Storm Warning

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the department together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.

WHAT YOU SHOULD KNOW ABOUT YOUR PRESCRIPTION:

90% of today's prescriptions contain drugs unknown just a few short years ago

Many of today's "wonder drugs" are only adolescents in the developing world of scientific miracles. The hypertension drugs made their debut with Rauwiloid in 1953. And in 1954, tranquilizers were first released for public consumption...the same year Jonas Salk led the way for the dramatic breakthrough in polio control. In 1962, enzymes were introduced to accelerate tissue repair and reduce inflammation. Going back a little further we find that penicillin...which has proved so life saving...has been in use since 1941. It was only in 1950 that the antihistamines first appeared on your Pharmacist's shelves. Bearing these developments in mind, the future of prescription drugs promises discoveries inconceivable to the imagination.

For the highest pharmaceutical standards, low prices consistent with quality and the personal attention you can always depend upon, bring your prescriptions to

They laughed when I bought my first Bond.

In my neighborhood everyone was poor. Most of us were lucky if we had enough food to eat or clothes to wear. So like most kids we spent a lot of time talking about the things we wanted out of life. Things like owning a big car, wearing fine clothes and going to all of the best places. Boy, we could hardly wait to grow up.

Like the other kids I had little odd jobs in grammar school but I got my first real job when I started high school. I was a junior clerk in a big department store. That's where I first heard about U.S. Savings Bonds. My boss asked me if I wanted to join the Payroll Savings Plan and I said yes. A month later I got my first bond.

When my friends found out they really had a good laugh. Imagine buying U.S. Savings Bonds when there were so many other great things to buy. Well, they kept laughing and I kept saving all through high school.

After graduation some of us wanted to go to college. And that's when my Bonds really came in handy. They not only helped pay my tuition, but also helped buy some books.

Well, I'm a senior now and looking forward to graduation. Unfortunately, a lot of my friends never even got started. And to think, they laughed when I bought my first Bond.

Now E Bonds pay 5 1/4% interest when held to maturity of 5 years, 10 months (4% the first year). Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Enjoyable Trip

The John Tates have received a letter from Mrs. Monty Montgomery describing a recent trip to Hawaii made by Mr. and Mrs. Montgomery and Karen Tate of Fontana, Calif. Karen is a granddaughter of the Tates.

They flew to Hawaii, taking five hours for the trip. They spent their first four days in Honolulu and Waikiki Beach, on the island of Oahu then spent their last four days on the island of Hawaii.

They report that they were not disappointed in the trip, but enjoyed very much the beautiful tropical plants, and seeing the pineapple fields, sugar cane fields, volcanoes, black sand beaches and many other things. They also very much enjoyed eating a fresh pineapple.

Dorothy added that the plane taking off and landing was rather scary.
