## Three Die In Wreck

Hedley friends of the Denver Powell family were shocked and grieved to learn of a tragic accident near Alamosa, Colo., last Tuesday that claimed the lives of their daughter-in-law, Mrs. Ann Mullin Powell, 31, of Quitaque, her mother Mrs. Johnnie Paul Mullin, 54, of Turkey, and the former's daughter, Tina, 10. Her son Timmie, 7, remained in critical condition in an Alamosa hospital at last report.

Funeral services for all three were held Saturday in the Turkey Church of Christ by Min Herbert Gibson and Rev. Freddie Martin. Burial was in the Turkey cemetery.

Mrs. Powell was born in Turkey and was married to Johnny Powell there on July 20, 1957. She had been a Quitaque resident for 8 years.

The Denver Powells formerly lived in Hedley, and he was local manager for the West Texas Utilities office here.

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the department together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.

## Alfalfa Contracts Being Sought

Memphis, Texas—Contracts for a minimum of 5,000 acres of irrigated alfalfa are being sought in Hall and Donley Counties by Western Alfalfa Corporation here for its 1971 ground alfalfa program

"In order to produce quality cuttings for next year, seed must be fall-planted," said Hap Kensinger, Western Alfalfa Panhandle District General Manager. Contracts should be signed prior to September 15.

"We are interested in contracting irrigated land of more than 30 acre fields so we can program for 1971," Kensinger said in pointing out that his company will pay \$16 per ton for alfalfa. "Growers must plant, irrigate and tend the alfalfa. We will cut and grind it to our specifications."

"Local bank money is available

within the area for installation of irrigation for prospective growers," Kensinger said

Western Alfalfa began operations early in 1970 in the Memphis area. It grinds alfalfa to specification for feedlots in the Panhandle."
