## Hangover cure.

Nobody likes a sloppy range. Especially if it's a result of hangover heat.

After all, heat that hangs on after your range is turned off isn't your fault. But you have to clean up after it.

However, gas ranges turn on and off instantly. No heat's left over to scorch your food, burn your pans or cause food to boil over.

Buy a new gas range, sure-cure for hangover heat.

### Storm Warning

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the depart-

ment together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.
