## To Show Film

A Billy Graham film, "His Land," will be shown at the First Baptist Church in Hedley on Thursday, Sept 30, at 8:00 p. m. Here is the Holy Land, in a color motion picture as different as it is dramatic. Through the authentic sights and sounds of this one hour feature film, we see that history is moving toward the climactic events that will end this age.

"His Land" takes you the length and breadth of Israel in the company of Cliff Richard and Cliff Barrows. Bible in hand, they relate today's events to the prophecies of Scripture.

Jerusalem, Galilee, Bethelhem, Tel Aviv, the Negev, you are witness to the fact that out of death and desolation is emerging a new land, a "land of milk and honey" where some of God's promises are being fulfilled.

There will be no admission charge, but a free will offering will be taken.

During a five year period Coach Bob Lesley of the Eastwood Troopers has compiled a record of 83 wins and 54 losses. In the

**WHY GROWERS NEED BETTER COTTON YIELDS IN 1971...**

**Bolster net income, increase payment yield, and preserve markets**

- \* Demand for cotton is strong—domestic and foreign.
- \* Failure to meet demand could jeopardize markets and the farmer's investment in land, equipment, and other production resources.
- \* Higher yields spread overhead cost and reduce cost per pound.
- \* Cutting harvesting losses can mean up to 10 per cent more cotton, or \$15 more per acre.
- \* Better yields in 1971 can increase cotton farmers' yield for payment purposes in 1972 and 1973.
- \* If sufficient cotton can be made available to meet demand, the way would be open to greater markets in the future.
- \* Mill use of cotton depends heavily on its availability and price stability.
- \* Strong demand for cotton corduroys, print cloths, denims, and knits has led some mills to shift to all-cotton. Prospects of a low carryover and uncertainty about supply and price could quickly drive these customers back to blends.
- \* When the supply of cotton falls short, prices become non-competitive and mills turn to other fibers.

**For greater profits and markets, harvest all you grow.**

Your son's education for instance.

But by the time he's ready for college his education may well cost a small fortune.

In themselves they're not a quick buck. They won't make you that fortune overnight.

But in the long run they do pay off. Darn well at that. And at a guaranteed rate.
