**WHAT YOU SHOULD KNOW ABOUT YOUR PRESCRIPTION:**

90% of today's prescriptions contain drugs unknown just a few short years ago

Many of today's "wonder drugs" are only adolescents in the developing world of scientific miracles. The hypertension drugs made their debut with Rauwiloid in 1953. And in 1954, tranquilizers were first released for public consumption... the same year Jonas Salk led the way for the dramatic breakthrough in polio control. In 1962, enzymes were introduced to accelerate tissue repair and reduce inflammation. Going back a little further we find that penicillin... which has proved so life saving... has been in use since 1941. It was only in 1950 that the antihistamines first appeared on your Pharmacist's shelves. Bearing these developments in mind, the future of prescription drugs promises discoveries inconceivable to the imagination.

For the highest pharmaceutical standards, low prices consistent with quality and the personal attention you can always depend upon, bring your prescriptions to

# Are you going to live longer than your money?

Maybe you're having a pretty good life now. Your credit is good, you've got a few nice clothes and a good dependable car. And if you're lucky, maybe you own your own home. But that's because you're working. What happens when you retire? You can't live on memories. It's still going to take money. Lots of money. Money that you should be saving now.

And one of the easiest ways to start putting away a few dollars for those retirement years is by joining the Payroll Savings Plan where you work and buying U.S. Savings Bonds.

That way every time you earn a little money for today, you save a little for tomorrow.

Then when the time finally comes to retire, you'll have something put away to retire to.

Now E Bonds pay 5 1/2% interest when held to maturity of 6 years. 10 months 14% the first year. Bonds are registered if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

**Take stock in America.**  
Buy U.S. Savings Bonds.

# There's a future in it for someone.

Your son's education for instance.

But by the time he's ready for college his education may well cost a small fortune.

The kind you just don't have lying around under a bed.

That's just the reason why your government has a great thing going. A U.S. Savings Bond.

In themselves they're not a quick buck. They won't make you that fortune overnight.

But in the long run they do pay off. Darn well at that. And at a guaranteed rate.

Starting a savings plan is easy. You can join a Payroll Savings Plan where you work. Or get into a Bond-A-Month Plan where you bank.

Then watch someone's future grow. Like your son's.

## LIONS ROAR

Last Thursday's ladies night banquet of the Lions Club was well attended with 46 Lions and guests present. Out of town guests included Captain Parks of the U. S. Army and Captain Hopkins of the WAC, both of Amarillo. They had the first part of the program.

The main program was a one act play directed by Mrs. Evelyn Messer. Both parts of the program were enjoyed.

It appears that all the Hedley Lions are greatly overweight, some of which might be caused by Kate Stone's cooking but much more so from Taitwister Red Doherty weighing the Lions with his selling scales.

The next meeting of the club is scheduled for the second Thursday next month, April 12

## School Lunchroom Menu

Thursday, March 29, spaghetti with meat sauce, green beans, cabbage salad, sliced bread, muffins, milk.

Friday, March 30, hamburgers, lettuce, french fries, pickles, sliced onions, fruit cobbler, milk.

Monday, April 2, beef ravioli in sauce, blackeye peas, potato salad, hot rolls, butter, peaches, milk
