for filing in the city election is March 4.

Likewise, no one has filed for two places on the Bovina Independent School District board of trustees. Deadline for filing in the school election is March 1.

The terms of J. E. Sherrill and Durward Bell expire this year. Those who have two years to serve are Board President Grady Sorley and Don Murphy, vice president. To serve another year on their three year terms are Billy Marshall, Leslie McCain and Leon Grissom. City election is set for April 4 while the school board election will be April 1.

As Deadline Arrives --

## High Percent Taxes Paid

Collections of both school and city taxes at the deadline Jan. 31 were reported to be "good" by Mrs. Pearl Dodson of the school district and Mrs. Ruth Martin at city hall.

After the report was made by Mrs. Dodson, school tax assessor-collector, at 9:30 a. m. Tuesday, Jan. 31, an additional \$6,139.74 was received by the school district for a total of \$189,042.90, or 92.31 per cent of the 1966 tax roll of \$204,794.10.

At city hall, Mrs. Martin reported additional receipts of taxes of \$344.44 after 9:30 a. m. until the deadline that night. Total city taxes paid without a penalty was \$21,656.37. This amounts to 86.18 per cent of the tax roll of \$25,245.07. However, not taken into account were the discounts given for paying taxes early to the city. Those whose taxes are still due on either the school or city rolls will be required to pay a penalty.

For Patrons --

## Post Office Has Bill Of Rights

Postmaster Gene Ezell has called attention of Bovina post office patrons to the new "Postal Customer's Bill of Rights" to help meet President Johnson's government-wide goal of improving the quality of federal services to the public.

Directed at post office window services, Postmaster General Lawrence F. O'Brien has ordered the Customer's Bill of Rights implemented by two immediate steps at Bovina.

1. Posters will be displayed in the post office lobby and service counters containing 10 points which specify the kind of treatment customers have a right to expect.
2. Instructions from O'Brien call for careful observation of all points in the

"Postal Customer's Bill of Rights." The instructions also provide directions for the most efficient management of window services.

The posters tell customers they are entitled to:

1. A neat, clean counter on which to transact business.
  2. Service by a well-groomed, neat window employee.
  3. A friendly greeting that expresses a desire to assist.
  4. Knowledgeable, well-informed, interested window personnel to help with postal needs.
  5. Prompt, alert and efficient service.

at chemical dealers and agricultural workers in West Texas, but some growers will be interested in the topics to be discussed.

Registration will begin at 5:30 p.m. Wednesday, February 8, at the Koko Palace. Registration fee is \$5.

The conference will actually begin at 8:30 a.m. Thursday, Feb. 9. A total of 18 speakers will appear on the program. The meeting will be over at approximately 11 a.m. Friday, Feb. 10.

GREENHOUSE VEGETABLE CONFERENCE has been scheduled for February 23 in Lubbock. The program will include discussions of cultural practices, diseases, new developments and marketing of greenhouse vegetables. New and experienced procedures are encouraged to attend.

Time and place of meeting will be announced at a later time.

BAGWORM CONTROL One of the most economical and efficient means of controlling bagworms is by removing the bags from the trees during the winter months and destroying them. Hand pick and burn the bags.

Bagworms belong to the order Lepidoptera -- moths and butterflies. The male larvae pupate and emerge from their tapered brown bags usually during late August. The female also undergoes pupation, but being legless and wingless, she remains inside her silken bag. After mating, the females then fall to the ground and die. The bag containing the eggs remains on the tree until the following spring.

If the bags are destroyed, the life cycle is broken. If not, the eggs hatch into tiny worms which begin feeding greedily on the surrounding foliage. A silken case is soon spun about the developing larvae with the front end being left open so that the larvae may extend a portion of its body from the bag to crawl about in search of foliage. Pieces of bark and foliage are soon attached to the case for re-enforcement and camouflage.

These destructive pests prefer evergreens, but often attack deciduous shrubs and trees. Aside from destroying the overwintering stage (the eggs in their silken bags) they can be controlled with several insecticides if applications are made while the larvae are quite small. As soon as the larvae becomes fairly large, they are extremely hard to kill and heavy infestations will remove the fol-

#### RAT CONTROL DEMONSTRATION

Many people have recently indicated a rat problem in some areas of the county. Due to the interest in the control of rats a demonstration on how to properly control them has been set up in Parmer County for Monday, Feb. 20th.

Ross Smith, of the Fish and Wildlife Department, will give this demonstration. Ross is headquartered in Lubbock.

Everyone with a rat problem is encouraged to attend the demonstration. The place for the demonstration has not been determined but will be announced next week.

#### IMPORTANT TO SOYBEAN PRODUCERS

On February 20 at Plainview's Agriculture Center, soybean growers from every section of Texas are to meet for the purposes of organizing a statewide association. Meeting time is 2:00 p.m. Leaders in every producing area of the state are working on the organization which will have as major objectives the encouragement of research and promotion of the crop and possible industrial expansion of the industry in Texas.

#### AGRICULTURAL CHEMICALS CONFERENCE

The fourteenth Annual Agricultural Chemicals Conference will be held in Lubbock on Feb. 8 - 10. The program is aimed

## County Men At FB Meet

Five members of Parmer County Farm Bureau and one from Deaf Smith County Farm Bureau were in Austin Jan. 25 to attend a state wide legislative conference.

The one day session, sponsored by the Texas Farm Bureau, launched the organization's state and national program for 1967. Those attending from Parmer County were Harry Hamilton, John Dixon, Bill Brandt, Ira Bruce Parr and Carl Schlenker. Attending from Deaf Smith County was Pete Plank.

Elected officials attending the banquet Wednesday evening, along with 400 or more Farm Bureau members, were Lt. Gov. Preston Smith, House Speaker Ben Barnes, Attorney General Crawford Martin and Agricultural Commissioner John C. White. A big majority of the

State Representatives and Senators were present including Rep. Bill Clayton of Springlake and Senator Jack Hightower of Vernon.

The group visited their respective legislators from 3 to 5 p.m., Wednesday as they toured the capitol.

Ed McKay, Waco, Texas Farm Bureau legislative director, explained policies as they relate to major issues facing the 90th Congress in Washington, D.C.

Cliff Laywell, Austin, Texas Farm Bureau assistant legislative director discussed issues expected to confront the 60th Legislature. He also outlined effective techniques that county PX Committees and individual members can use in carrying out State Farm Bureau policies relating to those issues.

SECTION OF A TYPICAL FLOODWATER RETARDING STRUCTURE

CROSS SECTION OF DAM -- The side view of the proposed dam across Running Water Draw also shows the sediment pool, the level of normal rain, 50 year rain level and the 100 year crest,

which would go over the emergency spillway. The flood crest is determined from the heaviest rainfall during the past 100 years, according to Soil Conservation Service technicians.

Discuss Problems of Southwest --

# Residents At Symposium

A large group of Parmer County citizens attended the Southwest Water Resources Symposium held Saturday at Eastern New Mexico University in Portales when leading water experts of the nation were on hand to discuss the problems of the West Texas-Eastern New Mexico area and some of the possible solutions.

States and pointed out that at no time does the bureau consider any project unfeasible. He indicated the bureau takes the attitude that conditions and changing times might make any water project possible.

Senator Frank E. Moss of Utah discussed the NAWATA Water Plan which would bring water to the United States and Mexico from the Yukon River, A. L. Hartzog said.

length during the session by men from almost every section of the Western United States.

In addition to addresses, three discussions were held

with panels composed of leaders in the field of water and conservation projects.

Attending the symposium from Parmer County were A. L. Hartzog, A. E. Crump, J. D. Kirkpatrick, Tom Beauchamp, W. L. Edelman, J. W. Gammon, Jim Roy Daniels, Gene Smith, Orey Hinds, D. D. Myrick and sons, Jack Dunn, Jim Wyman and others from Gifford-Hill Western, Mr. and Mrs. Robert Wilson, Mr. and Mrs. Robert Estes, Carl Schlenker, Ira Parr, E. T. Ford, David Anderson, A. W. Anthony, Jr., Keith Garner, A. L. Glasscock, Ralph Wilson, Eric Rushing, E. M. Rushing, Melvin Sachs, Billy Wayne Sisson and Frank Zinner, Jr.

### At Home In Parmer County

By Cricket B. Taylor County HD Agent

A recent Clothing training workshop for Extension agents has brought teaching methods and materials up to date, 1967 style. The would-be Clothing project leaders and present leaders will be interested in some important dates for training by the County Extension Agent.

The first workshop will be held on "Cleaning and Care of the Sewing Machine", for all leaders and mothers of 4-H girls. A tentative date has been set for Feb. 15 and 16. The workshop will take about three hours each. With not more than 10 in each group. Watch for letter for specific time and place for each group.

The training on line, design, and techniques will be held in March for Clothing Leaders. CONTESTS

If 4-H members would like help or information in preparing a demonstration for County contests on March 25, please contact our office here in the county courthouse.

County Food Show date has been set for March 18. Leaders will need to keep this in mind while working with food groups. "WHY MAKE A WILL?"

Which type of will do you have?

Holographic, Written Witnessed, Nuncupative, Mutual Reciprocal or none at all!

Advantages of making a will are that your property can be distributed in line with your wishes, cost and time for settling the estate may be reduced, an executor can be named, a guardian may be designated, a testamentary trust may be created, and family quarrels may be avoided.

How are Federal Estate and State Inheritance Taxes levied? Did you know that a person 19 years old and of sound mind can make a valid will? If he is married or has been married, or is a member of the armed forces, he can make a will regardless of age. This information, the answers to these questions and more information comes from the Texas Agricultural Extension Bulletin, "Why Make A Will?" MP-225.

### Post Office --

(Continued from Page 6)

6. Competent and correct information on inquiries.
7. An attitude that reflects helpfulness, patience and congeniality.
8. The courtesy and tact that would be expected from a friend.
9. Polite referral to another window or individual when necessary, to give the appropriate service.
10. A feeling, upon leaving, that the post office is glad to serve and help at all times.

O'Brien stated in connection with the new postal service improvement effort:

"President Johnson insisted that every federal employee give added attention to providing the American people with the very best service possible . . . Since your daily duties bring you in direct and continuing contact with our customers, I would like to tell you what I consider the type of service the American people have a right to expect when dealing with the largest business operation in the world."

In addition to improving relations with customers, Postmaster Ezell said, the "Customer's Bill of Rights" can expedite handling of transactions at the windows and make the service more efficient.

He urged Bovina residents to assist in this effort, by stating their needs clearly, and having money and any necessary filled-out forms ready for transactions.

### In Drouth Pastures --

# Herds May Develop Vitamin Deficiency

With this year's drouth stricken pastures, cattlemen may begin noticing signs of Vitamin A deficiency in their herds, says County Agricultural Agent Ronny McNutt.

Vitamin A deficiency in the early stages is characterized by night blindness. In later stages, cattle become less alert and lose their appetites. Watery eyes, swelling at the joints, rapid breathing and staggering are more symptoms.

### Researchers Discuss Findings --

# Controlling Weeds Vital To Cotton

Researchers serving the High Plains recently prepared their 1967 recommendations for successful use of pre-plant herbicides in cotton.

The recommendations are based on tests, observations and county agents' comments from over the cotton production area, according to Dr. Allen Wiese, weed-control researcher at the Southwestern Great Plains Research Center, Bushland.

Pre-plant herbicides have acquired tremendous popularity recently although Wiese believes some farmers could save some money with hand applications of pre-emergence herbicides.

Farmers seem to prefer broadcast pre-plant applications because they can be made before the busy planting season and because they reduce late cultivations which increase moisture loss and prune cotton roots.

Pre-plant herbicide have given best results on the South Plains when applied to dry, flat soil prior to bedding for pre-irrigation, Wiese says.

Heavy crop residues should be thoroughly worked into the soil before application.

The herbicides must be incorporated into the soil two to four inches within a few hours after application, he said.

Wiese attributes the few cases of poor results with the pre-plant herbicides to faulty application, to listing deeper than incorporation and to failure to use follow-up weed control measures.

Faulty application comes from not calibrating the sprayer and from overlapping or skipping spots in the field.

"You can't use the tractor tracks as a guide for your spray boom," Wiese says. "If you're applying the herbicide and disking in one operation, the spray boom should be the width of the area you cut with the disk. If you're just applying spray, I strongly urge the use of a new marker as a guide."

Elmer Hudspeh, ag-engineer at South Plains Research and Extension Center near Lubbock, works closely with Wiese on weed control studies.

Hudspeh uses a method of sprayer calibration that is one of the easiest to remember and accomplish.

First step is to record the number of seconds it takes your tractor to travel 100 feet at spraying speed.

Second step is to collect spray from the nozzles it takes to cover 40-inches for the same number of seconds it took the tractor to travel 100 feet.

Number of ounces collected will closely equal the number of gallons applied per acre, Hudspeh says.

This system works for broadcast spraying and for 40-inch row spacing with any length boom because the amount of spray distributed over one 40-inch zone should be the same throughout the field, according to the ag-engineer.

Hudspeh says if gallonage is not suitable, small adjustments can be made by changing pressure. Larger adjustments in gallonage must be made by changing tips.

Several farmers have had poor results from pre-plant herbicides because they listed deeply and the furrow became weedy before planting.

Researchers also say that lister planters tend to throw the herbicide to the middles leaving row unpretted.

Wiese and Hudspeh are both strong advocates of on-the-bed planting where pre-plant and pre-emergence herbicides are used. If lister-planting is used, the furrows should be shallow to avoid throwing the herbicide away from the row and into the middles.

Some farmers have the mistaken notion they can forget about weeds in a herbicide treated field.

Weeds that get by the herbicide have to be controlled.

Wiese says there is a possibility herbicides could reduce the population of weeds which were regarded as major problems in the past.

But he says uncontrolled weeds which have not yet been serious problems may now thrive because they do not have to compete with so many other weeds.

2. A limited supply of Vitamin A in the newly born calf. This is worsened by the fact that there will be little Vitamin A in the cow's milk since her supply of the vitamin is low.

Doses of synthetic Vitamin A -- either injected or fed in concentrates -- would help both of these conditions, advises the county agent.

**PLOWDOWN... PREPLANT... OR BOTH?**

Whatever your fertilizer needs this Spring, Cyanamid Farm Supply is the place to go.

We have fertilizers blended to your specification, bagged or bulk. Our applying equipment is available for you to use, or we'll custom apply at your request.

All we need is an order from you. We'll do the rest. You'll get exactly what you want when you want it.

Figure your fertilizer needs now. (We'll help, if you like.) Then call us or drop in right away.

Cyanamid serves the one who makes a business of agriculture.

Wins Bovina Games --

# Farwell Continues District 3-A Lead

Farwell's Steers maintained their lead for the District 3-A basketball championship by over-

## Loop Games End With Tournament

Only games remaining for Bovina basketball teams in the 1966-67 season are scheduled for junior high teams.

Varsity teams finished their season Tuesday night when they travelled to Kress.

On Thursday night Sudan comes to Bovina for Junior High boys and girls games.

The district Junior High tournament is scheduled for Friday and Saturday, Feb. 17-18, in Sudan.

## Boosters Meet Here Thursday

Members of Bovina's Mustang Booster Club will meet Thursday in the library room of the high school for the purpose of planning the football banquet for this year.

All members are urged to attend.

This meeting was postponed from Monday night of this week due to a conflict.

## Students, Entertainers --

# Radio Program Featured BHS

Bovina High School students appeared on the first broadcast of the new radio program "Tell-A-Teen", Saturday morning over KCLV, Clovis.

Students representing the school were on hand, as well as school officials.

Entertainment was provided by the "Leftover Five," composed of Gina Clawson, LaNelle Christian, Zella Donaldson, Galen Hromas and Carl Harris; a duet by the "Bovina Sweethearts", Margaret Joe Venable and Sharon Pearson, accompanied by Mrs. Doris Wilson; and a solo by Carl Harris accompanied by Gina Clawson. Interviewed on the program were Linda Rejino, FHA president; Larry Grissom, FFA president; Tommy Spears, band and science; Mike Grissom, English; Kim Douglas, spelling, Lane Gober and Candy Fleming, Mr. and Miss BHS. Gober is also president of the Student Council.

The program has been set up to feature area schools and outstanding students.

One highlight of the program

erwhelming the Mustangs Friday night, 79-34. The Fillies, who played a close scoring ball game, went down to a 43-41 defeat, and likewise the "B" boys lost by a close 44-43. Farwell, playing on their home court, held a 20-6 first quarter margin, 35-20 halftime lead, and 57026 third period lead.

Randy Jones made nearly all of Bovina's points, scoring 26, while Carl Harris tossed in seven and Mike Grissom one. Others seeing action in the district game were Lynn Murphy, Alfred Stanberry, Bill Caldwell, Daryl Kirkpatrick, Kent Stanberry, Galen Hromas and Bobby Redden.

High point man for the winners were Bobby Fields with 20 and Kyle Sheets with 18.

Bovina led 8-7 at the end of the first quarter in the varsity girls game, and the score was

all tied up at half time 21-21. Bovina still held a one point edge at the end of the third quarter 32-31 before the Farwell team won by two points. Judy Minyen sank 21 points for Bovina, Carol Kirkpatrick 18, LaNelle Christian and Diane Stowers one each. Guards playing up to their usual fine performances were Linda Rejino, Candy Fleming, Margaret Jo Venable and Janice Boothe.

The "B" Mustangs took a 8-6 first quarter lead and held on to a 23-20 halftime margin. Still ahead at the end of the third quarter, 33-32, the Mustangs lost out in the final stanza to lose 44-43.

Larry Mitchell and Larry Lee both hit the basket for 12 points. Ricky Kunselman made 10, Gary Rogers five and Ricky Lee four. Others seeing action were Randy Hutto and Felix Trevino.

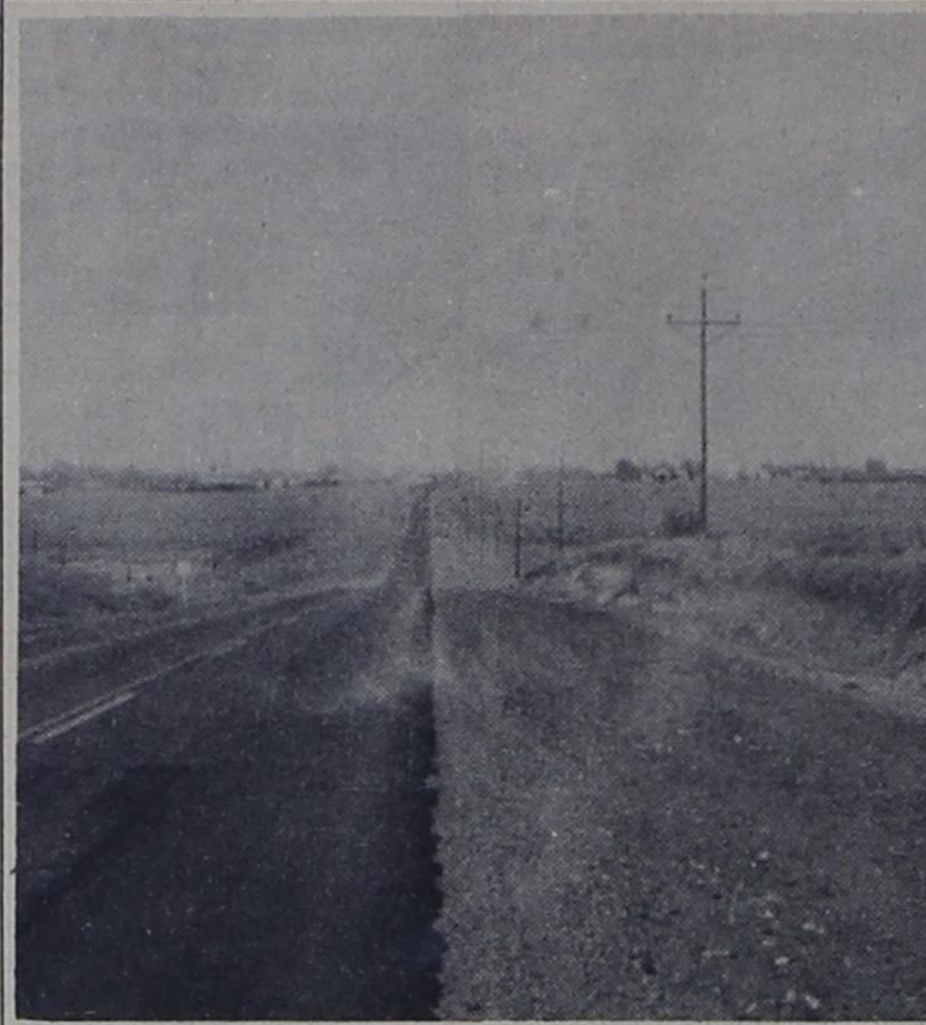

## At Springlake --

# Junior Teams In Tourney

Bovina Junior High girls and boys basketball teams participated in the Springlake Basketball Tournament held there Thursday, Friday and Saturday.

Playing two games each, the local teams lost both.

Second round games saw Springlake defeat the boys 32-20, while Muleshoe downed the girls, 19-4. In the first round

**DRAW ROAD TO BE RAISED --** Farm-To-Market Road 1731 which crosses Running Water Draw south of Bovina will be raised and improved by the Texas Highway Department, which last week authorized \$80,000 for the project. This makes possible construction of a dam in a Soil Conservation Service project on the George Trimble place, providing a lake on the east (or right) side of the road above.

## Bovina 'B' Boys Win --

# Springlake Downs Mustangs, Fillies

The Springlake-Earth girls basketball team lived up to its reputation here Tuesday night of last week, defeating a Bovina varsity team, that is considered better than average, by a score of 86-33, Mustangs

fell by a 59-48 score, but the "B" boys downed the visitors 40-31.

The Mustangs trailed only a few points until the final quarter of the District 3-A game. Springlake-Earth was in front

16-10 at the end of the first period and held a 27-22 halftime lead. Third period score was 40-33.

Carl Harris had his best night at the basket making 22 points with Randy Jones making 12. Alfred Stanberry hit for six, Mike Grissom four, Lynn Murphy and Galen Hromas two each. Messer was high point for the winners with 20.

The Fillies couldn't get a toe-hold and trailed 21-5, 51-14 and 66-25 at the end of the first three periods before the winners won by 53 points, 86-33.

The team, expected to go all the way this year after coming in second in the state finals last season, was paced by the tremendous shooting ability of Marsha Dawson, who sank 41 points. Anita O'Hair and Susan Britton contributed 14 and 13, respectively.

Bovina "B" Mustangs held a narrow 8-7 first quarter lead, but widened the margin to 18-11 by halftime. Third period score was 27-19 before the locals won 40-31.

Gary Rogers scored 12 and Larry Lee 11 to lead Bovina with Ricky Kunselman adding eight, Larry Mitchell and Randy Hutto four each and Ricky Lee one. O'Hair was high for the losers with 12.

## By 78-57 Score --

# Faculty Team Beats KICA

Bovina Faculty downed the Clovis KICA team here Thursday night by a score of 78-57 before a good crowd of sports fans.

The event raised \$142.50, which was split 50-50 between the radio station and the Bovina Student Council.

The KICA team, which said it was the best crowd they had played for, will use the team's receipts for setting up a scholarship fund for area high school seniors. Recipient of the scholarship this year will be announced in March.

Leading Bovina's scoring attack were Coach Darrel (Curly) Read, Coach Truck (Bashful) Lusk and Band Director Joe Wayne (Legs) Harper.

Others on the faculty playing were Superintendent Otis (Slick) Spears, Principal L. F. (Tiny) Jacobs, Coach Roger (Graceful) Ezell, Math Teacher Richard (Computer) Roberts, Agriculture Teacher John Paul (Barnyard) Jones, Principal Tom (Big Daddy) Templeton, Coach Roy (Rolling) Stone, Coach Gene (Okie) Douglas, and English and Spanish Teacher James (Quack) Mallard.

The Student Council expressed its appreciation to area people for a good turn-out.

## School Menus

Monday: Irish stew, cheese slices, cornbread, butter, milk, oatmeal cookies, pear halves.

Tuesday: Meat loaf, black-eyed peas, candied sweet potatoes, rolls, butter, milk, cake. Wednesday: Chili over Fritos with cheese, lettuce, tomatoes, cornbread, butter, milk, peach halves.

Thursday: Fried chicken, macaroni and cheese, buttered broccoli, rolls, butter, milk, fruit cup.

Friday: Barbecue beef, potato salad, cabbage and carrot salad, rolls, butter, milk, apple pie.

Tommy McCormick held a boy, who averages 22 points a game, to 12 points.

Quintana scored 11 points, nine of them in the second half. McCormick 11, Dixon five, Foster four, Beauchamp two, aided by other players Steve Lane, Jimmy Harris, Hugh Rogers and Tommy Bonds.

Bovina girls trailed 10-2, 20-8, 30-12 and lost 38-18. Coach Lusk said the team moved better, played hard, but were outclasses.

Twylla Hutto hit the basket for 11 points and Becky Jacobs made seven. Forwards playing included Ellen Denney, Debra Kirkpatrick, Darlene Murphy and Lynette Joplin. Guards were Dala Boyd, Lea Looney, Toni Pinner, Pansy Clawson, Brenda Newbrough and Meloney Marshall.

Olton won both games, downing the boys, 47-33, and beating the girls 38-18.

Second Round - Bovina boys took a first quarter, 7-6 lead, but Springlake reversed the scoreboard to go in front 17-11, at the half. The winners held onto a 24-18 third period score before winning 32-20.

Tony Foster paced the Bovina team with eight points, Tommy McCormick made six, Manuel Quintana five and Mike Beauchamp two. Others playing were David Dixon and Jimmy Harris.

The girls, although getting plenty of shots, couldn't hit the basket. They trailed 6-0, 10-2, 14-4 before losing 19-4.

Twylla Hutto scored two points, as did Becky Jacobs. Also playing as forwards were Debra Kirkpatrick, Darlene Murphy, Cindy Burnett, Meloney Marshall, Ellen Denney and Carissa Englant. Guards included Dala Boyd, Lea Looney, Pansy Clawson, Toni Pinner and Meloney Marshall.

## Contributors Call DiCuffa --

# Heart Fund Telethon Set

Heart Fund chairman in Bovina for the 1967 campaign is Wilson DiCuffa.

During the KFDA-TV Heart Fund telethon on the night of Feb. 11 and day of Feb. 12, DiCuffa will accept telephone calls at his home from those wishing to contribute to the Heart Fund.

Arrangements will be made to pick up the donations, DiCuffa said.

However, anyone wishing to bid on articles during the tele-

vision auction will have to call the Amarillo television station, DiCuffa said.

There will be no Heart Fund drive in Bovina this year, since all collections will be made in the method described above.

DiCuffa may be reached at his home on that Saturday night and Sunday at 238-6841. However, anyone wishing to do so may bring contributions to him at First State Bank at any time before or after the telethon.

## Frona Sets Volleyball

### Tournament

The fourth annual Friona Outsiders Volleyball Tournament sponsored by the Friona Booster Club, will be held March 7, 9, 10 and 11.

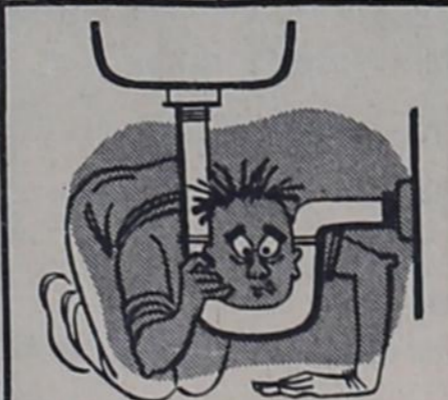

Deadline for entering the event is March 1. Entry fee is \$7 per team.

Trophies will be presented the first and second place winners and the consolation winners in both men's and women's divisions.

Admission will be 25 cents per player and 50 cents general admission.

Games will be played on a 15 minute time limit per game in a best two out of three. All finals are set for Saturday night March 11.

Entries should be sent to Jimmy Maynard, Box 224, Friona.

## 4-H Horse Plans Set

Adult leaders for the 4-H Club Horse program met in the Hub Community Center Feb. 2 and made plans for activities in 1967.

Activities were planned for each month through July.

Any 4-H Club member that is interested in being on a quarter horse judging team should contact the adult leader in their local club that is working with the horse projects.

All 4-H members with horse projects are encouraged to start making plans to attend and participate in the horse program activities for 1967.

The County 4-H Horse Show has been set tentatively for Saturday, June 10. The place where the contest will be held has not been determined yet.

Adult leaders that attended the meeting and developed plans for 1967 activities were: Homer Lindeman, Franklin Bauer, and

## Color Pictures Made Feb. 15

Colored pictures of Bovina school students will be made on Wednesday, Feb. 15, according to Principal L. F. Jacobs.

Any student who did not have his or her picture made earlier in the school year, or anyone wishing additional pictures, may have these made on that day.

The operation of a pulpwood truck represents an average of \$25,000 annual business to the community in which it operates.
