Route 1, Kerens, Texas 75144
Dear Mr. Boliver:

A recent issue of the Informer with some marked articles was sent to me by one of your subscribers.

I read with interest all the news items and most of the advertisements I similarly read each issue of your paper back in the twenties when I was science teacher of Hedley High School and R L Snider was supt at that time I boarded with "Uncle Ben" Davis, who was school janitor then, and his daughter, Miss Jessie was telephone operator in Hedley then

In reading the recent issue of Informer, I am reminded of the merchants, citizens and many of my excellent students there at that time I am glad to see that you and the Informer are still serving Hedley community

I have retired from teaching and am now operating my place and some cattle at the above address.

Good wishes to you and to the other citizens of Hedley, including of course my former students.

Storm Warning

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the department together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.

The kind you just don't have lying around

That's just the reason why your government

In themselves they're not a quick buck.
They won't make you that fortune overnight.
But in the long run they do pay off.
Darn well at that. And at a guaranteed rate.
