Over 200,000,000 prescriptions will be filled by Rexall Pharmacists this year—there must be a reason!

As a matter of fact there are several reasons why the nation's Rexall Pharmacies fill this tremendous number of prescriptions.

Only the stores which bear this sign... the sign of over 10,000 Rexall Drugstores... have the exclusive right to offer drugs developed and perfected in the world-famous Rexall laboratories. In addition, the Rexall Pharmacist carries stocks from the entire pharmaceutical industry. You always receive the finest quality drugs available.

Prescriptions are the lifeblood of every Rexall Drugstore. Each Rexall Pharmacist is painstakingly accurate in making certain you receive exactly what your doctor prescribed. His primary concern is your good health and that of your family.

Most Rexall pharmacists are independent businessmen... owning their own stores. Their pride of ownership and efficient operation is evidence of customer satisfaction. By choosing to identify their stores with the Rexall name they have accepted the Rexall guarantee... every Rexall Brand drug product is guaranteed to satisfy or your money back.

These are a few of the reasons for Rexall's popularity. Take your next prescription to a Rexall Pharmacist... discover the other reasons for yourself.

# New higher interest rate on U.S. Savings Bonds.

Now U.S. Savings Bonds pay 6% interest when held to maturity.

Here's how it works: The higher interest rate applies to all new Bonds purchased since December 1, 1973, raising their rate from 5½% to 6% when held to maturity. And the maturity period on Series E Bonds is shorter, too. Now E Bonds mature in 5 years, with a first-year rate of 4½%.

Series H Bonds, with a 10-year maturity, will earn 5% the first year; 5.8% for the next four years; and 6½% for the last five years. This gives you an average 6% yield over the 10-year period.

It works for Bonds you now hold, too. There's no reason to redeem your older Bonds to buy new ones.

Their yield has improved, too.

All outstanding E Bonds will receive a ½% increase in yield for each semiannual interest period beginning on or after December 1, 1973, payable upon redemption. This also applies to any Freedom Shares you may still hold.

All outstanding H Bonds will receive a ½% yield increase for each semiannual interest period beginning on or after December 1, 1973. This is payable in the form of increased semiannual interest payments.

It all works to your advantage. Now, more than ever,

it makes sense to buy higher-paying U.S. Savings Bonds and hold them to maturity or beyond.

Sign up now to buy Bonds through the Payroll Savings Plan where you work, or buy them where you bank.

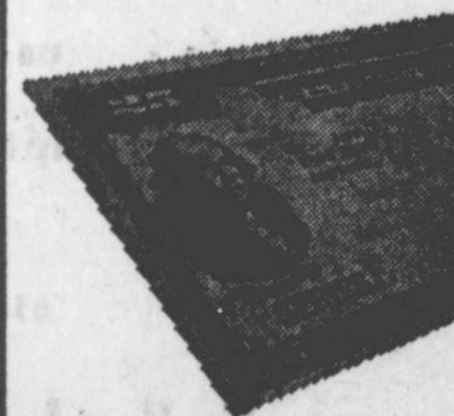

Take stock in America. It's in your interest.
