Over 200,000,000 prescriptions will be filled by Rexall Pharmacists this year—there must be a reason!

As a matter of fact there are several reasons why the nation's Rexall Pharmacies fill this tremendous number of prescriptions.

Only the stores which bear this sign... the sign of over 10,000 Rexall Drugstores... have the exclusive right to offer drugs developed and perfected in the world-famous Rexall laboratories. In addition, the Rexall Pharmacist carries stocks from the entire pharmaceutical industry. You always receive the finest quality drugs available.

Prescriptions are the lifeblood of every Rexall Drugstore. Each Rexall Pharmacist is painstakingly accurate in making certain you receive exactly what your doctor prescribed. His primary concern is your good health and that of your family.

Most Rexall pharmacists are independent businessmen... owning their own stores. Their pride of ownership and efficient operation is evidence of customer satisfaction. By choosing to identify their stores with the Rexall name they have accepted the Rexall guarantee... every Rexall Brand drug product is guaranteed to satisfy or your money back.

These are a few of the reasons for Rexall's popularity. Take your next prescription to a Rexall Pharmacist... discover the other reasons for yourself.

NATURAL GAS For Years To Come

With all the talk about conservation, many might believe that we have only enough natural gas for a few tomorrows. We'd like to assure our residential and other high priority customers that Lone Star has an adequate supply. Not only for the present, but for years to come.

We were actively engaged in exploration programs long before the energy crisis. And since the crisis, we're exploring even harder to insure your continued supply of natural gas.

Conservation is one way to extend the supplies we now have on hand. And they can last much longer by avoiding wasteful uses of energy. By making it last longer, more time is allowed for new forms of energy to be developed.

Of course new supplies are going to cost more. But natural gas is still the best buy for your energy dollar!

Conserve natural gas. Conservation will help keep the cost as low as possible.
