Voter Registration

Donley County Tax Assessor-Collector, Frank Lindsey Jr said that voter registration certificates have been mailed to all persons registered as of January 31, 1976. Persons that have not received these certificates should come to the Donley County Tax Assessor's office as soon as possible and pick up their certificates. Due to insufficient mailing addresses we have had a number of certificates returned in the mail.

Persons that have received their voter certificates in the mail, should fill out request for additional information, that was enclosed, and return to this office. The blue voter registration certificate is to be retained and will be valid for the next two years.

Risley Files For Re-election

In announcing my candidacy for re-election to the Office of Donley County School Superintendent, I would like to take this opportunity to thank the voters of Donley County for the support that you have given me in the past. I would like to earnestly solicit your continued support and your influence in the Democratic Primary on May 1st. Asking for your influence is not an idle formality. It has been my humble experience to learn that it is impossible for a candidate for a public office to know enough people personally to win an election without the help of friends. In reality it is the influence of his friends and supporters that makes a victory possible.

I feel that for the past ten years the County Board of School Trustees with the help of my secretary and myself have served you well. We have fulfilled the duties and responsibilities of the Office of County School Superintendent, and we have voluntarily performed many other duties that have been of benefit to Public Schools in Donley County and the school children of Donley County.

Our office is still on the top floor of the Court House and our help is available to you at any time that you need our assistance.

WHAT YOU SHOULD KNOW ABOUT YOUR PRESCRIPTION:

The investment behind it

Each year the drug industry invests millions of dollars in research to support the nearly one billion prescriptions filled yearly by pharmacists throughout the country. This investment results in new "wonder drugs" which let us live our lives longer, healthier. Of the 300 million dollars invested last year more than 150 million dollars went for quality control research. Improved precision measuring and compounding instruments were developed to make even more certain you receive exactly what your doctor prescribes. And the investment also went for developing improved methods of production. As the methods of manufacturing improve, the price of the bulk drug decreases. This saving is passed on to you in lower prescription prices. The "gold pill" of yesterday is purchased today for a nominal amount. Thus, a conscientious, developing industry works to improve the service and quality of the pharmaceuticals you receive today and tomorrow.

For the highest pharmaceutical standards, low prices consistent with quality and the personal attention you can always depend upon, bring your prescriptions to

Conserve and Save
Tips for Your
DISHWASHER

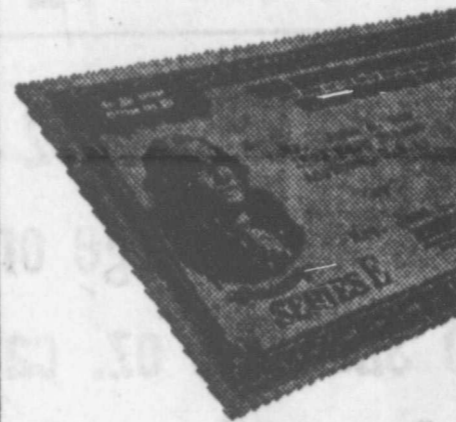

- ★ Clean the filter screen often. A clogged filter can reduce the efficiency of your dishwasher.
- ★ Use only detergents manufactured specifically for dishwashers. A wetting agent helps prevent water spots on glasses and silverware.
- ★ A dishwasher will usually hold a whole day's dishes. It takes as much hot water and energy to wash 1 dish as it does a full load. Stack your dishes out of sight in your dishwasher and wait until you have a full load to turn it on.

They laughed when I bought my first Bond.

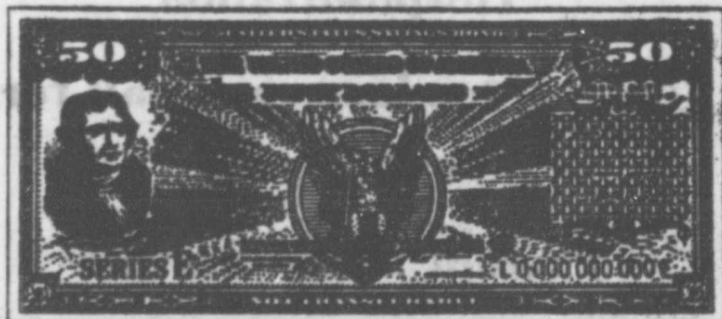

In my neighborhood everyone was poor. Most of us were lucky if we had enough food to eat or clothes to wear. So like most kids we spent a lot of time talking about the things we wanted out of life. Things like owning a big car, wearing fine clothes and going to all of the best places. Boy, we could hardly wait to grow up.

Like the other kids I had little odd jobs in grammar school but I got my first real job when I started high school. I was a junior clerk in a big department store. That's where I first heard about U.S. Savings Bonds. My boss asked me if I wanted to join the Payroll Savings Plan and I said yes. A month later I got my first bond.

When my friends found out they really had a good laugh. Imagine buying U.S. Savings Bonds when there were so many other great things to buy. Well, they kept laughing and I kept saving all through high school.

After graduation some of us wanted to go to college. And that's when my Bonds really came in handy. They not only helped pay my tuition, but also helped buy some books.

Well, I'm a senior now and looking forward to graduation. Unfortunately, a lot of my friends never even got started. And to think, they laughed when I bought my first Bond.

Now E Bonds pay 5 1/4% interest when held to maturity of 8 years, 10 months (4% the first year). Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
