If you want to get a little bit out of your country... put a little bit into it.

Join the Peace Corps. Get into community service. Run for public office. But maybe you're too busy to do any of the above.

Then why not buy U.S. Savings Bonds, just as a starter?

It's the easiest way to do a little something for your country while your country's doing a little something for you.

Are you going to live longer than your money?

Maybe you're having a pretty good life now. Your credit is good, you've got a few nice clothes and a good dependable car. And if you're lucky, maybe you own your own home. But that's because you're working. What happens when you retire? You can't live on memories. It's still going to take money. Lots of money. Money that you should be saving now.

That way every time you earn a little money for today, you save a little for tomorrow.

Then when the time finally comes to retire, you'll have something put away to retire to.

Now E Bonds pay 7 1/2% interest when held to maturity of 5 years, 10 months 14% the first year. Bonds are redeemed if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

And one of the easiest ways to start putting away a few dollars for those retirement years is by joining the Payroll Savings Plan where you work and buying U.S. Savings Bonds.

Take stock in America. Buy U.S. Savings Bonds.
