Cool air at cut-rate prices.

We think everyone should own gas air conditioning. So we're making it easier to own: If you buy it now, you can enjoy special low gas rates all summer—on top of regular gas economy.

Gas air conditioning also has a reputation for long life with few repairs.

In short, gas air conditioning gives you more than cool air. A good deal more.

There's a future in it for someone.

Your son's education for instance. But by the time he's ready for college his education may well cost a small fortune. The kind you just don't have lying around under a bed. That's just the reason why your government has a great thing going. A U.S. Savings Bond. In themselves they're not a quick buck. They won't make you that fortune overnight. But in the long run they do pay off. Darn well at that. And at a guaranteed rate. Starting a savings plan is easy. You can join a Payroll Savings Plan where you work. Or get into a Bond-A-Month Plan where you bank. Then watch someone's future grow. Like your son's.
