VOL. 65

HEDLEY, DONLEY COUNTY, TEXAS, NOV. 29, 1974

NO. 7

## School Holidays

The Hedley schools will be closed Nov. 28 and 29 for Thanksgiving holidays.

There will be no school on Monday, Dec. 2, while the teachers attend a workshop at Wheeler

## LIONS ROAR

It appears now there will be so much Christmas activity that there will be only one Lions Club meeting during December. It will be a regular meeting Thursday evening, Dec. 12, at 7 p.m. However there are five Thursdays in January and we should be able to get in a regular meeting and a big ladies night banquet.

A blower type heating system is being installed in the new Lions Club building. This should enable them to have plenty of heat without staining the walls and ceiling.

## L. A. Danfel

Funeral services for L. A. "Dan" Danfel, of Dallas, who passed away last Tuesday were held there Thursday.

His wife is the former Barbara Lee Blanks, daughter of Mr. and Mrs. Lee Blanks of Memphis and niece of Lloyd Leggett of Hedley.

Mr. and Mrs. Burt Stone have been visiting the R. L. Stones in Canadian.

## Donley Suggested As 1919 Study Club Disaster Area

State Rep. Phil Cates of Pampa has advised that he has received information from Governor Dolph Briscoe that he has written to Hon. Earl L. Butz, Secretary of Agriculture, requesting that several Texas Counties be added to his previous list to be designated as disaster areas because of prolonged drought, rain, hail and flood in North, Central and West Texas.

The new list of counties includes Donley, Martin, Cochran, Reagan, Lamb, Collingsworth and Shackelford Counties.

## CONSERVE AND SAVE

### DISHWASHER SAVER-TIPS

A dishwasher will usually hold a whole day's dishes. It takes as much hot water and energy to wash 1 dish as it does a full load. Stack your dishes out of sight in your dishwasher and wait until you have a full load to turn it on.

Use only detergents manufactured specifically for dishwashers. A wetting agent helps prevent water spots on glasses and silverware.

Clean the filter screen often. A clogged filter can reduce the efficiency of your dishwasher.

### WATER HEATER SAVER-TIPS

It's amazing how much water a leaky faucet will drip in a month's time and if the leaking faucet is a hot water faucet, it will waste both energy and water needlessly. As an example, a faucet dripping 90 drops per minute will waste 300 gallons per month.

To assure long life and efficiency, the water heater tank should have a small amount of water drained periodically. Once a month should be adequate. The purpose of draining water from the tank is to prevent sediment build-up in the tank bottom.

The thermostat controlling the water temperature is usually pre-set at the factory to deliver hot water at 150° F. This setting has proven satisfactory from the standpoint of operating cost and household needs.

A water heater that's old, or too small for your family needs, can be wasteful, because it's working too hard and using too much energy to keep up with your hot water demands.

# New higher interest rate on U.S. Savings Bonds.

Now U.S. Savings Bonds pay 6% interest when held to maturity.

**Here's how it works:** The higher interest rate applies to all new Bonds purchased since December 1, 1973, raising their rate from 5½% to 6% when held to maturity. And the maturity period on Series E Bonds is shorter, too. Now E Bonds mature in 5 years, with a first-year rate of 4½%.

Series H Bonds, with a 10-year maturity, will earn 5% the first year; 5.8% for the next four years; and 6½% for the last five years. This gives you an average 6% yield over the 10-year period.

**It works for Bonds you now hold, too.** There's no reason to redeem your older Bonds to buy new ones.

Their yield has improved, too.

All outstanding E Bonds will receive a ½% increase in yield for each semiannual interest period beginning on or after December 1, 1973, payable upon redemption. This also applies to any Freedom Shares you may still hold.

All outstanding H Bonds will receive a ½% yield increase for each semiannual interest period beginning on or after December 1, 1973. This is payable in the form of increased semiannual interest payments.

**It all works to your advantage.** Now, more than ever,

it makes sense to buy higher-paying U.S. Savings Bonds and hold them to maturity or beyond.

Sign up now to buy Bonds through the Payroll Savings Plan where you work, or buy them where you bank.
